CARIBOU COUNTY

STATE OF IDAHO }
County of Caribou } SS.

I hereby certify that this instrument was filed at the request
of Department of Water Resources
at 10:00 o'clock A m this 5th day of
August, 1992 in my office and duly
recorded in Microfilm Records
Rebecca Jenkins-Smith
Stephanie Lansberry nel
Ex-Officio Recorder Deputy

IN THE DISTRICT COURT OF THE SIXTH JUDICIAL DISTRICT
OF THE STATE OF IDAHO IN AND FOR THE COUNTY OF CARIBOU

In the Matter of General	)	Civil No. 2919
Determination of the Rights to	)	
the Use of Surface and	)	
Groundwater in the Bancroft-Lund	)	FINAL DECREE
Area.	)	

R. Keith Higginson, Director of the Idaho Department of Water Resources, filed a Motion for Final Decree on July 1, 1992, 1992. The motion came on for hearing July 28, 1992.

Based on the motion and the argument presented at hearing, the court finds and concludes as follows:

The Director's Report for the Bancroft-Lund Area was filed November 15, 1992. The court entered an Order Amending Report, which amended Finding of Fact No. 14 and Conclusions of Law 16 and 18, and amended the List of Claims/Rights Not Recommended.

Last Chance Canal Company and Utah Power & Light Company filed objections to the report.

The adjudication statute provides for entry of partial decree of uncontested matters, entry of further ~~partial~~ partial decrees as

FINAL DECREE, Page 1

MICROFILMED MAY 14 1996

JUL 13 2000

Bancroft-Lund Decree

necessary to resolve objections and final decree incorporating all partial decrees. Idaho Code §42-1412(8)(9)(10). A List of the Uncontested Portions of Director's Report has been filed with the court as required by Idaho Code §42-1412(9), and hearing on the partial decree of uncontested matters is set for July 28, 1992.

A Stipulation Resolving Objections of Utah Power & Light Company and Last Chance Canal Company has been filed with the court along with a motion seeking approval of the stipulation. Hearing on the motion was set for July 28, 1992, immediately preceding hearing on partial decree of uncontested matters. Upon entry of the order approving stipulation there were no contested matters remaining to be resolved. Therefore, no partial decrees are necessary and the court may proceed with entry of the final decree completing the Bancroft-Lund adjudication.

THEREFORE, IT IS HEREBY ADJUDGED AND DECREED that:

All rights to the use of surface and groundwater from the Bancroft-Lund Area are as described in the Director's Report, except that:

1. The Findings of Fact and Conclusions of Law attached hereto are substituted for the Findings of Fact and Conclusions of Law in the Director's Report.

2. List of Claims/Rights Not Recommended attached hereto are substituted for the List of Claims/Rights Not Recommended in the Director's Report.

DATED this 28th day of July, 1992.

DEPARTMENT OF RECLAMATION

CERTIFICATE OF WATER RIGHT
TRANSFERRED RIGHT NO. 1049

THIS IS TO CERTIFY, That Paul N. Christensen of Bancroft, Idaho, is the owner of and using a certain water right of 2.5 cubic feet per second of the waters of subterranean source, said water being obtained by virtue of License No. G-25091, issued by the State of Idaho, Department of Reclamation, dated July 26, 1959, bearing priority date of July 31, 1954, for the purpose of irrigating the following described lands situate, lying and being in the County of Caribou, State of Idaho, to-wit:

S $\frac{1}{2}$, Section 18, Township 9
South, Range 40 E. B. M.,

That said license has been entered in the records of the Department of Reclamation of the State of Idaho, in Volume No. 10 of Licenses, at Page 6049 thereof;

And that Paul N. Christensen has become the owner of said right by conveyance;

And that now, upon the application of Paul N. Christensen for the transfer of 2.5 cubic feet per second, made before the State Reclamation Engineer of the State of Idaho, and said application having been granted, the right to the use of 2.5 cubic feet per second of the waters of subterranean source by well upon the above described lands is hereby abandoned, and the place of use of said water under such right is HEREBY CONFIRMED, shall by this certificate become appurtenant for irrigation purposes, is described as follows, to-wit:

E $\frac{1}{2}$ SW $\frac{1}{4}$, SE $\frac{1}{4}$, Section 18,
Township 9 South, Range 40
E.B.M.,

That said water is to be limited at any given time to an amount actually needed and beneficially used for such purposes and shall not exceed the following amount, to-wit:

2.5 cubic feet per second of the
waters of subterranean source with
priority of July 31, 1954;

And that the water right hereby transferred has heretofore been conducted from subterranean source with point of diversion in the SW $\frac{1}{4}$ SE $\frac{1}{4}$, Section 18, Township 9 South, Range 40 E.B.M., and conducted through private pipe lines;

T-1049
29-2352

That the water right hereby transferred will hereafter be conducted to the last above described lands from subterranean source by well with no change in point of diversion;

That the right to the use of the water aforesaid, hereby described, is restricted to the lands or place of use last above described as provided by the laws of the State of Idaho;

IN WITNESS WHEREOF, I have hereunto set my hand and caused the official seal of the Department of Reclamation of the State of Idaho to be hereunto affixed at Boise, Idaho, this 28th day of May, 1965.

