State of Idaho

License and Certificate of Water Right

Water License No. 19754

Amount two (2) second feet

Water District No.

Priority January 24, 1946

THIS IS TO CERTIFY that C. W. COON
of American Falls, Idaho, made application for a permit to appropriate the
public waters of the State of Idaho, dated January 24, 1946; that Permit No. 19754
was issued under said application; that Certificate of Completion of works, with a carrying capacity of
two (2) second feet, was issued thereunder on July 25, 1951, showing that said works
were completed on the 3rd day of July, 1951; and that on the 6th
day of October, 1952,
T. S. VANDERFORD, Assignee,
of Aberdeen, State of Idaho, made proof to the satisfaction of the
State Reclamation Engineer of Idaho, of the right to use the waters of a well
(subterranean/ flow) tributary of, for the purpose of irrigation and domestic use
, under Use Permit No. 19754 of the Department of Reclamation
and that said right to the use of said waters has been perfected in accordance with the laws of Idaho,
and is hereby confirmed by the State Reclamation Engineer of Idaho and entered of record in Volume
8 of Licenses at page 5111, on the 4th day of August, 1953;
The right hereby confirmed dates from January 24, 1946;

The Point of Diversion is located in the center of the Northwest Quarter
of the Sec. 1, Tp. 7 S, R. 31 E, B. M. Power County.

That the amount of water to which such right is entitled and hereby confirmed, for the purposes
aforesaid, is limited to an amount actually needed and beneficially used for said purposes, and shall
not exceed two (2) cubic feet per second.

Description and location of use:

Twp.	Range	Sec.	Forty-acre Tract	No. Acres Described in Permit	No. Acres Actually Irrigated

APPLICATION FOR PERMIT To Appropriate the Public Waters of the State of Idaho

Application No. 27289
Permit No. 19754
District No.

1. Name of Applicant: C. W. COON
American Falls
Postoffice address: 220 Roosevelt St., / County: Power State: Idaho
 - I. If applicant is a corporation, give:
 - (a) Date and place of incorporation:
 - (b) Amount of capital stock:
 - (c) Amount paid in:
 - (d) Names and addresses of directors:
 - II. The financial resources of the applicant are:
 - (a) Cash on hand:
 - (b) Treasury stock:
 - (c) Bonds to be issued:
 - (d) Other resources:
2. Quantity of water claimed: 3-1/3 cubic feet per second.
3. Source of water supply: Well (Underground pumped to surface) which is a tributary of
4. Location of point of diversion: Approximately 2000 feet distant from the Northwest corner of Section 1, T. 7 S., R. 31 E., B. M., and is in the SW 1/4 NW 1/4 of Section 1, T. 7 S., R. 31 E., B. M., County of Power
5. Water is to be used for Irrigation and domestic purposes
6. If for mining, milling, power or manufacturing purposes, give:
 - (a) Point of use of water: feet distant from corner of Section T., R., B. M., in the of Section, T., R., B. M.
 - (b) Amount of power generated: H. P., under feet head.
 - (c) Water is to be returned to at a point feet distant from the corner of Section, T., R., B. M., in the of Section, T., R., B. M.
7. Estimated cost of works: \$ Approximately \$4,000.00
8. Kind of works: Well, pump and ditches
9. Height of dam feet; length of dam at top feet; length of dam at bottom feet; material used in dam:
10. Size of headgate: Width feet; height feet;
11. Ditch: Width at bottom 2 1/2 feet; width at water line 4 feet; depth of water 1 1/2 feet; dimensions of flume: Diameter of pipe inches; length of conduit miles. Average grade per mile about 5 feet.
12. The time required for the completion of such work is Five (5) years.
13. The time required for the complete application of the water to the proposed use is Six (6) additional years.
14. The land to be irrigated is described in the following tabulation: See remarks.

15. (a) Is reservoir to be used? **No** If so, fill in (b) and (c) below.
 (b) Name of Reservoir and number of Storage Permit:
 (c) Date of filing of Application for Storage Permit and Name of Applicant:

BE IT KNOWN THAT The undersigned hereby makes application for permit to appropriate the public waters of the State of Idaho as herein set forth.

C. W. COON

Applicant.

Received and filed for record in the Department
of Reclamation, at Boise, Idaho, August 4, 1952
MARK R. KULP
State Reclamation Engineer
A.

APPLICATION FOR AMENDMENT
TO PERMIT TO APPROPRIATE THE PUBLIC WATERS
OF THE STATE OF IDAHO, NO. 19754.

Comes now T. S. Vanderford and represents to the State Reclamation Engineer of the State of Idaho:

That he is the owner and holder of Permit to appropriate the Public Waters of the State of Idaho, No. 19754.

That the point of diversion is described in said permit as being located Center of the SW $\frac{1}{4}$ NW $\frac{1}{4}$ Section 1, Township 7 South, Range 31 East, B.M.

That he now requests that the point of diversion be changed to a point Center of the NW $\frac{1}{4}$ Section 1, Township 7 South, Range 31 East, B.M.

That his reasons for desiring to make such change are as follows: The well caved in and the casing collapsed as result of sand pumping so old well had to be abandoned. The center of the Quarter Section being the most practical location of the well for a sprinkling system.

