

State of Idaho
License and Certificate of Water Right

Water License No. 21270 Amount 0.056 second foot
Water District No. Priority September 27, 1949

THIS IS TO CERTIFY that R. W. CAMPBELL
of Lave Hot Springs, Idaho, made application for a permit to appropriate the
public waters of the State of Idaho, dated September 27, 1949; that Permit No. 21270
was issued under said application; that Certificate of Completion of works, with a carrying capacity of
0.55 second foot, was issued thereunder on August 31, 1950, showing that said works
were completed on the 27th day of August, 1950; and that on the 23rd
day of September, 1950,

R. W. CAMPBELL
of Lave Hot Springs, State of Idaho, made proof to the satisfaction of the
State Reclamation Engineer of Idaho, of the right to use the waters of a hot water
well ~~tributary~~ (subterranean flow), for the purpose of bething, heating and household
use, under Use Permit No. 21270 of the Department of Reclamation
and that said right to the use of said waters has been perfected in accordance with the laws of Idaho,
and is hereby confirmed by the State Reclamation Engineer of Idaho and entered of record in Volume
8 of Licenses at page 4866, on the 3rd day of December, 1951;

The right hereby confirmed dates from September 27, 1949;
The Point of Diversion is located in Lot 2,
~~in the~~ Sec. 21, Tp. 9 S., R. 38 E., B.M. Bennock County.

That the amount of water to which such right is entitled and hereby confirmed, for the purposes
aforesaid, is limited to an amount actually needed and beneficially used for said purposes, and shall
not exceed 0.056 cubic foot per second.

Description and location of use:

Twp.	Range	Sec.	Forty-acre Tract	No. Acres Described in Permit	No. Acres Actually Irrigated
Green and White Cabins, located in Lot 2, 38 East, B.M.				Section 21, Township 9 South, Range	

The right to the use of the water aforesaid hereby confirmed is restricted to the lands or place
of use herein described, as provided by the laws of Idaho.

WITNESS the seal and signature of the State Reclamation Engineer, affixed at Boise, Idaho, this
3rd day of December, 1951.

APPLICATION FOR PERMIT

To Appropriate the Public Waters of the State of Idaho

29-228

APPLICATION No. 28952
PERMIT No. 21270
DISTRICT No.

M. B. Clark
340 S. 5th Ave.
P.O. 312 Pocatello, Idaho

1. Name of Applicant: R. W. CAMPBELL

Postoffice address: Lava Hot Springs

County: Bannock

State: Idaho

I. If applicant is a corporation, give:

- (a) Date and place of incorporation:
- (b) Amount of capital stock:
- (c) Amount paid in:
- (d) Names and addresses of directors:

II. The financial resources of the applicant are:

- (a) Cash on hand:
- (b) Treasury stock:
- (c) Bonds to be issued:
- (d) Other resources:

2. Quantity of water claimed: One cubic feet per second.

3. Source of water supply: Subterranean (hot water well) which is a tributary of

4. Location of point of diversion: See Remarks feet distant from the

corner of Section , T. , R. , B.M., and is in the Lot 2

of Section 21 , T. 9 S. , R. 38 E. , B.M., County of Bannock

5. Water is to be used for Bathing and heating purposes- Bath house and cabins

6. If for mining, milling, power or manufacturing purposes, give:

Green and White Cabons, Lava Hot Springs (See Remarks)

(a) Point of use of water:/ feet distant from corner of Section

T. , R. , B.M., in the Lot 2 of Section 21 , T. 9 S. , R. 38 E. , B.M.

(b) Amount of power generated: H.P., under feet head.

(c) Water is to be returned to Portneuf River at a point feet

distant from the corner of Section , T. , R. , B.M., in the Lot 2

of Section 21 , T. 9 S. , R. 38 E. , B.M.

7. Estimated cost of works: \$1,350.00

8. Kind of works: Well, pipe, etc.

9. Height of dam feet; length of dam at top feet; length of dam at bottom

feet; material used in dam:

10. Size of headgate: Width feet; height feet.

11. Ditch: Width at bottom feet; width at water line feet; depth of water feet;

dimensions of flume:

Diameter of pipe inches; length of conduit miles.

Average grade per mile feet.

12. The time required for the completion of such work is One (1) years.

13. The time required for the complete application of the water to the proposed use is None additional years.

14. The land to be irrigated is described in the following tabulation: See remarks.

15. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are: None

16. (a) Is reservoir to be used? No If so, fill in (b) and (c) below:
 (b) Name of Reservoir and number of Storage Permit:
 (c) Date of filing of Application for Storage Permit and Name of Applicant:

BE IT KNOWN THAT The undersigned hereby makes application for permit to appropriate the public water of the State of Idaho as herein set forth.

R. W. CAMPBELL *Applicant.*

By _____ Agent.

