Dear Mr. Cowman:

Our field engineer's report on his inspection of proof of completion of works and application of water to beneficial use under the terms of Permit No. G-25082 shows the well is capable of conveying 20 miner's inches (.4 c.f.s.) of water for irrigation of 20 acres.

Upon receipt of the statutory fees totaling \$7.00, we will issue the Certificate of Completion of Works (fee \$5.00) and the License and Certificate of Water Right, \$2.00 based on the rate of .2.00 for each 40-acre subdivision, confirming the right with priority of July 29, 1954, to the use of .4 second feet of subterranean water, with the point of diversion in the NW $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 21, T. 11 S., R. 37 E., for irrigation of the NW $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 21.

Re: Permit No. G-25082

Mr. Roy B. Cowman
Rockland, Idaho

Dear Mr. Cowman:

I stopped in on March 13, 1959 to make inspection in connection with your permit No. G-25082, since I was in that region anyway.

Mr. Hansen accompanied me to the well and told me where the water is used also about the trouble you have had with the well.

There is a choke in the delivery line that will limit the output to about (20) twenty inches and Mr. Hansen said that was about what it could produce.

So I am turning in a report for (20) twenty inches and making it appurtenant to only one forty as that will reduce your fee.

If you are satisfied this report gives all the water your well produces, just send in the fees as shown in the letter by the Chief Clerk, and license will be issued.

If you are not satisfied, do not pay the fee and write back requesting that the water be measured. Then I will measure it next summer and give you whatever is being pumped.

Permit No. G-25082

This proof is for Completion of Works & Beneficial Use In Water District No. _____

1. Name of applicant Roy B. Cowman

2. Source of water supply: Subterranean flow from a well

3. Location of point of diversion: Is in the NW $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 21

T. 11 South R. 37 East County of Bannock

4. Describe works as they exist, giving dimensions and capacities of same: Well is 18" x 210'

casd 150' 6" x 150' column

15 hp. U.S. Motor #166354

Pump is Peerless Turbine J 4899

Water is pumped into an "over night" pond then to field
by gravity. There is a choke plate at pump to restrict
output

5. Water is used for: Irrigation

6. State whether or not water has been turned into works of diversion: yes

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

W $\frac{1}{2}$ NE $\frac{1}{4}$, Section 21, NW $\frac{1}{4}$ SE $\frac{1}{4}$, SW $\frac{1}{4}$ SE, Section 21, Twp. 11 South, Range 37 East, B.M.

SE $\frac{1}{4}$ SW $\frac{1}{4}$ Section 16, Township 11 South, Range 37 East, B. M.

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach? _____

Remarks: Mr Hansen says this well did yield over
1 cfs then one day it slackened off and they
never have got it to produce over approx. 20 inches
since. They are very disappointed

This water was not measured but 20"
should be a reasonable yield

This examination was made on the 13 day of March, 1959

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

PERMIT NO. G-25082

REPORT ON PROOF OF Completion of Works & Beneficial Use

Roy B. Cowman
Rockland, Idaho

Sept. 13 '58

Inspection was attempted but could not be completed satisfactorily due to repairs being made to pumping plant. The pump had been pulled and the motor had been removed. Also the well was covered so it could not be inspected.

Mr + Mrs Robert Hansen - (Son in law + daughter) are operating the farm for Mr. Ray B. Cowman. According to them the well water has not been used during the 1958 season due to the pumping plant being out of order, but repairs are now under way and it is expected that the well will be pumped this season.

