State of Idaho
License and Certificate of Water Right

Water License No. G-22223

Amount 2.8 Second Feet

Water District No.

Priority July 2, 1951

THIS IS TO CERTIFY that D. G. TAYLOR
of Rexburg, Idaho, made application for a permit to appropriate the
public waters of the State of Idaho, dated July 2, 1951; that Permit No. G-22223
was issued under said application; that Certificate of Completion of works, with a carrying capacity of
2.8 second feet, was issued thereunder on January 27, 1954, showing that said works
were completed on the 14th day of October, 1952; and that on the
day of 14th, October, 1952,

D. G. TAYLOR
of Rexburg, State of Idaho, made proof to the satisfaction of the
State Reclamation Engineer of Idaho, of the right to use the waters of a well (sub-
terranean flow) a tributary of, for the purpose of irrigation and domestic
use, under Use Permit No. G-22223 of the Department of Reclamation
and that said right to the use of said waters has been perfected in accordance with the laws of Idaho,
and is hereby confirmed by the State Reclamation Engineer of Idaho and entered of record in Volume
nine of Licenses at page 5221, on the 27 day of January, 1954;

The right hereby confirmed dates from July 2, 1951;

The Point of Diversion is located
in the SW 1/4 NE 1/4, Sec. 36, Tp. 6 S., R. 31 E., B. M. County Power
That the amount of water to which such right is entitled and hereby confirmed, for the purposes
aforesaid, is limited to an amount actually needed and beneficially used for said purposes, and shall
not exceed 2.8 cubic feet per second.

Description and location of use:

Twp.	Range	Sec.	Forty-acre Tract	No. Acres Described in Permit	No. Acres Actually Irrigated
6 S.	31 E.	36	E $\frac{1}{2}$ NE $\frac{1}{4}$	---	40
			W $\frac{1}{2}$ NE $\frac{1}{4}$		40
			E $\frac{1}{2}$ NW $\frac{1}{4}$		40

APPLICATION FOR PERMIT

To Appropriate the Subterranean Waters of The State of Idaho

Application No. G- 29951
Permit No. G- 22223
District No.

1. Name of Applicant: **D. G. TAYLOR**
Postoffice address: **Rexburg** County: **Madison** State: **Idaho**
2. Quantity of water claimed: **4.50 cubic feet per second**
 - (a) Rate of withdrawal in cubic feet per second. or Idaho
Miners' inches or gallons per minute.
 - (b) Annual withdrawal in acre feet per annum
3. Source of water supply: **Subterranean flow from a well**
4. Location of point of diversion or well is in the **SE** $\frac{1}{4}$ of the **NW** $\frac{1}{4}$ of Section **36**
Twp. 6 S. , Rge. **31 E.** , B.M., County of **Power**
5. Water is to be used for: **Irrigation and domestic purposes.**
6. If for municipal, industrial or recreational purposes, give:
 - (a) Point of use of water is in the $\frac{1}{4}$ of the $\frac{1}{4}$ of Section , Twp.
Rge. , B.M.
 - (b) Waste water or sewage effluent is to be returned to
at a point in the $\frac{1}{4}$ of the $\frac{1}{4}$ of Section , Twp. , Rge. , B.M.
7. Kind of works: **Well, pump and sprinkler system.**
8. Estimated cost of works: **\$ 20,000.00**
9. (a) Is reservoir to be used?
(b) Capacity of reservoir:
10. The time required for the completion of such work and complete application of the water to the proposed use is **Five (5)** years.
11. If applicant is a corporation, give:
 - I. (a) Date and place of incorporation:
(b) Amount of capital stock: \$ (c) Amount paid in: \$
(d) Names and addresses of directors:
 - II. The financial resources of the applicant are (a) Cash on hand: \$
(b) Treasury stock: (c) Bonds to be issued:
(d) Other resources:
12. The land to be irrigated is described in the following tabulation:
13. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are: **None**
 - (a) (cubic feet per second, inches or gallons per minute) of the water herein applied for is to be supplemental to the existing water rights.
 - (b) (cubic feet per second, inches or gallons per minute) is for new lands.

