WHEREAS, On the 7th day of March, A. D. 1914,
George Webb

of Downey, County of Bannock, State of Idaho, duly made application
(No. 14918) to me for a permit to use 2/5 of 1 cubic foot per second of the waters
of Quakenasp Creek and two unnamed springs.

County of Bannock, State of Idaho, for irrigation and domestic purposes, and,

WHEREAS, On the 13th day of March, A. D. 1914, Permit No. 10041 was issued
to said applicant for the diversion of said water and providing for the completion of the works of diversion
therein described on or before the 13th day of September, A. D. 1914, and for the application to ben-
eficial use of said water on or before the 13th day of September, A. D. 1914, and,

WHEREAS, On the 22nd day of August, A. D. 1914,
George Webb

the holder of said permit, duly made proof of the completion of adequate works for the diversion of
2/3 of 1 cubic foot per second of said waters, as evidenced by my Certificate No. 10041
dated August 27, 1914, confirming the completion of works of sufficient capacity for diverting and
conveying to the place of intended use 2/3 of 1 cubic foot per second of said water,
with date of priority of March 7, 1914, and

WHEREAS, On the 26th day of September, A. D. 1914,
George Webb

the holder of said permit, duly made proof of the application to beneficial use of 1/3 of 1 cubic
foot per second of said water;

NOW, THEREFORE, By virtue of authority vested in me by the laws of the State of Idaho, I
hereby grant and confirm to George Webb

of Downey, County of Bannock, State of Idaho, the holder and owner
of said Permit No. 10041, a perpetual right, dating from March 7, 1914
to the use of 1/2 of 1 cubic foot per second of the waters of Quakenasp Creek and
two unnamed springs,

in the County of Bannock and State of Idaho, or so much thereof as may be necessary for the
purposes hereinbelow mentioned, to be diverted from Quakenasp Creek in the SE $\frac{1}{4}$ of SW $\frac{1}{4}$,

R. H. Palmer, Lawyer,

Sir:

Replying to your letter of the 8th would say that the license issued under the above permit was based upon the acreage under cultivation as shown by the examining engineer's report. The report gave only 20 acres although the depositions of the holder and witnesses gave 25 acres under cultivation. I have taken the matter up with the engineer who made the report and he has informed me that no one was at home on the date the examination was made and that he had estimated the acreage to be 20 acres. However, in view of the fact that depositions show 25 acres under cultivation the engineer has corrected the report and the license has been allowed for the 25 inches, or $1/2$ of a second foot. This is all that could be allowed in view of the fact that the proof does not show that more land was under cultivation and license can be issued for only an inch to the acre for the land upon which water has been actually beneficially used. I am returning herewith the license for one-half a second foot of water and trust that same will be satisfactory.

Herbert Wing,

Acting State Engineer.

Dear sir:

I am returning for correction the Water License issued to Geo. Webb. I note that it states that he made proof of Beneficial Use of only $2/5$ sec. ft. while he applied for $2/3$ sec. ft. and made proof of Completion of the same amount. If the proof of beneficial use was for but $2/5$ sec/ft. it was an error, as the intention was to prove on $2/3$ sec. ft. Please advise me as to how the error may be corrected if the same was made in the proof.

NOTICE FOR PUBLICATION

Notice of Proof of Application of Water to Beneficial Use

Notice is hereby given that at 10 a. m. on the 26 day of Sept., 1914,
 at Downey, County of Bannock, State of Idaho,
 before R. H. Palmer, proof will be submitted
 of the application to beneficial use of 2/3 cubic feet per second of the waters of
Quakenasp and two
unnamed Springs., in accordance with the terms and conditions of Permit No. 10041
 heretofore issued by the State Engineer of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit are.....

George Webb

2. The use to which said water has been applied is Irrigation

3. The amount applied to beneficial use is 2/3 Sec. ft.

4. The place where said water is used is (if for irrigation, give full and accurate description of the lands irrigated)

NW 1/4 of the SE 1/4 of Sec. 29, T.18 S., R.37 E. B. M.

5. The name of the canal or ditch or other works by which said water is conducted to such place of use is.....

Quakenasp Hollow Ditch

6. The right to take the water from such works is based upon Permit No. 10041

7. The source of supply from which such water is diverted is Quakenasp Hollow and two

10041

June 22, 1914.

Permit 10041

Mr. Geo. P. Webb,
Downey, Idaho.

Sir:

Replying to your letter of the 20th inst. would say that your date of priority under the above permit is March 7, 1914, the date of the first receipt of the application in this office. We could not give an earlier date of priority than that under this permit, even though the water has been used for a number of years. The statutes provide that the date of priority under a permit right shall date from the date of the first receipt of the application in the State Engineer's office.

From your letter, I take it you are ready to make both proofs. If such is the case, the enclosed forms should be filled out and returned to this office, together with the affidavit for holder mailed you on the 1st. The notice of final proof is required to be advertised four weeks prior to the date of making proof.

Very truly yours,

F. P. KING,

State Engineer.

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

George Webb,
Downey, Idaho.

Boise, Idaho, June 1, 1914.

Dear Sir:

Under the terms of your permit No. 141, you are required to complete your diversion works on or before Sept. 15, 1914. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,
F. P. KING,
State Engineer
