APPLICATION FOR PERMIT
To Appropriate the Public Waters of the State of Idaho

APPLICATION No. 29817
PERMIT No. 22082
DISTRICT No.

1. Name of Applicant: **WELLAND A. HANSEN**

Postoffice address: **Bancroft**

County: **Caribou**

State: **Idaho**

I. If applicant is a corporation, give:

- (a) Date and place of incorporation:
- (b) Amount of capital stock:
- (c) Amount paid in:
- (d) Names and addresses of directors:

II. The financial resources of the applicant are:

- (b) Treasury stock:
- (d) Other resources:

(a) Cash on hand:

(c) Bonds to be issued:

2. Quantity of water claimed: **2.4**

cubic feet per second.

3. Source of water supply: **Subterranean well to tap the /** **underground water** which is a tributary of

4. Location of point of diversion:

feet distant from the

corner of Section , T. , R. , B. M., and is in the **NW $\frac{1}{4}$ NW $\frac{1}{4}$**

of Section **29** , T. **7 S.** , R. **39 E.** , B.M., County of **Caribou**

5. Water is to be used for **Irrigation**

6. If for mining, milling, power or manufacturing purposes, give:

(a) Point of use of water: feet distant from corner of Section

T. , R. , B.M., in the of Section , T. , R. , B.M.

(b) Amount of power generated: H.P., under feet head.

(c) Water is to be returned to at a point feet

distant from the corner of Section , T. , R. , B.M., in the
of Section , T. , R. , B.M.

7. Estimated cost of works: \$ **10,000.00**

8. Kind of works: **Well, pump, motor, ditches, headgates and pipe**

9. Height of dam feet; length of dam at top feet; length of dam at bottom

feet; material used in dam:

10. Size of headgate: Width feet; height feet.

11. Ditch: Width at bottom feet; width at water line feet; depth of water feet;

dimensions of flume:

Diameter of pipe inches; length of conduit miles.

Average grade per mile feet.

12. The time required for the completion of such work is **Three (3)** years.

13. The time required for the complete application of the water to the proposed use is **Two (2)** additional years.

14. The land to be irrigated is described in the following tabulation: See remarks.

15. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are: **None**

16. (a) Is reservoir to be used? **No** If so, fill in (b) and (c) below:
 (b) Name of Reservoir and number of Storage Permit:
 (c) Date of filing of Application for Storage Permit and Name of Applicant:

BE IT KNOWN THAT The undersigned hereby makes application for permit to appropriate the public water of the State of Idaho as herein set forth.

WELAND A. HANSEN

Applicant.

By

Agent.

Date of first receipt at Department of Reclamation 9:00 A. M. May 9, 1951

Returned to applicant for correction:

Corrected application received:

Approval of State Reclamation Engineer

The number of this permit is **22082**

Recorded in Book **79** Page **22082** Approved **May 12, 1951**

This is to certify that I have examined the within application for a permit to appropriate the public waters of the State of Idaho, and hereby approve the same, subject to the following limitations and conditions:

Bond in the sum of \$ _____ to be filed on or before _____

Work to begin on or before **July 12, 1951** and to continue diligently and uninterruptedly to completion, unless temporarily interrupted by circumstances over which permit holder has no control.

One-fifth of the work above specified to be completed on or before **November 12, 1952**

The whole of said work to be completed on or before **May 12, 1954**

Beneficial use of water appropriated in accordance herewith, to be made on or before **May 12, 1956**

WITNESS My hand this 12th day of May, 1951

MARK R. KULP

State Reclamation Engineer.

22082

✓
July 14, 1954

RE: Permit No. 22082

Mr. Welland A. Hansen
Bancroft
Idaho

Dear Mr. Hansen:

The report of our field engineer on examination for completion of works and beneficial use on Permit No. 22082 shows that your well in the NW $\frac{1}{4}$ NW $\frac{1}{4}$ Section 29, Township 7 South Range 39 East B.M. will produce 83 inches of water which has been used to irrigate 120 acres in the SW $\frac{1}{4}$ SW $\frac{1}{4}$ and W $\frac{1}{2}$ SE $\frac{1}{4}$ SW $\frac{1}{4}$ Section 20; and the NW $\frac{1}{4}$ NW $\frac{1}{4}$ and W $\frac{1}{2}$ SE $\frac{1}{4}$ NW $\frac{1}{4}$ Section 29, same Township and Range.