Date of first receipt at Department of Reclamation: 9:00 A. M. September 27, 1949

Returned to applicant for correction: September 27, 1949

Corrected application received: October 26, 1949

Approval of State Reclamation Engineer

The number of this permit is 21270

Recorded in Book 76 Page 21270 Approved November 7, 1949

This is to certify that I have examined the within application for a permit to appropriate the public waters of the State of Idaho, and hereby approve the same, subject to the following limitations and conditions:

Bond in the sum of \$ _____ to be filed on or before _____

Work to begin on or before January 7, 1950 and to continue diligently and uninterruptedly to completion, unless temporarily interrupted by circumstances over which permit holder has no control.

One-fifth of the work above specified to be completed on or before May 7, 1950

The whole of said work to be completed on or before November 7, 1950

Beneficial use of water appropriated in accordance herewith, to be made on or before November 7, 1950

WITNESS My hand this 7th day of November, 1949

MARK R. KULP
State Reclamation Engineer.

IN TESTIMONY WHEREOF, We, C. A. ROBINS, Governor of the State of Idaho,
and J. D. "CY" PRICE, Secretary of State of the State of Idaho, have caused this instrument to
be executed in the name of the State of Idaho, and caused the Great Seal of the State of Idaho to be hereunto affixed, this 7th

day of November, 1949

STATE OF IDAHO

Countersigned:

(SEAL)

By.....C. A. ROBINS.....
Governor.

By J. D. "CY" PRICE
Secretary of State.

REMARKS: The water appropriated is a mineral water which is hot and will be pumped into a tank or tub in which people may bathe. It will also be used for radiant heat for cabins. The water will then be pumped into the Portneuf River for disposal.

14.

[illegible]

Permit No. 21270
CERTIFICATE OF COMPLETION OF WORKS

TO ALL WHOM IT MAY CONCERN:

This is to certify that R. W. CAMPBELL of Lava Hot Springs, County of Pocastello, and State of Idaho, the holder of Permit No. 21270, issued upon Application No. 28952 bearing date of priority of September 27, 1949, authorizing the diversion of One second foot of the waters of a hot water well, County of Bannock, State of Idaho, for bathing and heating purposes, has fully complied with the provisions of the laws of the State of Idaho relating to the proof of completion of the works of diversion set out and described in said Permit; that said works are adequate for diverting and conveying to the place of intended use 0.55 second foot of the waters of said hot water well; that the point of diversion of said waters is in Lot 2, Section 21, Township 9 South, Range 38 East, B.M. and that the place of use of said water is in Tex No. 3, Lot 2, Section 21, Township 9 South, Range 38 East, B.M.

Witness my hand this 31st day of August, A. D. 1950.

MARK R. KULP
State Reclamation Engineer

Proof of Completion of Works made August 17, 1950.

REPORT OF ENGINEER

Permit No. 21270

This proof is for Beneficial use In Water District No. _____

1. Name of applicant R. W. Campbell, Green & White Cabins, Lava Hot Springs, Idaho

2. Source of water supply: A hot water well, (subterranean)

3. Location of point of diversion: Is in the Lot 2 of Section 21

T. 9 S. R. 38 E. County of Bannock

4. Describe works as they exist, giving dimensions and capacities of same: Well is 80' deep, 8" diameter at the top, 6" diameter bottom portion of the well, cased 40 feet down to rock. Water rises practically to the surface of the ground. Temperature of the water is 98° F. after five minutes running and is reported to be 105° T. when running continuously. The top of the well and pump are located in a small concrete pit, 24" by 20" by 30" deep inside measurements. Concrete is 9" thick. The Pit is covered with a board lid.

5. Water is used for: Bathing and household use

6. State whether or not water has been turned into works of diversion: Yes.

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

Green and White Cabins, in Lot 2, Section 21, Twp. 9 S., Range 38 E., B.M.

Lava Hot Springs, Idaho.

Small plot on which cabins are located, less than one acre in extent.

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach?

Remarks: The pump is a Fairbanks Morse Model 1005 D.P. The pipe for the pump down into the well is 1 1/2" diameter and 40' long. Motor is a Fairbanks Morse, 1 h.p., 220 v., 5 1/2 amps, 3450 r.p.m. The well is located approximately 100 yds. West of the edge of the bridge on the highway leading into lava from the West and is 15 yds. South of the South bank of the Portneuf River. It can further be located as follows: 30 yards from the well to the edge of the street on the West, which street is First Street Avenue West and 42' North of the edge of Portneuf Street, which street is South of the well and extends East and West. The quantity of water is 5 gallons in 12 seconds or 2.77 inches. The water is used for a small swimming pool 12' x 14' x 40" deep, and for irrigating the grounds around the cabins.

This examination was made on the 12th day of July, 19 51.

(Signed) E. H. Humphrey Examiner.

