Dear Sir:

In reference to your letter of June 17, 1953, concerning the inspection for beneficial use on permit No. 21771 made by Mr. Wesley:

I am sorry the above mentioned inspection was not satisfactory, and until the present was unable to state a definite two weeks period in which our pumps would be operating. However from now on throughout the summer the sprinklers will be running so whenever it is convenient for you to call and recheck will be entirely satisfactory with me.

Dear Mrs. Rupp:

I will call at the farm of Mr. Jensen, fairly early in the morning on Tuesday, July 28, 1953, to make a reinspection in connection with Mr. Jensen's Permit No. 21771.

This will be in accordance with the letter I wrote you recently advising you that an additional inspection would be necessary.

I hope you, or someone representing you, will be present for the inspection.

Dear Mrs. Rupp:

I am very sorry to advise you that the inspection for beneficial use on Permit No. 21771 made by Mr. Wesley on June 9, 1953, was not a standard check-up for a sprinkler system and will have to be made over again.

Mr. Wesley is a new man and apparently misunderstood instructions. If you could let me know of a period when your sprinkler system will be operating, I will try to include it on one of my regular inspection tours and recheck.

I hope you will be able to give me at least a period of two weeks duration in which to make the recheck. Also, please give me your telephone number and street address so that I can contact you more easily at the time I make the inspection.

Dear Mrs. Rupp:

We acknowledge receipt of your letter of January 29, enclosing depositions of yourself, as attorney for Henry Jensen, and two witnesses in proof of beneficial use on Permit No. 21771. We are also in receipt of your letter of January 29, enclosing affidavit of publication in the Idaho State Journal.

It is entirely satisfactory for you to make the proof as Mr. Jensen's attorney.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you or someone on the premises at the time he makes the examination so that arrangements may be made to show him over the grounds.

Gentlemen:

We are returning herewith the executed Deposition of Witness and also the Deposition of Holder in accordance with your instructions. You will note, however, that the Deposition of Holder has been signed by Mrs. Veda Rupp, who holds power of attorney for Henry Jensen, in accordance with the enclosed certified copy of power of attorney.

If this signature and execution is not satisfactory, will you please forward a new blank for this deposition, and we will have it executed by Mr. Jensen who is now residing in Las Vegas, Nevada. We might state, however, that all of Mr. Jensen's business is transacted by power of attorney by Mrs. Rupp. This power of attorney has been accepted generally in all of his business transactions.

Yours very truly,

Pocatello, Idaho

Dear Mr. Jensen:

We acknowledge receipt of your letter of December 5, 1952, and in accordance therewith have completed the notice for beneficial use proof on Permit No. 21771, to show that it will be made at 11:00 a.m. January 29, 1953, at Pocatello, Idaho, before Mr. A. B. Brimhall, Notary Public.

We shall send a copy of the notice to the Idaho State Journal with instructions to publish it once a week for four weeks prior to that date and to send you the affidavit of publication together with statement of costs.

At the time set, you should appear before Mr. Brimhall together with two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder for the purpose of executing the depositions.

We return Permit No. 21771 together with the amendment thereto and Certificate of Completion of Works issued thereunder which were enclosed in your letter.

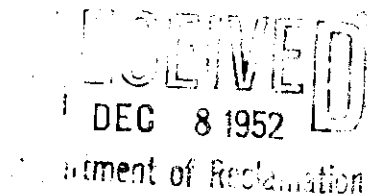

Very truly yours,

re: Permit #21771

Gentlemen:

In response to your letter of November 21, regarding the above captioned permit, we wish to advise that forms number 10 and 11 referred to in your letter of July 28, which calls for information ~~omitted~~^{not} in the papers we recently sent to you, were enclosed. We, therefore, felt that if we advised you by letter of the information, you would be able to insert the information in these forms for us.

