Mr. Lew Carlile
McCammon, Idaho

Dear Mr. Carlile:

We acknowledge receipt of the depositions of yourself and two witnesses; also Affidavit of Publication in the McCammon News, all in Proof of Beneficial Use under your Permit No. 20758.

Before final action is taken in the matter, the law requires that a field examination be made by an Engineer from this Department.

We are unable to say just when this examination will be made as this Department has but one Field Engineer who makes examinations all over the State.

However, Mr. Tolson, Field Engineer for this Department, will try and contact you at the time he makes the examination, in order that you may arrange to show him over the grounds.

Very truly yours,

Re: Permit No. 20758

Mr. Lew Carlile
McCammon, Idaho

Dear Mr. Carlile:

We enclose Certificate of Completion of Works issued under your Permit No. 20758 for the diversion of 2.52 second feet of water from Marsh Creek with point of diversion in the SE $\frac{1}{4}$ NW $\frac{1}{4}$ Sec. 34, Twp. 8 S., Range 36 E. B.M. for the irrigation of land in Sections 27 and 34, same township and range.

We also enclose Departmental Receipt No. 21189 for the \$5.00 fee paid by you in connection with completion of works proof.

Your notice of beneficial use proof to be made under this permit gave the date of February 29, 1949, for making this proof. This is obviously an error as there is no February 29 this year, so we have changed the date to February 28, 1949, the date this proof is due.

A copy of the notice will be sent to the McCammon News with instructions to publish it once a week for four consecutive weeks prior to that date and to send you the affidavit of publication together with statement of costs.

About ten days prior to the date set for proof we shall send Mr. Alec Riddle, Notary Public, the necessary forms of deposition consisting of one for yourself and one for each of two witnesses so that he may have them in ample time for the proof.

At the time set you should appear before Mr. Riddle together with two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder for the purpose of executing the depositions.

Very truly yours,

Dear Mr. Carlile:

We enclose Permit No. 20758 together with Departmental Receipt No. 21037 for the \$5.50 filing fee.

Since your application states that the works are completed we have allowed three months or until February 26, 1949, within which to make the proofs required by statute to complete your water right.

The first proof or proof of completion of works is made by executing Form 6 enclosed before a Notary Public, and returning to this Department with a statutory fee of \$5.00, upon receipt and approval of which a certificate of completion of works will be issued.

The final or beneficial use proof requires publication once a week in a county newspaper for four consecutive weeks prior to the date set for making proof. Notice should be made in duplicate on Form 10, enclosed, setting the time and place and naming the Notary Public before whom proof is to be made. Both copies of the notice to be returned to this Department together with Form 11 which is your authorization for use to have the notice published in the designated newspaper at your expense.

We shall then send a copy of the notice to the newspaper with instructions in regard to publishing, and on the date set you should appear before the Notary Public together with two disinterested witnesses to execute depositions of proof on forms furnished by this Department.

Dear Mr Kulp

Will you please send me a blank form
and information, pertaining to the filing
on water in our state.

Years ago I filed on the waters of Spring
Lake, but never finished the project.

At this time I am pumping water out
of Marsh Creek and would like to file on
the same. This water is already being put
to beneficial use.

Yours very truly
