Dear Mr. Andrews:

Your letter of November 7, 1958, received, however, the check for \$7.00 was not enclosed.

Statutory regulations govern the amount of water licensed to the amount beneficially used. In your case, the well could produce more water but only one miners inch is allowable per acre. You were irrigating 14 acres of land, as shown by the examiner's report, and 14 miners inches or 0.28 cubic feet per second is the maximum which can be allowed.

Very truly yours,

Geo. W. Carter
State Reclamation Engineer

No. 4 Parkview Court

Pocatello, Idaho

Gentlemen:

Our field engineer's report on his inspection of the completion of works and beneficial use of the water under the terms of Permit No. G-25150 shows that the works are capable of conveying 14 miners inches (.28 c.f.s.) of water for irrigation of 14 acres.

Upon receipt of the statutory fees, totalling \$7.00, we will issue the Certificate of Completion of Works (for which the fee is five dollars) and the License and Certificate of Water Right (fee two dollars) confirming the right with priority of August 27, 1954 to the use of .28 second foot of subterranean water, with point of diversion in the NW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 6, Township 7 South, Range 35 East, B.M., for irrigation of 14 acres in the NW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 6, Township 7 South, Range 35 East, B.M. (This will license one miners inch of water to the acre.)

Report on the inspection under Permit No. G-25235 (which is later filing on the same well in NW $\frac{1}{4}$ NW $\frac{1}{4}$ Section 6) is that the amount of water put to beneficial use does not exceed 14 miners inches for irrigation of 14 acres in the NW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 6, Township 7 South, Range 35 East, B.M., therefore there is no additional water right to be licensed.

Dear Mr. Andrews:

We acknowledge receipt of the Deposition of Holder and two witnesses, also affidavit of publication in the Idaho State Journal, all submitted in proof of completion of works and water to beneficial use on Permit No. G-25150.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.
