

State of Idaho

License and Certificate of Water Right

Water License No. 21835

Amount Three second feet

Water District No. _____

Priority December 19, 1950

THIS IS TO CERTIFY that ROY ZARING

of American Falls, Idaho, made application for a permit to appropriate the public waters of the State of Idaho, dated December 19, 19 50; that Permit No. 21835 was issued under said application; that Certificate of Completion of works, with a carrying capacity of three second feet, was issued thereunder on August 16, 19 54, showing that said works were completed on the 20th day of July, 19 53; and that on the 20th day of July, 19 53,

ROY ZARING

of American Falls, State of Idaho, made proof to the satisfaction of the State Reclamation Engineer of Idaho, of the right to use the waters of a well

, exhibiting proof (subterranean flow), for the purpose of irrigation

, under Use Permit No. 21835 of the Department of Reclamation and that said right to the use of said waters has been perfected in accordance with the laws of Idaho, and is hereby confirmed by the State Reclamation Engineer of Idaho and entered of record in Volume

9 of Licenses at page 5326, on the 16th day of August, 19 54;

The right hereby confirmed dates from December 19, 19 50;

The Point of Diversion is located

in the NW 1/4 SE 1/4, Sec. 14, Tp. 8 S., R. 30 E., B. M. Power County

That the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited to an amount actually needed and beneficially used for said purposes, and shall not exceed Three (3) cubic feet per second.

Description and location of use:

Twp.	Range	Sec.	Forty-acre Tract	No. Acres Described in Permit	No. Acres Actually Irrigated
8 S.	30 E.	14	NE 1/4 NE 1/4	14	15
			NW 1/4 NE 1/4	28	35
			SW 1/4 NE 1/4	40	40
			SE 1/4 NE 1/4	8	20
			NE 1/4 SW 1/4	40	40
			NW 1/4 SW 1/4	10	40
			SE 1/4 SW 1/4	15	--
			NW 1/4 SE 1/4	20	25
Number of Acres Actually Irrigated -					215

The right to the use of the water aforesaid hereby confirmed is restricted to the lands or place of use herein described, as provided by the laws of Idaho.

WITNESS the seal and signature of the State Reclamation Engineer, affixed at Boise, Idaho, this 16th day of August, 19 54.

MARK R. KULP

State Reclamation Engineer.

APPLICATION FOR PERMIT

To Appropriate the Public Waters of the State of Idaho

29-2296

APPLICATION No. 29555
 PERMIT No. 21835
 DISTRICT No.

1. Name of Applicant: ROY ZARING

Postoffice address: American Falls

County: Power

State: Idaho

I. If applicant is a corporation, give:

(a) Date and place of incorporation:

(b) Amount of capital stock:

(c) Amount paid in:

(d) Names and addresses of directors:

II. The financial resources of the applicant are:

(a) Cash on hand: \$5,000.00

(b) Treasury stock:

(c) Bonds to be issued:

(d) Other resources: Land and cattle

2. Quantity of water claimed: 3.5

cubic feet per second.

3. Source of water supply: A well (subterranean flow)

which is a tributary of

4. Location of point of diversion:

feet distant from the

corner of Section , T. , R. , B. M., and is in the about the center of the NW $\frac{1}{4}$ SE $\frac{1}{4}$
 of Section 14, T. 8 S. , R. 30 E. , B.M., County of Power

5. Water is to be used for Irrigation

6. If for mining, milling, power or manufacturing purposes, give:

(a) Point of use of water: feet distant from corner of Section

T. , R. , B.M., in the of Section , T. , R. , B.M.

(b) Amount of power generated: H.P., under feet head.

(c) Water is to be returned to at a point feet

distant from the corner of Section , T. , R. , B.M., in the
 of Section , T. , R. , B.M.

7. Estimated cost of works: \$ 5,233.00

8. Kind of works: Well, pump, ditches

9. Height of dam feet; length of dam at top feet; length of dam at bottom

feet; material used in dam:

10. Size of headgate: Width feet; height feet.

11. Ditch: Width at bottom feet; width at water line feet; depth of water feet;

dimensions of flume:

Diameter of pipe inches; length of conduit miles.

Average grade per mile feet.

12. The time required for the completion of such work is Three (3) years.

13. The time required for the complete application of the water to the proposed use is - additional years.

14. The land to be irrigated is described in the following tabulation: See remarks.

15. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are: 34 shares in the Warm Creek Irrigation Company. I do not know the number of inches.