That no one will be injured by such change, and that such change will be made at Permit Holder's own risk.

Signed at Aberdeen, Idaho, this 30th day of August, 1952.

T. S. VANDERFORD

Date of receipt at Department of Reclamation Sept. 6, 1952.

APPROVAL OF STATE RECLAMATION ENGINEER

I, Mark R. Kulp, State Reclamation Engineer of the State of Idaho, hereby approve the above and foregoing application for amendment to Permit to Appropriately the Public waters of the State of Idaho, No. 19754. This approval constitutes a new permit and is issued as an amendment to the original permit, to which it refers, and of which it becomes a part, and said application is approved only insofar as the rights of others will not be adversely affected thereby.

RE: Permits Nos. 19754 and G-22944

Mr. T. S. Vanderford
Aberdeen
Idaho

Dear Mr. Vanderford:

We enclose License and Certificate of Water Right issued under Permit No. 19754, confirming your right to the use of 2 second feet of water from a well in the center of the NW¹ Section 1, Township 7 South, Range 31 East, B.M., with priority of January 24, 1946, for irrigation and domestic use on the NW¹ of said Section 1.

We also enclose License and Certificate of Water Right issued under Permit No. G-22944, confirming your right to the use of 0.68 second foot of water from the same well with priority of August 4, 1952, for irrigation and domestic use on the same quarter section.

We also enclose department receipt No. 26105 for the \$8.00 license fees.

Very truly yours,

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO
REPORT OF ENGINEER

Permit No. 19754

This proof is for Beneficial use In Water District No. _____

1. Name of applicant T. S. Vanderford, Aberdeen, Idaho

2. Source of water supply: Well (subterranean flow)

3. Location of point of diversion: Is in the Center of NW $\frac{1}{4}$ of Section 1

T. 7 S. R. 31 E. County of Power

4. Describe works as they exist, giving dimensions and capacities of same: Well is 296' deep by 18" diameter cased to bottom. Lift is approximately 100'. Aluminum cupboard pump house is 6' x 6' by 7' high, concrete base, 6' by 6'. 75 h.p., U. S. motor, 440 V. 90 amps, 1800 r.p.m., No. 878760. Layne pump No. 23955. Delivery through 8" outlet pipe to the North into a pipe line for sprinkler system. There is 1/4 mile of 8" buried steel pipe and 1/4

mile of buried 6" pipe. Has main line. There are 44 risers on the main. There are five 1/4 mi. lengths of lateral line with 32 sprinklers on each. Rainbird 40 nozzles, 1/8 by 5/32.

5. Water is used for: Irrigation and domestic purposes

6. State whether or not water has been turned into works of diversion: Yes

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

Northwest Quarter Section 1, Township 7 South, Range 31 East, B. M.

See Map

See also Permit No. G-22944 on same well.

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach? _____

Remarks: Water was quite carefully checked and Q equals 134 inches. Temp. was 60°

F.

This examination was made on the 11th day of June, 19 53

Dear Mr. Kulp:

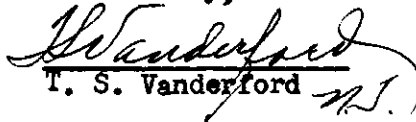

Received your letter of June 4, regarding the inspection of our two Permits Nos. 19754 and 22944, on June 12, 1953.

Mr. Vanderford will not be able to go out with you for the inspection on that date but will be back in Aberdeen June 15. Mr. Lucus Davis can pick you up at the Barnard Hotel on the 12th and take you out to the wells where the foreman of that farm can show you around.

If the weather is foul and you can't come on the 12th or if you would rather come when Mr. Vanderford gets back which would be back anytime after the 15th Mr. Vanderford would be glad to take you out.

On the 12th, if you come and Lucus Davis isn't there at the Hotel to meet you His Home Phone is 3404 and the Office Phone is 3312. You could get him at one of the two.

RE: Permits Nos. 19754 and 22944

Mr. T. S. Vanderford
Aberdeen
Idaho

Dear Mr. Vanderford:

State Law requires that an inspection be made in connection with any water permit ready for license.

We would like to make inspection in connection with your Permits Nos. 19754 and 22944 on Friday morning, June 12, 1953.

Please be prepared to accompany me on the inspection.

I would like to make the inspection fairly early and I believe your well is on the South side of the lake. Therefore, I will wait for you at the Barnard Hotel.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Mr. Mark R. Kulp,
State Reclamation Engineer,
State House,
Boise, Idaho.

Sir:

Re: Permits Nos. G-22944 and 19754

The correct description of the land is NW $\frac{1}{4}$ Section 1,
Township 7, South, Range 31 E. B. M.,

and you are authorized to correct the proofs to so read as suggested in
yours of October 20th, 1952.

T. S. Vanderford.

November 25, 1958

RE: Permits Nos. 19754 and C-22944

Mr. T. S. Vanderford
Aberdeen
Idaho

Dear Mr. Vanderford:

We have received from Mr. E. C. Loofbourrow the depositions of yourself and two witnesses in proof of beneficial use on Permit No. 19754.

