

State of Idaho
License and Certificate of Water Right

SCANNED
APR 30 2001

Water License No. G-25792 Amount .68 c.f.s.
Water District No. Priority June 27, 1955

THIS IS TO CERTIFY that VILLAGE OF INKOM
of Inkom, Idaho, made application for a permit to appropriate the
public waters of the State of Idaho, dated June 27, 1955; that Permit No. G-25792
was issued under said application; that Certificate of Completion of works, with a carrying capacity of
.68 second feet, was issued thereunder on April 15, 1959, showing that said works
were completed on the 6th day of October, 1958; and that on the 6th
day of October, 1958,

VILLAGE OF INKOM
of Inkom, State of Idaho, made proof to the satisfaction of the
State Reclamation Engineer of Idaho, of the right to use the waters of a well
, a tributary of subterranean, for the purpose of a municipal water
system, under Use Permit No. G-25792 of the Department of Reclamation
and that said right to the use of said waters has been perfected in accordance with the laws of Idaho,
and is hereby confirmed by the State Reclamation Engineer of Idaho and entered of record in Volume
11 of Licenses at page 6629, on the 15 day of April, 1959;
The right hereby confirmed dates from June 27, 1955;

The Point of Diversion is located
in the SW 1/4 SE 1/4, Sec. 21, Tp. 7 S., R. 36 E., B. M. County Bannock
That the amount of water to which such right is entitled and hereby confirmed, for the purposes
aforesaid, is limited to an amount actually needed and beneficially used for said purposes, and shall
not exceed .68 cubic feet per second.

Description and location of use: FOR MUNICIPAL USE

Twp.	Range	Sec.	Forty-acre Tract	No. Acres Described in Permit	No. Acres Actually Irrigated
7 S.	36 E.	21	Village of Inkom		

The right to the use of the water aforesaid hereby confirmed is restricted to the lands or place
of use herein described, as provided by the laws of Idaho.

WITNESS the seal and signature of the State Reclamation Engineer, affixed at Boise, Idaho, this
15 day of April, 1959.

s/ GEO. N. CARTER
State Reclamation Engineer.

APPLICATION FOR PERMIT 29-2368

To Appropriate the Subterranean Waters of The State of Idaho

Application No. G- 33640
Permit No. G- 25792
District No.

Carl C. Christensen
Box 335
Pocatello, Idaho

1. Name of Applicant: VILLAGE OF INKOM
Postoffice address: Inkom County: Bannock State: Idaho
2. Quantity of water claimed: .68 cubic feet per second
 (a) Rate of withdrawal in cubic feet per second. .68 or Idaho
 Miners' inches 34 or gallons per minute. 300
 (b) Annual withdrawal in acre feet per annum
3. Source of water supply: One 12 inch well to be drilled
4. Location of point of diversion or well is in the SW 1/4 of the SE 1/4 of Section 21
 Twp. 7 S. , Rge. 36 E. , B.M., County of Bannock
5. Water is to be used for: Source of supply for municipal water system
6. If for municipal, industrial or recreational purposes, give:
 - (a) Point of use of water is in the 1/4 of the 1/4 of Section 21 , Twp. 7 S.
 Rge. 36 E. , B.M. Within the Village of Inkom.
 - (b) Waste water or sewage effluent is to be returned to Portneuf River through Rapid Creek
 at a point in the 1/4 of the 1/4 of Section , Twp. , Rge. , B.M.
7. Kind of works: Well, pump and pipe-lines
8. Estimated cost of works: \$ 4,059.75
9. (a) Is reservoir to be used? Yes - one now functioning
 (b) Capacity of reservoir:
10. The time required for the completion of such work and complete application of the water to the proposed use is 4 months
~~years~~
11. If applicant is a corporation, give:
 - I. (a) Date and place of incorporation:
 (b) Amount of capital stock: \$ (c) Amount paid in: \$
 (d) Names and addresses of directors: Board of Trustees, of the Village of Inkom,
 Bannock County, Idaho.
 - II. The financial resources of the applicant are (a) Cash on hand: \$
 (b) Treasury stock: (c) Bonds to be issued:
 (d) Other resources:
12. The land to be irrigated is described in the following tabulation:
13. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are: 0.751 cubic feet per second
 Permit G-25436
 (a) 0.68 (cubic feet per second, inches or gallons per minute) of the water herein applied for is to be supplemental to the existing water rights.
 (b) (cubic feet per second, inches or gallons per minute) is for new lands.