- BE IT KNOWN THAT The undersigned hereby makes application for permit to appropriate the public water of the State of Idaho as herein set forth.

By _____ *Agent.*

Corrected application received: December 22, 1950

The number of this permit is 21835
Recorded in Book 78 Page 21835 Approved December 26, 1950
This is to certify that I have examined the within application for a permit to appropriate the public waters of the State of Idaho, and
hereby approve the same, subject to the following limitations and conditions:
Bond in the sum of \$ to be filed on or before
Work to begin on or before February 26, 1951 and to continue diligently and uninterruptedly to completion,
unless temporarily interrupted by circumstances over which permit holder has no control.
One-fifth of the work above specified to be completed on or before June 26, 1952
The whole of said work to be completed on or before December 26, 1953
Beneficial use of water appropriated in accordance herewith, to be made on or before December 26, 1953

ENSE ISSUED FOR 3 SAC. FIA Pg. 5326 j																			

December 5, 1956

Mr. Roy Zering
American Falls
Idaho

Dear Mr. Zering:

In reply to your letter of December 4, 1956, we enclose a form of application for Permit to appropriate subterranean water from a well together with a pamphlet giving regulations and instructions in regard to filing same.

When this application is approved, it will be signed by the proper State Officials and sent you as a use Permit under which you may proceed with the construction of the work described in the application.

In order to complete your water right, proofs of completion of works and application of the water to Beneficial use are required. The time required for making these proofs should be indicated under Question 10.

Very truly yours,

MARK R. KULP

RE: Permit No. 21835

Mr. Roy Zaring
American Falls
Idaho

Dear Mr. Zaring:

The report of our field engineer on examination for completion of works and beneficial use on Permit No. 21835 shows that your well in the W¹/₄ Section 14, Township 8 South, Range 30 East B. will deliver 150 inches or 3 second feet of water, which has been used to irrigate 215 acres in the NW¹/₄, NE¹/₄ and NW¹/₄ SE¹/₄ of said Section.

A Certificate of Completion of works and License can, therefore, be issued for 150 inches or 3 second feet of water from said well upon receipt of the statutory fees, which amount to \$5.00 for Certificate of Completion of Works and \$14.00 license fee, the latter being at the rate of \$2.00 for each 40 acre subdivision in which the land is located.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO
REPORT OF ENGINEER

Permit No. 21835

This proof is for Completion of Works & Beneficial Use In Water District No. _____

1. Name of applicant Roy Zaring, American Falls, Idaho

2. Source of water supply: A well (subterranean flow)

3. Location of point of diversion: Is in the NW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 14

T. 8 S. R. 30 E. County of Power

4. Describe works as they exist, giving dimensions and capacities of same: _____

Well is 181' deep by 16" diameter. Cased 22'. Pump is down 134'. Two stage 14" diameter. Lift is 123', draw down is 1 $\frac{1}{2}$ foot. 10" column. 60 HP Fairbanks Morse Motor. Serial No. E 93180, 440 V., 71 Amps., 1765 RPM. Fairbanks Morse Pomona Pump No. PL 10630. Delivery is to the South through a pipe into a concrete ditch heading, thence to fields by gravity.

5. Water is used for: Irrigation.

6. State whether or not water has been turned into works of diversion: Yes.

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

NE $\frac{1}{4}$, NW $\frac{1}{4}$ SE $\frac{1}{4}$, N $\frac{1}{2}$ SW $\frac{1}{4}$, SE $\frac{1}{4}$ SW $\frac{1}{4}$ Section 14, Twp. 8 South, Range 30 East, B. M.

See the map.

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach? _____

Remarks: _____

This examination was made on the 28th day of June, 19 54.

(Signed) E. M. Humphrey Examiner.

21835

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

RE: Permit No. 21835

Mr. Roy Zaring
American Falls,
Idaho

Dear Mr. Zaring:

We have received from Mr. T. C. Sparks, Notary Public, the depositions of yourself and two witnesses, also affidavit of publication in the Power County Press, all submitted in proof of Completion of Works and Beneficial Use under Permit No. 21835.

Before final action is taken the law requires that a field examination be made by an engineer from this Department.

We cannot say just when this examination will be made, but our field engineer will contact you at the time he makes the examination in order that you may arrange to show him over the ground.

We return the receipted bill for publication, which no doubt you will wish to keep for your own files.

