

WATER LICENSE

Water License No. 1708/29-2039 Priority December 4, 1905 Amount 0.56 c.f.s.
(late proof)

THIS IS TO CERTIFY, that EDWARD N. ROWLAND
of Pocatello, Idaho, made application for a permit to appropriate the public waters of
the State of Idaho, dated October 26, 1905; that Permit 1708/29-2039 was issued pursuant
to said application; that the proposed works were completed on or about 1905,
with a storage/or carrying capacity of 0.62 c.f.s., said works consisting of
pump; and that on January 15, 1912
proof was made to the satisfaction of the State Reclamation Engineer, of the beneficial use of 98
acre feet per season, with a maximum rate of diversion of 0.56 cubic feet per second of the waters
of Springs, tributary of
for the purpose of Irrigation from April 1 to October 31;
and for from to; and for
from to; and that the use
of said waters has been made in accordance with the laws of Idaho, and is hereby confirmed by the State Recla-
mation Engineer and entered in the records of the Idaho Department of Reclamation: the point of diversion is
located in Lot 2 xxx Sec. 7, T. 6 S, R. 34 E, B.M., and
other additional points, in the County of
Bannock; and that the amount of water to which such right is
entitled and which is hereby confirmed, for the purposes aforesaid, is limited to an amount actually beneficially
used for said purposes and shall not exceed 98 acre feet per year.

Description and location of place of use:

TWP.	RANGE	SEC.	NE1/4				NW1/4				SW1/4				SE1/4				TOTALS
			NE1/4	NW1/4	SW1/4	SE1/4	NE1/4	NW1/4	SW1/4	SE1/4	NE1/4	NW1/4	SW1/4	SE1/4	NE1/4	NW1/4	SW1/4	SE1/4	
6 S	34 E	7					28												28

Total number of acres irrigated 28

The right to the use of the water hereby confirmed is restricted to the lands or place of use herein described,
as provided by the laws of Idaho.

Witness the seal and signature of the State Reclamation Engineer, affixed at Boise, Idaho, this

7th day of July, 19 69.

[Signature]
State Reclamation Engineer

No. 2278.

A P P L I C A T I O N F O R P E R M I T

To Appropriate the Public Waters of the State of Idaho.

-----0-----

1. Name of applicant: Edward W. Rowland

Postoffice address: P.O. Pocatello.

County: Bannock.

2. The quantity of water claimed is 2.56 cubic feet per second.

3. Source of water supply: Certain springs hereinafter described.

4. County of Bannock.

4. Location of point of diversion: - I. At a point near the S.E. cor. of Lot 2 in Sec. 7 T. 6 S.R. 34 E. 1 cubic foot for irrigation and a stream for a water wheel as described later. 2. A certain spring on Lot 3 in Sec. 7, and the SE4 SW4 Sec. 6 on land of applicant, 1.56 cu.ft. in addition to 1. spring, No. 2 is to be diverted at a point within 400' westerly from the center of Sec. 7.

5. To be used for:

I. Irrigation and domestic use:

(a) Amount of land to be irrigated: 127.84 acres.

(b) In the following legal subdivisions: Lots 2 & 3 of Sec. 7. and the SE4 SW4 Sec. 6. T. 6 S.R. 34 E.B.M.

II. Mining, power, manufacturing or transportation purposes:

(a) To be used for water wheel or Ram or both.

(b) Amount of power to be generated - ? - horse power.

(c) At what point: Primarily at the S.E. cor. Lot 2 above.

(d) Is water to be returned to any stream? Yes.

(e) If so, name stream and locate point of return: The Port Neuf River, immediately below works.

6. Estimated cost of works: Part 1. \$300.00 Other parts of system \$1000.00

7. Description of works for diversion:

I. Kind of works: Confinement of Channel by loose rock & earth wall.

II. Dimensions of works:

(d) Box flume at wheel, width at bottom 7.6 feet, width at water line 7.6 feet, depth of water 1.43 feet, Average grade per mile is 75 feet, Length of ditch - on land of applicant.

8. Time required for the completion of the construction of such work is 5 years.

9. Time required for the complete application of the water to the proposed use is 4 additional years.

Remarks:

Mr. Rowland bought Lot 2 three years ago at the auction of the Five Mile Limit lands and within ten days began work upon the Confining wall for part 1 above. He continued to work upon this part 1 since and now has a substantial water wheel installed and at work connecting it with a pump with which he is prepared to irrigated a small part of his present holding of 127.84 acres.

