Mrs. Elwood Williams

Pocatello, Idaho

Dear Mrs. Williams:

This is in reply to your letter of October 25 written in
behalf of your father.

Our records indicate that Thomas Stott held License No.
10165 for the use of 1/2 miner's inch of water from an
unnamed spring in the SE1/4NW1/4, Sec. 28, T. 11 S., R.
33 E., B.M. for domestic purposes in the SE1/4NW1/4, Sec. 27,
T. 11 S., R. 33 E., B.M. Priority date is May 22, 1914.

It is not necessary for this right to be in your father's
name as it is considered to be appurtenant to the place
of use and passes on with ownership of the place of use.
Ownership changes are not included in our records.

RECEIVED
NOV 3 1965

Gentlemen:

Department of Reclamation

I am writing this for my father, Edward A. Davis, also known as Eddie Davis, who is a farmer at Arbon, Power County, Idaho, and who is elderly and unable to write this himself.

About 1921, my father bought some land in Arbon from Thomas Stott, together with a water right on a spring which was not located on the land he bought. So many years have passed he cannot recall if this water right was ever put in his name. In fact, he does not have a record that Thomas Stott recorded this right with the State of Idaho at the time he bought it from George Iverson, but it is believed he did. My father believes he had some papers on the water right at one time which he kept at a bank in American Falls, Idaho. However, the bank moved its location (this was several years ago) and they told my father they lost his papers in the process of moving.

Thomas Stott had a brother-in-law by the name of Emmett Lee and we have been corresponding with the Lee family trying to obtain some information on this matter. Mrs. Lee says her brother, Thomas Stott, bought and probably filed at the same time her husband did on this water right. Mr. Lee, of course filed on another spring - not on the same one Mr. Stott would have.

The enclosed copies of letters show that Emmett Lee bought a water right from George Iverson on May 22, 1914. Upon completion of the project, it was recorded as follows: September 23, 1916 in Book 4 of W. L., Page 2054 - Water District No. 71. Mr. Lee's Water License No. was 10164 and registered in the State of Idaho by State Engineer, J. H. Smith. At the time of application for development, May 22, 1914, F. P. King was State Engineer.

The reason for my telling you about Emmett Lee's transaction is that it is believed Thomas Stott filed at the same time. Lee also purchased his right from George Iverson. We believe Stott's right would have been recorded at the same time, as Lee's was.

It would be very much appreciated if you could check the records and see if this right is recorded in Thomas Stott's name or my father's name, or if it still might be in George Iverson's name. If this is located and it is in someone else's name other than my father's, will you please advise us what must be done in order to get this cleared and in my father's name.

DEAR SIR:

~~Mr. T. A. Stott~~, residing at **Arbon**
County of _____, State of **Idaho**, has requested that
you make examination required under Permit No. **10165**. Will you
therefore, arrange with the holder of said Permit to make such examination as will
enable you to answer the questions on the enclosed blank? Also, make a sketch on
the enclosed blank plat showing source of supply, point of diversion, route of ditch
and place of use. You should, also, arrange with the holder of said Permit for the
payment of your fee for your services, and such proper expenses as you will incur in
making this examination and report.

Please advise me promptly of receipt of this communication, and whether or not
you will be able to make the examination and report as required.

Very truly yours,

Dear sir-

I'm sorry that Mr. Lee and myself are causing you so much trouble but maybe we will get straight after while I believe that Mr. P. W. Lee can measure our water satisfactory. Mr. Brahmsstadt said that you only sent him one paper to be filled out so he had to make them both out on one paper.

Trusting that Mr. P. W. Lee can do the work, I am as ever

Sir:--

In checking the papers filed in the matter of final proof under the above permit, I note that the same party has acted as examining engineer and one of the witnesses. This could not be accepted. I will, therefore, ask you to send the name of some one else to make the report.

The report should not be made jointly with that of Mr. Lee. Each report should be separate.

INSTRUCTIONS

PROOF OF COMPLETION OF WORKS

February 1st, 1916.

Thos. Stott,
Arbon, Idaho.

Boise, Idaho,

Dear Sir:

Under the terms of your permit No. ~~10165~~, you are required to complete your diversion works on or before ~~May 22, 1916~~. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

J. H. Smith

State Engineer.