RE: Permits Nos. 21508 and G-22223

SCANNED
MAY 01 2001

Mr. J. W. Marshall
Box 29
Idaho Falls, Idaho

Dear Mr. Marshall:

In response to your telephone inquiry we have checked Mr. Humphrey's reports on the above numbered permits in the name of D. C. Taylor and which are operated by Mr. Neibaur.

Permit No. 21508 is on a well in the SE $\frac{1}{4}$ NE $\frac{1}{4}$ Section 11, Township 7 South, Range 31 East, T.7. and his report showed 119 inches delivered which was used to irrigate 130 acres in the NW $\frac{1}{4}$ of Section 11. As the application was only for 100 inches, license could only be issued for that amount. Priority date was May 19, 1950.

The report showed the temperature of the water at 70° Fahrenheit.

Permit No. G-22223 is on a well in the SE $\frac{1}{4}$ NE $\frac{1}{4}$ Section 36, Township 6 South, Range 31 East, T.6. Delivery was 140 inches and license issued for that amount for use on the 22 $\frac{1}{2}$ acres in the NW $\frac{1}{4}$ and all that portion of the NE $\frac{1}{4}$ Section 36, Township 6 South, Range 31 East, T.6. lying South of the line of the American Falls Reservoir.

The report does not give the temperature but he stated that it was a warm water well.

We trust that this will give you the information required.

Very truly yours,

W. R. TULP
State Reclamation Engineer

RE: Permit No. G-22223

Mr. Seth I. Neibaur
American Falls
Idaho

Dear Mr. Neibaur:

We duly received the partially completed applications of Mr. D. G. Taylor for amendment to the point of diversion and land list in Permit No. G-22223, which you sent us a few days ago.

However, on referring to the records on this Permit, we find that these amendments, signed by you, have already been recorded in this department.

All that is required now is for you to submit proof of beneficial use on this permit as amended.

Notice should be made in duplicate of Form 10 enclosed, setting the time and place and naming the Notary Public before whom the proofs are to be made. Both copies of Form 10 to be returned to this department together with Form 11 which is authorization for us to have the notice published at your expense in the designated county newspaper.

Very truly yours,

Effective April 10, 1911

Department of Reclamation

REGULATIONS AS TO AMENDED APPLICATION AND PERMIT.

Section 3255 of the Revised Codes, provides for the amendment of a permit as to lands upon which the water is to be used. The permit holder, to avail himself of the provisions of this section, should fill out and file with the Commissioner of Reclamation the application blank found upon the reverse side of the sheet. If there is not sufficient room in such blank for the legal description of the amended list of lands, this may be submitted as an exhibit, proper reference thereto being made in the application.

Before amended permit will be granted applicant must file with the application two maps, showing the following details:

- (a) Name of applicant.
- (b) Section, town and range numbers, where public survey has been made.
- (c) Source or sources of supply.
- (d) Point or points of diversion.
- (e) Route of ditch or ditches, including laterals delivering water within one mile of each 160 acre tract of the lands to be irrigated.
- (f) Lands to be irrigated to be shown by cross-hatching, outlining, or coloring.

If original permit called for more than 25 cubic feet per second, the maps must be prepared from actual survey and must be certified to by engineer in charge of survey, in the following form:

I hereby certify that this map was prepared from an actual survey made by me.....
19..... and correctly shows position of points indicated thereon.

RE: Permit No. G-22223

Mr. Seth I. Neibaur
American Falls
Idaho

Dear Mr. Neibaur:

We return your applications for amendment to the point of diversion and the land list described in Permit No. G-22223 in the name of D. G. Taylor, which has been approved by the State Reclamation Engineer and recorded in this department.

The report of our field engineer shows that the well in the SW $\frac{1}{4}$ NE $\frac{1}{4}$, Section 36, Township 6 South, Range 31 East, B.M. will deliver 140 inches of water or 2.8 cubic feet per second. A Certificate of Completion of Works and License can therefore be issued for that amount upon receipt of the statutory fees which amount to \$5.00 for Completion of Works proof and \$16.00 License fee, the latter being at the rate of \$2.00 for each forty acre subdivision upon which the water has been applied.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Boise, Idaho

Dear Mr. Humphrey:

I would suggest that you send all papers to Mr. Neibaur at American Falls, Idaho. He can forward them all to me for any signature that is needed and all other details he can take care of there on the ground.

