Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. .035 cubic feet of water per second.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. I was present when test was run, filling a container, taking one-minute
to pump 15-3/4 gallons per minute.

G-25670

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is used to irrigate about an acre and a half of land on SE $\frac{1}{4}$ SE $\frac{1}{4}$ Section 21, Twp. 7 South Range 35 E. B. M. The land is cultivated. The nature of the improvements is a pump with 3 HP motor and small ditches over the land.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. All used for irrigation.

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Sagebrush land - my estimate of the amount of water required for the profitable cultivation of the land is the amount appropriated (.035 ~~ft~~ cubic feet per second, including domestic use.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. During the year 1955 and 1956 I have made personal observation of the use of the water on the land above referred to.

Dear Mr. Schild:

We acknowledge your letter of February 15, 1957, in which you said that you had purchased a half-acre which you wished to irrigate from the same well in addition to the one-acre described in Permit No. G-25670 and made request for another Application for Permit.

In place of filing for another permit, we believe that you can complete your purpose and receive a full water right on the half-acre which you purchased in addition to the acre filed on (giving you a full water right on both tracts of land) by amending your present permit; as the filing is for more water than would be required or granted to irrigate one acre.

We have enclosed an "Application for Amendment to Permit to Appropriate the Public Waters of the State of Idaho." If the suggestion mentioned above is satisfactory with you please fill out the Amendment and return it to us. This will save your filing for another Application for Permit.

You also stated that you are prepared to make proofs of completion of works and beneficial use on your Permit No. G-25670. Before these proofs are made the statutes require publication of a "Notice" once a week for four consecutive weeks in a county newspaper. This notice should be made in duplicate on form 36 (enclosed) setting the time and place and naming the notary public before whom the proofs are to be made.

The proofs may be made at any place convenient for you and your two witnesses but the date must be set far enough ahead to allow for four weeks publication.

Both copies of Form 36 are to be returned to this department together with Form 11 (also enclosed) which is your authorization for

We acknowledge receipt of your application for permit to appropriate water from a well in the SE $\frac{1}{4}$ SE $\frac{1}{4}$ Section 21, Township 7 South, Range 35 East B.M. accompanied by your check for the \$5.00 filing fee.

We return the application for the following corrections:

1. Under Question 12 show the acreage in the legal subdivision, which we understand from your sketch map is the SE $\frac{1}{4}$ SE $\frac{1}{4}$ Section 21, Township 7 South, Range 35 East B.M.

Also please furnish us with a metes and bounds description of the tract you wish to irrigate so we can show it correctly on the sketch map.

2. Answer Question 13 as to existing water rights, if any.

3. Answer Question 10 as to the time required for completion of works and applying the water to beneficial use. The law allows a minimum of two years and a maximum of five years although the proof can be made at any earlier date you are prepared to make it.
