RE: Permits Nos. 21508 and G-22223

Mr. J. M. Marshall
Box 29
Idaho Falls, Idaho

Dear Mr. Marshall:

In response to your telephone inquiry we have checked Mr. Humphrey's reports on the above numbered Permits in the name of D. G. Taylor and which are operated by Mr. Neibaur.

Permit No. 21508 is on a well in the SE $\frac{1}{4}$ NW $\frac{1}{4}$ Section 11, Township 7 South, Range 31 East, B.M. and his report showed 119 inches delivered which was used to irrigate 190 acres in the NW $\frac{1}{4}$ of Section 11. As the application was only for 100 inches, license could only be issued for that amount. Priority date was May 19, 1950.

The report showed the temperature of the water at 70° Fahrenheit.

Permit No. G-22223 is on a well in the SW $\frac{1}{4}$ NE $\frac{1}{4}$ Section 36, Township 6 South, Range 31 East, B.M. Delivery was 140 inches and license issued for that amount for use on the 224 acres in the NE $\frac{1}{4}$ and all that portion of the NE $\frac{1}{4}$ Section 36, Township 6 South, Range 31 East, B.M. lying South of the line of the American Falls Reservoir.

The report does not give the temperature but he stated that it was a warm water well.

We trust that this will give you the information required.

Very truly yours,

MARK R. KULP

Dear Mr. Weibaur:

We enclose Certificate of Completion of Works, also License and Certificate of Water Rights, issued on Permit No. 21508 confirming the right of D. G. Taylor to the use of 2 second feet of water from a well in the SE $\frac{1}{4}$ NW $\frac{1}{4}$ Section 11, Township 7 South, Range 31 East, B. M. with priority date of May 19, 1950 for irrigation of the NW $\frac{1}{4}$ Section 11, Township 7 South, Range 31 East, B. M.

We also enclose departmental receipt N. 26460 for the \$13 fees paid in connection with final proofs on this permit.

RE: Permit No. 21508

Mr. Seth I. Neibaur
American Falls,
Idaho

Dear Mr. Neibaur:

Since we do not seem to have received a reply to office letter addressed to you on May 9, 1953, we are writing you again in regard to Permit No. 21508.

The report of our field engineer shows that the well in the SE $\frac{1}{4}$ NW $\frac{1}{4}$ Section 11, Township 7 South, Range 31 East, B.M. will actually deliver 119 inches of water and that the water has been used to irrigate 130 acres in the NW $\frac{1}{4}$ Section 11 and also 24 acres in the SE $\frac{1}{4}$ SW $\frac{1}{4}$ Section 2, same township and range.

However, since Permit No. 21508 is for only 100 inches for use on only the NW $\frac{1}{4}$ of Section 11, License can only be issued for 100 inches appurtenant to the NW $\frac{1}{4}$ Section 11. The license fee on this will amount to \$8.00 and \$5.00 for Certificate of Completion of Works, or a total of \$13.00.

Our suggestion would be that you file a new application for the additional 19 inches of water from the same well to be used on the entire acreage and after license has been issued as above, on Permit No. 21508, a transfer can be made to allow a portion of the 100 inches to be used on the SE $\frac{1}{4}$ SW $\frac{1}{4}$ Section 2 as well as the NW $\frac{1}{4}$ Section 11.

If this is not entirely plain to you, we suggest that you call at the State Department of Reclamation and we will be glad to explain the matter to you further.

Very truly yours,

MARK R. KULP

RE: Permit No. 21508

Mr. Seth I. Neibaur

Dear Mr. Neibaur:

I have checked your Permit No. 21508 and find that no land in Section 2 was included in your filing so your license when issued will only cover land in the NW $\frac{1}{4}$ Section 11, Township 7 South, Range 31 East, B.M., the fee for which will amount to \$8.00, being at the rate of \$2.00 for each 40 acre subdivision in which the land is located.

However, after the license is issued you may apply for a transfer and apply the water on the SE $\frac{1}{4}$ SW $\frac{1}{4}$ Section 2, as well as the land described in the NW $\frac{1}{4}$ Section 11. This transfer requires two weeks publication in a county newspaper at your expense and after the issuance of a license we shall be glad to send you the necessary form of application for transfer.

Dear Mr. Neibaur:

We have your letter of March 28, 1953, enclosing affidavits of publication in the Power County Press in connection with proof of completion of works and beneficial use on the above numbered permits in the name of D. G. Taylor.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact Mr. Taylor at the time he makes the examination so that arrangements may be made to show him over the grounds.

We note your statement as to the location of the well in Permit No. G-22223, and after we have the report from our field engineer, an amendment can be made.

