Mr. Kenneth C. Sorensen

Dear Mr. Sorensen:

In accordance with your letter of December 16 we shall correct your notice for proof of completion of works and beneficial use on Permit No. G-23640 to show the place of use as the SW $\frac{1}{4}$ of Section 23, Township 11 South, Range 37 East B.M. You mentioned December 23 as the date for making this proof but the publication cannot possibly start until next week and as the law requires publication once a week for four weeks the proof cannot be made on December 23. We have accordingly set January 15, 1955 as the date for making these proofs, and are sending a copy of the notice to the Downey Comet with instructions to publish once a week for four weeks and to send you the affidavit of publication together with statement of costs.

At the time set you should appear before Mr. Ben H. Bowen, Notary Public, together with two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder for the purpose of executing the enclosed depositions.

Dear Mr. Sorensen:

We are in receipt of duplicate notice for proof of Completion of Works and Beneficial Use on Permit No. G-23640.

In checking the place where the water is to be used we note that you only describe the NE $\frac{1}{4}$ NE $\frac{1}{4}$ SW $\frac{1}{4}$ Section 23, Township 11 South, Range 37 East B. M., which is the location of the well and the place of use as described in the application is the entire SW $\frac{1}{4}$ of this Section. With your permission we can correct the notice accordingly.

We also note that you have set December 13 as the date for making the proof which is of course an error as it did not reach us until December 14, and the law requires publication once a week for 4 weeks before making the proof. Please advise a later date far enough ahead to allow for 4 weeks publication.