This probably establishes his right under the old law for at least this lot 2 irrigation water.

This water is from an immense spring in the SW4 NE4 of sec. 7. as shown on the maps herewith, and is understood and intended to be surplus from the same.

Since the original purchase Mr. Rowland has acquired by homestead entry the other eighty odd acres indicated and wishes to include all in his plans, but expects to put in separate and distinct works for all but the water specified under 1, taking the rest of his irrigating water, 1.56 cu. ft. from spring No. 2 on his own land. Most of this land is thirty feet or more above the sources of supply and he will need all the time asked for to complete his system.

I may say that no amount of power water that Mr. Rowland can put to use as indicated can in any way interfere with one since it comes to him as surplus and is returned immediately to the river.

Geo. H. Perry,

Engineer for Mr. Rowland.

Time asked for in Section 8 is hereby reduced to 3 years, and time in section 9 is reduced to 3 years.

Jas. Stephenson, Jr.

----- State Engineer.

APPROVAL OF STATE ENGINEER.

The number of this permit is 1708.

Date of first receipt of application: 9.00 a.m. October 26, 1905.

Returned to applicant for correction October 26, 1905.

Corrected application received December 4, 1905.

Recorded in Book 6, 1708, Approved December 7, 1905.

This is to certify that I have examined the within application for a permit to appropriate the public waters of the State of Idaho and hereby grant the same, subject to the following limitations and conditions:

Work to begin on or before February 5, 1906, and to continue diligently and uninterruptedly to completion, unless temporarily interrupted by circumstances over which permit holder has no control.

One-fifth of the work above specified to be completed on or before June 7, 1907.

The whole of said work to be completed on or before December 7, 1908.

The time for proof of beneficial use of water appropriated in accordance herewith, to extend to December 7, 1911.

Witness my hand this 7th day of December, 1905.

Jas. Stephenson, Jr.

State Engineer

Blank notice for proof of completion mailed applicant, September 1, 1908.

Notice received September 22, 1908, fixing November 20, 1908 as date, and Pocatello as place of proof.

Notice for publication mailed Pocatello Tribune, October 1, 1908.

Depositions blanks mailed applicant October 1, 1908.

Oscar Sonnenkalb, authorized to make examination of works; October 1, 1908.

Depositions, affidavit of publication and fees received November 23, 1908.

Report of Engineer received November 27, 1908.

Certificate of Completion of works, issued November 30, 1908.

Permit No. 1708.

CERTIFICATE OF COMPLETION OF WORKS.

To All Whom it May Concern:

This is to certify that EDWARD N. ROWLAND, of Pocatello, County of Bannock, and State of Idaho the holder of Permit No. 1708, issued upon Application No. 2278, bearing date of priority of October 26, 1905, authorizing the diversion of 2.56 second feet of the waters of springs, county of Bannock, State of Idaho, for irrigation and domestic purposes, has fully complied with the provisions of the laws of the State of Idaho relating to the proof of completion of the works of diversion set out and described in said Permit; that said works are adequate for diverting and conveying to the place of intended use 2.56 second feet of the waters of springs, that the point of Diversion of said waters is at a point. First Near southeast corner of Lot 2, Sec. 7. and Second: Near southwest corner of southwest quarter of section 5, township 6 south, range 34 east of the Boise meridian, and that the lands proposed to be irrigated by the use of said waters are described as follows: to-wit: Lot 1 in northwest quarter of northeast quarter and lot 3 in northeast quarter of northwest quarter of section 7, and the southeast quarter of southwest quarter of section 6, township 6 south, range 34 east of the Boise meridian.

Witness my hand this 30th day of November . A.D. 1908.

Re: Permit No. 29-2039

Edward N. Rowland
Pocatello, Idaho 83201

Dear Mr. Rowland:

A representative of this department has made an examination of the works covered by your Permit 29-2039 and has found the following:

Quantity of water diverted: .62 c.f.s.

Amount of water that can be recognized as beneficially used under Idaho Law: .56 c.f.s.

The maximum quantity diverted shall not exceed 98 acre feet per season.

Purpose of use: Power and Irrigation of 28 acres in NE 1/4 NW 1/4, Sec. 7, T. 6S, R. 34E.