NOTE: It is impossible to obtain any but a small fraction of the existing water right under Permit G-25436 due to a partial failure of the wells from which this water would be supplied.

This application covers one twelve inch well to be drilled within the reservoir limits of Inkom to serve as a source of supply for the village owned and operated municipal water system and together with existing wells will constitute the only source of supply for said system. The existing wells are proven to be wholly inadequate in supplying sufficient water and both reservoir and water mains are often empty, hence the need to develop additional water supply by drilling this proposed well. Pumping will be by an electrically operated pump. Waste will be drained into Rapid Creek which is a tributary to the Portneuf River. This well is to be located in the Southwest Quarter of the Southeast Quarter of Section 21, Township 7 South, Range 36 E.B.M. Bannock County, Idaho, and within the limits of the Village of Inkom. Pumping capacity hoped for at a maximum of about three hundred (300) gallons per minute. One existing reservoir of concrete of 92,000 gallon

BE IT KNOWN THAT The undersigned hereby makes application for permit to appropriate the public waters of the State of Idaho as herein set forth.

Village of Inkom, Idaho

By CARL C. CHRISTENSEN
Attorney for the Village of Inkom

Date of first receipt at Department of Reclamation: 9:00 A.M. June 27, 1955

Corrected application received:

Approval of State Reclamation Engineer

The number of this permit is G-25792

This is to certify that I have examined the within application for a permit to appropriate the public waters of the State of Idaho, and hereby approve the same, subject to the following limitations and conditions:

Work to begin on or before September 12, 1955 and to continue diligently and uninterruptedly to completion, unless temporarily interrupted by circumstances over which the permit holder has no control.

The whole of said work to be completed and beneficial use of water appropriated in accordance herewith, to be made on or before July 12, 1957.

MARK R. KULP
State Reclamation Engineer.

**NOTICE OF PROOF OF
COMPLETION OF WORKS**

**and
APPLICATION OF WATER TO
BENEFICIAL USE**

Notice is hereby given that 8:00 p.m. on the 6th day of October, 1958, at Inkom, County of Bannock, State of Idaho, before Carl C. Christensen, Notary Public, at The Municipal Building, Inkom, Idaho, proof will be submitted of the completion of works for the diversion of 0.68 cubic feet per second of underground water from a well, and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. G-25782 heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit is Village of Inkom, Inkom, Idaho.

2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use is 2.2 cubic feet per second.

3. The use to which said water has been applied is Municipal purposes, and the amount applied to beneficial use is 0.68 cubic feet per second.

4. The point of diversion of said water is SW $\frac{1}{4}$ SE $\frac{1}{4}$ Sec. 21, Twp. 7, S., Rge. 36 E.B.M.

5. The place where said water is used is Sec. 21, Twp. 7 S., Rge. 36 E.B.M. in Village of Inkom.

6. The date of priority which said user is prepared to establish is June 27, 1955.

GEO. N. CARTER,
State Reclamation
Engineer.

Mr. Ross B. Fowler
Chairman of Board of Trustees
Village of Inkam, Idaho

Dear Mr. Fowler:

On April 22, 1957 we notified you that we had the engineer's report on Permit No. 25436 of proof of completion of works and beneficial use, asking for fees in the amount of \$25.00.

We now have the report of the field engineer on Permit G-25792 in the name of the Village of Inkam, showing the well is capable of conveying .68 c.f.s. of water for irrigation.

Upon receipt of the statutory fees of \$25.00 for Permit No. G-25436, we can issue a Certificate of Completion of Works and License and Certificate of Water Right, and with \$5.00 additional in fees, we can also issue a Certificate of Completion of Works and License on Permit No. G-25792, with priority of June 27, 1955, confirming the right to .68 second feet of water from a well for municipal use by the Village of Inkam with point of diversion in SW 1/4, to supplement the water for irrigation in Section 21, Twp. 7 S., Rge. 36 E., B. M., Village of Inkam.