However, we have still received no reply to that portion of office letter addressed you on October 20, in regard to the land description given in your proofs of beneficial use on Permit No. C-22944.

As mentioned in that letter, the permit and published notice describes the place of use as the NW¹ of Section 1, Township 7 South, Range 31 East, B.M., whereas the proofs describe the NW¹, NE¹, NW², NE², SW² and SE² of said section.

Doubtless this is an error, and we can correct it upon authorization from you to do so.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

Permit No. 19754

Proof of Application of Water to Beneficial Use

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. T. S. Vanderford, Aberdeen, Idaho, potato dealer, post office Aberdeen, Idaho.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. _____

Ques. 3 State number and date of permit, and date of priority you propose to establish under the permit.

Ans. Number 19754, dated January 26, 1946

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Well in center of NW $\frac{1}{4}$ Sec. 1, Twp. 7, So., R. 31, E. B. M.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined.

Ans. Well and sprinkler system. Certificate of completion of works on permit 19754 allowed two second feet of water, dated July 25, 1951, and issued to Mrs. Jeanette Coon and assigned by her to T. S. Vanderford. Since then the first well caved in and new well has been drilled and Certificate of Completion of Works Permit No. G-22944, dated Sept. 15, 1952, for 1.2 second feet issued to T. S. Vanderford, showing the well and system delivering 3.2 second feet of water. The priority for the 2.00 acre feet in this permit is to date from Jan. 24, 1946: And the 1.2 acre feet in No. G-22944 is to date from August 4, 1952: The total of 3.2 acre feet all come out of the same well.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. NW $\frac{1}{4}$ of Sec. 1, Twp. 7, So., R. 31, E. B. M., 160 acres; all cultivated; It was all cultivated and potatoes grown on it during the season of 1952. Some of the water is used for domestic use, during working season.

19754

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. Use some for ~~irrigati-~~ domestic purposes when working there - not over 200 gallons per day.

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. Not over 200 gallons per day.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder. Original permit issued to C. W. Doon, who died, and property

Ans. inherited by his wife Mrs. Jeanette Coon, who assigned to T. S. Vanderford.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. ~~Seasons of 1948 and since each season 2.0 acre/feet has been used~~ ^{second} at times, each season, on twenty acres of alfalfa planted in 1948, and small grain, of about 35 acres. During 1952 the full 3.2 ~~acre-feet~~ ^{second feet} and second feet has been used and the whole 160 acres was in potatoes.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. 1.2 second feet was used during 1952 in addition to the water covered by this permit. The additional 1.2 second feet being represented by G-22944

(Sign)

T. S. Vanderford

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in American Falls, County of Power, State of Idaho, on this 6th day of October, A. D. 1952.

McPherson

Notary Public, Residing at American Falls, Idaho.

My commission expires December 8th, 1953.

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

Permit No. 19754

Proof of Application of Water to Beneficial Use

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Jeanette Coon, 39, American Falls, Idaho, stenographer, American Falls, Idaho.

Ques. 2. Are you acquainted with T. S. Vanderford, the holder of Permit No. 19754 ~~and~~? How long have you known him and where does he reside?

Ans. About eight months and he lives in Aberdeen, Idaho

Ques. 3. Have you read or heard read said Permit No. 19754, and are you familiar with its provisions and conditions?

Ans. yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Well. in center of NW $\frac{1}{4}$. Sec. 1, Twp. 7, So., R. 31, E. B. M.,
water is conveyed to all of NW $\frac{1}{4}$ said section by a sprinkler system

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. 3.2 all of it has been conveyed and I have seen it so conveyed during
the season of 1952.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. 3.2 just estimated it by looking at it and at the land that was
being irrigated.

19754

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is used for domestic use and for irrigation, the land - 160 acres - was all cultivated and in potatoes in 1952. All of the NW $\frac{1}{4}$ Sec. 1, Twp. 7, So., E. 31 E. S. M.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. All for irrigation, except some is used for ~~domestic~~ domestic use when workmen are tending the crops.

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. I would call it a sandy loan soil; all of the 160 acres has been cultivated and was in potatoes in 1952. It will need the full amount of 3.2 ~~acres~~ second feet, or a full inch to the acre.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. no. I had sold my interest to T. S. Vanderford in the spring of 1952.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. forty acres were watered under permit 19754 in 1946, and this was gradually increased until 55 acres were watered in 1951. In the spring of 1952 land was sold to T. S. Vanderford; the well went bad and he drilled a new well and placed the full 160 under irrigation and raised a crop of potatoes on the whole 160 acres in 1952.

(Signed) _____

Jeannette Coon

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in American Falls, Idaho, County of Power, State of Idaho, on this 6th day of October, A. D. 19 52.

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

Permit No. 19754

Proof of Application of Water to Beneficial Use

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Vern Eames, 56, American Falls, Idaho, farmer, American Falls, Idaho

Ques. 2. Are you acquainted with T. S. Vanderford, the holder of Permit No. 19754? How long have you known him and where does he reside?

Ans. Have known him 20 years. He resides in Aberdeen, Idaho.

Ques. 3. Have you read or heard read said Permit No. 19754, and are you familiar with its provisions and conditions?