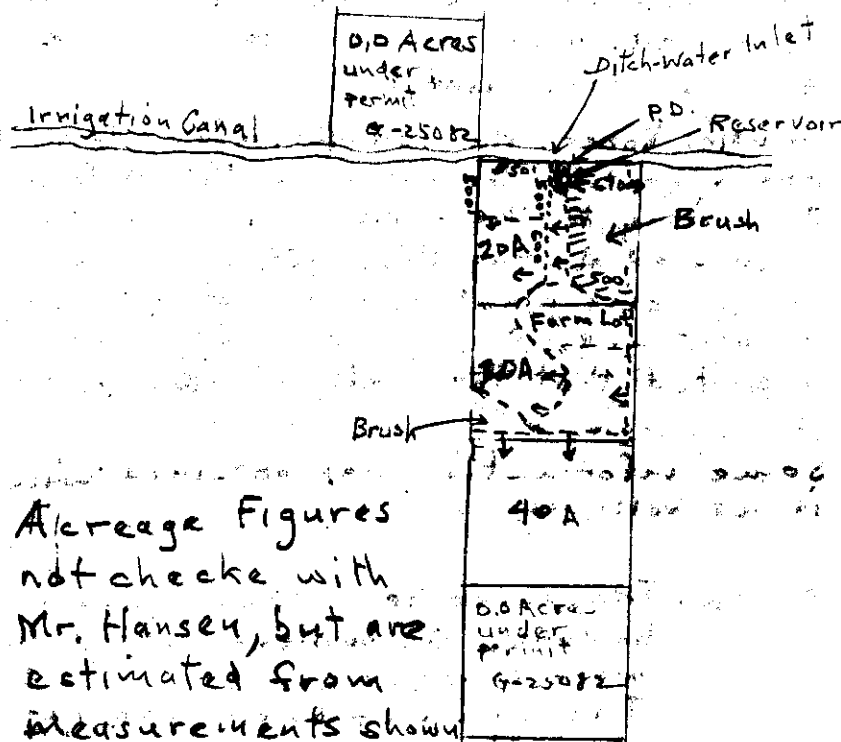

Some information was obtained which is as follows.

Pump: The pump head was labeled "Peerless" however, the bowles - 5 stage 10" - were Layne + Bowler.
The column + bowles measured 143' Long.

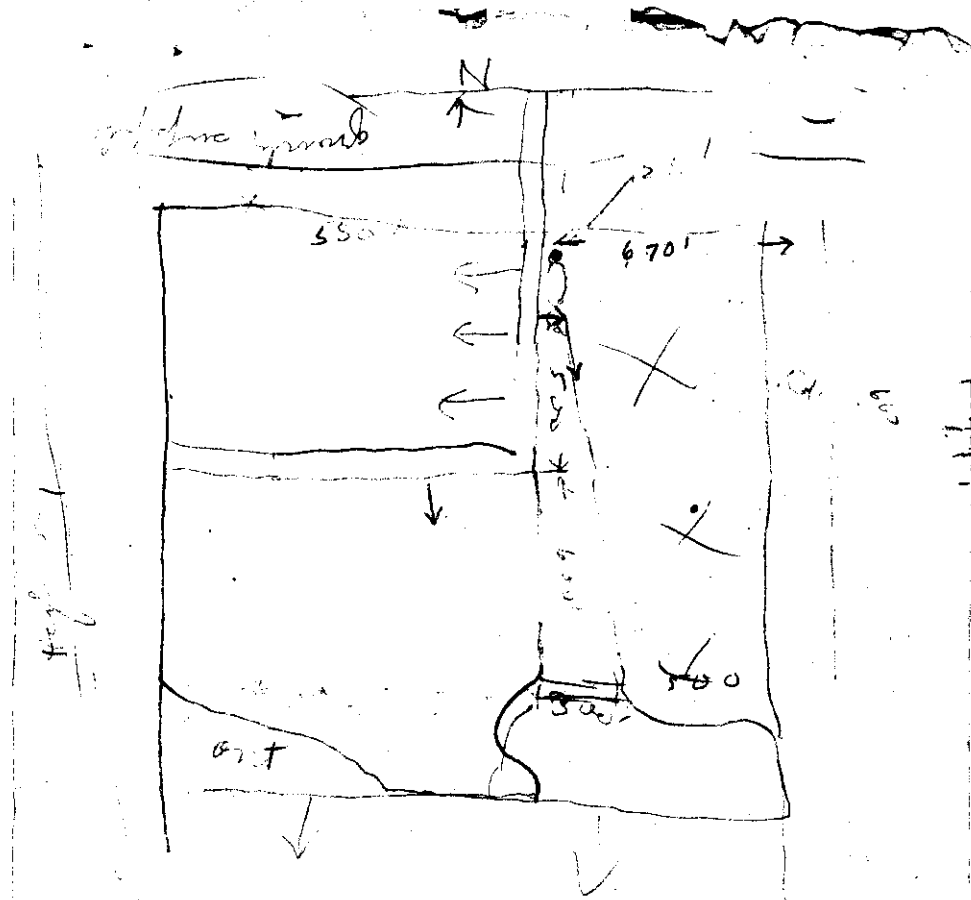

Motor: Removed - probably for repairs.