We return the statements from the Power County Press in connection with publication of these notices. Doubtless they were enclosed to us in error as this cost is to be paid by the permit holder.

TO PERMIT TO APPROPRIATE THE PUBLIC WATERS
OF THE STATE OF IDAHO, NO. 21508.

Comes now D. G. Taylor and represents to the State Reclamation Engineer of the State of Idaho:

That he is the owner and holder of Permit to appropriate the Public Waters of the State of Idaho, No. 21508;

That the point of diversion is described in said Permit as being located in the NW $\frac{1}{4}$ NW $\frac{1}{4}$ Section 11, Twp. 7 S., Range 31, E., B.M., as per map filed therewith.

That he now requests that the point of diversion be changed to a point located in the SE $\frac{1}{4}$ NW $\frac{1}{4}$ Section 11, Twp. 7 S., Range 31 E., B.M., as per map above referred to.

That his reasons for desiring to make such change are as follows: It has been found more suitable to drill the well in this latter location.

That no one will be injured by such change, and that such change will be made at Permit Holder's own risk.

Signed at Boise, Idaho, this 28th day of June, 1951.

D. G. TAYLOR

Date of receipt at Department of Reclamation June 28, 1951.

APPROVAL OF STATE RECLAMATION ENGINEER

I, MARK R. Idaho

Dear Mr. Neibeur:

We shall send to the Power County Press, notice of proofs of completion of works and beneficial use to be made on Permits Nos. 21508 and G-22223 on October 14, 1952, before T. C. Sparks, Notary Public, at American Falls, with instructions to publish them once a week for four consecutive weeks prior to that date and to send you the affidavit of publication together with statement of costs.

We note your request that Permit No. 21508 be changed to include 3 second feet of water instead of 2 second feet. A permit cannot be amended to include an additional amount, so proof can be made at this time on only the 2 second feet covered by the permit. If the well will produce a larger amount of water, a new application may be filed for the additional amount.

We enclose the necessary forms of deposition to be used in making these proofs, consisting of one for the permit holder and one for each of two witnesses for each permit. You may make proof for the holder if it is so desired, and at the time set you should appear before the Notary Public together with two disinterested witnesses who are familiar with the terms of the permits and the work done thereunder for the purpose of executing the depositions.

Mr. Seth I. Neibaur
American Falls

Dear Mr. Neibaur:

Reference is made to your letter of August 15, 1952, requesting information as to the necessary procedure to complete filings on underground water.

Permit No. 21508 was issued to Tom Paris and assigned by him to D. G. Taylor, to appropriate 2 second feet of water from a well in the NW $\frac{1}{4}$ NW $\frac{1}{4}$ Section 11, Township 7 South, Range 31 East, B.M., for irrigation of land in the NW $\frac{1}{4}$ of Section 11. The point of diversion or location of the well was amended by Mr. Taylor to the SE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 11. If the well is in the SW $\frac{1}{4}$, an application for amendment to the permit should be made on the form enclosed.

Proof of completion of works is due on this permit on or before May 20, 1955, and proof of beneficial use is due May 20, 1957. However, both proofs can be made at the same time if the permit holder is prepared to do so.

Permit No. G-22223 in the name of D. G. Taylor is for 4.5 second feet of water from a well in the SE $\frac{1}{4}$ NW $\frac{1}{4}$ Section 36, Township 6 South, Range 31 East, B.M., for irrigation of the N $\frac{1}{2}$ of said Section 36. Both proofs are due on this permit on or before July 7, 1956, but of course, can be made at any earlier date.

The statutes require publication of a notice before making these proofs, which notice should be made in duplicate on Form 36 enclosed. The notice should give the date when the proofs will be made and the place and the name of the Notary Public before whom proof is to be made. The date should be set sufficiently far ahead to allow for the statutory four weeks' publication, and both copies of the notice should be returned to this department together with Form 11 which is authorization for us to have the notice published at permit holder's expense in the designated county newspaper.

Dear Mr. Kulp,

Would you please send the necessary forms and some information concerning the necessary procedure to "prove up" on underground water?

Permission was granted to Tom Paris to dig a well on the SW $\frac{1}{4}$ of sec. 11, TS7S, R31E~~BM~~. This well was test pumped in the spring of '51. 1250 gpm were pumped during the season of '51. A larger pump was installed in '52 and 1650 gpm has been pumped so far this season.

Permission was granted in '51 to Mr. D. G. Taylor to dig a well on the N $\frac{1}{2}$ of sec. 36, TS6S, R31E~~BM~~. This well was test pumped in the fall of '51 and has yeilded 1250 gpm so far this season.

The contracts and mortgages for the acreages irrigated by these wells are held by Mr. D. G. Taylor. The farms are operated by Ira A. Neibaur & Sons.