Ans. yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. well in center of NW $\frac{1}{4}$ of Sec. 1, Twp. 7, So., R. 31 E. B. M.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. 3.2 all of it has been conveyed and I have seen it so conveyed during the season of 1952.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. 3.2 just estimated by square device or measuring device.

19754

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Domestic and irrigation on all of NW $\frac{1}{4}$ Sec. 1, Twp. 7, So., R. 31 E. B. M.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. Domestic use when the farm laborers are working the land, otherwise all of it is used for irrigation

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Sandy loam, 160 acres, 3.2 second feet

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. no

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. Water was used for perhaps 40 acres in 1946 and gradually increased, until it was used for the whole 160 acres in 1952: I own land adjoining and saw this land every season several times. Vanderford acquired this land in spring of 1952 and the casing broke, causing the well to go bad; and he then drilled a new well; and had the whole 160 acres in potatoes in 1952.

RE: Permits Nos. G-22944 and 19754

Mr. T. S. Vanderford
Aberdeen
Idaho

Dear Mr. Vanderford:

We have received from Mr. A. C. Loofbourrow, Notary Public, depositions of yourself and two witnesses in proof of beneficial use under Permit No. G-22944. Also affidavit of publication in the Power County Press in connection with beneficial use proof on this permit and also on Permit No. 19754.

Separate proofs must be made on both these permits and in case you have misplaced the other set of forms, we enclose other forms herewith which should be executed by yourself and two witnesses on Permit 19754.

We note in the proofs on Permit No. G-22944, you describe the land where the water has been used as in the NW $\frac{1}{4}$ NW $\frac{1}{4}$, NE $\frac{1}{4}$ NE $\frac{1}{4}$, SE $\frac{1}{4}$ SW $\frac{1}{4}$ and SE $\frac{1}{4}$ SE $\frac{1}{4}$ Section 1, Township 7 South, Range 31 East, B.M. We think this must be an error as both permits and also the published notice describe the land as all of the NW $\frac{1}{4}$ of Section 1.

Please advise as to this, and if an error has been made on the proofs we can correct it accordingly.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Notice for Publication NOTICE OF PROOF APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at
11:00 A.M. on the 6th day of Octo-
ber, 1952, at American Falls,
County of Power, State of Idaho,
before W. C. Loofbourrow, a No-
tary Public, proof will be submit-
ted of the applicaiton to beneficial
use of 2 cubic feet per second of
subterranean water in accordance
with the terms and conditions of
Permit No. 19754; and 1.2 cubic
feet per second of subterranean
water in accordance with the
terms and conditions of Permit No.
G-22944, heretofore issued by the
Department of Reclamation of
the State of Idaho.

The name and postoffice address
of the person holding said permit
are T. S. Vanderford, Aberdeen,
Idaho.

The use to which said water has
been applied is irrigation and do-
mestic purposes.

The amount applied to beneficial
use is 3.2 cubic feet per second.

The place where said water is
used is NW 1/4 Section 1, Township
7 South, Range 31 East, B.M.

The right to take water from
such works is based upon Permits
Nos. 19754 and G-22944.

The source of supply from which
such water is diverted is a well lo-
cated in the center of the NW 1/4
Section 1, Township 7 South,
Range 31 East, B.M.

The date of priority which said
user is prepared to establish un-
der Permit No. 19754 is January
24, 1946; and under Permit No.
G-22944 is August 4, 1952.

Dear Mr. Kulp:

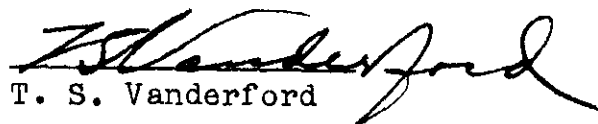

Herewith are Notice for Publication of Notice of Proof Application of Water to Beneficial Use and Application for Amendment to Permit To Appropriate the Public Waters of the State of Idaho, No. 19754.

We have arranged with W. C. Loofbourrow, a Notary Public of American Falls, Idaho, to take the Testimony. We will have completed Irrigation of this years crop by Sept. 20, and will then be in position to furnish witness to prove water has been put to beneficial use.

The Power Co. Press is the only paper in Power County, located in American Falls, Idaho. You can send Notice of Publication to them and we will Guarantee the bill.

We have left the time and Date Blank in the Notice for Publication because we are unable to determine the date the advertising and other matters will be complete; Hope this can be filled in by your office when date can be determined. It can all be completed as soon as proof can be furnished after Sept. 20, 1952.

RE: Permits Nos. G-22944 and 19754

Mr. T. S. Vanderford
Box 67
Aberdeen, Idaho

Dear Mr. Vanderford:

We enclose Permit No. G-22944 together with departmental receipt No. 24714 for the \$5.25 filing fee.

We note that you wish to make completion of works proof on this permit, and beneficial use proof on this permit and Permit No. 19754 at the same time.

We enclose Form 6 for making proof of completion of works on Permit No. G-22944. This should be executed before a Notary Public and returned to this department with the fee of \$5.00.