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

Re: Permit No. 21270

Mr. R. W. Campbell
Lava Hot Springs, Idaho

Dear Mr. Campbell:

We acknowledge receipt of the depositions of yourself and two witnesses, also Affidavit of Publication in the Idaho State Journal; all submitted in Proof of Beneficial Use under Permit No. 21270.

Before final action is taken in the matter, the law requires that a field examination be made by an Engineer from this Department.

We are unable to say just when this examination will be made as this Department has but one Field Engineer who makes examinations all over the State.

However, the Field Engineer for this Department will try and contact you at the time he makes the examination in order that you may arrange to show him over the grounds.

Very truly yours,

MARIE R. KULP

SEP 25 1950
Department of Reclamation

Permit No. 21270

Proof of Application of Water to Beneficial Use

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. R. W. Campbell, Lava Hot Springs, Idaho

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. none

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. Permit No. 21270 dated November 7, 1949, date of priority September 27, 1949.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Subterranean Hot Water Well - Diversion point Lot 2 of Sec. 21, Twp. 9 South, Range 38 E., B.M., County of Bannock

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined.

Ans. Works of diversion consists of a Hot Water Well 80 ft. deep, with 6 inch casing down 22 ft; depth to water is 1 foot. Water is not to be conducted to place of use by canal or ditch, but is to be pumped by a one horse electric pump rated at 1500 gals. per hour.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is to be used for bathing purposes and radiant heat at the Green & White Cabins, Lava Hot Springs, Idaho, Lot 2 of Section 21, Twp. 9 S., R. 38 E., B.M.

21270

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. Hot Water Well to be used for bathing and radiant heat.

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. .055 cubic feet per second

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

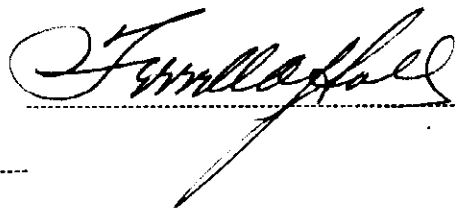

Ans. Water has been used continually for bathing and washing purposes since September 27, 1949.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. none

(Sign) R. W. Leamp. Hill

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in Lava Hot Springs, County of Bannock, State of Idaho, on this 23rd day of September, A. Permit No. 21270

Proof of Application of Water to Beneficial Use

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Alma J. Neeser, 77 years of age, Lava Hot Springs, Idaho.

Occupation - retired.

Ques. 2. Are you acquainted with R. W. Campbell, the holder of Permit No. 21270? How long have you known him and where does he reside?

Ans. Have known Mr. Campbell about 7 years. He resides at Lava Hot Springs, Ida.

Ques. 3. Have you read or heard read said Permit No. 21270, and are you familiar with its provisions and conditions?

Ans. Yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Hot Water Well located on R. W. Campbell property bounded by Prtneuf St. on the South and the Prtneuf River on the North; well is a little West of the center of the property, and is pumped by one horse pump to cement pool approximately 12' x 14' x 4'.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. Estimate the system will carry all water the well will produce, .055 sec.ft.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. Have seen the pump delivering at maximum continuously. Pump is a new one horse power electric and is rated at 1500 gals. per hour.

21270

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is hot mineral water and is used for bathing and heating purposes. Improvements as result of well consists of concrete pool or tank 12' x 14' x 4' used for bathing purposes.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. Water has been used for bathing continually since development of well.

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Not for irrigation

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. Water has been used daily for bathing and washing purposes since fall 1949.

(Signed)

Alma J. Carson

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Lava Hot Springs, County of Bannock, State of Idaho, on this 23 day of September, A. Ques. 3. Have you read or heard read said Permit No. 21270, and are you familiar with its provisions and conditions?

Ans. Yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Hot Water Well located about center of the Campbell property known as the Green & White Cabins, Lava Hot Springs, Idaho. Water is pumped by electric pump from well to concrete pool.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. Works will safely conduct all the water well will produce, estimated at .055 secft.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. The pump is new and is rated at 1500 gallons per hour. I have seen it operating at maximum for several hours.

21270

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water has been used for bathing and washing at the Green and White Cabins,
Lava Hot Springs, Idaho

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. Used for bathing and washing purposes fully.

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. none

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. The water from this well is used nearly every day for bathing or washing,
and has been used for that purpose since late in 1949.

(Signed) Arthur C. Lark

NOTICE OF PROOF APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 10 A. M. on the 23rd day of September, 1949, at Lava Hot Springs, County of Bannock, State of Idaho, before Ferrell A. Hall, Notary Public, proof will be submitted of the application to beneficial use of .055 cubic foot per second of the waters of a well (subterranean) in accordance with the terms and conditions of Permit No. 21270 heretofore issued by the Department of Reclamation of the State of Idaho. The name and postoffice address of the person or corporation holding said permit are R. W. Campbell, Lava Hot Springs, Idaho.

