Section 26, Township 7 South, Range 38, E.B.M. Well, pump (Turbo electric),
aluminum laterals, steel main pipe, sprinkler system, used directly from
well. No canal or ditch used to convey water.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. 2 cu feet or 100 second inches

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. At least 2 cubic feet per second. From my many years experience
as a farmer I estimated the flow from said well.

22079

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Used for irrigation. Tract of land located in the SW $\frac{1}{4}$ of Sec. 26, Twp. 7 South, Range 38, E.B.M. constituting 95 acres more or less. This land more particularly described as follows, to wit: All that certain land lying East of Kelly Road in the SW $\frac{1}{4}$ of Sec. 26, Twp. 7 South, Range 38, E.B.M. Cultivated and improvement being from dry farm to irrigated farm.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. Used for irrigation only

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. From dry to irrigated farm. An inch to acre.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No interest

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. Driving by several times I have seen the irrigation system and sprinkling system working. Have seen the 95 acres irrigated by the waters diverted under said permit.

INSTRUCTIONS

PROOF OF COMPLETION OF WORKS

Mr. Lester Smith

Dancroft, Idaho

Boise, Idaho March 1, 1952

Dear Sir:-

Under the terms of your Permit No. 22079 you are required to complete your diversion works on or before May 12, 1952. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,
