TRANSFER NO. 5452
WATER RIGHT NO(S). 29-02274/29-02338/29-07375

CONDITIONS OF APPROVAL AND REMARKS

1. Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.
2. Use of water under this approval shall comply with applicable water quality standards of the Division of Environmental Quality of the Idaho Department of Health and Welfare.
3. The right holder shall accomplish the change authorized by this transfer within one (1) year of the date of this approval.
4. Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
5. Approval of this transfer does not preclude the opportunity for review of the validity of the water right(s) in the ongoing Snake River Basin Adjudication.
6. The right holder shall measure and annually report diversions of water and/or other pertinent hydrologic and system information as required by Section 42-701, Idaho Code.
7. Prior to diversion of water under this approval, the right holder shall provide a means of measurement acceptable to the Department from all authorized points of diversion which will allow determination of the total rate of diversion.
- * 8. The total instantaneous diversion of water from all points of diversion under Transfer 5452 shall not exceed 39.10 cfs.
9. The well(s) previously used under these rights shall be abandoned in a manner which complies with Department well abandonment rules.
10. Place of use is located within the City of Pocatello and the surrounding service area.
11. Two (2) points of diversion are located within SENE, and three (3) points of diversion are located within NWSE, of S35, T06S, R34E.

APPLICATION FOR AMENDMENT
TO PERMIT TO APPROPRIATE THE PUBLIC WATERS
OF THE STATE OF IDAHO, NO. G -24451

Comes now City of Pocatello and represents to the State Reclamation Engineer of the State of Idaho:

That he is the owner and holder of Permit to appropriate the Public Waters of the State of Idaho, No. G-24451.

That the point of diversion is described in said permit as being located at No. 3 Fire Station in the NE $\frac{1}{4}$ NE $\frac{1}{4}$, 27-6-34, E. B. M.

That he now requests that the point of diversion be changed to a point located in SW portion of Lot 17, Block 361, Original Pocatello Townsite.

That his reasons for desiring to make such change are as follows: The previous location of Well No. 12 at No. 3 Fire Station proved to be an unfavorable well field and a point of diversion was needed at Lot 17, Block 361, Original Townsite of Pocatello.

That no one will be injured by such change, and that such change will be made at Permit Holder's own risk.

Signed at Pocatello, Idaho, this 17 day of March, 1955,

W. B. WEBB, City Mgr.

Date of receipt at Department of Reclamation March 18, 1955.

APPROVAL OF STATE RECLAMATION ENGINEER

I, Mark R. Kulp, State Reclamation Engineer of the State of Idaho, hereby approve the above and foregoing application for amendment to Permit to appropriate the Public Waters of the State of Idaho, No. G-24451. This approval constitutes a new permit and is issued as an amendment to the original Permit, to which it refers and of which it becomes a part, and said application is approved only insofar as the rights of others will not be adversely affected thereby.

MARK R. KULP
State Reclamation Engineer

APPLICATION FOR AMENDMENT
TO PERMIT TO APPROPRIATE THE PUBLIC WATERS
OF THE STATE OF IDAHO, NO. G-24451

Comes now City of Pocatello and represents to the State Reclamation Engineer of the State of Idaho: That he is the owner and holder of Permit to appropriate the Public Waters of the State of Idaho, No. G-24451. That the point of diversion is described in said permit as being located Proposed Well #15 Ross Park in the NE $\frac{1}{4}$ SE $\frac{1}{4}$ 1-7-34 BM. That he now requests that the point of diversion be changed to a point located on Lot 9, Block 3, Palmer Tracts, a subdivision of the NW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec 6, T. 7 S. R. 35 E.B.M. That his reasons for desiring to make such change are as follows: The city has purchased and is operating for domestic purposes, an unfilled-on-well at the new point of diversion which is in the same general area.

That no one will be injured by such change, and that such change will be made at Permit Holder's own risk.

Signed at Pocatello, Idaho, this 7th day of December 1956

/s/ City of Pocatello, Idaho
W. B. Webb, City Mgr.

