29-2300

APPLICATION FOR PERMIT
To Appropriate the Public Waters of the State of Idaho

APPLICATION No. 29749
PERMIT No. 22026
DISTRICT No.

42-
CANCELLED pursuant to sec. 41-511
Idaho Code Annotated, by order of
State Reclamation Engineer
dated

1. Name of Applicant: ANDREW L. HANSEN

Postoffice address: Bancroft

County: Caribou

State: Idaho

I. If applicant is a corporation, give:

- (a) Date and place of incorporation:
- (b) Amount of capital stock:
- (c) Amount paid in:
- (d) Names and addresses of directors:

II. The financial resources of the applicant are:

- (a) Cash on hand:
- (c) Bonds to be issued:

- (b) Treasury stock:
- (d) Other resources:

2. Quantity of water claimed: Two (2) cubic feet per second.

3. Source of water supply Well to be drilled on the / NW $\frac{1}{4}$ of the NE $\frac{1}{4}$ of Section 25, Twp. 7 S., Range 38 E., B.M. which is a tributary of

4. Location of point of diversion: feet distant from the

corner of Section , T. , R. , B. M., and is in the NW $\frac{1}{4}$ NE $\frac{1}{4}$
of Section 25 , T. 7 S. , R. 38 E. , B.M., County of Caribou

5. Water is to be used for Irrigation

6. If for mining, milling, power or manufacturing purposes, give:

(a) Point of use of water: feet distant from corner of Section
T. , R. , B.M., in the of Section , T. , R. , B.M.

(b) Amount of power generated: H.P., under feet head.

(c) Water is to be returned to at a point feet
distant from the corner of Section , T. , R. , B.M., in the
of Section , T. , R. , B.M.

7. Estimated cost of works: \$ 10,000.00

8. Kind of works: Well, pump, motor, ditches, headgates and pipe

9. Height of dam feet; length of dam at top feet; length of dam at bottom
feet; material used in dam:

10. Size of headgate: Width feet; height feet.

11. Ditch: Width at bottom feet; width at water line feet; depth of water feet;
dimensions of flume:

Diameter of pipe inches; length of conduit miles.

Average grade per mile feet.

12. The time required for the completion of such work is Three (3) years.

13. The time required for the complete application of the water to the proposed use is Two (2) additional years.

14. The land to be irrigated is described in the following tabulation: See remarks.

15. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are:

16. (a) Is reservoir to be used? No If so, fill in (b) and (c) below:
 (b) Name of Reservoir and number of Storage Permit:
 (c) Date of filing of Application for Storage Permit and Name of Applicant:

BE IT KNOWN THAT The undersigned hereby makes application for permit to appropriate the public water of the State of Idaho as herein set forth.

ANDREW L. HANSEN *Applicant.*

Bv

Agent.

Date of first receipt at Department of Reclamation: 9:00 A. M. April 6, 1951

Returned to applicant for correction:

Corrected application received:

Approval of State Reclamation Engineer

The number of this permit is 22026

Recorded in Book 79 Page 22026 Approved April 7, 1951

This is to certify that I have examined the within application for a permit to appropriate the public waters of the State of Idaho, and hereby approve the same, subject to the following limitations and conditions:

Bond in the sum of \$ _____ to be filed on or before _____

Work to begin on or before June 7, 1951 and to continue diligently and uninterruptedly to completion, unless temporarily interrupted by circumstances over which permit holder has no control.

One-fifth of the work above specified to be completed on or before October 7, 1952

The whole of said work to be completed on or before April 7, 1954

Beneficial use of water appropriated in accordance herewith, to be made on or before April 7, 1956

WITNESS My hand this 7th day of April, 1951

MARK R. KULP

State Reclamation Engineer.

IN TESTIMONY WHEREOF, WE, LEN JORDAN, Governor of the State of Idaho,

and IRA H. MASTERS Secretary of State of the State of Idaho, have caused this instrument to

be executed in the name of the State of Idaho, and caused the Great Seal of the State of Idaho to be hereunto affixed, this 7th.....

day of April 19 51

STATE OF IDAHO

Countersigned:

(SEAL)

By **LEN JORDAN**

Governor.

By IRA H. MASTERS

Secretary of State.

