Re: Permit No. 22177

Mr. R. O. Hatch
Bancroft,
Idaho

Dear Mr. Hatch:

We have enclosed the following:

1. Application for amendment to Permit No. 22177 which was approved by the State Reclamation Engineer and recorded in Book 89 of Permits at Page 22177 in the Department of Reclamation amending the point of diversion to read "S1 - NE $\frac{1}{4}$ SW $\frac{1}{4}$, S2 - S $\frac{1}{2}$ SW $\frac{1}{4}$, Section 13, Township 13 South, Range 39 East, B.M." This should now be attached to the original permit to which it refers and of which it becomes a part.
2. License and Certificate of Water Right issued under Permit No. 22177, confirming the right with priority of May 8, 1951, to your use of .8 second foot of subterranean water, with the two points of diversion in the NE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 13, for irrigation of 160 acres in the SE $\frac{1}{4}$ NW $\frac{1}{4}$, SW $\frac{1}{4}$ of Section 13, Township 7 South, Range 39 East, B.M.
3. Departmental receipt #28855 for \$10.00, issued as receipt of the fee for the License.

Dear Mr. Hatch:

This acknowledges receipt of the application for amendment to Permit No. 22177 together with your check for fifteen dollars.

We have found that our letter to you of September 17, 1957, was in error in that the only fee necessary to complete your water right is that of ten dollars for the License and Certificate of Water Right. A Certificate of Completion of Works was issued to you on May 14, 1956.

We are sorry to cause you this inconvenience but since we have no way whereby we can refund the difference, we have returned your check for fifteen dollars and ask that you make one for ten dollars as payment of the fee for the license.

Re: Permit No. 22177

Mr. R. O. Hatch
Bancroft,
Idaho

Dear Mr. Hatch:

Our field engineer's report on the inspection of the completion of construction work and application of water to beneficial use under the terms of Permit No. 22177 shows that your two wells are located in the NE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 13, Township 13 South, Range 39 East, B.M. and that they are capable of conveying 40 miner's inches (.8 c.f.s.) of water for irrigation of 160 acres. The record of the permit shows the point of diversion for well #2 to be in the SE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 13, therefore, we have enclosed an application for amendment and ask that you please complete it and return.

Upon receipt of the amendment, mentioned above, and the statutory fees, total of \$15.00, we will issue the Certificate of Completion of Works (for which the fee is five dollars) and the License (ten dollars--based at the rate of two dollars for each 40-acre subdivision) confirming the right with priority of May 8, 1951, to your use of .8 second foot of subterranean water with the points of diversion in the NE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 13, for irrigation of 160 acres in the SE $\frac{1}{4}$ NW $\frac{1}{4}$, SW $\frac{1}{4}$ of Section 13, all in Township 7 South, Range 39 East, B.M.

Dear Mr. Hatch:

We acknowledge receipt of the depositions of yourself and two witnesses, also affidavit of publication in the Caribou County Sun, all submitted in proof of completion of works and beneficial use on Permit No. 177.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Dear Mr. Hatch:

On May 15, 1951, we addressed you in regard to the location of the wells described in your application to appropriate four second feet of water from two wells.

Question 4 in the application locates the wells in the NE $\frac{1}{4}$ SE $\frac{1}{4}$ and SE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 13, but the sketch map shows them in the NE $\frac{1}{4}$ SW $\frac{1}{4}$ and SE $\frac{1}{4}$ SW $\frac{1}{4}$.

We have had no reply and the application can not be approved until we have the correct location of the wells.

Dear Mr. Hatch:

We acknowledge return of your Application for Permit to appropriate four (4) second feet of water from two wells, accompanied by your check for the \$5.75 filing fee.

However, the location of the wells as given in Question 4 does not agree with the location shown on the sketch map. Question 4 locates the wells in the NE $\frac{1}{4}$ SE $\frac{1}{4}$ and SE $\frac{1}{4}$ SE $\frac{1}{4}$ Section 13, Township 7 South, Range 39 East, B.M. but the sketch maps show them in the NE $\frac{1}{4}$ SW $\frac{1}{4}$ and SE $\frac{1}{4}$ SW $\frac{1}{4}$ of said Section.

We assume that the sketch map is correct as the land where the water is to be used is the SW $\frac{1}{4}$ and SE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 13.

Please advise us to the exact location of these two wells.

Dear Mr. Hatch:

We return the Application for Permit to appropriate four second feet of water from two wells for correction as follows:

1. The location of the wells as described in Question 4 and shown on the sketch map does not agree as the sketch map shows one well in the SE $\frac{1}{4}$ NE $\frac{1}{4}$ and the other in the SE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 13.

2. The sketch map does not indicate the land to be irrigated, which we infer from Question 14 is the SE $\frac{1}{4}$ NW $\frac{1}{4}$ and the SW $\frac{1}{4}$ of said Section 13.

The sketch map should clearly show the lands to be irrigated and the location of the wells, and we enclose additional Forms "O" for your use.

Dear Mr. Hatch:

Reference is made to your letter of April 30th, 1951, in regard to filing on wells.

One application may be used for both wells, if the water is to be used on the same land, and we enclose herewith a form of application, together with a pamphlet giving regulations and instructions in regard to filing same.

When this application is approved, it will be signed by the proper state officials and returned to you as a use permit, following which two proofs are required by statute in order to complete your water right.

Proof of completion of works is made by an affidavit before a Notary Public, when the works described in the application are complete. In the case of wells, these would doubtless include the wells and pumps, and either pipe or ditches. The time required for that should be stated in question 12 of the application.

When the water has been completely applied for the use for which it is claimed- that is, irrigation, etc., proof of beneficial use must be made. This requires publication once a week for four consecutive weeks, on a form furnished by this department; and the proof is then made by yourself and two witnesses before the Notary Public named in the published notice. State the time under W.13.

Your priority date will be the date your application is filed in this department.