No doubt you will wish to make an amendment to the point of diversion as shown in Permit No. 19754, to the center of the NW Section 1, Township 7 South, Range 31 East, B.M., which appears to be the correct location. We enclose a form of application for amendment which you may execute and return to this department for approval and record.

Meanwhile, we enclose a form of notice to be used in making beneficial use proof on these two permits. If this form meets your approval, please complete by setting time and place and naming the Notary Public before whom proofs will be made, and return both copies to this department together with Form 11 which is your authorization for us to have the notice published at your expense in the designated county newspaper.

Very truly yours,

MARK R. KULP

Re: Permit No. 19754

Mr. T. S. Vanderford
Aberdeen, Idaho

Dear Mr. Vanderford:

We have recorded the essential part of the abstract, which we return herewith, showing Jeanette Coon's title to the above numbered permit, and also her assignment of said permit to you, which is also returned herewith.

We have placed on file your application for an additional 1.2 second feet from this same well, and when same has been approved and permit issued, we shall send you the necessary forms for completing proofs on both permits.

Very truly yours,

AUG 4 1952

Department of Reclamation

Mr. Mark R. Kulp
State Reclamation Engineer
State House
Boise, Idaho

Dear Mark:

We are enclosing an Application for Permit for 1.2 second feet of water on the Northwest quarter of section one twp. Seven South of Range thirty-one E.B.M., which is in addition to and under the same well filed on under permit # 19754 approved Jan. 26, 1946. Also enclosed our check in the amount of \$5.25 to pay filing fee.

The water under Permit # 19754 as well as the water under this application is in use and I would like to make Proof that Water has been put to Beneficial Use on both the 2.0 second feet under permit # 19754 and the 1.2 second feet under the Application for permit, enclosed, at the same time I make Final Proof for Completion of Works on this application.

I am also enclosing the Assignment from Jeanette Coon on permit No. 19754, to Myself. This is the Assignment you told me I would have to get when I was in your office Wednesday.

Please send me the proper forms to file for Final Proof for Completion of Works on the 1.2 second feet and the forms for Proof That Water has been put to Beneficial use on the two lots as soon as the matter is in order.

Yours truly,

T. S. Vanderford

RE: Permit No. 19754

Mr. T. S. Vanderford
Aberdeen
Idaho

Dear Mr. Vanderford:

Proof of completion of works was made on 2 cubic feet per second on Permit No. 19754, issued to William Coon, and certificate of completion of works was issued. This limits the amount of water that can carry the January 26, 1946 priority to 2 cubic feet per second. Additional water should be appropriated under a new permit.

Permit No. 19754 is still in the name of William Coon, as we have no evidence in the file of the succession of interest of Jeanette Coon to the permit and no assignment of the permit to you. Such evidence and assignment should be furnished to the department.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

State Capital Bldg.
Boise, Idaho

Dear Mr. Kulp:-

This refers to an exchange of letters from Mr. Ival Goslin of Aberdeen Idaho, to your office dated May 29th 1952 and reply from yourself dated June 2nd, 1952, relative to a ruined well as a result of sand pumping and collapsed casing.

I purchased the land upon which the ^{above} mentioned well is located from Mrs. Jeanette Coon the surviving wife of C. W. Coon on May 2, 1952, together with all water rights appertinant thereto.

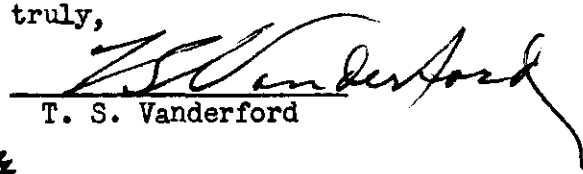

The location of the new well is 660 ft. to the North and 660 ft. to the East of the old well, approximate center of Quarter Section, on the filing by C. W. Coon of American Falls, dated Jan. 24, 1946 under filing permit # 19754, on the following described land; Lots 3 & 4 and the South half of the North West Quarter of Section One Twp. Seven South of Range 31 E.B.M.

The new well referred to above is yielding 3.2 second feet of water which we are using to irrigate the entire 160 acres above described. An adequate pumping and sprinkling system has been installed to properly irrigate the 160 acres.

We would like to have a certificate of completion of works on this well which will include beneficial use of 3.2 second ft. of water asked for in original application for permit; also that it be given priority same as application #27289 and Permit #19754 bearing date of priority Jan. 24, 1946.

Kindly advise additional filing fees required and necessary procedure.

Very truly,

T. S. Vanderford

Dear Mr. Goslin:

Re: Your letter of May 29, on a ruined well.

This department thinks that the loss of a well through collapsed casing, sand plugging, or such misadventures is similar to the washing out of a headgate and in order to hold rights already acquired, all that has to be done is the repair or replacement of the structure.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

May 29, 1952

Mr. Mark Kulp
Idaho State Reclamation Engineer
State Capitol Bldg.,
Boise, Idaho

Dear Mark:

A friend of mine, in the endeavor to increase the flow of water from a well by drilling deeper and pumping sand from it, had the unfortunate experience of completely losing the well.

The well had been properly filed upon and assigned a priority of about five years ago.

He now desires to drill a new hole in order to supply water to the same land formerly watered by the original well. What procedure does he follow, and what papers does he have to file with your office in order to preserve the original date of priority which had been assigned to the original well ?