REMARKS: At the site where the well is to be drilled, the elevation is such that all the lands herein described to be irrigated, can be irrigated by irrigation ditches by flooding. If, for any reason, it is necessary to use pipe or supply system on any of the land, the same will be installed by the applicant. The applicant expects to commence actual drilling as soon as the application herein has been approved by the Department of Reclamation.

Gentlemen:

We are processing a loan for Wayne C. Perkins of Bancroft, Idaho. He has two irrigation wells one located in Sec. 15, Twp 8 S Rng 39 EBM, the other in Sec. 25 Twp 7 Rng 38 EBM. We do not have the License number or amount and priority on these pumps. We would appreciate receiving this information and any other information you may have on these wells.

Thank you for your assistance.

Very truly yours,

RE: Permit No. 22026

Mr. Andrew L. Hansen
Bancroft
Idaho

Dear Mr. Hansen:

The report of our field engineer on examination for Completion of Works and Beneficial Use on Permit No. 22026 shows that your well in the NW $\frac{1}{4}$ NE $\frac{1}{4}$ Section 25, Township 7 South, Range 38 East, B. M. will deliver 90 inches or 1.8 cubic feet per second and that you have irrigated 90 acres in the N $\frac{1}{2}$ NE $\frac{1}{4}$ Section 25, Township 7 South, Range 38 East, B. M. and Lot 2 Section 30, Township 7 South, Range 39 East, B. M.

A Certificate of Completion of Works and License can, therefore, be issued for 1.8 second feet upon receipt of the Statutory fees which amount to \$5.00 for Certificate of Completion of Works and \$6.00 License fee or a total of \$11.00.

Very truly yours,

W. L. GULP

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO
REPORT OF ENGINEER

Permit No. 22026

This proof is for Completion of Works & Beneficial Use In Water District No. _____

1. Name of applicant Andrew L. Hansen, Bancroft, Idaho
2. Source of water supply: Subterranean from a well
3. Location of point of diversion: Is in the NW $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 25
T. 7 S. R. 38 E. County of Caribou

4. Describe works as they exist, giving dimensions and capacities of same: Well is 16" diameter by 150' deep, casing 56'. Lift 17'. No draw down. 8" column by 30' long, 14" bowls, single stage. No protection, concrete base 4' by 4'. Fairbanks Morse Pump No. PM 3495. LOHP, A. O. Smith No. 1765 RPM, 220 V. 25 AMP. No. 54867. Delivery is by gravity into a dike ditch which leads to the SE then East. There is a small Deming pump and sprinkler system that is used to pick up the water on the East side and pump to the high ground on the NE corner of the place.

5. Water is used for: Irrigation
6. State whether or not water has been turned into works of diversion: yes

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

Lots 1 and 2 Section 30; Twp. 7 South, Range 39 East, B. M.
NE $\frac{1}{4}$ NE $\frac{1}{4}$, NW $\frac{1}{4}$ NE $\frac{1}{4}$, Section 25; SW $\frac{1}{4}$ SE $\frac{1}{4}$ Section 24; Twp. 7 South, Range 38 East, B.M.

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach? _____

Remarks: _____

This examination was made on the 23 day of June, 19 54

(Signed) E. M. Humphrey Examiner.

22026

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

Re: Permits Nos. 22026 & 22082

Messrs. Jones, Homeroy & Jones
Box 610
Pocatello, Idaho

Gentlemen:

We acknowledge receipt of your letter of December 11, 1953, returning corrected depositions of the witnesses in proof of Completion of "orks and Beneficial Use on the above numbered permits.

We have corrected the land description in the proof on Permit No. 22082 to include the $W\frac{1}{2}$ NE $\frac{1}{4}$ NW $\frac{1}{4}$ instead of the $W\frac{1}{2}$ NE $\frac{1}{4}$ SW $\frac{1}{4}$, Section 29. It will not be necessary to re-publish.

This completes the proof, but before final action is taken the law requires that a field examination be made by an engineer from this Department.

We cannot say just when this examination will be made, but our field engineer will contact the applicants at the time he makes the examination in order that arrangements may be made to show him over the project.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

Permit No. 22026

Proof of Application of Water to Beneficial Use

Deposition of Witness and Completion of Works

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Joseph G. Eliason; age 51; Bancroft, Idaho; Farmer; Bancroft, Idaho

Ques. 2. Are you acquainted with Andrew L. Hansen, the holder of Permit No. 22026? How long have you known him and where does he reside?