Application for Amendment
To Permit to Appropriate the Public Waters
of the State of Idaho, No. G-24451

Comes now CITY OF POCATELLO, IDAHO, and represents to the State Reclamation Engineer of the State of Idaho. That he is the owner and holder of Permit to Appropriate the Public Waters of the State of Idaho, No. G 24451, and requests that the point of diversion as described in said permit, be changed to read as follows: The point of diversion in said permit reads NW $\frac{1}{4}$ NE $\frac{1}{4}$ of Sec. 12, T7S, R34E BM. The well was moved easterly approximately 400' and the City of Pocatello requests that the point of diversion be changed to read SE $\frac{1}{4}$ SE $\frac{1}{4}$ of Sec. 1, T7S- R34E BM. The original location proved to be in an unfavorable well field. That the rights of others will not be adversely affected by such change, and that such change will be made at Permit Holder's own risk.

Signed at Pocatello, Ida, this 25th day of September, 1958

RE: TRANSFER # 5452

DATE: 5-4-99

=====

Original Transfer Application, Form and correspondence regarding the above referenced Transfer is located within file # 29-02274.

MICROFILMED

AUG 09 1999

MEMORANDUM

TO: Files 29-02274, 29-02338 & 29-07375

FROM: Pam Skaggs^{CS}/State Office

SUBJECT: Transfer 5452

DATE: June 18, 1999

Transfer 5452 changes and adds points of diversion under Rights 29-02274, 29-02338 and 29-07375. The city has closed some of their well due to groundwater pollution. The transfer identifies all the wells currently used and the addition of a new well under these combined municipal use rights.

A map identifying the specific locations of the points of diversion has been requested from region staff. Recommended conditions include drilling permit requirements, well abandonment requirements, water quality, multiple points of diversion/measuring devices, annual measuring & reporting, and standard transfer conditions.

Re: Permit No. G-24451
City of Pocatello, A Municipal Corporation

City of Pocatello
W. B. Webb, City Manager
P. O. Box 1489
Pocatello, Idaho

Dear Mr. Webb:

Our field engineer's report on his inspection of the completion of works and beneficial use of the water under the terms of Permit No. G-24451 shows that wells number 11, 12, 13, 15, 1 and 2 are capable of conveying for domestic use the following amounts of water:

Wells	Points of Diversion	Cubic Feet Per Second
11	NE $\frac{1}{4}$ SE $\frac{1}{4}$ Sec. 12, T6S-R33E	1.11
12	Lot 17, Blk 361 Original Pocatello Townsite	6.20
13	SE $\frac{1}{4}$ SE $\frac{1}{4}$ Sec. 1, T7S-R34E	2.22
15	NW $\frac{1}{4}$ SE $\frac{1}{4}$ S. c. 6, T7S-R35E	1.11
1	SW $\frac{1}{4}$ NE $\frac{1}{4}$ Sec. 15, T6S-R33E, PhillipsField	2.20
2	NE $\frac{1}{4}$ SE $\frac{1}{4}$ Sec. 10, T6S-R3E, PhillipsField	1.92

Upon receipt of the statutory fees, totaling \$11.50, we will issue the Certificate of Completion of Works (for which the fee is six dollars and fifty cents--based at the rate of five dollars for the first ten cubic feet and thirty cents for each additional foot or fraction thereof) and the License and Certificate of Water Right (five dollars) confirming the right with priority of September 1, 1953, to the use of 14.76 second feet of subterranean water from wells 11, 12, 13, 15, 1 and 2, with points of diversion as described above, for domestic use in the City of Pocatello and adjacent property.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO
REPORT OF ENGINEER

Permit No. G-24451This proof is for C/W & Beneficial Use

In Water District No. _____

1. Name of applicant City of Pocatello, A Municipal Corporation - Pocatello, Idaho
2. Source of water supply: Deep wells in waters of subterranean origin
3. Location of point of diversion: Is in the _____ of Section _____
T. _____ R. _____ County of Bannock & Power
4. Describe works as they exist, giving dimensions and capacities of same: _____

5. Water is used for: Municipal & domestic purposes for City of Pocatello and adjacent property
6. State whether or not water has been turned into works of diversion: _____

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):
City of Pocatello - and adjacent property,

The use of wells #11 and #1 & #2 at Phillips Field will be granted at capacity on basis of past usage and there is at present no apparent usage for so much water.