The priority date established is: December 4, 1905 (late proof)

A fee totaling \$ 7.00 must be received within 30 days from the date of this letter in order that we can issue you the License and Certificate of Water Right as described above.

Very truly yours,

Dean R. Reynolds
Field Examiner

Re Permit 1708. Edw. H. Rowland.

Mr. Theo. Turner,
Pocatello, Idaho.

Dear Sir:--

In looking over the file of the above numbered permit, I find a check made out by the Bannock Abstract, Deposit & Trust Company, for \$4.00, fees for proof of use of water under the above permit. The records show that Mr. W. P. Havenor was authorized to make the required examination but his report was never received at this office hence the license has never been issued. I am, therefore, returning the check to you. If this water is still being used, we will have our examining engineer make the examination, along with others in that vicinity, and, if the report is satisfactory, we will issue the license.

Very truly yours,

J. H. SMITH,

State Engineer.

Re: Permit #1708.

Edward H. Rowland,
Pocatello, Idaho.

Sir:

Owing to the increased amount of work required of the water commissioners, it will be impossible for them to make the examinations in the matter of proof under the small water rights. It will, therefore, be necessary for you to have this work done by some one whom you know to be competent to make such examination and report. If you will send the name of such a party, instructions and blanks will be furnished him. A licensed surveyor is preferred where one can be conveniently obtained.

Very truly yours,

State Engineer.

Permit No. 1708

1708

Proof of Application of Water to Beneficial Use

1708

DEPOSITION OF HOLDER

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Edward N. Rowland, age 55 years, residence ranch 5 miles west of Pocatello, Idaho, occupation, farmer, P.O. address Pocatello, Idaho.

Ques. 2. If acting in behalf of a corporation, state its name, principal place of business (if a foreign corporation, give name and postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. _____

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. No. 1708, dated December 7, 1905, date of priority October 26, 1905

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Unnamed springs in SW 1/4 NE 1/4 Sec. 7, Tp. 6 S. R. 34 E. B. M. Point of diversion in the SE corner of Lot 2, Sec. 7, Tp. 6 S. R. 34 E. B. M.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use.

1. A dam which diverts the water from its natural channel and delivers it at the point where the water wheel and pumps are located. This dam is about 400 feet long and about 4 feet high and from four to ten feet in thickness.

2. A wheel having a capacity of developing 15 to 20 horse power. This wheel operates two pumps, which combined are capable of raising about 36 cubic feet per minute to the level of the lands which I irrigate, and delivering the same into a ditch, which distributes such water over these lands. The canal extending from the point at which the pumps deliver the water, and distributing it over the lands, is about 2 1/2 feet wide and about 15 inches deep and 1/2 mile long. From this the water is applied to the crops growing upon the lands irrigated, by means of small ditches or plow furrows.

The capacity of this last mentioned ditch is two-tenths second feet.

Township 6 South, Range 34 E. B. M. having irrigated about 10 acres in Lot 2 and about 10 acres in Lot 3. Cultivated land. Have built a home and furnished water for domestic use therein from these springs and have brought under cultivation about 20 acres.

Ques. 7. If for other than irrigation purposes, state how applied, amount of horse power generated, etc.

Ans. None

Ques. 8. What is the minimum amount of water required for the use specified above?

Ans. Six tenths of a second foot.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. _____

1708

Permit No. 1708

1708

DEPOSITION OF HOLDER

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Edward N. Rowland, age 55 years, residence ranch 5 miles west of Pocatello, Idaho, occupation, farmer, P.O. address Pocatello, Idaho.

Ques. 2. If acting in behalf of a corporation, state its name, principal place of business (if a foreign corporation, give name and postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. _____

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. No. 1708, dated December 7, 1905, date of priority October 26, 1905

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Unnamed springs in SW 1/4 Sec. 7, Tp. 6 S. R. 34 E. B. M. Point of diversion in the SE corner of Lot 2, Sec. 7, Tp. 6 S. R. 34 E. B. M.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use.

Ans. _____

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have *actually* been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation and domestic purposes on Lots 2 and 3, of Section 7, Township 6 South, Range 34 E. B. M., having irrigated about 10 acres in Lot 2 and about 10 acres in Lot 3. Cultivated land. Have built a home and furnished water for domestic use therein from these springs and have brought under cultivation about 20 acres.