Ans. I have known him for 25 years and he resides at Bancroft, Idaho

Ques. 3. Have you read or heard read said Permit No. 22026, and are you familiar with its provisions and conditions?

Ans. Yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Subterranean water; the place of diversion is from a well located in the NW 1/4 NE 1/4 of Sec. 25, T. 7 S. R. 38 E. B. M.; a well has been dug to a depth of 150 feet, the size of which has a 16" diameter and a 10 H. P. deep well turbine electric motor has been installed to pump said water and a main ditch has been constructed upon the premises described in permit 22026 for a distance of 3250 feet which is ample to carry 2 cubic feet of water and there has also been installed 1320 feet of portable 4" sprinkler pipe.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. At least 2 cubic feet and I have seen that much water being safely conveyed by the above mentioned system.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. 2 cubic feet per second, measured by Weir.

22026

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. The water is used to raise hay, grain; the land is cultivated and it is now possible to raise barley crops and hay crops which have yielded 3 and 4 times as much crop as previously raised on said ground prior to the improvements herein mentioned. Place used: Sly 11 acres of Lot #1 in the NW $\frac{1}{4}$ of Sec. 30, T. 7 S., R. 39 E., B.M.; Lot #2 in NW $\frac{1}{4}$ of Sec. 30, T. 7 S., R. 39, E.B.M.; NW $\frac{1}{4}$ of NE $\frac{1}{4}$ of Sec. 25, T. 7 S., R. 38, EBM; Sly 25 $\frac{1}{2}$ acres of NE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 25, T. 7 S., R. 38, E.B.M.; 2.56 acres in SW corner of SW $\frac{1}{4}$ of SE $\frac{1}{4}$, Sec. 24, T. 7 S., R. 38, E.B.M.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. None

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Prior to well and improvements the land was a dry farm and is now an irrigated farm. I estimate that the required amount of water for its profitable cultivation to be not less than 2 cubic feet per second of water.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. None

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have a farm which is located near the property of the permittee, Andrew L. Hansen, and I have seen the water put to beneficial use on the permittee's land, and have seen the water system installed by Mr. Hansen. I have had the opportunity to pass his farm about a dozen times a summer.

(Signed)

Joseph L. Eliason

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Pocatello, County of Bannock, State of Idaho, on this 4th day of December, A. D. 19 53.

Ralph W. Jones, Jr.
Notary Public.

My commission expires

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

Permit No. 22026

Proof of Application of Water to Beneficial Use
and Completion of Works
Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Newell Call, age 48, Farmer, Bancroft, Idaho

Ques. 2. Are you acquainted with Andrew L. Hansen, the holder of Permit No. 22026? How long have you known him and where does he reside? I have known him for 25 years and he resides at Bancroft, Idaho

Ans. _____

Ques. 3. Have you read or heard read said Permit No. 22026, and are you familiar with its provisions and conditions?

Ans. Yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use. sprinkler system, describe

Ans. Subterranean water; the place of diversion is from a well located in the NW $\frac{1}{4}$ of the NE $\frac{1}{4}$ of Sec. 25, T. 7 S. R. 38 E.B.M.; a well has been dug to a depth of 150 feet, the size of which has a 16" diameter and a 10 H.P. deep well turbine electric motor has been installed to pump said water and a main ditch has been constructed upon the premises described in permit 22026 for a distance of 3250 feet which is ample to carry 2 cubic feet of water, and there has also been installed 1320 feet of portable 4"

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. At least 2 cubic feet and I have seen that much water being safely conveyed by the above mentioned system

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. 2 cubic feet per second, measured by Weir.

22026

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. The water is used to raise hay, grain; the land is cultivated and it is now possible to raise barley crops and hay crops which have yielded 3 and 4 times as much crop as previously raised on said ground prior to the improvements herein mentioned. Place used: Sly 11 acres of Lot #1 in NW $\frac{1}{4}$ of Sec. 30, T. 7 S., R. 39, E. B. M.; Lot #2 in NW $\frac{1}{4}$ of Sec. 30, T. 7 S., R. 39, E. B. M.; NW $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 25, T. 7 S., R. 38, E. B. M.; Sly 25 acres of NE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 25, T. 7 S., R. 38, E. B. M.; 2.56 acres in SW corner of SW $\frac{1}{4}$ of SE $\frac{1}{4}$, Sec. 24, T. 7 S., R. 38, E. B. M.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. None

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Prior to well and improvements the land was a dry farm and is now an irrigated farm. I estimate that the required amount of water for its profitable cultivation to be not less than 2 cubic feet per second of water.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. None

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have a farm which is located near the property of the permittee, Andrew L. Hansen, and I have seen the water put to beneficial use on the permittee's land, and have seen the water system installed by Mr. Hansen. I have had opportunity to pass his farm practically every day during the last three years.