There is very little if any irrigation.

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach? _____

Remarks: *Presumably the wells would not have been drilled if they were not needed.*

See Report in # 20611

Use Municipal, Domestic

Filed = Sept. 1, 1953

Due = Sept 17, 1958

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

Re: Permits No. 20611 and G-24451
City of Pocatello, A Municipal Corporation

Mr. W. B. Webb, City Manager
City of Pocatello
P. O. Box 1489
Pocatello, Idaho

Dear Mr. Webb:

This acknowledges receipt of the Depositions of Holder and two Witnesses, the Affidavits of the Notary Public, and the Affidavits of Publication in The Idaho State Journal in proof of beneficial use under Permit No. 20611 and completion of works and beneficial use under Permit No. G-24451.

Before these permits are licensed, the law requires that a field examination be made by an engineer from this department. At this time we cannot say just when this will be made but our field engineer will contact you prior to the time he is to make the inspection so that you can arrange for someone to accompany him.

Enclosed is the Application for Amendment to Permit No. G-24451 as approved by the State Reclamation Engineer and recorded in the Department of Reclamation in Book 87 of Permits at Page 24451 amending the point of diversion described in permit as in the NW $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 12, Township 7 South, Range 34 East, B.M. to be changed to location in the SE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 1, Township 7 South, Range 34 East, B.M. This amendment should now be attached to the original permit to which it refers and of which it becomes a part.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer
By

Chief Clerk

EPR:nls
Enc.

G-24451

RECEIVED

Application for Amendment
To Permit to Appropriate the Public Waters
of the State of Idaho, No. G-24451

Comes now CITY OF POCA TELLO, IDAHO, and represents to the State Reclamation Engineer of the State of Idaho.

That he is the owner and holder of Permit to Appropriate the Public Waters of the State of Idaho, No. G 24451, and requests that the ~~point of diversion~~ ^{point of diversion} ~~as described in said permit, be changed to read as follows:~~

The point of diversion in said permit reads NW $\frac{1}{4}$ NE $\frac{1}{4}$ of Sec 12, T7S, R34 EBM.

The well was moved easterly approximately 400' and the City of Pocatello requests that the point of diversion be changed to read SE $\frac{1}{4}$ SE $\frac{1}{4}$ of Sec 1, T7S, R34 E BM

The original location proved to be in an unfavorable well field

That ~~no additional amount of water is to be taken~~ and that the rights of others will not be adversely affected by such change, and that such change will be made at Permit Holder's own risk.

Signed at Pocatello, Ida. this 25th day of September, 1958.

W. B. Webb
W. B. Webb, City Mgr.

Date of receipt at office of Department of Reclamation September 29, 1958

APPROVAL OF STATE RECLAMATION ENGINEER

I, GEO. N. CARTER, State Reclamation Engineer of the State of Idaho, hereby approve the above and foregoing application for amendment to Permit to Appropriate the Public Waters of the State of Idaho, No. G-24451. This approval constitutes a new permit and is issued as an amendment to the original permit, to which it refers, and of which it becomes a part, and said application is approved only insofar as the rights of others will not be adversely affected thereby.

Re: Permit No's - 20611 and G-24451

Mr. W. B. Webb
City Manager
P. O. Box 1489
Pocatello, Idaho

Dear Mr. Webb:

Reference is made to your letter of September 17, 1958, enclosing depositions in Proof of Beneficial Use on Permit No. 20611 and Completion of Works and Beneficial Use on Permit No. G-24451.

In checking these depositions, we find the following discrepancies.