Ques. 7. If for other than irrigation purposes, state how applied, amount of horse power generated, etc.

Ans. None

Ques. 8. What is the minimum amount of water required for the use specified above?

Ans. Six tenths of a second foot.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. _____

STATE ENGINEER

1708

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. Each irrigating season since the year 1905, for irrigating about 20 acres of land and for domestic purposes at my upon upon Lot 2, Sec. 7 Tp. 6. S. R. 34 E. B. M. I have made use of about six tenths of one second foot of water.

Ques. 11 State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. I have used none.

(Sign) Edward N Rowland

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in Pocatello, County of Bannock, State of Idaho, on this 15th day of January A. D. 1912.

Tp. 6 S. R. 34 E. B. M.

Date of Priority October 26, 1905

Received and filed

THE TRIBUNE POCATELLO, IDAHO

1708

Permit No. 1708

Proof of Application of Water to Beneficial Use**DEPOSITION OF WITNESS**

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Ashley M. Lyon, age 59 years, Pocatello, Idaho, occupation farmer, P.O. address Pocatello, Idaho.

Ques. 2. Are you acquainted with Edward N. Rowland, the holder of Permit No. 1708? How long have you known him and where does he reside?

Ans. Yes. Known him for about 15 years.

Ques. 3. Have you read or heard read said Permit No. 1708, and are you familiar with its provisions and conditions?

Ans. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Unnamed springs situate in SW 1/4 Sec. 7, Tp. 6 S. R. 34 E. B. M.

In the SE corner of Lot 2, Sec. 7, Tp. 6 S. R. 34 E. B. M.

1. A dam which diverts the water from the natural channel and delivers it at the point where the water wheel and pump are located. This dam is about 400 feet long and about 4 feet high and from 4 to 10 feet in thickness.

2. A wheel having a capacity of developing 15 or 20 horse power. This wheel operates two pumps, which combined are capable of raising about 10 cubic feet per minute to the level of the lands which are irrigated, and deliver the same into a ditch which distributes such water over these lands. The canal extending from the point at which the pumps deliver the water and distributing the same over the lands is about 2 1/2 feet wide and about 15 inches deep and 1/2 mile long. From this ditch the water is applied to the crops growing upon the lands irrigated by means of small ditches or plow furrows.

in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. For irrigation and domestic purposes on Lots 2 and 3, Sec. 7, Tp. 6 S. R. 34 E. B. M. In Lots 2 and 3 there are about 20 acres altogether, but I don't know just how much there are in each lot. Cultivated land. Built a home and applied the water to domestic use therein, and cultivated about 20 acres of land.

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. None of it used for power purposes.

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Bench land. Require about 87 inches of water to profitably cultivate all of his land.

1708

1708

Permit No. 1708

Proof of Application of Water to Beneficial Use**DEPOSITION OF WITNESS**

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Ashley M. Lyon, age 59 years, Pocatello, Idaho, occupation farmer, P.O. address Pocatello, Idaho.

Ques. 2. Are you acquainted with Edward N. Rowland, the holder of Permit No. 1708? How long have you known him and where does he reside?

Ans. Yes. Known him for about 15 years.

Ques. 3. Have you read or heard read said Permit No. 1708, and are you familiar with its provisions and conditions?

Ans. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Unnamed springs situate in SW $\frac{1}{4}$ NE $\frac{1}{4}$ Sec. 7, Tp. 6S.R.34 E.B.M. In the SE corner of Lot 2, Sec. 7, Tp. 6 S.R.34 E.B.M.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed.

Ans. Six-tenths of a second foot.

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. For irrigation and domestic purposes on Lots 2 and 3, Sec. 7, Tp. 6 S.R.34 E.B.M. In Lots 2 and 3 there are about 20 acres altogether, but I don't know just how much there are in each lot. Cultivated land. Built a home and applied the water to domestic use therein, and cultivated about 20 acres of land.

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. None of it used for power purposes.

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Bench land. Require about 87 inches of water to profitably cultivate all of his land.

1708

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No.

Ques. 10 State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. Have seen the water applied for about 4 years almost every day, for domestic purposes and irrigating about 20 acres of land, to the amount of about six-tenths second feet.

(Sign Ashley M. Lyon)

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, in Pocatello, County of Bannock, State of Idaho, on this 15th day of January A. D. 19 12.