I am assuming that, although he had to drill a new hole, he will not lose his original date of priority. This assumption is correct, is it not ?

The original well has been used every irrigation season since it was first established.

Sincerely yours,

Ival V. Goslin

RE: Permit No. 19754

Mrs. Jeanette Coon
246 Monroe Avenue
American Falls, Idaho

Dear Mrs. Coon:

We enclose a certified copy of the Certificate of Completion of Works issued under Permit No. 19754, together with departmental receipt No. 24359 for the \$1.25 fee in connection therewith.

You, of course, understand that the issuance of the Certificate of Completion of works does not complete the water right. In order to complete the water right and obtain a license, it is necessary to submit proof of the application of the water to beneficial use.

As you will note from the terms of the permit, this is not due until January 26, 1957, but it can be made at any earlier date and we shall be glad to furnish the necessary forms for notice upon request.

Very truly yours,

MARK R. KULP

STATE OF IDAHO
DEPARTMENT OF RECLAMATION

In the Matter of the Reinstatement
of Permit No. 19754 Under the
Provisions of Section ~~5594, Idaho~~
~~xxCompiled Statutes~~ 42-311, Idaho Code

ORDER REINSTATING PERMIT

WHEREAS, Permit No. 19754 lapsed through failure of the holder to make proof of completion of the works of diversion within the time specified in the Permit, to-wit: January 26, 1951; and,

WHEREAS, On the 20th day of June, 1951 notice to show cause why said permit should not be canceled, under the provisions of Section 5594, Compiled Statutes of Idaho, was duly served on the holder of said permit; and,

WHEREAS, On the 25th day of June, 1951 the holder filed notice of appearance to offer proof to show that the works of diversion under said permit were fully completed within the time required; and,

WHEREAS, On the 11th day of July, 1951 depositions of the holder and two witnesses were received at the Department of Reclamation showing that the said works of diversion were completed within the time required in the permit; and,

~~Engineer~~ WHEREAS, After examination of the said depositions, the ~~Commissioner of State~~ Reclamation of the State of Idaho, is fully satisfied that the works of diversion were completed as required under the terms of said Permit No. 19754, and that the holder has acted in good faith;

IT IS, THEREFORE, Hereby Ordered that said Permit No. 19754 be, and the same is, hereby reinstated, and that a certificate of completion of works be issued to the applicant herein.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed the official seal of this Department, at Boise, Idaho, this 25th day of July, 1951.

Re: Permit No. 19754

Mark R. Kulp
State Reclamation Engineer
Bureau of Reclamation
State House
Boise, Idaho

Dear Mr. Kulp:

I hope this will clear up the matter of the second permit on the same well sent in at the time we sent the Completion of Works forms.

You see, I found the original permit Sunday. Until then, the permit we sent in to you, partially filled out - incorrectly - was the only thing I could find among Bill's papers on the well. We could see it had not been filed and as we had no way of knowing what had been done, we sent it in along with the Completion forms.

I'm sorry this misunderstanding came up, but believe the rest will work out alright, now.

Every effort will be made to make proof of Beneficial Use as soon as possible, but this will probably be sometime next year. The man leasing the ground at present has too many varied interests.

Very truly yours,

Mrs. C. W. Coon

19754

Re: Permit No. 19754

Mrs. C. W. Coon
American Falls, Idaho

Dear Mr. Coon:

We are in receipt of your letter of July 16, 1951, in regard to the above numbered Permit and as stated in our letter of July 12, Certificate of Completion of Works will be issued and sent you in a few days.

Under the terms of the Permit, Beneficial Use Proof is not required to be made until January 26, 1957, but it may be made at any earlier date that you are prepared to make it.

As suggested in a previous letter, it might be well to wait to make this proof until the estate is settled so that the License may be issued in your own name rather than in the name of your late husband.

We still do not quite understand what you intended in filing a new application for two second feet of water from the same well.

Permit No. 19754 has a priority of January 26, 1946, and your Proof of Completion of Works makes it valid for two second feet of water, whereas a new Permit at this time could only carry the present priority and two second feet or 100 inches is all that could be allowed for the 100 acres irrigated.

However, if this well will deliver more than two second feet of water and you wish to apply it on more than the 100 acres, then a new filing would be necessary.

We shall await your further advice before proceeding under the new application.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Dear Sir:

In regard to your letter of July 12, I appreciate the fact that permit No. 19754 can be reinstated.

Following the issuance of the Certificate of Completion of Works, what is the time allowed to make proof of Beneficial Use? The land is being leased and I'd like to talk this over with the man who is leasing it.

The new application is on the same well. I don't know if that was clear, but thought you should know.

Very truly yours,

Jeanette Coon

Re: Permit No. 19754

Mrs. C. W. Coon
American Falls, Idaho

Dear Mrs. Coon:

We have your letter of July 10, enclosing depositions of yourself and two witnesses in Proof of Completion of Works under Permit No. 19754 and also your application for a new Permit, accompanied by your check for \$5.25.

Since the new application is practically the same as Permit No. 19754, it will not be necessary to make a new filing, as the present Permit can be amended in accordance with present conditions.