1. Permit No. 20611 describes the location of wells 4, 5, 6 and 7 in the NW $\frac{1}{4}$ SE $\frac{1}{4}$ Section 35, Township 6 South, Range 34 East, B. M., and well No. 8 in the NW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 15, Township 6 South, Range 34 East. These descriptions seem to be reversed in Question 4 and 6 in the deposition of holder.
- 2(a) Permit No. G-24451 describes the well at the Army Air Base as in the SW $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 15, Township 6 South, Range 33 East, whereas your depositions give it in the SW $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 10, Township 6 South, Range 33 East, B. M.
- 2(b) Permit No. G-24451 describes well No. 13 (Golf Course) in the NW $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 12, Township 7 South, Range 34 East, B. M., but the map with the permit shows it in the NE $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 12 - (which is correct)?
- 2(c) The permit shows well No. 15 (Palmer Tracts) in the NW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 6, Township 7 South, Range 35 East, B. M., whereas your depositions show it in Township 33 South. We note that this is an amended tract and we are enclosing a form of Application for Amendment herewith, to be executed and returned to this department for approval and record.

*See reply from City of Pocatello
to 20611*

G-24451

W. B. Webb

September 19, 1958

C
O
P
Y

If the other discrepancies mentioned are errors in the depositions they may be corrected, otherwise amended applications will also be necessary.

Question (4) of the depositions of the witnesses are incomplete in that they do not give the points of diversion, however, since this is answered in detail in the depositions of the holder, all that is necessary will be to have the depositions of the witnesses refer to the answers of the holder.

Affidavit of publication in the Idaho Journal are a part of the publication and should accompany the depositions.

Since the published notice set September 16th as the date set for making proofs, and the depositions are dated September 17th, it will be necessary for the Notary Public to furnish affidavits to the effect that his office was open at the time set for proofs and that no protests were filed (if such is the case).

DEPARTMENT OF RECLAMATION

BOISE

RE: Permit No. G-24451

Date July 1, 1958

City of Pocatello
P. O. Box 1489
Pocatello, Idaho

Dear Sir:

The date for proofs of completion of works and application of water to beneficial use, as set out under the terms of Permit No. G-24451 are due not later than September 17, 1958.

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list which has been recorded in this department. If changes have been made on no amendments are on record, we advise that you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the above mentioned date, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point or points of diversion; and the location of use or the lands which are irrigated--all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with Form 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.

Very truly yours,

GEO. N. CARTER

Re: Permit No. G-24451
City of Pocatello

Mr. W. B. Webb
City Manager
City of Pocatello
Pocatello, Idaho

Dear Mr. Webb:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-24451. This proof is to be made on the 16th day of September, 1958, at 10:00 A. M., before B. D. Reese, Notary Public.

As of this date we have mailed the Notice to the Idaho State Journal, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then to mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses, who are familiar with the terms of the Permit and the work done thereunder, at the place, on the date, at the time and before the Notary as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and all depositions (Holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Very truly yours,

E. N. HUMPHREY

NOTICE OF PROOF OF COMPLETION OF WORKS
and
APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 10 A. M., on the 16th
day of September, 19 58, at Pocatello, County
of Bannock, State of Idaho, before B. D. Reese, Notary Public, proof will be submitted of the completion
of works for the diversion of 14^{38.04} cubic feet per second of underground
waters from a well, and of the application to beneficial use of said water, in
accordance with the terms and conditions of Permit No. G24451 hereto-
fore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding
said permit are City of Pocatello, Pocatello, Idaho

2. Said works of diversion will be fully completed on the date set for
such completion, and the amount of water which said works are capable of
conveying to the place of use is 14 cubic feet per second.

3. The use to which said water has been applied is Domestic,
Municipal water system purposes, and the amount applied to beneficial use is
14 cubic feet per second.

5. The place where said water is used is City of Pocatello

6. The date of priority which said user is prepared to establish is
September 1, 1953.

RECEIVED
JUN 19 1958

Department of Reclamation

Dear Sir;

Enclosed find forms 10, 11, and 36, in duplicate, to begin to finish up on wells under permit numbers 20611 and G24451.

We have a new well which has just been drilled and tested which we had hoped to get under G24451. However, time is going to make us refile on it under a new permit, as we won't have the pump installed and the well connected to the system by the expiration date of the permit. At the same time, we would like to file on our anticipated needs for the next few years. Would you please send us a Form # 3 so that we may do so?