APPLICATION FOR PERMIT

To Appropriate the Subterranean Waters of The State of Idaho

Application No. G-32916
Permit No. G- 25091
District No.

1. Name of Applicant: **HEBER W. CHRISTENSEN**
 Postoffice address: **Central** County: **Caribou** State: **Idaho**
2. Quantity of water claimed:
 - (a) Rate of withdrawal in cubic feet per second. **Four (4)** or Idaho
 Miners' inches or gallons per minute.
 - (b) Annual withdrawal in acre feet per annum
3. Source of water supply: **Underground from a well**
4. Location of point of diversion or well is in the **SW** $\frac{1}{4}$ of the **SE** $\frac{1}{4}$ of Section **18**
Twp. 9 S. , Rge. **40 E.** , B.M., County of **Caribou**
5. Water is to be used for: **Irrigation purposes**
6. If for municipal, industrial or recreational purposes, give:
 - (a) Point of use of water is in the $\frac{1}{4}$ of the $\frac{1}{4}$ of Section , Twp.
 Rge. , B.M.
 - (b) Waste water or sewage effluent is to be returned to
 at a point in the $\frac{1}{4}$ of the $\frac{1}{4}$ of Section , Twp. , Rge. , B.M.
7. Kind of works: **Well, turbine pump, open discharge**
8. Estimated cost of works: **\$5,000.00**
9. (a) Is reservoir to be used? **No**
 (b) Capacity of reservoir:
10. The time required for the completion of such work and complete application of the water to the proposed use is **six months**
~~years~~
11. If applicant is a corporation, give:
 - I. (a) Date and place of incorporation:
 (b) Amount of capital stock: \$ (c) Amount paid in: \$
 (d) Names and addresses of directors:
 - II. The financial resources of the applicant are (a) Cash on hand: \$
 (b) Treasury stock: (c) Bonds to be issued:
 (d) Other resources:
12. The land to be irrigated is described in the following tabulation:
13. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are: **148 inches Last Chance Canal-North Extension Lateral (Delivering to land about 40%)**
 - (a) **1** (cubic feet per second, inches or gallons per minute) of the water herein applied for is to be supplemental to the existing water rights.
 - (b) **3** (cubic feet per second, inches or gallons per minute) is for new lands.

Remarks:

Idaho as herein set forth.

HEBER W. CHRISTENSEN *Applicant.*

Agent.

Date of first receipt at Department of Reclamation: 9:00 A. M. July 31, 1954

Returned to applicant for correction:

Re: Water Transfer 5676

Dear Tim:

I am here in identifying the acreage approved by the preliminary order (see attached page 6). We will begin watering today on portions of this ground. We might also state that we are not in agreement with the loss of the 12.5 acres and will appeal for there reinstatement.

Sincerely,

Chad B. Neibaur

Neibaur Farm Enterprises

MICROFILMED

JUL 13 2000

8. The proposed changes will not injure other water rights if the approval of the application includes a reduction in the irrigated land by 12 acres and by the amount of water associated with those acres.

9. The proposed changes are in the local public interest.

10. The proposed changes are consistent with the conservation of water resources within the state of Idaho.

11. The Department should approve the application with certain conditions to prevent injury and enlargement.

ORDER

IT IS THEREFORE, hereby ORDERED that Application for Transfer No. 5676 in the name of Neibaur Farm Enterprises is **APPROVED** subject to the following conditions:

1. This approval authorizes a transfer of water to not more than 360.5 acres.

2. Use of water under this approval is not authorized until the right holder identifies for the Department and the watermaster the specific 12.5 acres which is not authorized for irrigation under this transfer. Upon written approval of the Department, the right holder can proceed with the changes authorized by this transfer.

3. ~~The total instantaneous diversion of water from all points of diversion~~ under Transfer 5676 shall not exceed 5.23 cfs nor a total combined annual volume of 1081.5 AF.

4. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 3.0 AFA at the field headgate for irrigation of the lands above.

5. The period of use for the irrigation described in this approval may be extended to a beginning date of April 1 and an ending date of October 31 provided that beneficial use of the water can be shown and other elements of the right are not exceeded. The use of water before April 15 and after October 15 is subordinate to all water rights having no subordinated early or late irrigation use and a priority date earlier than July 8, 1992.

6. The right holder shall accomplish the change authorized by this transfer within one (1) year of the date of this approval.

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
APPLICATION FOR TRANSFER OF WATER RIGHT
PART 3

A. Draw a map or attach a USGS map indicating the new point(s) of diversion and/or the new place of use for rights described

SCALE: 2 inches equal 1 mile. Draw plan in ink.

