Dear Mr. Turner:

We have been holding in our files certain correspondence between you and this Department in regard to License No. 12743, issued to Narcise Sorrell.

In our last letter, dated April 14, 1950, we asked if you still wanted a copy of the License since the place of use seemed to be different than as mentioned in your letter of April 13.

We have had no reply to this letter, and therefore return your check for \$1.00 sent in payment for the License.

Mr. Theo. J. Turner
P. O. Box 1031
Pocatello, Idaho

Dear Mr. Turner:

We are in receipt of your letter of April 13, 1950, enclosing your check for a copy of License No. 12743, issued to Narcine Sorrell.

We note your statement that an error was made in describing the place of use. The records of this Department show that the application for Permit, together with a sketch map accompanying same, showed the place of use in the Northwest corner of the SE $\frac{1}{4}$ NE $\frac{1}{4}$ Section 20, Township 7 South, Range 56 East, B.M. Also, Mr. Sorrell's Proof of Completion of Works describes the place of use as on one acre in the SE $\frac{1}{4}$ NE $\frac{1}{4}$ Section 20, and this is the description given in the published notice in connection with Proof of Beneficial Use.

However, it is of course possible that Mr. Sorrell may have made a mistake in describing the location of his land. If such is the case, an application for change of place of use may be filed in this Department, as provided under Section 42-222, Idaho Code. We enclose a form of Application for Transfer herewith.

Meanwhile, since we are not sure that you would want a copy of the License giving the place of use in the SE $\frac{1}{4}$ NE $\frac{1}{4}$ of this Section, we shall await your further advice before making the copy.

Very truly yours,

MARK R. KULP

Hon. Mark R. Kulp,

Dear Sir:

Until recently I owned the Southwest quarter of the Northeast quarter, the Northwest quarter of the Southeast quarter and the Northeast quarter of the Southwest quarter of Section twenty (20), Township seven (7) South, Range thirty-six (36) East of the Boise Meridian, to which belongs water from some springs located upon Government lands. It seems to me I checked the records in your office some years ago and found that one Narcisse, sometimes written as Norscea, and as Norcease, Sorrell and as Sorrelle, filed upon these springs and if my memory serves me rightly received a License, which according to a pencil memorandum I made was No. 12743. I wish you advise me what your records show. I shall probably want a copy of same. Kindly advise me what a copy would cost.

Thanking you for your courtesy herein and with kind personal regards, I am

P.S. I think the springs in question are located in the North half of the Northeast quarter of Section 20, Township 7 South, Range 36 East Boise Meridian, and if not then in the South half of Section 17, Township 7 South, Range 36 East Boise Meridian.

Re: License No. 12943

Turner Trust Company,
Pocatello, Idaho.

Gentlemen:

I will be entirely proper for the owner of License No. 12943 to convey the water acquired by means of a pipe to the land to which said water rights are appurtenant by the license.

The fact that he might change the course originally followed in conveying the water to this land would make no difference.

I do not see why it would be necessary for him to leave a tap for his neighbor if, as you state, this person has acquired no rights in or to the spring.

Our Supreme Court has held that an adverse interest can not procure a claim to water diverted for irrigation purposes, for domestic use, except through the process of condemnation.

It would appear to me a good plan to obviate the possibility of this adverse claim interfering with the right by conveying this water in a pipe.

Very truly yours,

Director of Water Resources.

Dear Sir:

Mr. Narcise Sorrell filed upon a spring situated upon the Northeast quarter of Northeast quarter of Section twenty, Township seven, South Range thirty-six East of Boise Meridian and was issued water license No. 12743, which is found of record in Book five of Licenses at Page 2543. Mr. Sorrell has transferred the land for which this water was appropriated, and also together with such water right, and his successor in interest is having difficulty with a neighbor who is attempting to divert portion of the water of the spring for his use. Mr. Christensen, the present owner of the lands for which this water was appropriated, and who is likewise the owner of the spring has requested us to write you and find out whether or not he can pipe the water of this spring to the lands for which it was appropriated. He would change the course slightly but the water would be used for the same purposes and upon the same lands for which the same was filed. He also wants to know whether or not he would have to leave a tap for his interfering neighbor to get water for domestic purposes. This neighbor has no rights in or to the spring as we understand the matter, but has merely gone ahead and without permission has taken a portion of the water of this spring and appurtenances thereto.