On March 12, 1955, we asked to have the capacity of our # 3 well increased from 3.12 cfs to 4 cfs. This was denied because proof of completion of works had already been submitted. Can this additional water from this well be filed on under this new permit, giving us a priority date of June 15, 1948, for the first 3.12 cfs and the priority date of this new permit for the remainder?

Thank you,

W. B. Webb
City Manager

G24451

March 28, 1958

Re: Permits Nos. 20611 and G-24451

Mr. W. B. Webb
City Manager
P. O. Box 1489
City of Pocatello
Pocatello, Idaho

Dear Mr. Webb:

In reply to your letter of March 24th, requesting what procedure to follow in showing Proof of Beneficial Use on Permit No. 20611. The status of Permit No. 20611 from the records of this department shows a filing of 54 cubic feet per second. Certificate of Completion of Works was issued in connection with this permit on May 13, 1954. Proof of Beneficial Use is due September 2, 1959.

Before these proofs can be made, the statutory requirement is that notice of intention of proof be published once a week for four consecutive weeks in the County newspaper. For this required information, we have enclosed Form 10, in duplicate, which you are to complete and return. In filling out this form, be sure to include the time of day, the date (allowing for four weeks publication), the name of the town, the address of the place where the depositions will be taken, and, the name of the notary public before whom you will appear to take the depositions of proof (any place convenient for you and your two witnesses), the quantity of water filed on, for what purpose it is to be used, the point or points of diversion and the place of use--by legal land description.

Also enclosed is Form 11, which is the authorization for us to have the notice of proof published in the designated county newspaper at your expense. This is to be returned with Forms 10.

At the time we send the notice to the newspaper, we will also send to you the forms for the depositions of holder and two disinterested witnesses, which are to be executed at the time, on the date set, at the place and before the notary public, as was advertised in the publication of notice.

See letter in file 20611

G24451

Mr. W. B. Webb

-2-

March 27, 1958

In completing the Notice of proof for publication, the information should be taken from your permit, including any amendments made in connection with a change of point of diversion or land list which has been recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your notice is published.

Under Permit No. G-24451, you state that you would like to complete filing on the completed wells which includes wells No. 1, 2, 11, 12, 13, 15 and 18. You state well No. 18, in all probability, will be completed by September 17, 1958, which is the due date for Completion of Works and Beneficial Use. The point of diversion can be amended under Permit No. G-24451 and a form of amendment is enclosed herewith for that purpose.

Since Permit No. G-24451 was approved on September 17, 1953, we have given the maximum time that the work under the terms of this permit is to be completed, therefore, no extension of time in connection with this permit can be granted. The wells not completed by September 17, 1958 can not be proved up on under this permit, therefore, your other alternative would be to re-file.

We wish to explain why different forms are to be used in proving up on Permit No. 20611 and Permit No. G-24451. Under Permit No. 20611, which was that Completion of Works and Beneficial Use proofs could be made separate and a time limit given of five years for making Completion of Works and six additional years for making Beneficial Use Proofs. Under the new statute, (the underground water law), on "G" Permits, Completion of Works and Beneficial Use Proofs are to be made at the same time and on the same forms and the maximum time allowed for making these proofs is five years.

The preliminary steps for making proofs under Permit No. G-24451 is publishing the intent of the applicant to make proofs in four weekly issues of a county newspaper. We are therefore enclosing Form 36 in duplicate and also Form No. 11, which should be filled out and returned to this department at least 40 days prior to the time you wish to make said proofs.

The same procedure appertains to the preparation of these forms as given in the forepart of the letter.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

G-24451

APPLICATION FOR AMENDMENT
TO PERMIT TO APPROPRIATE THE PUBLIC WATERS
OF THE STATE OF IDAHO, NO. C-24451

RECEIVED
DEC 30 1956
Department of Reclamation

Comes now City of Pocatello and represents to the State Reclamation Engineer of the State of Idaho;

That he is the owner and holder of Permit to appropriate the Public Waters of the State of Idaho, No. C-24451.

