ATTENTION: Mr. Gus Carr Anderson

Dear Mr. Anderson:

We have the Report of our Field Engineer of Proof of Beneficial Use on Permit No. G-23374, in the name of Vestal and Leon Jensen. To correspond with the report, the permit needs an amendment to the point of diversion to read: SE $\frac{1}{4}$ SE $\frac{1}{2}$ of Section 5, Township 12 South, Range 37 E., B.M. Herewith is "Application for Amendment".

Upon receipt of the amendment and a check for the statutory fee of \$4.00 we can issue a License and Certificate of Water Right with priority of December 7, 1952, for the right of use of .4 second feet of the water of Marsh Creek with point of diversion in the SE $\frac{1}{4}$ SE $\frac{1}{2}$ of Section 5, Township 12 South, Range 37 East B.M., irrigating land in the SE $\frac{1}{4}$ SW $\frac{1}{4}$, SW $\frac{1}{4}$ SE $\frac{1}{2}$ of Section 4, Township 12 South, Range 37 E.B.M.

REPORT OF ENGINEER

Permit No. 23374

This proof is for Beneficial Use

In Water District No.

1. Name of applicant Vestal and Leon Jensen

2. Source of water supply: Marsh Creek

3. Location of point of diversion: Is in the SW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 4

T. 12 S. R. 37 E., B.M. County of Bannock

4. Describe works as they exist, giving dimensions and capacities of same: 25-h.p. Fairbanks - Morse Motor (hor.) Centrifugal Pump 10" x 8" 10" steel pipe line to outlet by ditch to fields by gravity. No pump house - No protection. Motor and pump mtd on a single steel frame.

5. Water is used for: Irrigation

6. State whether or not water has been turned into works of diversion: Yes

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

SE $\frac{1}{4}$ SW $\frac{1}{4}$ and SW $\frac{1}{4}$ SE $\frac{1}{4}$ of Sec. 4., Twp. 12 S., Rge. 37 E., B.M.

See map.

Crops are hay-grain-pasture.

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach? Portneuf

Remarks: This is a peculiar set-up. Pump and motor belongs to Mr. Barnes. Diversion is on Barnes' place. They merely extended Mr. Barnes ditch on across their field. He gives them the full flow for 24 hours makes one irrigation - and that joins up with the subsoil moisture and is sufficient for one good crop.

INSTRUCTIONS

PROOF OF COMPLETION OF WORKS

Messrs. Vestal & Leon Jensen
Downey C/o Vestal Jensen
Idaho
Dear Sir:-

Boise, Idaho

Under the terms of your permit No. 23374 you are required to complete your diversion works on or before December 17, 1954. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

Dear Mr. Anderson:

Mr. Jensen may be right as to there being unappropriated water in Marsh Creek, especially at certain times of the year. We have little discretion in approving an application for permit to appropriate unappropriated public water, even when we are of the opinion that during critical parts of the irrigation season, the stream is over-appropriated.

The stream was adjudicated in 1896, in the case of Liberty Hunt, et al., versus Chas. Thornton, et al., by decree of the District Court of the Fifth Judicial District, in and for Bennecko County, State of Idaho, with Judge D. W. Stanrod presiding. In addition, there have been a number of permits and licenses issued since 1896, some of them being of recent date. Also, we presume, as is the case on most streams in the State, there are rights claimed by reason of actual diversion and beneficial use which are not of record but might be confirmed by a court.

Dear Sir:

I would like to get a permit to drill a well for irrigation purposes.

The well is to be drilled on the property of Vestal & Leon Jensen and if successful will be used by Vestal & Leon Jensen, Glen Henderson and D. O. Barnes all of Downey Idaho.

Please consider application made and notify us as to what procedure we will have to do to proceed with the drilling.

All so we (Vestal & Leon Jensen) have some land that can't be irrigated by this well and we would like to make application for some water from Marsh Creek two miles south and west of Downey. We have about thirty acres of land which we would like to get water for.

It would not be necessary to install a ~~pup~~ pump for this water because there are two pumps close by and the owners have told us that either of them will pump the water for us if we can get the water.

Please give us any information we will need about the above requests.