SCALE: 2 inches equal 1 mile. Draw plan in ink.

PART 3

B. CHANGES IN NATURE OF USE

1	New Nature of Use	Amount (cfs/ac-ft)	Hours/days/year	Period of Use
				to
				to

2. Quantity and quality of return flows and location of discharge:

3. Describe effects on other water uses resulting from the proposed change:

I hereby assert that no one will be injured by such change and that the change does not constitute an enlargement in use of the original right. The information contained in this application is true to the best of my knowledge.

I understand that any willful misrepresentations made in this application may result in voiding its approval.

Attn: Harold Jones

May 10, 1995

RE: [REDACTED]

I'm responding to your letter of objection to the transfer of water licence number 29-02352. Let me lay out my understanding of the right and what you are asking me to do and see if we are understanding one another as the law applies:

1. We purchased the land and water right in 1986 from Corbridge Bros. of Melad. I believe we paid for a totally irrigated farm at that time and the rights indicated that.

2. In 1987 we purchased and installed two corner systems. After operating them for a year, we were convinced that the extra costs of the systems were not economically justifiable in our area and after consulting with our irrigation people, decided to look for adjoining dry land ground to transfer our water onto.

3. We were told by the Water Resource that land used for set aside or for CRP to comply with government programs would not constitute non use of water and would thus not fall under the five year non use clause.

4. With the above rights and experiences, we actively pursued installation of pivot irrigations systems and installed two pivots in 1988, two in 1989, and a mini pivot in 1990. We also pursued the purchase of adjoining dry land ground during that time in order to transfer our accumulating corners onto. In 1988 (as I recall) we had a contract of sale in place with money down to acquire the Holsten properties with the intent of making the transfers then. We did not enforce the contract however when they discovered that they could enroll the farm in the CRP program and maintain ownership.

5. We have over the course of the years, irrigated (not continuous on all) the corners that have had more than one corner coming together. On the one piece, where we have four corners coming together (part of this particular transfer), we have a wheelline watering specifically to irrigate those four corners. On two other adjoining corners we have buried 4" mainline running out and have watered it on occasion during the past five years (also part of this particular transfer). The adjoining corners by the farm buildings we have during the past five years run pipe up and watered with handlines (also part of this transfer). In fact [REDACTED]

SEP 14 1995

that is involved in the particular right you are opposing with the exception of the corner at the corner of Central Road and Hegstrom (by the scale) and part of the corner in the northwest corner of section 18. SE 160 has been irrigated at sometime during the past five years. Regardless of these attempts to water corners, we were under no obligation to do so to protect our properties because of the use of these properties as set aside for government programs.

6 On at least two occasions during the course of the past five years, we have seen the transfer of waters from corners in a similar manner as we are proposing. These transfers were done without meaningful protest and involved one of the very people who is objecting to this particular transfer. Surely this has got to seem funny to someone besides me.

7 It has never been our intent to give up any portion of our water rights at any time. We have actively pursued a course to collect corners and transfer them to adjoining ground so as to fully enjoy the right to use them. This I know was the knowledge of at least two of the protestants. If we left any of our right unused during the course of the past few years, I believe it should be viewed positively towards us rather than negatively. If the water is short, then shouldn't we jointly be asked to contribute and not ask one person to forfeit. I believe that this right #29-02352 is senior to most in the valley and I'm quite sure senior to all those involved in the protest.

8 Finally, regardless of any benevolence we may feel, it is a certainty that the mortgage holder on this property would not allow us to knowingly give away rights that may diminish the value of the asset they hold as collateral. Depending on our financial health at the time, they may allow us to set aside use of a right but they will not allow the forfeiture of that right.

I am quite certain that the law is on our side in this transfer. I am sorry that you find us objectionable and that we are seemingly viewed as having less rights than others to the use of our properties. We have proceeded with no malice intended.

Sincerely,

Chad & Clyde Neibour

Dear Sirs,

We protest change of water right NO. 4578
under well license NO. 29-02352 for Neibaur
Farm Enterprises DBA Gem Valley Farms c/o
Chad Neibaur, 1550 Central Road Bancroft, Ida 83217.

They haven't watered the corners they want
to change for years.

They have rented the farm they plan to
transfer this well water to and it has
an existing surface water right.

The only reason they want this well
transfer is because of convenience.

If they want to water their own corners
we have no complaint, but we object to
their using more well water that is
becoming increasingly scarce on rented
land with an existing water right.

Copy to Chad Neibaur to be sent and
\$25 check enclosed.

Dear Sirs: Re: Protest of Permit #4578 Gem Valley Farms

This letter is in protest to the following application for permit transfer:

Permit # 4578

Well # 29-02352

The reasons for this protest are listed below:

1. These proposed changes will take out more water than has been taken in the last five years which will contribute to the water problems of existing wells.
2. The proposed changes that move water to a rented farm that already has an existing water right from the canal does not seem right and will hurt others who have serious well problems.