Thanking you on behalf of Mr. Christensen,

Instructions To Examiners

1. Examiners will not be permitted to examine any of the records in the office pertaining to this permit. They are to furnish a report of the facts and conditions as they exist, from their own observations and inquiries.
2. Always carefully note the location of the point of diversion, and accurately plat same.
3. Find out how many parties own rights in the ditch or canal and give their names and amount of right.
4. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
5. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
6. If any unusual conditions are discovered, make a plain statement of them under remarks.
7. Always see the holder, if possible, and go over the whole ground with him, and make your report only upon actual existing facts and conditions.

Dear Sir:

Replying to yours of the 14th instant, would say that proof of completion of works was made under the above numbered permit and certificate of completion issued. The depositions in the matter of proof of beneficial use of water were made August 27, 1917, but license was withheld pending the examination by an engineer from this office. On January 11, 1919, at the request of Mr. Horcease Sorrell, Mr. J. J. Barron, of Inkom, Idaho, was authorized to make the examination and blank sent for his report, but as yet we have received no report from the engineer, hence the license has never been issued.

Dear Sir:--

In looking over the files under the above permit I find that the holder has already submitted depositions for proof of use of water and that the license has been withheld pending the examination by an engineer from this office. As it will be impossible for us to have a man in the field this winter, I would suggest that the holder send us the name of some one near him to do this work. If you are acting as her agent only in making the proof, her name will be inserted in the notice. Please advise us as to this before notice is sent to the paper for publication.

I also find that the land is described in the permit as the SE $\frac{1}{4}$ NE $\frac{1}{4}$ Sec.20, instead of the SE $\frac{1}{4}$ said section, as shown in the notices. This correction has been made.

Proof of Application of Water to Beneficial Use

DEPOSITION OF WITNESS

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Edward Sorrell, residence and P.O. Inkam, Idaho.

Occupation: a farmer.

Ques. 2. Are you acquainted with Narcise (Mercia) Sorrell, the holder of Permit No. 12743? How long have you known him and where does he reside?

Ans. I have known him all my life and he lives at Inkam, Idaho.

Ques. 3. Have you read or heard read said Permit No. 12743, and are you familiar with its provisions and conditions?

Ans. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Source is an un named spring, located in NE $\frac{1}{4}$ NE $\frac{1}{4}$ Sec 20, Twp--
7 S. R. 36 E. B. M. and he has a small dirt dam, and a ditch about
1 ft. wide, a half a foot deep and a quarter of a mile long.

Ques. 5. How many second-feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. At least twenty miners inches.

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. The water is used for irrigation and domestic purposes
on the SE $\frac{1}{4}$ NE $\frac{1}{4}$ Sec 20, above described. The land is cultivated
land, and the irrigation has been instrumental in producing good
crops of garden products, for 8 or 9 years last past.

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. He has also used it for household uses and for watering
stock.

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. The land is of a porous and gravelly nature, and I estimate
it would take two inches for the irrigation of one acre thereof.

12743

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No.

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have seen it used to the amount and during the
period hereinbefore mentioned. Amount used, I think would be at
least three miner's inches.

Dear Mr. Smith:

We enclose herewith two affidavits of Marcease Sorrell in connection with Permit # 12743, viz., Affidavit of Proof of Completion of Works and Affidavit of Proof of Application of Water to Beneficial Use.

Mr. Fred Wilkie, your Deputy, was in Pocatello yesterday, the 10th, and made an examination of this water and you probably have his report at this time. The notice is being published in the Pocatello Tribune and the date set for final hearing is August 27th. Mr. Wilkie felt that if we sent in our proof at once we might be able to avoid the expense of a trip to Pocatello of someone from your office, which is our reason for sending in the proof at this time. We will send in the affidavit of publication as soon as the publication is finished and we would appreciate it very much if you would advise us whether or not any ^{other} steps will be necessary to obtain the license.