PERMIT NO. G-25792

REPORT ON PROOF OF Completion of Works & Beneficial Use

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

Mr. Carl C. Christensen
Attorney at Law
Pocatello, Idaho

Dear Mr. Christensen:

We acknowledge receipt of your letter of October 7, 1958, enclosing depositions of the holder and two witnesses, also affidavit of publication in the Idaho State Journal, all in proof of Completion of Works and Beneficial Use under the above numbered permit.

Before final action is taken the law requires that a field inspection be made by an engineer from this department.

We cannot say at this time just when this inspection will be made, but our field engineer will try to contact Mr. Larsen, Chairman of the Board of Trustees of the Village of Inkom, so that arrangements may be made to show him over the project.

BOISE, IDAHO

Permit No.

S 25792

Proof of Application of Water to Beneficial Use

and Completion of Works

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans.

Raymond A. Jansen, Dukam, Idaho.
Superior Idaho Portland Cement Plant, Dukam, Idaho.
Chairman, Board of Trustees, Village of Dukam, Idaho.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans.

The Village of Dukam, a municipal corporation,
Blaine County, Idaho.

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans.

Permit No. S 25792 dated July 12, 1955 - 6-27-55

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans.

One well located 210 ft East of West boundary of SW 1/4, SE 1/4,
and 326 feet South of North boundary of SW 1/4, SE 1/4, Sec. 21 Tp. 7 North
Range 36 E.B.M. in Idaho

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans.

A well 95 feet deep with 12 inch casing using a
75 horsepower Turbine Fairbanks Morse pump
pumping 990 gallons per minute - measured at
the time well was tested after drilling. Used in
closed circuit with main and 12,000 gallon capacity
concrete reservoir.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans.

Domestic and culinary uses, fire protection,
for business houses, sprinkling lawns and gardens
and other uses customary and generally
used with a municipal water system.

S 25792

RWD

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. Only as described in the answer to
Question No 6.

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. Over a 1000 gallons per minute from source of
supply.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. ✓

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. Same as answer to No 6 above, that it is for
all usual ways water is used in a municipal
domestic water system.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. Water from 2 small older wells will
be used to supplement the water supply
from this well. The supply possible from these
2 older wells is constantly diminishing.

(Sign) Raymond A. Larson

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed

and sworn to before me, at my office in Idaho, County of Bannock.

Permit No. S. 25792

Proof of Application of Water to Beneficial Use

Deposition of Witness and Completion of Works

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. R. J. Jenkins, 57, Inkom, Idaho
Cement Plant Worker, post office address, Inkom, Idaho

Ques. 2. Are you acquainted with Village of Inkom, the holder of Permit No. S. 25792? How long have you known him and where does he reside?

Ans. Lived in Inkom more than 20 years

Ques. 3. Have you read or heard read said Permit No. S. 25792, and are you familiar with its provisions and conditions?

Ans. Yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. 12 inch drilled well with pump, main and water tank, with separate service pipes to each user

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. 990 gallons per minute

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. 990 gallons per minute - as found at time well was test pumped

S. 25792

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Domestic and culinary uses by
residents of Dukam.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. No power uses

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Some water is used for small
gardens and lawn sprinkling.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. None

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. The full capacity of well and pump
is used in summer season

(Signed) D. G. Jenkins.

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Dukam, Idaho, County of Bannock, State of Idaho, on this 6 day of October, A. D. 1958.

Deposition of Witness and Completion of Works

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Grace Ashton over 21 years lives at Dukam
Idaho, occupation Village Clerk of Dukam, Shungayke,
Idaho Portland Cement Co.

Ques. 2. Are you acquainted with you V. Clerk of Dukam, the holder of Permit No. S25792? How long have you known him and where does he reside?

Ans. I have lived in Dukam 16 years and have been
Village Clerk since February 1947

Ques. 3. Have you read or heard read said Permit No. S25792, and are you familiar with its provisions and conditions?

