RE: Permit No. G-26037

Mr. S. Albert Johnson
Route 2, North
Pocatello, Idaho

Dear Mr. Johnson:

We wish to acknowledge receipt of your letter of March 4, 1956, requesting to know if there is anything for you to do in connection with the above stated Permit at this time.

We will state that this Permit was filed on October 21, 1955. Completion of Works and Beneficial Use proofs are required but are not due until October 21, 1960.

However, you can make these proofs at any time prior to said date but would suggest that you do not make such proofs until you have all your land under irrigation and your wells fully completed.

This suggestion is made for the reason that if you are not irrigating all your land at the time of making proof you will not be allowed only 1 inch per acre for the land in cultivation or to the amount of water pumped from said well and not in excess of the amount of water filed on.

At the time you wish to make proofs this Department will send you the instructions and forms upon which you make your depositions. The intent of proving up on your Water Right will have to be published in a newspaper within the County where your lands are located.

Notice of Publication is required to be published for four consecutive weeks prior to the date of proof.

Very truly yours,
