Attention: George R. Phillips:

Gentlemen:

This acknowledges the Notice of Proof of ~~Completion of Work~~ and Application of Water to Beneficial Use under Permit No. 21511, in the name of ~~George R. Roper~~. Final Proof is to be made before you, as Notary on the 5th day of June, 1961, at 10:00 o'clock ~~1959~~, at ~~Idaho~~ Idaho, at ~~A.M.~~ Itex Bldg., Pocatello,

As of this date we have mailed the Notice to the Idaho State Journal with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by the permit holder and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the time, on the date and before you, as Notary, as stated in the publication notice. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, that your Notary's seal has been placed on each and that all depositions, (Holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Very truly yours,

GEO. N. CARTER

Dear Mr. Phillips:

Your letter in regard to proof of beneficial use of the water under Permit No. 21511, dated April 6, 1961, has been received.

April 25, 1955 Mr. Roper signed his Proof of Completion of Works before you. The proof did not include beneficial use of the water. See Idaho Code 42-214 and 42-217.

This permit was issued before the present Ground Water Statutes were enacted.

Re: Permit No. 21511 - George R. Roper

Dear Mr. Carter:

On June 6, 1950 I had helped Mr. Roper obtain Certificate of completion of works and application of water for beneficial use. By letter of March 31 you have advised this office that it will be necessary to go through much the same thing again in order to show that the water has been put to beneficial use.

It is difficult to understand why, after parties have gone through this effort, they have to do substantially the same thing again.

May I respectfully ask that you advise on this matter.

Very truly yours,

PHILLIPS & PHILLIPS

Dear Sir:

The date for proof of application of water to beneficial use, as set out under the terms of Permit No. 21511 is due not later than June 6, 1961. If by this date you are not prepared to make this proof, you may make it at a later date, however, your priority will be advanced the same length of time for which the proof is late.

Before this proof can be made, the statutory requirement is that a Notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county.

We enclose Form 10, in duplicate, which is to be filled in and returned to this department at least forty (40) days before the above mentioned date or before the time you intend to make proof. This form, in duplicate, is to include the time of day, the date (allowing for four weeks publication), the name of the town, the address of the Notary Public before whom you will appear to make the depositions of proof (this may be at any place that is convenient for you and your two witnesses), the quantity of water, ~~for~~ what purpose it is used, the point or points of diversion and the location of use or lands which are irrigated--by 40-acre legal land description. Descriptions should be taken from your Permit, including any amendments thereto, as recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your Notice is published.

Also enclosed is Form 11, which is the authorization for us to have the Notice published in the designated county newspaper, at your expense. This is to be returned with Forms 10.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set and at the place named, before the Notary Public, as advertised in the publication notice.

INSTRUCTIONS

PROOF OF COMPLETION OF WORKS

Mr. George R. Roper
Route 1 South
Pocatello, Idaho

Boise, Idaho

Dear Sir:-

Under the terms of your permit No. 21511 you are required to complete your diversion works on or before June 6, 1955. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

Dear Mr. Roper:

We acknowledge receipt of your application for Permit to appropriate water from a deep well, accompanied by your check for the \$5.00 filing fee, for which we enclose Departmental Receipt No. 22335.

However, your land description under Question 14 describes land in the NW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 6, Township 7 South, Range 35 East, B.M., but we rather infer from your sketch map that the land to be irrigated is in the SE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 6, where the well is located. Please advise if this is an error in Question 14.

Dear Mr. Roper:

Reference is made to your letter of April 18, 1950, enclosing an application for Permit to appropriate water from a well located in the SE $\frac{1}{4}$ NW $\frac{1}{4}$ Section 6, Township 7 South, Range 35 East, B.M. The application is returned in order that you may answer Question 15 and also such parts of Question 11 as are applicable.

The application should also be accompanied by two sketch maps on the form enclosed, showing the location of the well and the land on which the water is to be used. A filing fee of \$5.00 should accompany the application.

It will not be necessary to send you an extra copy as the original application will be returned to you as a use permit when approved and signed by the proper State Officials.

In order to complete the water right, two proofs are required as follows:

First, proof of completion of works which is made by affidavit before a Notary Public. The time required for making this proof should be stated under Question 12 in the application.

The final proof is made when the water has been completely applied for irrigation or whatever purpose it is intended. Notice of such proof must be published for four consecutive weeks in a county newspaper at your expense and at the time set for proof, depositions are to be executed by yourself and two witnesses in proof of such beneficial use. The additional time required for making this proof should be stated under Question 13 of the application.
