RE: License No. 19340

Mr. L. A. Lehrbas
Box 1444
Pocatello, Idaho

Dear Mr. Lehrbas:

Your letter received, stating that you gave the wrong description of your land when filing your application for water right.

Our records show that your application for permit shows $3\frac{1}{2}$ acres to be irrigated in the SE $\frac{1}{4}$ SW $\frac{1}{4}$ Section 8, Township 8 South, Range 35 East, B.M. The report of our field engineer, on checking the land, shows that the land irrigated is in the NE $\frac{1}{4}$ SW $\frac{1}{4}$ Section 18. Your license shows land to be irrigated as in the SW $\frac{1}{4}$ Section 8, Township 8 South, Range 35 East, B.M.

The license issued you should have shown the land to be irrigated within a 40 acre subdivision instead of just stating the SW $\frac{1}{4}$ of the section. Unless you want the whole procedure corrected, the writer is of the opinion that the license, as issued, protects your water right regardless of where your land is located within the SW $\frac{1}{4}$ of Section 8. You state in your letter that the correct location of your land is one acre in the NW $\frac{1}{4}$ SW $\frac{1}{4}$ and the balance in the SW $\frac{1}{4}$ NW $\frac{1}{4}$ Section 8, Township 8 South, Range 35 East, B.M.

If a correction seems necessary, we would suggest that you file an application for change in place of use and point of diversion. In this case, it would be necessary for you to furnish a correct description of your land by providing a meets and bounds description of said land, made out and certified to by a land surveyor. The department can furnish the forms for making said application. This procedure will cost you about \$10.00, including publication and recording fees.

We are enclosing a copy of our engineer's map showing the location of your land as he reported same.

Very truly yours,

Dear Mr. Lehrbas:

We have received the report of our Field Engineer on examination for beneficial use under the above numbered permit.

Our engineer found that you were irrigating three and one-half acres of land in the SW $\frac{1}{4}$ Section 8, Township 8 South, Range 35 East, B.M.

Therefore, upon receipt of the statutory fee of \$2.00 a license will be issued for seven-one hundredths of a second foot, or $3\frac{1}{2}$ inches of water from the East Fork of Mink Creek.

Dear Mr. Lehrbos:

This will acknowledge receipt of the deposition of the holder, depositions of two witnesses, and Affidavit of Proof of Publication from the Rigby Star, all in connection with Beneficial Use Permit.

Before final action can be taken in this matter, the Law requires that a field examination be made by an Engineer from this Department. We are unable to say just when this examination will be made, since this Department has but one Field Engineer, who makes examinations all over the State.

However, Mr. Tolman, Field Engineer for the Department, will try and contact you at the time he makes the examination so that you may arrange to show him over the grounds.

Dear Sir:

Under the terms of your permit No. 19340 you are required to complete your diversion works and make proof of Beneficial Use on or before November 5, 1942

I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of Completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the Completion of the Works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion of Works will be issued to you.

I also enclose blank notice for proof of application of water to Beneficial Use under this permit, which should be filled out and returned to this office at least forty (40) days before the date upon which you wish to make proof. The proof must be submitted before a Notary Public or other officer authorized by law to administer oaths. The date for proof as set out in your permit, is 19340, and if proof is submitted subsequent to said date, your priority will be brought down a length of time equal to the time elapsing between the date proof should have been made and the date proof is actually made.

Yours truly,