Permit No. 19754 can be reinstated and a Certificate of Completion of Works issued, after which you may proceed to make Proof of Beneficial Use if the water has been completely applied for the irrigation of the land described.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

19754

PERMIT NO. 19754

Proof of Completion of Works

DEPOSITION OF HOLDER

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Jeanette Coon, wife of C. W. Coon deceased, American Falls, Idaho.

Ques. 2. If acting in behalf of a corporation, state its name, principal place of business, your position with reference to same, and your authority for appearing in its behalf.

Ans. Not a corporation.

Ques. 3. State number and date of permit, amount of water you are authorized to divert, source, and point of diversion.

Ans. No. 19754, two cubic feet per second, from deep well, located 2000 feet distant from NW corner of Sec. 1, T. 7 S., R. 31 E.B.M., and is in the center of SW 1/4 section and township aforementioned.

Ques. 4. State purpose for which water is to be used, and, if for irrigation, state the number of acres and give description of the land you intend to reclaim.

Ans. Irrigation. 60 acres in South half of northwest quarter of Section 1, Twp. 7 S., Range 31 E.B.M. and 40 acres in Northwest quarter of the northwest quarter of Section 1, Twp. 7 S., Range 31 E. B. M.

Ques. 5. State whether or not the water has been turned into your works of diversion, and, if so, when and to what extent.

Ans. Yes. April 1, 1948, 60 acres irrigated summer of 1948. Purchased the additional pipe spring of 1950. All pipe has now been installed, although additional 40 acres is not yet fully prepared for water.

Ques. 6. State whether or not the works of diversion are fully completed, and whether or not they comply in all respects with the terms of the permit.

Ans. Fully completed prior to January 26, 1951, and comply with the terms of permit.

Ques. 7. If the works of diversion do not comply with all the terms of your permit, state fully those particulars in which there is any variance.

Ans. Compliance is complete in all particulars.

Ques. 8. Give description of works, state dimensions and capacity of each part, and give cost of same.

Ans. Sprinkler system and flooding. Deep well source, 275' deep. Cased with 12" casing to full depth. Equipped with Pomona Turbine Pump, 10" 5-stage, operated by electricity. 660' of 6" sprinkler pipe (have now acquired 660 additional ft.); 960' of 5" pipe and enough 4" and 3" pipe to reach all parts of the 100 acre tract. (Sign here.) *Jeanette Coon*

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, in American Falls,

County of Power, State of Idaho, on this 3rd day of July A. D. 1951.

The Depositions of two Witnesses, in this form, taken separately, required in each case.

Permit No. 19754

Proof of Completion of Works**DEPOSITION OF WITNESS**

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. C.H. Vollmer, American Falls, Idaho, Well Driller,
 P.O. Address: American Falls, Idaho.

Ques. 2. Are you acquainted with Mrs. Jeanette Coon, the holder of Permit No. 19754, authorizing the diversion of 2 second-feet of the waters of deep well located in SW 1/4, S. 1, T. 7 S., R. 31 E. B. M., at for irrigation purposes? How long have you known her, and where does he reside?

Ans. 20 years and resides at American Falls, Idaho.

Ques. 3. Have you read or heard read said Permit No. 19754, and are you familiar with its terms and conditions?

Ans. Yes

Ques. 4. (If for irrigation purposes). Are you acquainted with the land proposed to be irrigated under said permit? If so, describe same, state its character, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Yes. Light loamy volcanic ash soil, well suited for sprinkler irrigation, and I think it will require 2.0 second feet to properly irrigate it.

Ques. 5. Are the works of diversion fully completed and of sufficient capacity to convey the entire amount of water set out in the permit from point of diversion to place of use?

Ans. Yes

Ques. 6. Describe the works of diversion as they now exist, and give your estimate of their capacity.

Ans. Deep well, 275 ft. deep, cased full distance to bottom, equipped with 5-stage, 10 inch Pomona deep well turbine. Casing is 12" in diameter. Pump discharges into sprinkler system pipes of 6" diameter. There are 660 ft. of 6" sprinkler pipe and 960 ft. of 5" pipe, and enough 4" and 3" lateral pipes to reach all parts of the 100 acre tract.

(Sign here.) *C.H. Vollmer* Public,

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in American Falls County of Power, State of Idaho, on this 3rd day of July, A. Re: Permit No. 19754

Mr. O. R. Baum
Attorney at Law
Pocatello, Idaho

Dear Mr. Baum:

Reference is made to your letter of June 25, 1951, in reply to cancellation notice on Permit No. 19754 in the name of C. W. Coon.

Mrs. Coon evidently misunderstood office letter addressed her on January 30, 1951, a copy of which is enclosed for your information.

As you will note, Completion of Works Proof should have been made in order to keep the Permit in good standing, but additional time could be allowed for making Proof of Beneficial Use until such time as the estate was settled.

If the works were completed prior to January 26, 1951, which we understand from Mrs. Coon's letter is the case, this proof may be made by having the enclosed depositions executed by Mrs. Coon and two witnesses, upon receipt and approval of which, the Permit may be reinstated, and upon receipt of the statutory fee of \$5.00, a Certificate of Completion of Works can be issued.