We will withdraw this protest if we can be assured that no more water will be pumped from these wells than has been pumped in the last few years.

Sincerely,

Ben Lloyd

Department of Water Resources
Eastern District Office

Water Resource Board,

This letter is in response to the purposed changes in the water licence's Number 29-02352. We would like to file a protest to this change for the following reasons.

1. In our basin there is a shortage of water and there has been many disagreements with water rights and moving it from area to area. We feel that these acres have not been watered in a number of years and that this would be deplete the ground water in a area that is already having water shortages. We farm next to these acres and feel that it will affect our wells.

2. In studying the Idaho water laws that state that the water rights would be lost on the acres if not used in the last five years. We feel that these acres are on the pivot corners and that they have not been watered in the last five years. Because of the we feel that he has lost his rights this water and should not be allowed to move it.

Our area is in a serious water shortage and we feel that Chad Neibaur and Clyde Neibaur, Gem Valley Farms, are putting additional areas under irrigation thus adding to the water problem in the area.

RE: Application for Transfer No.: 4578

Dear Mr. Neibaur:

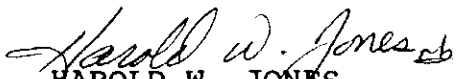

Enclosed please find a copy of the protest filed against the above referenced application for transfer of water right #29-02352. You should be aware that the following are the items we can consider at a conference and/or hearing in either approving or denying an application for transfer:

- 1) Are other water rights injured by the transfer?
- 2) Does the change constitute enlargement in the use of the original water right?
- 3) Is the change consistent with the conservation of water resources within the state of Idaho?
- 4) Does the change conflict with the local public interest?

The applicant must be prepared to present evidence and/or testimony addressing each of the four items should an additional hearing be necessary. You will be notified at a later date as to the time and place set for conference and/or hearing.

If we may be of further assistance, please contact us.

Respectfully submitted,

RE: Application for Transfer No.'s 4578, 4579, 4580

Dear Mr. Neibaur:

The Department of Water Resources acknowledges receipt of your water right permit. This office is currently in the process of advertising the application in the Caribou County Sun on April 6 & 13, 1995. The advertisement will be published for two consecutive weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our State Office in about five weeks. State Office Personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

Harold W. Jones rb

Re: License No. G-25091 - Heber W. Christensen
Permit No. G-28161

Paul N. Christensen
Central, Idaho

Dear Mr. Christensen:

License No. G-25091, has been issued to Heber W. Christensen for 2.5 c.f.s. from well in SW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 18, for irrigation of 287 acres of land in S $\frac{1}{2}$, Sec. 18, T. 9 S., R. 40 E., which included 47 acres in W $\frac{1}{2}$ SW $\frac{1}{4}$, Sec. 18.

The report on your works under Permit No. G-28161 shows the well in NE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 19 produced 3.2 c.f.s. to irrigate 153 acres in W $\frac{1}{2}$ SW $\frac{1}{4}$, Sec. 18, N $\frac{1}{2}$ NW $\frac{1}{4}$, Sec. 19, T. 9 S., R. 40 E. Also that the main line was connected to a well in SE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 18, and the two wells irrigate S $\frac{1}{2}$, Sec. 18 and N $\frac{1}{2}$ NW $\frac{1}{4}$, Sec. 19. Do you have three wells, one in SW $\frac{1}{4}$ SE $\frac{1}{4}$, one in SE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 18 and one in NE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 19?

Under present circumstances we can issue the certificate of water right for 2.66 c.f.s. from well in NE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 19, for irrigation of 153 acres in W $\frac{1}{2}$ SW $\frac{1}{4}$, Sec. 18, N $\frac{1}{2}$ NW $\frac{1}{4}$, Sec. 19, which with 0.4 c.f.s. from License No. G-25091 makes a total of 3.06 c.f.s, maximum allowable for 156 acres of land.

Enclosed is Form 20, Transfer of Water Right. You may complete this form for License No. G-25091, transferring the 2.5 c.f.s. of water to E $\frac{1}{2}$ SW $\frac{1}{4}$, SE $\frac{1}{4}$, Sec. 18. The cost involved is two publication in your county paper, plus \$1.00 fee to this office, or a total of about \$10.00. With that transfer there would be no licensed water right for W $\frac{1}{2}$ SW $\frac{1}{4}$, Sec. 18, and Permit No. G-25091 could be licensed for 3.06 c.f.s. from the well in NE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 19, upon receipt of the fees totaling \$13.00.

Kindly advise at your earliest convenience.