Thank you very much for your cooperation in helping us get everything in order.

Sincerely yours,

Delbert G. Taylor

RE: Permit No. G-22223

Mr. Seth I. Neibaur
American Falls
Idaho

Dear Mr. Neibaur:

I am sorry to note that the amendments are made out in the name of Seth I. Neibaur, and the permit is in the name of D. G. Taylor. This was probably an error made in this office.

In order to get the whole matter straight, the following is necessary:

1. There must be a letter requesting permission to withdraw the proofs that were made and it must be signed by the owner. The letter should tell the reasons making it necessary to withdraw. Further, it should state that the works were all completed on the date given in the permit and that the withdrawal of proof is solely for the purpose of correcting the point of diversion and place of use.
2. The applications for amendment that you sent in are correct except that they also must be signed by the owner, Mr. D. G. Taylor.
3. After that has been done, it will be necessary to make proof again, including republishing of notice.
4. Enclosed are application forms. The letter of withdrawal should be of equal or earlier date than the amendments.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

RE: Permit No. G-22223

Mr. Seth I. Neibaur
American Falls
Idaho

Dear Mr. Neibaur:

Upon return to the office I have checked your file on Permit No. G-22223 and report the following:

1. The point of diversion is in error and was wrong in the published notice.
2. The permit does not include any land in the S $\frac{1}{2}$ of Section 36, Township 6 South, Range 31 East, B.M.
3. The land description on your proof of completion of works and beneficial use does not cover any of the land South of the center line of the section.

In view of the above, it will be necessary for you to (1) withdraw both of your proofs; (2) amend your point of diversion; (3) amend the land list; and (4) make your proofs all over again, including readvertising.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

RE: Permits Nos. 21508 and G-22223

Mr. Seth I. Heibaur
American Falls
Idaho

Dear Mr. Heibaur:

We have your letter of March 28, 1953, enclosing affidavits of publication in the Power County Press in connection with proof of completion of works and beneficial use on the above numbered permits in the name of D. G. Taylor.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact Mr. Taylor at the time he makes the examination so that arrangements may be made to show him over the grounds.

We note your statement as to the location of the well in Permit No. G-22223, and after we have the report from our field engineer, an amendment can be made.

We return the statements from the Power County Press in connection with publication of these notices. Doubtless they were enclosed to us in error as this cost is to be paid by the permit holder.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