That the point of diversion is described in said permit as being located PROPOSED WELL # 15 ROSS PARK IN THE NE1/4, SE1/4, 1-7-34 8M.

That he now requests that the point of diversion be changed to a point located ON LOT 9, BLOCK 3, PALMER TRACTS, A SUBDIVISION OF THE
NE1/4, SE1/4, SEC 6, T7S, R35 E8M.

That his reasons for desiring to make such change are as follows:
THE CITY HAS PURCHASED AND IS OPERATING FOR DOMESTIC PURPOSES, AN UNFILED ON WELL AT
THE NEW POINT OF DIVERSION WHICH IS IN THE SAME GENERAL AREA.

That no one will be injured by such change, and that such change will be made at Permit Holder's own risk.

Signed at POCATELLO, IDAHO, this 7TH day of DECEMBER 19 56

City of Pocatello Idaho
W. W. W. City Mgr.

Date of receipt at Department of Reclamation December 10, 1956

APPROVAL OF STATE RECLAMATION ENGINEER

I, Mark R. Kulp, State Reclamation Engineer of the State of Idaho, hereby approve the above and foregoing application for amendment to Permit to appropriate the Public Waters of the State of Idaho, No. C-24451. This approval constitutes a new permit and is issued as an amendment to the original permit, to which it refers and of which it becomes a part, and said application is approved only insofar as the rights of others will not be adversely affected thereby.

ATTENTION: Mr. A. W. Probart
Water Department

Dear Mr. Probart:

Reference is made to your letter of March 12 in regard to amendments which you wish to make in the above numbered Permits.

Since proof of completion of works has already been submitted and Certificate of Completion of Works issued on Permit No. 20611 showing a total of 70 inches from Well #3, the amount cannot be changed at the present time.

The location of Well #12 in your Permit No. G-24451 can be amended and we enclose a form of application for such amendment herewith. So far as the amount from this well is concerned, since no definite amount is shown from each well in the Permit application, no amendment will be necessary, but the amount will be determined when proof is submitted and inspection is made by an engineer from this Department.

Very truly yours,

Re: Permit Nos. 20611 and G-24451

Dear Mr. Kulp:

It is requested that the point of diversion or location of Well No. 12 be changed from No. 3 Fire Station in the NE $\frac{1}{4}$ NE $\frac{1}{4}$ 27-6-34 E.B.M. to S.W. portion of Lot 17, Block 361, Original Pocatello Townsite, and the capacity of this well changed from 2250 GPM, 5 c.f.s. to 2500 GPM 5.6 c.f.s. The previous location of this well proved to be an unfavorable well field and a point of diversion was needed at the new location.

It is also requested that the capacity of Well No. 3 located in the center of the NE $\frac{1}{4}$ Sec. 1, T. 7 S.R. 34 E.B.M. be changed from 1400 GPM 3.12 c.f.s. to 1800 GPM, 4 c.f.s. A pump of greater capacity was installed in Well No. 3.

A map showing the location of the wells is enclosed. At present neither of these wells are in production. Both have been tested and will be put into service as soon as the weather breaks so they can be connected to the system. If there are special forms to fill out or add information to on these wells please let us know.

Yours truly,

A. W. Probart

Dear Mr. Kulp:

Accompanying this letter is the necessary application to appropriate subterranean waters and to establish a priority date for our future requirements over the next 5 year period.

Future planning includes the following schedule. Work on Well No. 12 at # 3 Fire Station and Well No. 13 at the Golf Course will be completed sometime this year. Well No. 12 will pump directly into the distribution system. Well No 13 will serve the club house and property adjacent to the Golf Course. Well No. 14 at the Golf Course will be constructed in 1954 and will supplement the sprinkling system. Wells No. 15 at Ross Park, 16 at Caldwell Park, 17 at Brady Park and 18 at Northland Add'n will be constructed as the requirement demands increase and will pump directly into the distribution system.

The Army Airbase Wells No. 1 and 2 are completed and feed the Phillips Field distribution system, which serves the Airbase area. Well No. 11 at the Old Airport is completed and serves the adjacent Airport area.

Very truly yours,