Ans. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Water supply is from well drilled under the
permit S25792 conveyed by water mains to Shung
tank and to the water users in a closed circuit
of permanent mains and individual service lines.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. 990 gallons per minute, measured at test
pumping of newly drilled well.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. 990 gallons per minute - measured by
engineers when well was test pumped

S25792

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Municipal water supply for residents
of the Village of Inkom

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. No power production

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Used for lawn sprinkling by some of
the water users.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. None, except I am a water user and
consumer of water from the water system.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. As Village Clerk I prepare all water bills,
collect water rent and know of my own
knowledge that the water from this well is
used for domestic purposes as stated herein.

(Signed) Grace Johnston

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Inkom,
County of Bannock, State of Idaho, on this 6th day of October,
A. D. 1958.

Mr. Carl C. Christensen
Attorney At Law
Pocatello, Idaho

Dear Mr. Christensen:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use, under Permit No. G-25792, in the name of Village of Inkom. Final proof is to be made before you, as Notary, on the 6th day of October, at 8:00 P. M., at the Municipal Building, Inkom, Idaho.

As of this date we have mailed the Notice to the Idaho State Journal with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then to mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed on behalf of the permit holder and two disinterested witnesses, who are familiar with the terms of the permit and the work done thereunder, at the time, on the date and before you, as Notary, as stated in the publication notice. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, that your Notary's seal has been placed on each and that all depositions (Holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer

Re: Permit No. G-25792

Dear Mr. Carter:

I am enclosing herewith two copies of Notice of Proof of Completion of Works and Application of Water to Beneficial Use. I am also enclosing a letter signed by the Chairman of the Board of Trustees of Inkom, authorizing publication of notice at the expense of the Village of Inkom.

The well and pump installed produces 990 gallons per minute, and I do not know what this will amount to in cubic feet per second, and therefore the notice states the number of gallons per minute.

Very truly yours,

CARL C. CHRISTENSEN

DEPARTMENT OF RECLAMATION

BOISE

RE: Permit No. G-25792

Date August 1, 1958

Village of Inkam
Inkam
Idaho

Dear Sir:

The date for proofs of completion of works and application of water to beneficial use, as set out under the terms of Permit No. G-25792 are due not later than October 12, 1958.

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list which has been recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the above mentioned date, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point or points of diversion; and the location of use or the lands which are irrigated--all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with Form 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.

Very truly yours,

GEO. N. CARTER

State Reclamation Engineer

MAY 13 1957

Department of Reclamation

Raymond A. Larsen, Chairman of the Board of Trustees of the
Village of Idaho, Benneville County,
State of Idaho, being first duly sworn, upon his oath deposes and says: Said Village of Idaho
is is the owner and holder of Permit to appropriate the Public Waters of the State of Idaho
No. G-25792

Under the terms and conditions of said permit, construction work thereunder was required to be
completed by July 12, 1957

That he has heretofore performed the following work described under said permit: Drilled
said Village
a 12 inch well and installed a pump therein

costing about 4,000.00

That he is unable to complete the remainder of the work within the required time, for the following reasons, to-wit:

That to get maximum water supply from
said well it will be necessary to install a
pump having a greater capacity, that before that
can be done a new appropriation bill must
be prepared and adopted, bids secured and let
and the work done. This will require 3 months of
additional time.

WHEREFORE, He asks that the Commissioner of Reclamation extend the time for the completion of works under said permit to October 12, 1957

Gentlemen:

I am returning herewith the application No. 33640 submitted by the Village of Inkom for permission to drill an additional well.

I have answered Question 13 regarding existing water rights, however your attention is called to the fact that the permit granted on the 11th of February 1955 and No. 25436 and relating to existing well does not enable the Village of Inkom to obtain the quantity of water claimed therein due to the fact that the wells are failing and do not now supply sufficient water for the urgent needs of this community.

Last year efforts were made to improve the water supply of the latest well by drilling this well deeper, but the efforts produced no additional water and the water supply is now less than it was last year, while the demand is greater due to increase in population.

Very truly yours,