Meter: GE # 33 124 742
Utah Power Service # D 15 P 20803

Irrigation system: Reservoir 100' x 50' x 6' and unlined ditches. The property also has ditch water which is being used at this time.

Acreage Figures
 not checked with
 Mr. Hansen, but are
 estimated from
 measurements shown
 in sketch at 80 Acres
 that can be irrigated
 with pumped well water
 from present ditches.

Dear Mr. Cowman:

Statutes requires a field inspection in connection with the proofs on Permit No. G-25082 before license and certificate of water right can be issued.

Such inspection and report on same is required for any and all permits being brought to license within this State.

An inspecting Engineer from this Department requests that you or someone familiar with the terms of the permit and representing you be prepared to accompany him on the inspection, on Friday, October 10, 1958.

If he cannot get in touch with you by phone or otherwise, he will drive to the well location or point of diversion given in the permit.

Re: Permit No. G-25082
Roy B. Cowman

W. C. Loofbourrow
Attorney
American Falls, Idaho

Dear Mr. Loofbourrow:

We are returning herewith Proof of Application of Water to Beneficial Use and Completion of Works on the above captioned permit in the name of Roy B. Cowman for further information or correction.

The Proofs state under Question six (6) that the land to be irrigated is the $W\frac{1}{2}$ NW $\frac{1}{4}$ Section 21, Township 11 South, Range 37 East. The original permit on file in this department states the land or place of use is located in the $W\frac{1}{2}$ NE $\frac{1}{4}$, $W\frac{1}{2}$ SE $\frac{1}{4}$ Section 21 and the SE $\frac{1}{4}$ SW $\frac{1}{4}$ Section 16. The location notice published in the paper shows the place of use was stated as the NW $\frac{1}{4}$ NE $\frac{1}{4}$, SW $\frac{1}{4}$ NE $\frac{1}{4}$ and the NW $\frac{1}{4}$ SE $\frac{1}{4}$ Section 21, Township 11 South, Range 37 East.

In answer to Question No. six (6) of Holder's Proof if the $W\frac{1}{2}$ NW $\frac{1}{4}$ of Section 21 is the correct place of use, it will be necessary to amend the permit. A form for amendment is enclosed herewith. Otherwise the place of use should be corrected to conform with the permit or publication notice.

Also Question No. seven (7) on the Witnesses' Depositions should show the same information as answered under Question No. six (6) of the holders' Deposition, showing the place of use by legal land description and the number of acres irrigated under each 40 acre sub-division.

Please correct the depositions accordingly and return to this department.

Very truly yours,

Dear Mr. Loofbourrow:

In reply to your letter of September 3, 1957, requesting an extension of time for the above captioned permit number in the name of Roy B. Cowman, of Rockland, Idaho.

Providing an extension of time had been requested on or prior to the due date for said proofs, July 30, 1957, the same would have been granted, however, at this late date no extension can be given. However, if works were completed on July 30, 1957, the applicant may go ahead and make proofs in connection with the completion of works and application of water to beneficial use.

If it is not possible to make proofs at this time, your only alternative would be to file for a new permit.

Yours of August 10, 1957, addressed to Roy B. Cowman, Rockland, Idaho, is before me.

He inadvertently overlooked making his advertisement for completion of works and it is now too late to get the advertisement in as proof should have been submitted July 30, 1957, according to your letter of May 1, 1957.

If possible to grant an extension of time, please forward the proper blanks for an extension of about ~~four months~~ four months. I shall then have him fill out this application for extension of time, and as soon as that is granted, will get him busy on the advertisement and proof.