(Signed) James E. Case

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Pocatello, County of Bannock, State of Idaho, on this 4th day of December, A. D. 1953.

RE: Permits Nos. 22026 and 22082

Messrs. Jones, Pomeroy & Jones
Box 610
Pocatello, Idaho

Gentlemen:

We have your letter of December 9, 1953, enclosing depositions of Andrew L. Hansen and Welland A. Hansen, in proof of completion of works and beneficial use on Permits Nos. 22026 and 22082.

We return the depositions of the witnesses on both permits in order that Question 7 may give the legal description of the land upon which the water has been used.

We note that the land description in Permit No. 22082 includes the $\frac{1}{4}$ NW $\frac{1}{4}$ and $\frac{1}{4}$ NE $\frac{1}{4}$ SW $\frac{1}{4}$ Section 29, Township 7 South, Range 39 East, B.M. This is in accordance with the published notice, but we think it is a typographical error as the permit describes the NW $\frac{1}{4}$ NW $\frac{1}{4}$ and $\frac{1}{4}$ NE $\frac{1}{4}$ NW $\frac{1}{4}$, which we think is the correct description and this is probably a typographical error in the proofs.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

NOTICE OF PROOF OF COMPLETION OF WORKS

and APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at two o'clock p.m., on the 4th day of December, 1953, at Pocatello, County of Bannock, State of Idaho, before Ralph H. Jones, Jr., a Notary Public, proof will be submitted of the completion of works for the diversion of two cubic feet per second of the waters of Well No. 1 in NW¼NE¼, Sec. 25, Twp. 7 S., Range 38, E. B. M. and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. 22026 heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit are Andrew L. Hansen, Bancroft, Idaho.

2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use, in accordance with the plans accompanying the application for such permit, is two cubic feet per second.

3. The use to which said water has been applied is irrigation purposes, and the amount applied to beneficial use is two cubic feet per second.

4. The place where said water is used is Southerly 11 acres of Lot No. 1 in NW¼, Sec. 30, Twp. 7 S., Range 39, E. B. M.; and All of Lot No. 2 in NW¼ of Sec. 30, Twp. 7 S., Range 39, E. B. BOISE, IDAHO

Permit No. 22026

Proof of Application of Water to Beneficial Use
and Completion of Works

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Andrew L. Hansen; Bancroft, Idaho; Farmer; Bancroft, Idaho

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. None

Ques. 3 State number and date of permit, and date of priority you propose to establish under the permit.

Ans. Permit No. 22026, April 7, 1951, April 6, 1951

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Subterranean water; the place of diversion is from a well located in the NW $\frac{1}{4}$ NE $\frac{1}{4}$ of Sec. 25, T. 7 S. R. 38 E.B.M.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined.

By well, the well depth is 150 feet; size of casing is 16" in diameter; Ans. pump installed is a 10 h. p. deep well turbine electric motor; a main ditch has been constructed upon the premises described in permit 22026 for a distance of 3250 feet which is ample to carry 2 cubic feet of water and there has also been installed 1320 feet of portable 4" sprinkler pipe; Said well and pump are capable of at least 2 cu. ft. per sec. of water; pump capacity is more than sufficient to pump 2 cu. feet of water per second; same was measured by Weir.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is and has been used for irrigation and said water has been used on the 100 acres described in permit 22026 which is as follows:
The Southerly 11 acres of Lot #1 in the NW $\frac{1}{4}$ of Sec. 30, T. 7 S. R. 39 E.B.M.
All of Lot #2 in the NW $\frac{1}{4}$ of Sec. 30, T. 7 S. R. 39 E.B.M.
The NW $\frac{1}{4}$ NE $\frac{1}{4}$ of Sec. 25, T. 7 S. R. 38 E.B.M.
Southerly 25 acres of the NE $\frac{1}{4}$ of NE $\frac{1}{4}$, Sec. 25, T. 7 S. R. 38 E.B.M.
2.56 acres in the SW corner of the SW $\frac{1}{4}$ of the SE $\frac{1}{4}$ Sec. 24, T. 7 S. R. 38, E.B.M.

