REMARKS: Description of land planned for irrigation: W½ SE¼, NE¼ SE¼, SE¼ NE¼ Section 25, T. 7 S., R. 38 E., B.M.
It is planned that a well will be drilled at highest point in field, as shown on sketch map. Well casing will be 16" or 18" diameter. Pump will be installed and powered by combustion engine or electric motor.
It is planned that land will be eventually irrigated under a sprinkler system with laterals so spaced.
14. It is planned that combination of ditches (gradient) and sprinklers will be used until all sprinklers can be accomplished.
Exact pipe line and ditches needed cannot be determined at this time. It is planned that drilling operations will begin at the earliest possible time.

APPLICATION FOR AMENDMENT
TO PERMIT TO APPROPRIATE THE PUBLIC WATERS
OF THE STATE OF IDAHO, NO. 22024

Comes now Mike G. Shipley and represents to the State Reclamation Engineer of the State of Idaho:
That he is the owner and holder of Permit to Appropriate the Public Waters of the State of Idaho, No. 22024.
That the point of diversion is described in said permit as being located NE¼ SE¼ Section 25, Township 7 South, Range 38 East, B.M.
That he now requests that the point of diversion be changed to a point NW¼ SE¼ Section 25, Township 7 South, Range 38 East, B.M.
That his reasons for desiring to make such change are as follows: This was just an error in determining which quarter it was on at time of filing.
That no one will be injured by such change, and that such change will be made at Permit Nolder's own risk.
Signed at Bancroft this 3 day of Sept. 1953.

MIKE G. SHIPLEY

Date of receipt at Department of Reclamation Sept. 4, 1953.

APPROVAL OF STATE RECLAMATION ENGINEER

I, Mark R. Kulp, State Reclamation Engineer of the State of Idaho, hereby approve the above and foregoing application for amendment to Permit to Appropriate the Public Waters of the State of Idaho, No. 22024. This approval constitutes a new permit and is issued as an amendment to the original permit, to which it refers, and of which it becomes a part, and said application is approved only insofar as the rights of others will not be adversely affected thereby.

RE: Permit No. 22024

Mr. Mike G. Shipley
Bancroft
Idaho

Dear Mr. Shipley:

We now have on file the report of our field engineer on examination for completion of works and beneficial use on Permit No. 22024 in the name of C. E. Shipley.

The permit gives the point of diversion or location of the well in the NE¼ SE¼ Section 25, Township 7 South, Range 38 East, B.M., but this report seems to indicate that the well is just over the line and in the NW¼ SE¼ of said section.

If that is the case, an application for amendment should be made on the form enclosed and returned to this department for approval and record.

This report shows that your well will deliver 96 inches of water and that you have irrigated 148 acres in the SE¼ NE¼, W½ SE¼ and NE¼ SE¼ of Section 25.

Therefore, upon receipt of the statutory fees, Certificate of Completion of Works and License can be issued for 96 inches, or 1.92 cubic feet per second. The completion of works fee amounts to $5.00, and the license fee $8.00, or a total of $13.00.

RE: Permit No. 22024

Mr. Mike G. Shipley
Bancroft
Idaho

Dear Mr. Shipley:

We have your letter of July 16, 1952, enclosing partially completed notice of beneficial use under Permit No. 22024 in the name of C. E. Shipley.

Proof of completion of works has not yet been made on this permit and we infer from your letter that you are ready to make both proofs at this time.

We therefore enclose notice for both proofs, partially filled out, which you may complete by setting the time and place and naming the Notary Public before whom proof is to be made. Since the law requires publication once a week for four weeks prior to the date set for proof, this date should be sufficiently far ahead to allow for the four weeks' publication.