In order that you give us time to carry out the details of your requirements, we are setting January 29, 1953, as the date for making proof and at Pocatello, Idaho, and A. D. Brimhall will be the notary public for whom proof is made. We will appreciate your filling out and completing the transaction at as early a date as you can under the requirements.

If there are any other forms or if this method is not satisfactory, will you please send additional information or forms to us in order that we may meet any requirements.

Thanking you for your attention to this matter.

Yours very truly,

Henry Jensen

Mr. Henry Jensen

Pocstello, Idaho

Dear Mr. Jensen:

We acknowledge receipt of your letter of November 18, enclosing notice of beneficial use proof on Permit No. 21771, but omitting the date on which the proof will be made and the name of the Notary Public; also enclosing depositions of yourself and two witnesses, dated November 18, 1952, offered in proof of beneficial use.

We return these depositions, as the statutes provide that before the proofs are made notice must be published for four consecutive weeks in a county newspaper.

If you will name the place and date for making the proofs (which must be far enough in advance to allow for the four weeks publication) and name the Notary Public before whom the proof is to be made, we shall send a copy of the notice to the Idaho State Journal with instructions in regard to publishing.

Thereafter, at the time set in the published notice, the depositions of yourself and two witnesses should be executed before the Notary Public named in the notice, and forwarded to this department together with the affidavit of publication from the newspaper, showing that the notice has been published.

After these proofs have been received, in order to comply with the law it will still be necessary for an inspection to be made by an engineer from this department before license can be issued.

We return your original permit and amendment thereto, and the Certificate of Completion of Works which were enclosed with the other papers in your letter.

Very truly yours,

MARK R. KULP

Dear Mr. Jensen:

Reference is made to your letter of July 21, 1952, in regard to beneficial use proofs advertised to be made on your Permit No. 21771 on July 1, 1952, before Amos Chase.

Since the time is now past and Mr. Chase is not a Notary Public, it will be necessary to readvertise, setting a new date for making proof and naming a Notary Public who is still holding an active notarial commission.

This notice should be made in duplicate on Form 10 enclosed. Both copies to be returned to this department with Form 11 which is your authorization to have the notice published at your expense in the designated county newspaper.

It will be necessary for your witnesses to have either read, or to have heard read, the permit so that they can answer the questions asked in the depositions. If the permit is not available in your files, we can furnish a copy, the cost of which will be \$1.00.

Gentlemen:

In examining the Deposition of Witness furnished Mr. Jensen to be filed in connection with the above captioned case, we note that it is necessary for the witness to read or to have ^{read} the permit. Will you please advise if this is necessary, and if so, if the permit or a copy of it may be furnished us for this purpose.

In connection with the Notice of Proof of Application which Mr. Jensen has had published in accordance with your instructions, we find that he stated that proof would be submitted before Amos B. Chase, a notary public. In going into the matter with Mr. Chase, we find that he is no longer a notary, but is perfectly willing to make any affidavit or assist in any way in making this proof of publication valid. Will you please advise if it is necessary to republish this notice under the circumstances.

We note that in the Deposition of Holder, and likewise in the Deposition of Witness, that it requires the date of the permit. We can obtain this, of course, from the permit or a copy of the permit if it is necessary for you to send this to us to be read by the witness. If not, would you please send us the date of the permit.

We are hopeful that you may be able to accept the proof of publication in its present form by using an affidavit from Mr. Chase rather than having to republish this notice.

We are enclosing the proof of publication for your examination and wait your further advice in handling this filing.

Yours very truly,

Henry Jensen

In checking your application for amendment to the land list under Permit No. 21771, we note that you state that the SE $\frac{1}{4}$ SE $\frac{1}{4}$ Section 35, Township 5 South, Range 34 East, B.M. is being watered temporarily and this 40 is shown on your amended sketch map.

However, it is not included in your proof of completion of works.

When final proof or Proof of Beneficial Use is made, do you intend to show that the water has been used on this 40? If so, it should be included in your amendment and in your Proof of Completion of Works.