RECEIVED
MAR 30 1953
Department of Reclamation

Ira A. Neibaur and Sons
American Falls, Idaho
March 28, 1953

Mark R. Kulp
State Reclamation Engineer
State House
Boise, Idaho

Dear Mr. Kulp,

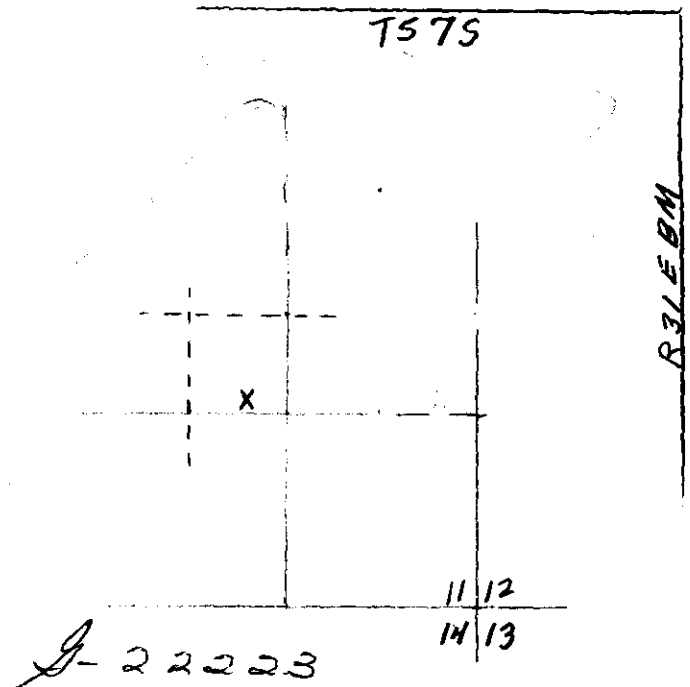

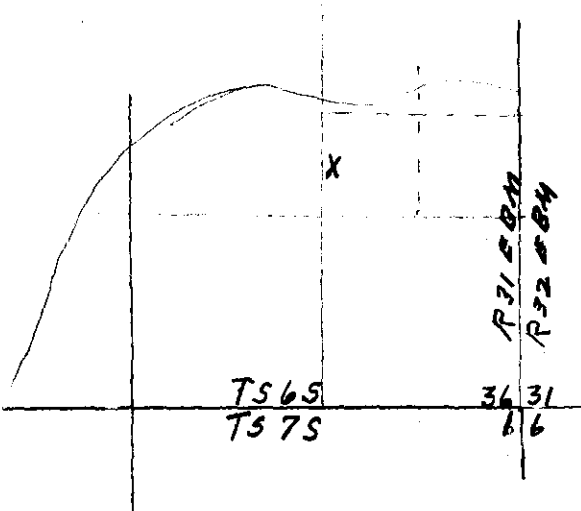

Reference; your letter of March 3, 1953 concerning proof of beneficial use on permit No. G-22223. In planning these sprinkler irrigation systems the well location is usually the center of property to be irrigated. However, in this case, a deep swale made it necessary to move the well location to the west of the center of the property and, it was assumed at the time that the permit was issued, to the west of the N-S quarter section line. Subsequent plans and surveys have placed the well on the east side of the N-S quarter section line. The actual location of the well is in the SW $\frac{1}{4}$ of the NE $\frac{1}{4}$ of section 36, TS6S, R31 EBM. The answer to question no. 4 is correct as stated.

In reference to permit No. 21508, the location of the well is in the SE $\frac{1}{4}$ of the NW $\frac{1}{4}$ of section 11(eleven), TS7S, R31 EBM instead of section 2.

Please find enclosed the affidavits of publication in the Power county Press.

Sincerely Yours,

Seth I. Neibaur

Permit No. G-22223

Proof of Application of Water to Beneficial Use and Completion of Works Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. D.G. Taylor, Home Address, Rexburg, Idaho. Present Residence:
Eastern States Mission, 973 5th Avenue, New York 21, New York.
Occupation: Automobile Dealer.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. -----

Ques. 3 State number and date of permit, and date of priority you propose to establish under the permit.

Ans. Permit No. G-22223. Priority Date: July 2, 1951

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Subterranean Well. Point of Diversion: in SW $\frac{1}{4}$ NE $\frac{1}{4}$ Sec. 36, Twp. 6 S.,
R. 31 E., B.M.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined.

Ans. Deep Well. Depth: 200 ft. Casing: 16 in., cased entire 200 ft.
Depth to water: 35 feet.

Pump discharge has been 1250 gals. per minute, measured with an
8 in. orifice plate installed in a 10 in. water line. Also
measured by Engineer's calculations.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation and domestic use. 224 acres lying within the following
perimeter, to-wit: Starting at ~~xxxx~~ the ~~xxxx~~ of E quarter cor. of
Sec. 36, Twp. 6 S., R. 31 E., B.M.; thence W. to W. Sec. line of said
Sec. 36; thence N. to meander line of American Falls Reservoir; thence
following meander line of American Falls Reservoir in a general NE
direction to East line of said Sec. 36; thence S. along said East line
of Sec. 36 to the point of beginning.

All is cultivated land. No natural meadow. All of land has been cleared,
plowed cropped and 2 houses built on this land at a cost of \$3,000.00

G 22223

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. Irrigation and domestic use only.

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. 2.8 cubic ft. per second.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. I am the person to whom the above mentioned permit was issued.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. Irrigation season of 1952 on all of above described land; water has been applied by means of sprinkler irrigation, to the full extent of 2.8 cy. ft. per second. 1952 crops harvested and marketed.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. No other water used.

(Sign)

W. J. Taylor

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in American Falls, County of Power, State of Idaho, on this 14th day of October, A. D. 1952.,

W. J. Taylor
Notary Public, residing at
American Falls, Idaho.

My commission expires Oct. 22, 1955.