Very truly yours,

RALPH W. THOMAS, Deputy
State Reclamation Engineer

G25091

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO
REPORT OF ENGINEER

Permit No. G-25091

This proof is for Completion of works & Beneficial use In Water District No. _____

1. Name of applicant Heber W. Christensen, 429 N. 3rd West, Logan, Utah
2. Source of water supply: Subterranean from a well
3. Location of point of diversion: Is in the SW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 18
T. 9 S. R. 40 E. County of Caribou
4. Describe works as they exist, giving dimensions and capacities of same: Well is 180' deep by 18" diameter H=95', draw dow=4'. Equipped with a Fairbanks Morse Pomona Turbine Pump serial No. PS 4720 driven by a 165 hp Cummins Diesel engine. Delivery is partially by direct flow and partially by sprinkler system.

5. Water is used for: Irrigation
6. State whether or not water has been turned into works of diversion: Yes

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

South Half Section 18,

Twp. 9 S., Range 40 E., B.M.

(Excepting N $\frac{1}{2}$ NW $\frac{1}{4}$ SW $\frac{1}{4}$)

See the map.

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach?

Remarks: Actual delivery was 11.2 inches.
Says diesel motor is not geared in correct ratio to pump. Wants 8 gal per head for five lateral lines or 3 cfs.
He has irrigated 107 acres by gravity flow in the area west of pump.
Wants me to talk to Kulp.

This examination was made on the 10 day of July, 1956

(Signed) E. H. Humphrey Examiner.

DEPARTMENT OF RECLAMATION

June 1, 1956

Mr. Heber W. Christensen
Central
Idaho

Dear Sir:

We enclose herewith blank notice for proof of completion of works and application of water to beneficial use under your Permit No. G-25091. This notice should be filled out in duplicate and returned to this office at least 40 days before the date upon which you wish to make this proof, in order to allow time for the four weeks' publication required by law.

This proof must be submitted before a Notary Public or other officer authorized by law to administer oaths.

The date for proof, as set out in your permit, is not later than August 7, 1956.

Very truly yours,
MARK R. KULP

State Reclamation Engineer

RE: Permit No. G-25091

Mr. Alfred C. Cordon
Carlson Building
Pocatello, Idaho

Dear Mr. Cordon:

We have your letter of December 20 enclosing affidavit of publication in the Caribou County Sun which completes proof of completion of works and beneficial use on Permit No. G-25091 of Heber W. Christensen.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made but our field engineer will try and contact Mr. Christensen at the time he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

NOTICE OF PROOF OF
COMPLETION OF WORKS
and
APPLICATION OF WATER TO
BENEFICIAL USE

Notice is hereby given that at two o'clock P. M., on the 22nd day of November, 1955, at Pocatello, County of Bannock, State of Idaho, before Alfred C. Cordon, Notary Public, proof will be submitted of the completion of works for the diversion of four cubic feet per second of the waters of a well with hydraulic pump in the SW¼SE¼ Section 18, Twp. 9 S., Rge. 40, E.B.M., and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. 25091 heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit are Heber W. Christensen, 429 North, 3rd West, Logan, Utah.

2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use, in accordance with the plans accompanying the application for such permit, is four cubic feet per second.

3. The use to which said water has been applied is irrigation purposes, and the amount applied to beneficial use is four cubic feet per second.

4. The place where said water is used is the South Half of Section 18, Township 9 South, Range 40 East, B. M., excepting the North half of the Northwest Quarter of the Southwest Quarter of said section, in Caribou county, State of Idaho.

5. The date of priority which said user is prepared to establish is July 31, 1954.

G25091

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

Permit No. G 25091

Proof of Application of Water to Beneficial Use
and Completion of Works
Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Heber W. Christensen, Logan, Utah, 429 North Third West, Logan, Utah
Farming.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. No

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. G 25091, August 7, 1954, date of priority July 31, 1954

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. A well with hydraulic pump, location of point of diversion is in the SW 1/4
Section 18, Twp. 9 S., Rge. 40 E.B.M.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Depth to water is 94 feet. Discharge of pump is about 4 cubic feet per second, measured by discharging through a horizontal pipe, and observing water pressure and also by using a weir. 132 sprinkling nozzles, 8 and one-half gallons per minute under 50 pounds pressure; also lateral irrigation ditches.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. For irrigation. Place of use is the South half of Section 18, Township 9 South, Range 40 East, B.M., excepting the North half of the Northwest Quarter of the Southwest Quarter of said Section, in Caribou County, State of Idaho. Each 40 acre subdivision of said irrigated land has been irrigated with said water. Said land is cultivated and produces crops of wheat, barley, oats, alfalfa.

Permit No. G 25091

Proof of Application of Water to Beneficial Use
and Completion of Works
Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Heber W. Christensen, Logan, Utah, 429 North Third West, Logan, Utah
Farming,

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. No

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. G 25091, August 7, 1954, date of priority July 31, 1954

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. A well with hydraulic pump, location of point of diversion is in the SW 1/4
Section 18, Twp. 9 S. Rce. 40 E. R. M.