NOTICE OF PROOF OF COMPLETION OF WORK and APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at
2:30 o'clock, p.m., on the 24th day
of July, 1953, at American Falls,
County of Power, State of Idaho,
before T. C. Sparks, Notary Public,
proof will be submitted of the com-
pletion of works for the diversion of
3.5 cubic feet per second of the wa-
ters of subterranean well in the
center of the NW $\frac{1}{4}$ SE $\frac{1}{4}$ Section 14,
Twp. 8 S., Rge. 30 E., B. M. and of
the application to beneficial use
of said water, in accordance with
the terms and conditions of Permit
No. 21835 heretofore issued by the
Department of Reclamation of the
State of Idaho.

1. The name and postoffice address
of the person or corporation hold-
ing said permit are Roy Zaring,
American Falls, Idaho.

2. Said works of diversion will
be fully completed on the date set
for such completion, and the amount
of water which said works are cap-
able of conveying to the place of
use, in accordance with the plans
accompanying the application for
such permit, is 3.5 cubic feet per
second.

3. The use to which said water
has been applied is irrigation pur-
poses, and the amount applied to
beneficial use is 3.5 cubic feet per
second.

4. The place where said water is
used is NE $\frac{1}{4}$; NW $\frac{1}{4}$ SE $\frac{1}{4}$; N $\frac{1}{4}$
SW $\frac{1}{4}$ and SE $\frac{1}{4}$ SW $\frac{1}{4}$, Section 14,
Township 8 South, Range 30 East of
the Boise Meridian, Idaho.

5. The date of priority which
said user is prepared to establish is
December 19th, 1950. 21835

Permit No. 21835

Proof of Application of Water to Beneficial Use

Completion of Works

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Roy Zaring, Residence: American Falls, Idaho;

Occupation: Farmer; Postoffice address: American Falls, Idaho

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. Acting for myself, as an individual.

Ques. 3 State number and date of permit, and date of priority you propose to establish under the permit.

Ans. Permit No. 21835, dated December 26th, 1950. Priority: Dec. 19, 1950.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Subterranean Well. In center of NW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 14, Township

8 South, Range 30 East of the Boise Meridian.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined.

Ans. Well, 181 ft. in depth, 121 ft. to water. Well discharges into an open ditch, 2 $\frac{1}{2}$ ft. wide at bottom; 4 to 5 ft. wide at top, average depth 2 $\frac{1}{2}$ ft., which ditch carries water to lands to be irrigated. Ditch is not named. Well is cased first 22 ft. with 22 in. corrugated culvert. Well discharge is approximately 3.5 second ft. which was measured by an hydraulic engineer, using, I believe, a pitometer for his measurement.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Used for Irrigation and stock watering purposes. Irrigation water is used as follows: On NE $\frac{1}{4}$ NE $\frac{1}{4}$, - 14 acres; on NW $\frac{1}{4}$ NE $\frac{1}{4}$, - 28 acres; On SW $\frac{1}{4}$ NE $\frac{1}{4}$, - 40 acres; on SE $\frac{1}{4}$ NE $\frac{1}{4}$, - 8 acres; on NE $\frac{1}{4}$ SW $\frac{1}{4}$, - 40 acres; on NW $\frac{1}{4}$ SW $\frac{1}{4}$, - 10 acres; on SE $\frac{1}{4}$ SW $\frac{1}{4}$, - 15 acres; and on NW $\frac{1}{4}$ SE $\frac{1}{4}$, - 20 acres, all in Section 14, Twp. 8 S., R. 30 E., B.M. All is cultivated land, none of it is or was natural meadow land. As a result of use of this water, I have increased my irrigated crops and do not depend on dry farming so far as the above listed acreages are concerned.

21835

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. None used for power.

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. 3.5 cubic ft. per second, or 175 miner's inches.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. I am the owner to whom permit was originally issued.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. Crop seasons of 1951, 1952, and to date in 1953, all of the above described lands were irrigated from this well. The 1951 and 1952 crops were matured and harvested. (Potatoes, grain and hay) and the 1953 crops are in good condition and will be harvested this fall.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. 30 shares of Warm Creek water has been used to supplement the well water and has been used as far as it would reach. This creek water was sufficient for all irrigation early in the Spring, and I did not start my well irrigation until June 1st, when additional water became necessary to properly irrigate crops on the entire acreage. I own these 30 shares of Warm Creek water, but the use covers only so many hours each week and the total flow has never been determined. (Sign) Roy Garing

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that

said testimony was subscribed and sworn to before me, at my office in American Falls,

County of Power, State of Idaho, on this 20th day of July,

A. D. 1953,

R. Paul, Notary Public.
Residing at American Falls, Idaho.

My commission expires October 22, 1955.