BOISE, IDAHO

Permit No. G-22223

Proof of Application of Water to Beneficial Use
Deposition of Witness **and Completion of Works**

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. T.S. Vanderford, Aberdeen,
Idaho, Age 66, Residence: Aberdeen, Idaho
Potato Dealer, Aberdeen,
Occupation: Aberdeen, P.O. Address: Aberdeen, Idaho

Ques. 2. Are you acquainted with D.G. Taylor, the holder of Permit No. G-22223? How long have you known him and where does he reside? I have been dealing with his agents in Power County, Idaho, who have been developing this well and irrigated tract on behalf of Mr. Taylor. I have known Mr. Ira Neibaur, the agent, for the past two years. He lives about 7 miles East of American Falls, Idaho, either on or immediately adjacent to this tract of land.

Ques. 3. Have you read or heard read said Permit No. G-22223? Yes, and are you familiar with its provisions and conditions?

Ans. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Subterranean well; Place of Diversion: In SW $\frac{1}{4}$ NE $\frac{1}{4}$ Sec. 36, Twp. 6 S., R. 31 E., B.M. Water is conveyed from point of diversion to point of use by 10 in. steel pipe line and aluminum laterals, with overhead sprinklers.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. 1250 g.p.m., which amount I have seen being so conveyed.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. 1250 g.p.m., which amount I estimated from my own experience and observation of similar irrigation systems.

G-22223

All is cultivated land. No natural meadow. ~~All of land.~~ All land has been cleared, plowed crop 1 and 2 houses built on it at a cost of \$3,000.00

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation and domestic use. 224 acres lying within the following perimeter, to-wit: Starting at the East quarter corner of Sec. 36, Twp. 6 S., R. 31 E., B.M.; thence W. to the West Section line of said Sec. 36; thence N. to meander line of high water line of American Falls Reservoir; thence following said meander line in a general NE'ly direction to East line of said Sec. 36; thence S. along said East line of said Sec. 36 to the point of beginning.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. Not for power, but for irrigation and domestic use only.

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Character of land is light volcanic ash, generally gently rolling. This land will require 1 inch per acre of water for profitable irrigation.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. None whatever.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. 1952. Irrigation season of 1952, on all of the above described land; water has been applied by means of sprinkler irrigation to the full extent of 2.8 cu. ft. per second. 1952 crop was harvested and marketed. I observed this on the ground and bought the potato crop.

RE: Permit No. 22223

Mr. Seth I. Neibaur
American Falls
Idaho

Dear Mr. Neibaur:

We are in receipt of the depositions of D. G. Taylor and two witnesses in proof of completion of works and beneficial use on Permit No. G-22223.

Question 4 of the depositions gives the location of the well as in the SW $\frac{1}{4}$ NE $\frac{1}{4}$ Section 36, Township 6 South, Range 31 East, B.M., whereas the permit itself describes the location as in the SE $\frac{1}{4}$ NW $\frac{1}{4}$ of said section and it is so advertised. Possibly this is an error in the depositions and we return them for the necessary correction.

The affidavit of publication in the Power County Press is a necessary part of the proof and if you have not received it, we suggest you take the matter up with that newspaper.

Very truly yours,

RE: Permits Nos. 21508 and G-22223

Mr. Seth I. Neibeur
American Falls
Idaho

Dear Mr. Neibeur:

We shall send to the Power County Press, notice of proofs of completion of works and beneficial use to be made on Permits Nos. 21508 and G-22223 on October 14, 1952, before T. C. Sparks, Notary Public, at American Falls, with instructions to publish them once a week for four consecutive weeks prior to that date and to send you the affidavit of publication together with statement of costs.

We note your request that Permit No. 21508 be changed to include 3 second feet of water instead of 2 second feet. A permit cannot be amended to include an additional amount, so proof can be made at this time on only the 2 second feet covered by the permit. If the well will produce a larger amount of water, a new application may be filed for the additional amount.