Ans. Three-fourths of one mile of iron water pipe, about one-third each of ten-inch, eight-inch and six-inch diameter, mainline pipes, also four one-quarter mile lateral aluminum pipes, four-inch diameter, plus sprinkler nozzles; also lateral irrigation ditches, for surface irrigation. Amount of water they are capable of conveying is four cubic feet per second. Well is 186 feet deep, casing is 16 and 18 inch diameter.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. For irrigation. Place of use is the South half of Section 18, Township 9 South, Range 40 East, R.M., excepting the North half of the Northwest Quarter of the Southwest Quarter of said Section, in Caribou County, State of Idaho. Each 40 acre subdivision of said irrigated land has been irrigated with said water. Said land is cultivated and produces crops of wheat, barley, oats, alfalfa.

P 25091

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. None.

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. Four cubic feet per second.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. I am the owner.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. Periodically have used the maximum of four cubic feet per second, since issuance of permit.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. Have used from 30 to 40 miners inches of water from the Last Chance canal company during part of irrigation seasons.

Heber W. Christensen
(Sign) Heber W. Christensen

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in Pocatello, County of Bannock,

State of Idaho, on this 22 day of November, A.D. 1955

Permit No. G. 25091.....

Proof of Application of Water to Beneficial Use

Deposition of Witness and Completion of Works

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Joseph Lloyd, 51, Bancroft, Idaho, Farming, Bancroft, Idaho

Ques. 2. Are you acquainted with Heber W. Christensen, the holder of Permit No. G. 25091? How long have you known him and where does he reside?

Ans. Yes, all my life. He resides in Logan, Utah.

Ques. 3. Have you read or heard read said Permit No. G. 25091, and are you familiar with its provisions and conditions?

Ans. Yes, I am familiar with its provisions and conditions.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Source is a well. Place of diversion is in SW 1/4 Section 18, Twp. 9 S., Rge. 40 E. B. M., Caribou County, Idaho. Works for conveying water consist of sprinkler system and surface ditches.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. I estimate three cubic feet per second can be conveyed. I have seen three cubic feet per second conveyed.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. I have seen three cubic feet per second delivered.

25091

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. For irrigation of each forty acre subdivision of the following: The South half of Section 18, Township 9 South, Range 40 East, B.M., excepting the North half of the Northwest Quarter of the Southwest Quarter of said Section, in Caribou County, State of Idaho. Said land is cultivated and produces crops of wheat, barley, oats, alfalfa and pasture.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. None

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Rolling, cultivated land. From three to four cubic feet per second of water is required for its profitable cultivation.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No interest

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. During the summer of 1954 I witnessed said water delivered from said pump into said irrigation laterals.

Joseph Lloyd

Permit No. G. 25091.....

Proof of Application of Water to Beneficial Use

Deposition of Witness and Completion of Works

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Ralph Harrison, 50 years, Central, Idaho, Farming, Central, Idaho.

Ques. 2. Are you acquainted with Heber W. Christensen, the holder of Permit No. G. 25091? How long have you known him and where does he reside?

Ans. Yes. All my life. He resides at Logan, Utah.

Ques. 3. Have you read or heard read said Permit No. G. 25091, and are you familiar with its provisions and conditions?

Ans. I have read said permit and I am familiar with its provisions and conditions.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Source is a well. Place of diversion is in SW 1/4 Section 18, Twp. 9 S., Rge. 40 E. B.M., Caribou County, Idaho. Works for conveying water consist of sprinkler system and surface ditches.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. I estimate four cubic feet per second can be conveyed. I have seen from three to four cubic feet per second conveyed.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. I have seen from three to four cubic feet per second delivered. I estimated the amount by the capacity of the sprinkler system plus the amount used in the surface ditches.

G 25091

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. For irrigation of each ~~forty~~ acre subdivision of the following: The South half of Section 18, Township 9 South, Range 40 East, E.M., excepting the North half of the Northwest Quarter of the Southwest Quarter of said Section, in Caribou County, State of Idaho. Said land is cultivated and produces crops of wheat, barley, oats, alfalfa and pasture.

November 3, 1954

RE: Permit No. G-25091

Mr. Heber W. Christensen
Central
Idaho

Dear Mr. Christensen:

We have received from Mr. Bart Westlake, log of your well, which he shows to be located in the $SW\frac{1}{4}SE\frac{1}{4}$ Section 18, Township 9 South, Range 40 East B.M., and enclosing your letter stating that the well is complete and you would like us to send you the filing papers.

Do we understand from this that you are prepared to make the proof of completion of works and also beneficial use proof on this Permit? In other words, is the well not only completed but has it been used for the irrigation of the land described in the Permit? If so, we shall be glad to send you the necessary forms and instructions in regard to making the proofs.

However, we note that the well log gives the location of the well in the $SE\frac{1}{4}SE\frac{1}{4}$ of Section 18; whereas the sketch map accompanying your letter as well as the Permit shows it in the NW Corner of the $SW\frac{1}{4}SE\frac{1}{4}$ of said Section.

