Permit No. G-24258

This proof is for Completion of Works & Beneficial Use In Water District No. _____

1. Name of applicant Jayson C. Holladay & Ruth R. Holladay
2. Source of water supply: Subterranean flow from a well
3. Location of point of diversion: Is in the NW $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 18
T. 7 S. R. 35 E. B. M. County of Bannock
4. Describe works as they exist, giving dimensions and capacities of same: Drilled well 8'4" x 4"
Pump - Jet mfg. by Advance Pump Co.; Motor made by Advance
Pump Co 2 $\frac{1}{2}$ HP. - Original depth to water 41' - Piping for
domestic uses + garden irrigation.
5. Water is used for: Irrigation and domestic
6. State whether or not water has been turned into works of diversion: Yes.
7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

NW $\frac{1}{4}$ NE $\frac{1}{4}$ Section 18, Twp. 7 South, Range 35 East, B. M.

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach?

Remarks: During the 8-13-58 inspection the Jayson C. Holladay
property was visited. It consists of 2 $\frac{1}{2}$ acres of residential
land in the NE cor. NW $\frac{1}{4}$ NE $\frac{1}{4}$ Sec 18 - Half of which has been
sold to Dr. J. P. Merkley. Messrs Holladay + Merkley each have built almost
to completion an expensive home on this land. The well of permit
G-24258 is located in a concrete-curbed pit which could not be entered
because of the weight of the cover. The inspector was alone at the
time. Mr Holladay was later interviewed at his office in Pocatello.
Neither Messrs Holladay or Merkley reside at their new homes but they come to be using the
well water on their yards at the new homes

This examination was made on the 13 day of Sept, 19 58

RE: Permit No. G-24258

Mr. Jayson G. Holladay
P.O. Box 1470
Pocatello, Idaho

Dear Mr. Holladay:

This acknowledges the Notice of proof of completion of works and application of water to beneficial use under Permit No. G-24258, to be made on the 2nd day of July, at 9:00 A. M. before Callis A. Caldwell, Notary Public.

As of this date we have mailed the Notice to the Idaho State Journal with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then to mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses, who are familiar with the terms of the permit and the work done thereunder, at the time, on the date, and at the place and before the Notary as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions (Holder and two Witness) are being returned. Also, be sure to enclose the Affidavit of Publication.

Very truly yours,

MARK R. KULP

Re: Permit # G-24258 (Proof due 3 July 1958)

Dear Mr. Kulp:

I am enclosing Form No. 11.

Also enclosing Form No. 36, in duplicate.

I am sorry, but I do not have the formula for reducing the capacity of the well to "cubic feet."

However, I applied for 2.16 Miner's inches, which I understand is 22.5 gals. per minute.

Par. 2 sets out the actual capability of the well (8" casing with pump) -- which I am advised is approximately 100 gal. per minute, or more.

Will you kindly insert in Par. 3 the correct designation as to cubic feet per second. I am not certain whether this applies to the amount of water actually applied for -- or the amount which the works are capable of conveying to the place of use.

I am sorry to trouble you to such an extent, but this (my own) is the only application I have had occasion to process.

Thank you.

Respectfully,

Jayson C. Holladay

Dear Sir:

The date for proofs of completion of works and application of water to beneficial use, as set out under the terms of Permit No. G-24258 are due not later than July 3, 1958.

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list which has been recorded in this department. If changes have been made on no amendments are on record, we advise that you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the above mentioned date, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point or points of diversion; and the location of use or the lands which are irrigated--all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with Form 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.

Very truly yours,

MARK R. KULP

Dear Mr. Holladay:

In answer to your letter of August 7, 1957 stating that yourself and Dr. J. P. Merkley who owns approximately 15 acres of land next to yours, who wishes to complete a well jointly for the 2 tracts of land.

You state that you have under the above captioned permit a filing of 2.16 acres and you wish to know if the permit can be amended to include additional water and additional lands.

We wish to state that the place of use can be amended to include the additional 15 acres, however, the amount of water filed on under said permit can not be amended to include any additional water. We would, however, suggest that you file a joint application for permit to include the amount of water based on one inch per acre, for the 15 acres, as well as your 2.16 acre tract. If this is done, you should relinquish Permit No. G-24258. You may prove up to the amount of 2.16 inches of water on said permit and file an additional permit to cover your neighbors 15 acres.

We are enclosing herewith a form of application, to be used for that purpose in case you wish to use same.

Very truly yours,

Re: Permit # G-24258

Dear Mr. Kulp:

I would appreciate some information from your office which is of some importance to me.

By the above-captioned permit, I was granted the right to appropriate subterranean waters, which are to be completed on or before July 3, 1958. My preference permit extended, however, only to 2.16 acres.

Now, however, Dr. Jay P. Merkley, who owns approximately 15 acres of land next to and adjacent to my 2.16 acres, wishes to complete a joint well which would furnish not only our culinary water but irrigation water for both tracts.

He has never applied for a permit and we would like to use my permit because of the fact that it was approved several years ago. Query: Is there some way that you can now amend my permit so as to show enough water to irrigate both tracts of land? Will you kindly advise if there is anything that can be done other than for Dr. Merkley now, at this date, to file for a permit on the other tract. As a practical matter, we only want to drill one well, and the well would be drilled on my property. Thanks kindly for your advice now, as the well-diggers wish to get started this month.

Thank you very kindly, Mr. Kulp.

Respectfully,

Jayson C. Holladay