21835

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

PERMIT NO. 21835

Proof of Application of Water to Beneficial Use
Deposition of Witness and Completion of Works

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. L.A. Ringe, Age 44, Residence: American Falls, Idaho. Occupation: Bulk
Distributor of Petroleum Products. P.O. Address: American Falls, Idaho.

Ques. 2. Are you acquainted with ROY ZARING, the holder of Permit No. 21835. Yes ? How long have you known him and where does he reside?

Ans. I have known him over 25 years. He resides at Neeley, Idaho, which is about
4 miles South of American Falls, Idaho.

Ques. 3. Have you read or heard read said Permit No. 21835, and are you familiar with its provisions and conditions?

Ans. Yes, to both portions of this question.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Deep Well. Point of diversion: Center of NW $\frac{1}{4}$ SE $\frac{1}{4}$ Sec. 14, Twp. 8 S., R. 30 E., B.M.
Well discharges into open ditch which carries water to lands to be irrigated. Well is
181 ft. deep, 121 ft. to water. Ditch is 2 $\frac{1}{2}$ ft. wide at bottom; 4 or 5 ft. wide at
top and approximately 2 $\frac{1}{2}$ feet deep.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. 3 $\frac{1}{2}$ sec. ft. I have seen this amount of water being conveyed and used.

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation and stock watering purposes. Irrigation water is used as follows:
14 a. in NE $\frac{1}{4}$ NE $\frac{1}{4}$; 28 a. in NW $\frac{1}{4}$ NE $\frac{1}{4}$; 40 a. in SW $\frac{1}{4}$ NE $\frac{1}{4}$; 8 a. in SE $\frac{1}{4}$ NE $\frac{1}{4}$; 40 a. in NE $\frac{1}{4}$ SW $\frac{1}{4}$;
10 a. in NW $\frac{1}{4}$ SW $\frac{1}{4}$; 15 a. in SE $\frac{1}{4}$ SW $\frac{1}{4}$ and 20 a. in NW $\frac{1}{4}$ SE $\frac{1}{4}$, all in Twp. 8 S., R. 30 E.,
B.M.. This land is all cultivated with no natural meadow land. Improvements consist
solely in changing this dry farm land to irrigated land, thus increasing value and
productivity.

No. 6a. (Pumps) I have seen the pump deliver 3 $\frac{1}{2}$ sec. ft. of water. I was told that this was the amount being pumped, and that a hydraulic engineer had made the measurement, probably with a pitometer. It just looked like a whale of a big stream of water to me!

21835

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. For irrigation and stock-watering purposes only.

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. The land has been largely dry-farmed, with some 30 inches of Warm Creek water used to supplement the the well supply. The land is well situated for surface irrigation and the soil is of good quality. It will require 3 $\frac{1}{2}$ sec. ft. to adequately irrigate.

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. None whatever.

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I saw the well developed from beginning. I have seen the water applied to the above described lands during the crop seasons of 1951, 1952 and up to date hereof in 1953. The entire acreage mentioned in question No. 6 above was irrigated during the crop seasons of 1951, 1952 and to date hereof in 1953. I have been around this property very frequently, helping in harvest and with Zaring's livestock.

(Signed)

L A Ring

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in American Falls, County of Power, State of Idaho, on this 20 day of July, A. D. 1953.

W. P. Paine

My commission expires October 22, 1955.

Notary Public.
Residing at American Falls, Idaho.

BOISE, IDAHO

Permit No. 21835.....

Proof of Application of Water to Beneficial Use

Deposition of Witness and Completion of Works

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. James M. England, Age 39, Residence: American Falls, Idaho.

Occupation: Hotel Operator and City Employee. P.O. Address: American Falls, Idaho.

Ques. 2. Are you acquainted with Roy Zaring, the holder of Permit No. 21835. Yes? How long have you known him and where does he reside?

Ans. I have known him for the past twenty years. He resides at Neeley, Idaho, about 4 miles South of American Falls, Idaho.

Ques. 3. Have you read or heard read said Permit No. 21835. Yes, and are you familiar with its provisions and conditions?