The depositions should state definitely that the works were completed prior to the due date of January 26, 1951.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Re: Permit No. 19754
C. W. Coon

Dear Sir:

Your letter addressed to C. W. Coon, 220 Roosevelt St., American Falls, Idaho, in reference to completion of works has been forwarded to this office for attention. As you perhaps know Mr. Coon is now deceased and Mrs. Coon advised that someone from your office advised her in January to wait until the estate was distributed to her and then make the proof in her name. It will probably be another sixty days before the estate will be closed. If you think best we will go ahead and submit proof now, or if you will give us an extension of time we will complete the proof immediately upon the estate being closed.

Very truly yours,

O. R. Baum

Re: Permit No. 19754

To: Mr. C. W. Coon
220 Roosevelt St.
American Falls, Idaho

It appearing to the State Reclamation Engineer that the terms and conditions of Permit No. 19754
to appropriate the Public Waters of the State of Idaho, have not been complied with as to
Completion of work January 26, 1951

42-311
you are hereby notified in compliance with Sec. 41-311, Idaho Code annotated that said Permit No. 19754
is hereby held for cancellation.

You are hereby required to show cause before the State Reclamation Engineer on or before forty days from
date of this notice why said Permit should not be cancelled.

Said Permit No. 19754 claims the use of 3.5 cubic feet per second of the
waters of a well (subterranean flow) with point of diversion located
in the SW 1/4 Section 1, Twp. 7 S., Range 31 E., B.M.
was approved January 26, 1946

In Witness Whereof, I have hereunto set my hand and affixed the seal of my office at Boise, Idaho, the
20th day of June 1951

Mark R. Kulp

State Reclamation Engineer.

By Assistant.

Re: Permit No. 19754

Mrs. Jeanette Coon
242 Grant St.
American Falls, Idaho

Dear Mrs. Coon:

Reference is made to your letter of January 28, 1951, in regard to Proof of Completion of Works which is due on Permit No. 19754 in the name of William Coon.

It will be all right for you to make this proof as the surviving widow of William Coon. You may use the form enclosed in the notice sent Mr. Coon, but in case you have misplaced it, we enclose another. This affidavit should be executed before a Notary Public, describing the works and should be accompanied by the statutory fee of \$5.00. This will keep the Permit in good standing until the final proof, or Proof of Beneficial Use is made.

Under the terms of this Permit, Proof of Beneficial Use is not actually due until January 26, 1957, but can be made at any time that the water has been completely applied for the irrigation of the land described in the Permit.

As no doubt the License, when issued on Proof of Beneficial Use, should be in your own name, it would probably be better to wait to make this proof until the estate is settled and the title to the property and the water right is in your own name.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

RECEIVED
JAN 30 1951

Department of Reclamation

Dear Mr. Zulp:

As ^{we} were finishing up Bill's income tax return for 1950 I came across your letter requiring "Proof of completion of Works" for the Bill Coon well.

Bill was killed Nov 10 in a Garrett. Harst truck accident. As his widow, could I have the form filled out ^{and} notarized?

Although we may have to lease it, we intend to keep his land ^{and} use the well. His permit number is 19754.

I am sure his work on the well was completed. - It was connected to electricity last Spring ^{and} he had about \$5,000 invested in his sprinkling system.

Please let me know as soon as possible as the date on the instructions was Jan 26, 1951 or 10 days thereafter.

Very truly yours
Mrs Jeanette Coon

INSTRUCTIONS

PROOF OF COMPLETION OF WORKS

Mr. C. W. Coon
220 Roosevelt St.
American Falls, Idaho

Boise, Idaho

November 1, 1950

Dear Sir:-

Under the terms of your permit No. ~~19754~~-----you are required to complete your diversion works on or before January 26, 1951. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

MARK R. KULP

State Reclamation Engineer

Notice for Publication

NOTICE OF PROOF APPLICATION OF WATER
TO BENEFICIAL USE

Notice is hereby given that at _____ A.M. on the _____ day of _____, 19____, at _____ County of _____, State of Idaho, before _____, proof will be submitted of the application to beneficial use of 2 cubic feet per second of subterranean water in accordance with the terms and conditions of Permit No. 19754; and 1.2 cubic feet per second of subterranean water in accordance with the terms and conditions of Permit No. G-22944, heretofore issued by the Department of Reclamation of the State of Idaho.

The name and postoffice address of the person holding said permit are T. S. Vanderford, Aberdeen, Idaho.

The use to which said water has been applied is irrigation and domestic purposes.

The amount applied to beneficial use is 3.2 cubic feet per second.

The place where said water is used is NW $\frac{1}{4}$ Section 1, Township 7 South, Range 31 East, B.M.

The right to take water from such works is based upon Permits Nos. 19754 and G-22944.

The source of supply from which such water is diverted is a well located in the center of the NW $\frac{1}{4}$ Section 1, Township 7 South, Range 31 East, B.M.

The date of priority which said user is prepared to establish under Permit No. 19754 is January 24, 1946; and under Permit No. G-22944 is August 4, 1952.

MARK R. KULP
State Reclamation Engineer