Before approving your Application for Amendment and issuing Certificate of Completion of Works, we shall await your further advice.

Dear Mr. Jensen:

We acknowledge receipt of your letter enclosing Affidavit in Proof of Completion of Works on Permit No. 21771, and note that you wish to make a change in place of use under this Permit.

In reply, we enclose a form of application for amendment, together with sketch map in connection therewith. This application should describe the amended list of lands, which should also be indicated on the sketch map, and both returned to this Department for approval and record.

We note that the land description given in your proof of completion of works includes the $SE\frac{1}{4}NW\frac{1}{4}$ and $S\frac{1}{2}NW\frac{1}{4}$ of Section 35. Since the $S\frac{1}{2}NW\frac{1}{4}$ includes the $SE\frac{1}{4}NW\frac{1}{4}$, there is evidently an error in this part of the description.

INSTRUCTIONS

PROOF OF COMPLETION OF WORKS

Mr. Henry Jensen
C/o M. W. Jensen
Route 2, Pocatello, Idaho

Boise, Idaho May 1, 1951

Dear Sir:-

Under the terms of your permit No. ~~21771~~-----you are required to complete your diversion works on or before---~~July 1, 1951~~----- I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

MARK R. KOLF

Dear Mr. Jensen:

We enclose the approval of the State Reclamation Engineer of the Application for Extension of Time for Completion of Works under Permit No. 21771 in the name of Henry Jensen, which you will note extends the time to July 1, 1951.

This is a little longer than applied for, but we are allowing this extra time in case he may need it. However, the proof may be made at an earlier date.

This extension should be attached to the original Permit of which it now forms a part.

Dear Mr. Jensen:

We enclose Permit No. 21771 in the name of Henry Jensen, together with Departmental Receipt No. 22739 for the \$6.00 filing fee.

The application fails to state the length of time required for making Proof of Completion of Works and for Proof of Beneficial Use. However, since the statement is made under "Remarks" that the well was completed October 12, 1950, we have allowed three months or until January 31, 1951, within which to make Proof of Completion of Works which of course will include the pump.

This proof should be made on Form 6 enclosed, executed before a Notary Public and returned to this Department with the statutory fee of \$5.00.

As you will note, we have allowed an additional year within which to make Proof of Beneficial Use.

Dear Mr. Jensen:

Your letter of September 20, 1950, has been referred to this Department by the U. S. Bureau of Reclamation.

We note that you wish some forms for well drilling and filing on wells. We assume that what you wish is an application for Permit to appropriate water from wells, and we enclose such a form herewith, together with a pamphlet giving regulations and instructions in regard to filing same.

If the water from the six wells is to be used on the same land, only one application is necessary, but the location of these wells should be shown under "Remarks" to a forty acre subdivision, Section, Township and Range.

If, however, these wells are to be used on different tracts of land, separate applications should be filed, and we shall be glad to furnish you the necessary number of forms upon request.

Range 34 E. B. M.,

That said water is to be limited at any given time to an amount actually needed and beneficially used for such purposes and shall not exceed the following amount, to-wit:

4.24 cubic feet per second of the
waters of subterranean source with
priority of October 14, 1950;

7-1-51

10-1-51

And that the water right hereby transferred has heretofore been conducted from subterranean source with point of diversion in the NE $\frac{1}{4}$ SE $\frac{1}{4}$, Section 35, Township 5 South, Range 34 E. B. M.,

That the water right hereby transferred will hereafter be conducted to the last above described lands from subterranean source by well with no change in point of diversion;

That the right to the use of the water aforesaid, hereby described, is restricted to the lands or place of use last above described as provided by the laws of the State of Idaho;

IN WITNESS WHEREOF, I have hereunto set my hand and caused the official seal of the Department of Reclamation of the State of Idaho to be hereunto affixed at Boise, Idaho, this 5th day of March, 1965.