Ans. Yes, to both parts of this question.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Deep Well. Point of diversion: Center of NW 1/4 SE 1/4, Section 14, Township 8 South, Range 30 East of the Boise Meridian. Well discharges into open ditch which carries water to lands to be irrigated. Well is 181 ft. deep, 121 ft. to water. Ditch is 2 1/2 ft. wide at bottom, 4 or 5 ft. wide at top and 2 1/2 ft. deep.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. 3.5 second feet. I have seen this amount being so conveyed.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. 3.5 second feet. I was informed on the ground at the time that the amount of discharge had been measured by a hydraulic engineer, using a pitometer.

21 835

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation and Stock Watering purposes. Irrigation water is used as follows: 14 acres in NE $\frac{1}{4}$ NE $\frac{1}{4}$; 28 acres in NW $\frac{1}{4}$ NE $\frac{1}{4}$; 40 acres in SW $\frac{1}{4}$ NE $\frac{1}{4}$; 8 acres in SE $\frac{1}{4}$ NE $\frac{1}{4}$; 40 acres in NE $\frac{1}{4}$ SW $\frac{1}{4}$; 10 acres in NW $\frac{1}{4}$ SW $\frac{1}{4}$; 15 acres in SE $\frac{1}{4}$ SW $\frac{1}{4}$, and 20 acres in NW $\frac{1}{4}$ SE $\frac{1}{4}$, all in Section 14, Township 8 S., R. 30 E., B.M. All of it is cultivated land, no meadow land. Improvements consist in transforming dry farm land with limited production, to irrigated land with increased production, so far as this land is concerned.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. None of it is for power purposes.

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Land has been largely dry farmed with about 30 inches of Warm Creek water used to supplement the well supply. The land is well suited to surface irrigation and is good quality soil. I estimate that 3.5 sec. ft. is required for profitable irrigation.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. None whatever.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. When well was being developed. I have seen the water applied to the lands above described during the crop seasons of 1951, 1952 and up to the date hereof in 1953. The entire acreage described in question No. 7, above was irrigated during these crop seasons. I have been on the place many times during the above years, helping with potato harvest and helping brand and work Mr. Zaring's cattle.

(Signed) James M England

RE: Permits Nos. 21835, G-22814, and 21492

Power County Press
American Falls
Idaho

Gentlemen:

We have checked the notices in connection with the above numbered permits in the names of Roy Zaring, William E. Funk and William D. Smith, appearing in your issue of July 2, 1953, which reached us this afternoon, and find a few slight typographical errors which please correct in your final issue of July 9, 1953.

They are as follows: In the notices on Permits Nos. 21835, Roy Zaring, and G-23814, William E. Funk, the word corporation in the second line of the second paragraph is misspelled.

In the notice on Permit No. 21492 of William D. Smith, we find two errors as follows: In the eighth line of the first paragraph, the word "the" is omitted between the words "of" and "waters."

In the first line of the fourth paragraph, the word "amount" is misspelled.

Of course, none of these errors are of any great consequence, but it is unfortunate that we did not have a copy of the first issue in order that they might have been corrected before the errors appeared three times.

Very truly yours,

HANK R. KULP

NOTICE OF PROOF OF COMPLETION OF WORKS
and
APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 2:30 o'clock, P. 20th
day of July, 19 53, at American Falls, County of
Power State of Idaho, before T.C.Sparks, Notary Public,
proof will be submitted of the completion of works for the diversion of 3.5
cubic feet per second of the waters of center of the NW 1/4, Section 14, Twp. 8 S., Rge. 30 E., B.M.
subterranean well in the / end of
the application to beneficial use of said water, in accordance with the terms and
conditions of Permit No. 21835 heretofore issued by the Department of Reclamation
of the State of Idaho.

1. The name and postoffice address of the person or corporation
holding said permit are Roy Zaring, American Falls, Idaho.

2. Said works of diversion will be fully completed on the date set for
such completion, and the amount of water which said works are capable of con-
veying to the place of use, in accordance with the plans accompanying the appli-
cation for such permit, is 3.5 cubic feet per second.

3. The use to which said water has been applied is irrigation
purposes, and the amount applied to beneficial use is
3.5 cubic feet per second.

4. The place where said water is used is NE 1/4; NW 1/4 SE 1/4; N 1/2 SW 1/4 and
SE 1/4 SW 1/4, Section 14, Township 8 South, Range 30 East of the Boise
Meridian, Idaho.