If the well is really located in the $SE\frac{1}{4}SE\frac{1}{4}$ instead of the $SW\frac{1}{4}SE\frac{1}{4}$ it will be necessary for you to file an application for amendment to the Permit and we enclose the necessary form.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Dear Mr. Christensen:

We return your application for permit to appropriate 4 second feet of underground water for the following corrections:

1. Question 4 should give the location of the point of diversion to a 40 acre subdivision. The sketch map would seem to locate this in the SW $\frac{1}{4}$ of the SE $\frac{1}{4}$ of Section 18, Township 9 South, Range 40 East B.M. ✓
2. Question 12 should give the acreage in each 40 acre subdivision.
3. Answer Question 13.
4. Sign the application on the line indicated on the third page.
5. Indicate on the sketch map the Section, Township and Range.

The filing fee of \$5.75 should accompany the application.

Very truly yours,

AND
APPLICATION OF WATER TO
BENEFICIAL USE**

Notice is hereby given that at two o'clock P. M., on the 22nd day of November, 1955, at Pocatello, County of Bannock, State of Idaho, before Alfred C. Cordon, Notary Public, proof will be submitted of the completion of works for the diversion of four cubic feet per second of the waters of a well with hydraulic pump in the SW $\frac{1}{4}$ SE $\frac{1}{4}$ Section 18, Twp. 9 S., Rge. 40, E.B.M., and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. G 25091 heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit are Heber W. Christensen, 429 North, 3rd West, Logan, Utah.

2. Said works of diversion will be fully completed on the date set for such completion, the amount of water which said works are capable of conveying to the place of use, in accordance with the plans accompanying the application for such permit, is four cubic feet per second.

3. The use to which said water has been applied is irrigation purposes, and the amount applied to beneficial use is four cubic feet per second.

4. The place where said water is used is the South Half of Section 18, Township 9 South, Range 40 East, B. M., excepting the North half of the Northwest Quarter of the Southwest Quarter of said section, in Caribou county, State of Idaho.

5. The date of priority which said user is prepared to establish is July 31, 1954.

MARK R. KULP,
State Reclamation Engineer.

STATE OF IDAHO
DEPARTMENT OF RECLAMATION

In the Matter of the Application of

Paul N. Christensen
of
Bancroft, Idaho

For a Transfer of Water Right
in the County of Caribou,
State of Idaho

ORDER GRANTING TRANSFER

NO. 1049

WHEREAS, On the 7th day of April, 1965, at the Department of Reclamation of the State of Idaho at Boise, Idaho, this matter of the application of Paul N. Christensen of Bancroft, Idaho, for a transfer of water right came on regularly for hearing, pursuant to the published notice in due and statutory form, and;

WHEREAS, No protest has been filed against the application and the evidence filed by the applicant with the application shows that the water will be put to a higher and more efficient beneficial use and no one will be injured thereby;

NOW, THEREFORE, IT IS ORDERED, That the said application be, and the same is, HEREBY GRANTED, and that a Certificate of Transfer be issued to the applicant herein as provided by the laws of the State of Idaho to be hereunto affixed at Boise, Idaho, this 28th day of May, 1965.

STATE OF IDAHO

DEPARTMENT OF RECLAMATION

CERTIFICATE OF WATER RIGHT
TRANSFERRED RIGHT NO. 1049

THIS IS TO CERTIFY, That Paul N. Christensen of Bancroft, Idaho, is the owner of and using a certain water right of 2.5 cubic feet per second of the waters of subterranean source, said water being obtained by virtue of License No. G-25091, issued by the State of Idaho, Department of Reclamation, dated July 26, 1959, bearing priority date of July 31, 1954, for the purpose of irrigating the following described lands situate, lying and being in the County of Caribou, State of Idaho, to-wit:

S $\frac{1}{2}$, Section 18, Township 9
South, Range 40 E. B. M.,

That said license has been entered in the records of the Department of Reclamation of the State of Idaho, in Volume No. 10 of Licenses, at Page 6049 thereof;

And that Paul N. Christensen has become the owner of said right by conveyance;

And that now, upon the application of Paul N. Christensen for the transfer of 2.5 cubic feet per second, made before the State Reclamation Engineer of the State of Idaho, and said application having been granted, the right to the use of 2.5 cubic feet per second of the waters of subterranean source by well upon the above described lands is hereby abandoned, and the place of use of said water under such right is HEREBY CONFIRMED, shall by this certificate become appurtenant for irrigation purposes, is described as follows, to-wit:

E $\frac{1}{2}$ SW $\frac{1}{4}$, SE $\frac{1}{4}$, Section 18,
Township 9 South, Range 40
E.B.M.,

That said water is to be limited at any given time to an amount actually needed and beneficially used for such purposes and shall not exceed the following amount, to-wit:

2.5 cubic feet per second of the
waters of subterranean source with
priority of July 31, 1954;

And that the water right hereby transferred has heretofore been conducted from subterranean source with point of diversion in the SE $\frac{1}{4}$ SE $\frac{1}{4}$, Section 18, Township 9 South, Range 40 E.B.M., and conducted through private pipe lines;

T-1049

29-2352

That the water right hereby transferred will hereafter be conducted to the last above described lands from subterranean source by well with no change in point of diversion;

That the right to the use of the water aforesaid, hereby described, is restricted to the lands or place of use last above described as provided by the laws of the State of Idaho;

IN WITNESS WHEREOF, I have hereunto set my hand and caused the official seal of the Department of Reclamation of the State of Idaho to be hereunto affixed at Boise, Idaho, this 28th day of May, 1965.

Application For Transfer of Water Right

STATE OF IDAHO

County of _____

SS.

Paul N. Christensen, being first duly sworn, deposes and says:

That his name is Paul N. Christensen; that he is of lawful age, a citizen of the United States and of the State of Idaho, and that his postoffice address is Pancroft, Idaho

That he is the owner and using a certain water right, bearing date of priority of 7-31, 1954, for 2.5 cubic feet per second of the waters of subterranean flow

County of Caribou, State of Idaho, decreed to

by decree of Judge _____ of the _____ Judicial District of the State of

Idaho, in and for the county of _____, in the case of _____

vs. _____, said decree bearing date of _____

for obtained by virtue of License No. 6-25091, issued by the State Department of Reclamation of the State of Idaho, dated July 26, 1959, bearing date of July 31, 1954) 10

for the purpose of irrigating the following described lands situate, lying and being in Water District No. _____ in the County of Caribou and State of Idaho, to-wit:

S¹/₂ Sec. 18 T9S R40E BM

_____ and is the person (or representative of the corporation) to whom such right so issued, or has become the owner thereof in the following manner, i.e. conveyance

as per abstract of title of said water right hereto attached and made a part of this statement;

That said waters are now diverted from said stream in the SW¹/₄ SE¹/₄ of Section 18, Township 9S, Range 40E, B. M., and conducted to the above described lands through private pipe lines as per map herewith and of this affidavit made a part.

CHANGE IN PLACE OF USE

That affiant and petitioner desires to abandon the use of 2.5 cubic feet per second of said water upon the above described land, and to convey and use same upon the following tract, situate, lying and being in the County of Caribou and State of Idaho, to-wit:

E¹/₂ SW¹/₄, SE¹/₄ Sec. 18 T9S R40E

That reasons for desiring to make such transfer are as follows: additional water required per acre

T-1049

29-2352

That he intends to divert and convey said 2.5 second feet of water to the tract of land last above described in the following manner and as per map accompanying this application:

private pipe lines

Note—If this water right has heretofore been carried jointly in a ditch with other water, affiant should secure written consent of other owners or users to removal from its original carrier and file such consent with this affidavit.

CHANGE IN POINT OF DIVERSION

That affiant desires to change the point of diversion of said waters from the point above described to a point located in 1/4 of 1/4 of Section 18, Township T9S, Range R4CE, and thereafter conduct same to the above described land through the 240 A ditch, as per map appended.

That his reasons for desiring to make such change are as follows:

Petitioner asserts that no one will be injured by such transfer, or change in point of diversion, and that the change will be made at petitioner's own risk.

WHEREFORE, Affiant and Petitioner prays that the State Reclamation Engineer of the State of Idaho issue to him the proper certificate authorizing such change in point of diversion and/or place of use, in accordance with the provisions of Sections 42-108 and 42-222 of the Idaho Code.

Paul M. Christman

Applicant.

Subscribed and sworn to before me this 15th day of March, 1965.

Helen B. Kingsford

Notary Public.

APPLICANT WILL ANSWER THE FOLLOWING QUESTIONS:

From what stream is the water diverted? Well

Where is the diversion point located? SW 1/4 SE 1/4 Sec 18 T9S R4CE

Through what ditch is it now conducted? 240 A

How much land is now irrigated by the water sought to be transferred? 240 A

Give the description: E 1/2 SW 1/4 SE 1/4 Sec 18 T9S R4CE

What is the total amount of water in inches, or second feet, dedicated to said land? 2.5

What kind of crops are being raised? Potatoes, Grain, Hay

How much water per acre is now required to irrigate said land? 17 in.

What will be the effect on the land now irrigated, if the use of water on it is discontinued?

Dry Farm

Give location of new point of diversion, if change is to be made None

Through what ditch will it be conducted after transfer? —

How much water will be required per acre to irrigate the land to which this water is transferred? 1 in.

Do you claim any other water right for the land from which you seek to abandon the use of this water? No

If so, give amount, date and source

Is there any other water right for the land to which you seek to make this transfer? If so, give amount, date and source

Signed Paul D. Christensen
Applicant.