A Certificate of Completion of Works and License can, therefore, be issued upon receipt of the Statutory fees which amount to \$5.00 for Certificate of Completion of Works and \$8.00 license fee, or a total of \$13.00.

Very truly yours,

MARK R. KULP

RE: Permits Nos. 22086 & 22082

Messrs. Jones, Pomaroy & Jones
Box 610
Pocatello, Idaho

Gentlemen:

We acknowledge receipt of your letter of December 11, 1953, returning corrected depositions of the witnesses in proof of Completion of Works and Beneficial Use on the above numbered permits.

We have corrected the land description in the proof on Permit No. 22082 to include the $W\frac{1}{2}$ NE $\frac{1}{4}$ NW $\frac{1}{4}$ instead of the $W\frac{1}{2}$ NE $\frac{1}{4}$ SW $\frac{1}{4}$, Section 29. It will not be necessary to re-publish.

This completes the proof, but before final action is taken the law requires that a field examination be made by an engineer from this Department.

We cannot say just when this examination will be made, but our field engineer will contact the applicants at the time he makes the examination in order that arrangements may be made to show him over the project.

Very truly yours,

MARK R. KULP

NOTICE OF PROOF OF COMPLETION OF WORKS and APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at two o'clock p.m., on the 4th day of December, 1953, at Pocatello, County of Bannock, State of Idaho, before Ralph H. Jones, Jr., a Notary Public, proof will be submitted of the completion of works for the diversion of 2.4 cubic feet per second of the waters of Well No. 1, in NW $\frac{1}{4}$ NW $\frac{1}{4}$, Sect. 29, Twp. 7 S., Range 39, E. B. M. and of the application to beneficial use of said water, in accordance with the Terms and conditions of Permit No. 22082 heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit are Welland A. Hansen, Bancroft, Idaho.

2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use, in accordance with the plans accompanying the application for such permit, is 2.4 cubic feet per second.

3. The use to which said water has been applied is irrigation purposes, and the amount applied to beneficial use is 2.4 cubic feet per second.

4. The place where said water is used is SW $\frac{1}{4}$ SW $\frac{1}{4}$, W $\frac{1}{2}$ SE $\frac{1}{4}$ Sec. 20, Twp. 7 S., Range 39, E. B. M. and NW $\frac{1}{4}$ NW $\frac{1}{4}$, W $\frac{1}{2}$ NE $\frac{1}{4}$, SW $\frac{1}{4}$ Sec. 29, Twp. 7 S., Range 39, E. B. M.

5. The date of priority which said user is prepared to establish is May 9, 1951.

MARK R. KULP,
State Reclamation Engineer.

BOISE, IDAHO

Permit No. 22082

Proof of Application of Water to Beneficial Use
and Completion of Works

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Welland A. Hansen; Bancroft, Idaho; Farmer; Bancroft, Idaho

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. None

Ques. 3 State number and date of permit, and date of priority you propose to establish under the permit.

Ans. Permit No. 22082; date of permit: May 12, 1951; date of/ priority May 9, 1951

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. NW $\frac{1}{4}$ NW $\frac{1}{4}$ of Sec. 29, T. 7 S. R. 39, E.B.M. from subterranean well

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined.

Ans. By well, the well depth is 135 feet; size of casing is 16" diameter; pump installed is a Layne and Bowler deep well turbine with a Diesel international 55 h.p. motor; there is installed 2640 feet of 6" steel pipe with standpipe or outlet every 60 feet in said line with portable aluminum pipe to hook on said aluminum pipe being 3/4 mile long and 3" in diameter. Said well and pump are capable of at least 2.4 cu. ft. per sec. of water; the pipeline is more than adequate to convey said water from point of diversion to place of use; pump capacity is more than sufficient to pump 2.4 cu. feet of water per second; same was measured by Weir.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is and has been used for irrigation and said water has been used on the 120 acres described in permit 22082 which is as follows: SW $\frac{1}{4}$ SW $\frac{1}{4}$, W $\frac{1}{2}$ of SE $\frac{1}{4}$ of SW $\frac{1}{4}$, Sec. 20, T. 7 S. R. 39, E.B.M. also NW $\frac{1}{4}$ NW $\frac{1}{4}$, W $\frac{1}{2}$ of NE $\frac{1}{4}$ of NW $\frac{1}{4}$, Sec. 29, T. 7 S., R. 39. E.B.m.

