Mr. Delmer H. Barfuss
Downey,
Idaho 83234

Dear Mr. Barfuss:

Mr. & Mrs. Otto Degan recently visited this office in connection with your recent attempt to drill a new well under your licensed right No. 28-2349. They indicated that you had drilled a well within the SE $\frac{1}{4}$ NW $\frac{1}{4}$ Sec. 8, Twp. 11 S., Rge. 37 E., B.M., which is within the same 40-acre tract as the original well was located. I explained to them that no approval is required by this office to replace a well within the 40 in which it was originally located. They expressed some concern that because of the failure of the replacement well you may now wish to locate the well at another location, apparently, within the NE $\frac{1}{4}$ SW $\frac{1}{4}$ of said Section 8. You should be advised that this change in location would require approval of a transfer of the water right. A form for this purpose is enclosed for use if you, in fact, do wish to drill a new well under this license at that location.

I also wish to call to your attention that Mr. & Mrs. Degan are the present owners of a licensed right for water from a well in the NW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 8. Their right carries a priority of November 13, 1950, which is prior to your license right which has a priority of July 13, 1954. In the event that the drilling and operation of your new well creates an interference with their prior water right, you could be required to replace the water, pay compensation for the injury, or cease operation so that they may obtain their prior water supply.

If you wish to discuss these matters with this office, we will be happy to meet with you.

Very truly yours,

R. KEITH HIGGINSON

Dear Mr. Barfuss:

Our field engineer's report on the inspection of the completion of construction work and application of water to beneficial use under the terms of Permit No. G-25058 shows that your well is capable of conveying 31 miner's inches (.62 c.f.s.) of water for irrigation of 75 acres. This permit is now entitled to a Certificate of Completion of Works and a License and Certificate of Water Right.

Upon receipt of the statutory fees, total of \$9.00, we will issue to you the Certificate of Completion of Works (for which the fee is five dollars) and the License (four dollars) confirming the right with priority of July 13, 1954, to your use of .62 second foot of subterranean water with the point of diversion in the SE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 8, for irrigation of 75 acres in the SE $\frac{1}{4}$ NW $\frac{1}{4}$ and NE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 8, Township 11 South, Range 37 East, B.M.

Mr. Delmar H. Barfuss

Dear Mr. Barfuss:

Under date of April 9, 1957, we wrote you an office letter which stated that before we could accept your proofs of completion of works and beneficial use on the above captioned permit that it would be necessary for you to furnish this office with an affidavit stating that Mr. Ben H. Bowen's office was open December 28, 1956, which was the day published for making proof before him and that there had been no protests against the application filed in his office.

Mr. Kulp, State Reclamation Engineer, says that the affidavit you sent is not satisfactory in that it does not contain sufficient information. It is necessary that you show by affidavit - why proofs were not made and why you did not appear before the notary public at 9:00 A.M. on the 28th day of December, 1956, the time and date set in the publication notice. Also, the reason you appeared several days late and why you made your proofs before a different notary.

Please have your attorney prepare a sufficient affidavit which will protect your water right in the future in the event something would arise to protest the said right. It will be best that the affidavit be worded in detail.

Please expedite this request so that we can continue to process your proofs.

Dear Mr. Barfuss:

We wish to acknowledge receipt of proof of application of water to beneficial use and completion of works on the above captioned permit.

Our records disclose that notice of proof and completion of works and application of water to beneficial use was advertised in The McCammon News and publication stated that proof was to be taken at 9:00 a.m. on the 28th day of December at Downey, Idaho before Ben H. Bowen, Notary Public. We observe that your proofs were not notarized until April 1, 1957, and signed by a notary of the name of Russell J. Hyde. Before we can accept said proofs it will be necessary for you to get an affidavit from Mr. Ben H. Bowen stating that his office was open for business on December 28, 1956, and on that day or before no protests against that application were received by Mr. Bowen. With this affidavit for our records we may be able to accept said proofs.

The Notary Public to which I shall make
proof will be Ben H. Bowen, Downey State Bank
Downey, Idaho.

The land that I wish to irrigate is the
same land as what my original permit called for.
That is, 35 acres in the SE $\frac{1}{4}$ NW $\frac{1}{4}$ and 40 acres
in the NE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 8, T11SSR 37E.

However I am not watering all of this
land because of unsufficient capacity of my
well. I was wondering if this would have any
bearing on my filing or permit dates?

The notice of publication date of

Mr. Delmer H. Barfuss
Downey
Idaho

Dear Mr. Barfuss:

We wish to acknowledge notice of proof for publication of completion of works and application of water to beneficial use. However, sending notice to the paper for publication, it will be necessary for the notice to have some amendments and corrections as follows:

You overlooked giving us the name of a Notary Public before whom you wish to make said proofs. Proofs can be made at any place convenient for yourself and your two witnesses. Also, we notice on the notice that the proof would be taken at 9:00 P.M. on the 30th day of October. This date does not allow for four weeks publication. Therefore, we will have to set a date about the 5th, 6th or 7th of December, which ever you prefer.

We also note that you gave as your place of use where the water is being used, as the SE $\frac{1}{4}$ of Section 8, Township 11 South, Range 37 East. Your permit calls for 35 acres in the SE $\frac{1}{4}$ and 40 acres in the NE $\frac{1}{4}$ SW $\frac{1}{4}$ Section 8, Township 11 South, Range 37 East. Providing you have changed the place of use from that stated in the Permit, it will be necessary for you to amend your permit in accordance therewith. Please send us the description of the exact ground you are irrigating with this water and if it does not correspond with the permit, we will then send you a form of amendment which you can amend your permit to agree with what is being watered.

Dear Sir

In answer to your inquiry on
Question 13 as to where the
water is obtained it is this.

I obtained the water from
the Portneuf Marsh Valley Canal
Co of Donny Idaho. However
I would like to state that we
are out of water now and I
have not gotten my full share
that I am entitled to.

Dear Mr. Barfuss:

We acknowledge receipt of your application for Permit to appropriate 75 inches of water from a well in the SE¹/₄ NW¹/₄ Section 8, Township 11 South, Range 37 East, B.M. accompanied by your check for the \$5.25 filing fee.

Question 13 states that there is one cubic foot per second appurtenant to the land upon which this well water is to be used. Please state the source or name of the stream from which this one second foot of water is obtained.

Very truly yours,

Dear Mr. Barfuss:

We are not quite sure whether you wish an application for permit to appropriate water from a well or a Well Driller's license.

We assume it is the former and we enclose an application for such permit together with a pamphlet giving regulations and instructions in regard to filing same.

When this application is approved, it will be signed by the proper State Officials and sent you as a use permit under which you may proceed with the construction of the work described in the application.

In order to complete your water right, proofs of Completion of Works and application of the water to Beneficial Use are required. The time required for making these proofs should be indicated under question 10.

If it is a Well Driller's License in which you are interested we can send you the necessary form of application upon request.

Very truly yours,