5. The date of priority which said user is prepared to establish is
December 19th, 1950.

MARK R. KULP

RE: Permit No. 21835

Mr. Roy Zaring
American Falls
Idaho

Dear Mr. Zaring:

In reply to your letter of June 12, 1953, in regard to proofs on your Permit No. 21835:

The records in this department show that a letter was received from Mr. T. C. Sparks on April 21, 1953, requesting us to send you the forms for publication in connection with making proof of completion of works and beneficial use on Permit No. 21835.

These forms were sent you on April 21, 1953, and a copy of the letter sending same was sent to Mr. Sparks.

There is no record of these forms having been returned to this department in order that a copy could be sent to the newspaper for publication.

In case the forms have been misplaced or perhaps lost in the mail, we are enclosing other forms. Both copies of Form 36 should be filled out and returned to this department together with Form 11, which is authorization for us to have the notice published at your expense in the designated county newspaper.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

JUN 15 1953
Department of Reclamation

American Falls, Idaho
June 12th, 1953

Department of Reclamation
Boise, Idaho

Gentlemen:

I am writing regarding Permit No. 21835. Several weeks ago T.C. Sparks wrote to your office for blanks, or forms which are necessary for making final proof on our well water.

The forms were sent to Mr. Sparks and he claims they were completed and returned to you, but have received nothing further. Will you please find where the "slip-up" has been made?

I am also writing about permit No. 20796. The work on this project would have been completed by the required date, but the new highway is taking a very large portion of the very best land right through the center of the place and leaves the balance in such a shape it will not be practical to put the water on it. We developed a little over two second feet by drilling a twelve inch hole where the old spring was at one time, and cutting a channel 1650 feet. We can shut the water off at the head. We are using a part of the water for our cattle ranch, but outside of that, our work has been wasted, as there is no other land available to irrigate from this water. So, I guess there is nothing left but abandon this project.

This permit is in my wives' name, Mary I. Zaring.

Hoping to hear from you regarding Permit No. 21835,
I remain

Yours respectfully,

Roy Zaring

RE: Permit No. 21835

Mr. Roy Zaring
Box 424
American Falls, Idaho

Dear Mr. Zaring:

At the request of Mr. T. C. Sparks, we enclose the form of notice to be used for proof of completion of works and beneficial use under Permit No. 21835.

Form 36 should be filled out in duplicate, setting time and place and naming the Notary Public before whom proof is to be made. The time, of course, should be set sufficiently far ahead to allow for four weeks publication.

Both copies of Form 36 to be returned to this department together with Form 11 which is your authorization for us to have the notice published at your expense in the designated county newspaper.

Dear Mr. Zaring:

We acknowledge receipt of your Application for permit to appropriate 3.5 second feet of water from a well in the NW¹ SE¹ Section 14, Township 8 South, Range 30 East, B.M., accompanied by your check for the \$5.75 filing fee.

However, you failed to sign the application as called for on the third page, and we return it for that purpose.

We also direct your attention to a seeming discrepancy in the land description as shown under question 14 and in the sketch map.

Question 14 describes land in each 40 on the SW¹, except the NE¹ SW¹, whereas the sketch map shows a full 40 in the NE¹ SW¹, but nothing in the SW¹ SW¹, which question 14 describes as 40 acres. We have an idea that the sketch map is correct and that question 14 should be corrected.

**NOTICE OF PROOF OF
COMPLETION OF WORK and
APPLICATION OF WATER
TO BENEFICIAL USE**

Notice is hereby given that at 2:30 o'clock, p.m., on the 20th day of July, 1953, at American Falls, County of Power, State of Idaho, before T. C. Sparks, Notary Public, proof will be submitted of the completion of works for the diversion of 3.5 cubic feet per second of the waters of subterranean well in the center of the NW $\frac{1}{4}$ SE $\frac{1}{4}$ Section 14, Twp. 8 S., Rge. 30 E., B. M. and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. 21835 heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit are Roy Zaring, American Falls, Idaho.

2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use, in accordance with the plans accompanying the application for such permit, is 3.5 cubic feet per second.

3. The use to which said water has been applied is irrigation purposes, and the amount applied to beneficial use is 3.5 cubic feet per second.

4. The place where said water is used is NE $\frac{1}{4}$; NW $\frac{1}{4}$ SE $\frac{1}{4}$; N $\frac{1}{2}$ SW $\frac{1}{4}$ and SE $\frac{1}{4}$ SW $\frac{1}{4}$, Section 14, Township 8 South, Range 30 East of the Boise Meridian, Idaho.

5. The date of priority which said user is prepared to establish is December 19th, 1950.