22026

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. None

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. Minimum requirement of water for irrigation of said land is 2 cu. ft. per sec.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. Original permittee

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. During 1951-1952 and 1953 during the farming season 2 cu. feet per second of water has been used on the land described in permit No. 22026

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. None

(Sign)

Andrew L. Hansen

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in Payette, County of Bannock, State of Idaho, on this 4th day of December, A. RE: Permit No. 22026

Messrs. Jones, Pomeroy & Jones
Box 610
Pocatello, Idaho

ATT: Mr. Ralph H. Jones

Dear Mr. Jones:

We acknowledge receipt of your letter of November 4, 1953, enclosing duplicate notice of completion of works and beneficial use proof to be made December 4, 1953, on Permit No. 22026 (Andrew L. Hansen) at Pocatello, Idaho, before you as Notary Public together with authorization to have same published in the Soda Springs Sun.

By this same mail we are sending a copy of the notice to the Soda Springs Sun with instructions in regard to publishing and advising them to send you the affidavit of publication together with statement of costs.

We enclose the necessary forms of deposition to be used in making these proofs and at the time set the permit holder should appear before you together with two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder for the purpose of executing the depositions.

No fee is required until after the proofs have been submitted and a field inspection made by an engineer from this department, so we return your check for \$5.00 which was enclosed in your letter.

motor. That he has constructed upon the premises hereinafter
described, a ditch which is 3250 feet long and is ample to carry
100 miner inches of water. There is also installed 1320 feet of
portable 4 inch aluminum sprinkler pipe.

That the place and nature of the use of the water mentioned
herein is for irrigation purposes and that the description of the
land irrigated is as follows, to wit:

The southerly 11 acres of Lot #1 in the Northwest quarter
of Section 30, Twp. 7 South, Range 39, E.B.M.

All of Lot #2 in the Northwest quarter of Section 30,
Twp 7 South, Range 39, E.B.M.

Northwest quarter of the Northeast quarter of Section 25,
Twp. 7 South, Range 38, E.B.M.

Southerly 25 acres of the Northeast quarter of the North-
east quarter, Section 25, Twp. 7 South, Range 38, E.B.M.

2.56 acres in the Southwest corner of the southwest quarter
of the southeast quarter, Section 24, Twp. 7 South, Range
38, E.B.M.

That 100 miner inches of water was put to beneficial use upon the
land above described during the entire irrigation season of 1952 and
1953. That the works for application to beneficial use of said water
was fully completed during the year 1952.

SUBSCRIBED AND SWORN TO BEFORE ME
THIS 4 DAY OF NOVEMBER, 1953.

22026

**NOTICE OF PROOF OF COMPLETION OF WORK
and
APPLICATION OF WATER TO
BENEFICIAL USE**

Notice is hereby given that at two o'clock p.m., on the 4th day of December, 1953, at Pocatello, County of Bannock, State of Idaho, before Ralph H. Jones, Jr., a Notary Public, proof will be submitted of the completion of works for the diversion of two cubic feet per second of the waters of Well No. 1 in NW $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 25, Twp. 7 S., Range 38, E. B. M. and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. 22026 heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit are Andrew L. Hansen, Bancroft, Idaho.

2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use, in accordance with the plans accompanying the application for such permit, is two cubic feet per second.

3. The use to which said water has been applied is irrigation purposes, and the amount applied to beneficial use is two cubic feet per second.

4. The place where said water is used is Southerly 11 acres of Lot No. 1 in NW $\frac{1}{4}$, Sec. 30, Twp. 7 S., Range 39, E. B. M.; and All of Lot No. 2 in NW $\frac{1}{4}$ of Sec. 30, Twp. 7 S., Range 39, E. B. M.; and NW $\frac{1}{4}$ -NE $\frac{1}{4}$, Sec. 25, Twp. 7 S., Range 38, E. B. M.; and Southerly 25 acres of NE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 25, Twp. 7 S., Range 38, E. B. M.; and 2.56 acres in Southwest corner of SW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 24, Twp. 7 S., Range 38, E. B. M.

5. The date of priority which said user is prepared to establish is April 6, 1951.

MARK R. KULP,
State Reclamation Engineer.