22082

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. None

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. Minimum amount of water required for irrigation 2.4 cubic feet.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. Original permittee

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. During 1951-1952 and 1953 during the farming season 2.4 cubic feet per second of water has been used on the land described in permit 22082.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. None

(Sign) Welland A. Hansen

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in Porterville, County of Bannock, State of Idaho, on this 4th day of December, A. Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Newell Call, age 48 yrs.; Bancroft, Idaho; Farmer; Bancroft, Idaho

Ques. 2. Are you acquainted with Welland A. Hansen, the holder of Permit No. 22082? How long have you known him and where does he reside?

Ans. I have known him for 25 years and he resides at Bancroft, Idaho.

Ques. 3. Have you read or heard read said Permit No. 22082, and are you familiar with its provisions and conditions?

Ans. Yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use. If sprinkler system, describe.

Ans. Subterranean water; the place of diversion is from a well located in the NW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 29, T. 7 S. R. 39 E.B.M.; a well has been dug to a depth of 135 feet, the size of which has a 16" diameter and a 55 h.p. deep well turbine Diesel International motor has been installed to pump said water and 2640' of 6" steel pipeline, with standpipe or outlet every sixty feet in main line and with portable aluminum pipe to hook on, said aluminum pipe being 3 $\frac{3}{4}$ miles long 3" in diameter, which is ample to carry 3244 cubic feet of water

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. At least 2.4 cubic feet and I have seen that much water being safely conveyed by the above mentioned system.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. 2.4 cubic feet per second, measured by Weir.

22082

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. The water is used to raise hay, grain; the land is cultivated and it is now possible to raise barley crops and hay crops which have yielded 3 and 4 times as much crop as previously raised on said ground prior to the improvements herein mentioned. Place used: SW $\frac{1}{4}$ SW $\frac{1}{4}$, W $\frac{1}{2}$ of SE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 20, T. 7. S. R. 39, E.B.M.; NW $\frac{1}{4}$ NW $\frac{1}{4}$, W $\frac{1}{2}$ of NE $\frac{1}{4}$ of NW $\frac{1}{4}$, Sec. 29, T. 7 South, R. 39, E.B.M.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. None

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Prior to well and improvements the land was a dry farm and is now an irrigated farm. I estimate that the required amount of water for its profitable cultivation to be not less than 2.4 cubic feet per second of water.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. None

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have a farm which is located near the property of the permittee, Andrew L. Hansen, and I have seen the water put to beneficial use on the permittee's land, and have seen the water system installed by Mr. Hansen. I have had the opportunity to pass his farm about every day during the last three years.

(Signed)

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Locality, County of Bannock, State of Idaho, on this 4th day of December, A. D. 1953.

RE: Permits Nos. 22026 and 22082

Messrs. Jones, Pomeroy & Jones
Box 610
Pocatello, Idaho

Gentlemen:

We have your letter of December 9, 1953, enclosing depositions of Andrew L. Hansen and Welland A. Hansen, in proof of completion of works and beneficial use on Permits Nos. 22026 and 22082.

We return the depositions of the witnesses on both permits in order that Question 7 may give the legal description of the land upon which the water has been used.

We note that the land description in Permit No. 22082 includes the NW $\frac{1}{4}$ NW $\frac{1}{4}$ and W $\frac{1}{2}$ NE $\frac{1}{4}$ SW $\frac{1}{4}$ Section 29, Township 7 South, Range 39 East, B.M. This is in accordance with the published notice, but we think it is a typographical error as the permit describes the NW $\frac{1}{4}$ NW $\frac{1}{4}$ and W $\frac{1}{2}$ NE $\frac{1}{4}$ NW $\frac{1}{4}$, which we think is the correct description and this is probably a typographical error in the proofs.