We enclose the necessary forms of deposition to be used in making these proofs, consisting of one for the permit holder and one for each of two witnesses for each permit. You may make proof for the holder if it is so desired, and at the time set you should appear before the Notary Public together with two disinterested witnesses who are familiar with the terms of the permits and the work done thereunder for the purpose of executing the depositions.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

NOTICE TO ACCOMPANY THIS LETTER MUST BE MADE IN DUPLICATE

(Date) Sept. 1, 1952

(P. O.) American Falls, Idaho

TO THE STATE RECLAMATION ENGINEER:

Boise, Idaho.

Dear Sir:

You are hereby authorized to have the attached notice published at my expense in the
Power County Press of American Falls, Idaho published in
the county in which the works are situated.

D. H. Taylor
By Ira A. Heibauer & Sons

(In case of canals or other works designed to divert and carry more than 50 cubic feet of water per second, the following certificate must be signed by a well-known and competent engineer.)

I hereby certify that the facts set forth in the attached notice are true.

.....
Engineer.

July 18, 1951

Re: Permits Nos. G-22223, 22224,
22225 and 22226.

Mr. D. G. Taylor
Rexburg, Idaho

Dear Mr. Taylor:

We are this morning in receipt of your letter dated July 14, but postmarked July 16, inquiring as to your applications for Permit to appropriate water from wells.

Our records show that on July 11, 1951, we mailed you four Permits, and also receipt for the filing fee of \$23.25, for which amount we filled out your check.

You should have received this by this time, and if you have not done so, we suggest that you take the matter up with the Post Office.

The letter was addressed D. G. Taylor, Rexburg, Idaho, the same as the present letter.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Gentlemen:

Two or three weeks ago I sent you a check to pay for the filing of water rights and for the drilling of some wells. I sent the check made out to the Reclamation Service and asked you to complete the same for the exact amount, which was some where near \$20.00. To date I have not heard from you.

Will you please advise and send me the necessary papers and give me the amount for which the check was drawn.

Yours sincerely,

D. G. Taylor

Re: Permits Nos. G-22223, G-22224,
G-22225 and G-22226.

Mr. D. G. Taylor
Rexburg, Idaho

Dear Mr. Taylor:

We enclose Permits Nos. G-22223, G-22224,
G-22225 and G-22226, and direct your attention to
the limitations and conditions as given on the fourth
page under approval of the State Reclamation Engineer.

We also enclose Departmental Receipt No. 23516
for the \$25.25 filing fees on these four Permits.

Very truly yours,

June 30, 1951

Idaho State Reclamation
State Capitol Building
Boise, Idaho

Gentlemen:

I was in your office recently and made application for filing on use of underground water supplied by wells, Section 11 Township 7S Range 31 NE $\frac{1}{4}$ and NW $\frac{1}{4}$, also the NE $\frac{1}{2}$ and S $\frac{1}{2}$ of Section 36 Township 6S Range 31.

I am enclosing my check to pay for said filing. Please fill in the exact amount as I have misplaced the slip as to the cost.

I will look forward to getting the papers at an early date.

Yours sincerely,

D. G. Taylor

**NOTICE OF PROOF OF
COMPLETION OF WORKS**

**APPLICATION OF WATER TO
BENEFICIAL USE**

Notice is hereby given that at 2:30 P.M., on the 14th day of October, 1952, at 214 Ida. St., American Falls, County of Power, State of Idaho, before T. C. Sparks, Notary Public, proof will be submitted of the completion of works for the diversion of 2.8 cubic feet per second of the waters of underground flow from a well in the SE $\frac{1}{4}$ NW $\frac{1}{4}$ Section 36, T. 6 S., R. 31 E., B. M., and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. G-22223 heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit are Mr. D. G. Taylor, Eastern States Mission, 973 5th Ave., New York 21, N. Y.

2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use, in accordance with the plans accompanying the application for such permit, is 2.8 cubic feet per second.

3. The use to which said water has been applied is irrigation purposes, and the amount applied to beneficial use is 2.8 cubic feet per second.

4. The place where said water is used is N $\frac{1}{2}$ of sec. 36, T.6S., R. 31, E.B.M.

5. The date of priority which said user is prepared to establish is July 2, 1951.

MARK R. KULP,
State Reclamation Engineer.