The use to which said water has been applied is bathing and household use.

The amount applied to beneficial use is .055 cubic foot per second.

The place where said water is used Green & White Cabins, Lava Hot Springs, Idaho Lot-2, Sec. 21, Twp. 9S., R. 38 EBM.

The name of the canal or ditch or other works by which said water is conducted to such place of use is none.

The right to take water from such works is based upon Permit No. 21270.

The source of supply from which such water is diverted is Subterranean-Hot Water Well.

The date of priority which said user is prepared to establish is September 27, 1949.

INSTRUCTIONS

PROOF OF BENEFICIAL USE OF WATER

BOISE, IDAHO, September 13, 1950

Re: Permit No. 21280
R. W. Campbell

Mr. Terrell A. Hall
Notary Public
Lava Hot Springs, Idaho

DEAR SIR:

I enclose herewith the following forms to be used in connection with proof of beneficial use of water under Permit No. 21280.....

DEPOSITION OF PERMIT HOLDER,
DEPOSITIONS OF TWO WITNESSES.

In submitting this proof the following instructions should be CAREFULLY followed out, since failure to do so may result in the loss of rights:

1. On September 23, 1950....., the date set for proof, the enclosed forms (one for permit holder and one each for two disinterested witnesses) should be filled out and sworn to, at.....
Lava Hot Springs, Idaho..... before Terrell A. Hall, Notary Public,

2. When the depositions have been taken they should be mailed to this office, together with affidavit of publication of notice.

When these have been received, together with report of the examining engineer, if everything is properly executed, you will be further advised as to fees due, etc., before certificate is issued.

Yours truly.

MARK R. KULP

Re: Permit No. 21270

Mr. R. W. Campbell
Box 660
Lava Hot Springs, Idaho

Dear Mr. Campbell:

We enclose Certificate of Completion of Works issued under Permit No. 21270 for the diversion of 0.55 second feet of water from a hot water well in Lot 2, Section 21, Township 9 South, Range 38 East, B.M. for bathing and heating purposes in Tax No. 3, of said Lot 2.

We also enclose Departmental Receipt No. 22622 for the \$5.00 fee paid in connection with this proof.

We have sent to the Idaho State Journal, Notice of Beneficial Use Proof to be made under this Permit on September 23, 1950, with instructions to publish it once a week for four consecutive weeks prior to that date, and to send you the Affidavit of Publication, together with statement of costs.

We shall send to Mr. Terrell A. Hall, Notary Public, the necessary forms of deposition for making this proof, consisting of one for yourself and one for each of two witnesses, and at the time set, you should appear before Mr. Hall together with two disinterested witnesses who are familiar with the terms of the Permit and the works done thereunder for the purpose of executing the depositions.

Very truly yours,

RECEIVED
AUG 28 1950
Department of Reclamation

Mr. R. W. Campbell
Box 660
Lave Hot Springs, Idaho

Dear Mr. Campbell:

We return your Affidavit submitted in Proof of Completion of Works under Permit No. 21270 in order that you may complete same as follows:

Question 3 should give the Section, in addition to the Township and Range.

Question 8 should describe the place of use of the water.

Please also give a little more information in regard to the depth of the well and casing, and the size of the pump.

Upon receipt of the corrected proof, a Certificate of Completion of Works may be issued, and meanwhile, we shall send to the Idaho State Journal of Pocatello, Idaho, Notice of Beneficial Use Proof to be made under this Permit on September 23, 1950, with instructions to publish same for four consecutive weeks prior to the date set for proof, and to send you the Affidavit of Publication, together with statement of costs.

This is to be paid directly to the Idaho State Journal. The \$5.00 enclosed in your letter is to pay the statutory fee in connection with Completion of Works Proof.

Re: Permit No. 21270

Mr. R. W. Campbell
Box 660
Lava Hot Springs, Idaho

Dear Mr. Campbell:

Reference is made to your letter stating that you are prepared to make proof on your Permit No. 21270.

Proof of Completion of Works may be made on Form 6 enclosed, which should be executed before a Notary Public and returned to this Department with the statutory fee of \$5.00.

If you are prepared and wish to make Proof of Beneficial Use at this time, you may fill out Form 10 in duplicate, setting the time and place and naming the Notary Public before whom this proof is to be made. As the Statutes require publication of notice once a week for four consecutive weeks prior to making Proof of Beneficial Use, the date should be set sufficiently far ahead to allow for this publication.

Both copies of Form 10 are to be returned to this Department together with Form 11 which is your authorization for us to have the notice published at your expense in the designated county newspaper.

We shall then send a copy of the notice to the newspaper with instructions in regard to publishing.

Very truly yours,

MARK R. KULP
State Reclamation Engineer