Very truly yours,

MARK R. KULP

NOTICE OF PROOF OF COMPLETION OF WORKS
and
APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at two o'clock P. M., on the 4th day of December, 1953, at Pocatello, County of Bannock State of Idaho, before Ralph H. Jones, Jr. A Notary

Public, proof will be submitted of the completion of works for the diversion of 2.4 cubic feet per second of the waters of Well No. 1, in NW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 29, Twp. 7 S., Range 39, E.B.M. and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. 22082 heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit are Welland A. Hansen, Bancroft, Idaho

2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use, in accordance with the plans accompanying the application for such permit, is 2.4 cubic feet per second.

3. The use to which said water has been applied is irrigation purposes, and the amount applied to beneficial use is 2.4 cubic feet per second.

4. The place where said water is used is SW $\frac{1}{4}$ SW $\frac{1}{4}$, W $\frac{1}{2}$ SE $\frac{1}{4}$ Sec. 20, Twp. 7 S., Range 39, E.B.M. and NW $\frac{1}{4}$ NW $\frac{1}{4}$, W $\frac{1}{2}$ NE $\frac{1}{4}$ SW $\frac{1}{4}$ Sec. 29, Twp. 7 S., Range 39, E.B.M.

5. The date of priority which said user is prepared to establish is 9 May ~~1950~~ 1951.

RE: Permit No. 22082

Messrs. Jones, Pomeroy & Jones
Box 610
Pocatello, Idaho

ATT: Mr. Ralph H. Jones

Dear Mr. Jones:

We acknowledge receipt of your letter of November 4, 1953, enclosing duplicate notice of completion of works and beneficial use proof to be made December 4, 1953, on Permit No. 22082 (Welland A. Hansen) at Pocatello, Idaho, before you as Notary Public together with authorization to have same published in the Soda Springs Sun.

By this same mail we are sending a copy of the notice to the Soda Springs Sun with instructions in regard to publishing and advising them to send you the affidavit of publication together with statement of costs.

We enclose the necessary forms of deposition to be used in making these proofs and at the time set the permit holder should appear before you together with two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder for the purpose of executing the depositions.

No fee is required until after the proofs have been submitted and a field inspection made by an engineer from this department, so we return your check for \$5.00 which was enclosed in your letter.

Very truly yours,

MARK R. KULP

NOTICE OF PROGRESS OF COMPLETION OF WORKS

**and
APPLICATION OF WATER TO
BENEFICIAL USE**

Notice is hereby given that at two o'clock p.m., on the 4th day of December, 1953, at Pocatello, County of Bannock, State of Idaho, before Ralph H. Jones, Jr., a Notary Public, proof will be submitted of the completion of works for the diversion of 2.4 cubic feet per second of the waters of Well No. 1, in NW $\frac{1}{4}$ NW $\frac{1}{4}$, Sect. 29, Twp. 7 S., Range 39, E. B. M. and of the application to beneficial use of said water, in accordance with the Terms and conditions of Permit No. 22082 heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit are Welland A. Hansen, Bancroft, Idaho.

2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use, in accordance with the plans accompanying the application for such permit, is 2.4 cubic feet per second.

3. The use to which said water has been applied is irrigation purposes, and the amount applied to beneficial use is 2.4 cubic feet per second.

4. The place where said water is used is SW $\frac{1}{4}$ SW $\frac{1}{4}$, W $\frac{1}{2}$ SE $\frac{1}{4}$ Sec. 20, Twp. 7 S., Range 39, E. B. M. and NW $\frac{1}{4}$ NW $\frac{1}{4}$, W $\frac{1}{2}$ NE $\frac{1}{4}$, SW $\frac{1}{4}$ Sec. 29, Twp. 7 S., Range 39, E. B. M.

5. The date of priority which said user is prepared to establish is May 9, 1951.

MARK R. KULP,
State Reclamation Engineer.