NOTICE FOR PUBLICATION.

Notice of Proof of Application of Water to Beneficial Use.

Notice is hereby given that at 10 a. m. on the 7th day of December, 1911, at Pocatello, county of Bannock, state of Idaho, before Theo. Turner, N. P., proof will be submitted of the application to beneficial use of 2.56 cubic feet per second of the waters of unnamed springs in SE $\frac{1}{4}$ SW $\frac{1}{4}$ Sec. 6, and SW $\frac{1}{4}$ NE $\frac{1}{4}$ Sec. 7, Tp. 6, S. R. 34 E. B. M., in accordance with the terms and conditions of Permit No. 1708, heretofore issued by the state engineer of the state of Idaho.

1. The name and postoffice address of the person holding said permit are Edward N. Rowland, Pocatello, Idaho.

2. The use to which said water has been applied is irrigation and power.

3. The amount applied to beneficial use is 2.56 cubic feet per second.

4. The place where said water is used is (if for irrigation, give full and accurate description of the lands irrigated), Lots 2 and 3 of Sec. 7, and SE $\frac{1}{4}$ of SW $\frac{1}{4}$ Sec. 6, Tp. 6 S., R. 34 E. B. M.

5. The right to take the water from such works is based upon Permit No. 1708.

6. The source of supply from which such water is diverted is unnamed springs.

7. The date of the priority which said user is prepared to establish is October 26, 1905.

Permit 1708.

Bannock A. D. & T. Co.,
Pocatello, Idaho.

Gentlemen:--

Again taking up the matter of quantity of water to be granted under license under the above permit, would advise that as 2.56 cubic feet per second was the amount originally claimed under this permit, I know of no way in which we can at this late date increase that amount. If your client desires to take out a power permit we shall be pleased to issue same to him but as to giving him 20 second feet for power under a permit, the application for which only claimed 2.56 second feet, would advise that I have no statutory authority for so doing. I trust that this is explicit.

Very truly yours,

State Engineer.

State Engineer,
Boise, Idaho.

Dear Sir:-

Answering your favor of the 14th inst., concerning the notice of Edward M. Rowland of his intention to make proof of the application of the waters claimed under permit no. 1708 to a beneficial use:- Mr. Rowland insists that he is entitled to make proof of the application of twenty cubic feet per second under this permit and under the findings of the engineer who examined and reported at the time he made proof of the completion of works.

The facts as he relates them are:- The waters which he claims, are the waters of a certain spring flowing some thirty or forty second feet. About five hundred feet from the point where the spring issues from the ground, he has placed in the stream a water wheel for generating power with which to elevate the 2.56 second feet of water which he uses for irrigation purposes. It requires about $17\frac{1}{2}$ second feet of water to operate this wheel, and without the use of this last mentioned water, the 2.56 feet which he claims and has used for irrigation purposes, are not available for his use. Mr. Rowland does not divert the $17\frac{1}{2}$ second feet from the natural channel, and after passing his wheel, again becomes subject to appropriation and use by anyone, and all that he desires is a license which will protect him in the use of these waters for a distance of five or six hundred feet from the point where they issue from the ground. Certain persons are threatening to apply for a permit to take out these waters above his wheel. It would be just as profitable for them to divert these waters at a

point below Mr. Rowland's water wheel, and no more expensive. All that Mr. Rowland wishes to secure is protection against those who might seek to divert the waters which he claims for use for power purposes between the spring and his water wheel. It seems very reasonable, as no one can possibly be injured by his being protected to this extent.

INSTRUCTIONS.

Edward N. Rowland, Proof of Beneficial Use.
c/o Theo. Turner

Pocatello, Idaho

Boise, Idaho, Nov. 4, 1911.

Dear Sir:

I enclose herewith the following forms to be used in connection with proof of application of water to beneficial use under your permit No. 1708.

Deposition of Permit Holder,

Depositions of Two Witnesses.

In submitting this proof the following instructions should be CAREFULLY followed out, since failure to do so may result in the loss of your rights:

1. On December 7th, the date set for the proof of application of water to beneficial use, the enclosed deposition forms (one for permit holder and one each for two witnesses) should be filled out and sworn to, at

Pocatello, before Theo. Turner, N.P.
2. When the depositions have been taken they should be mailed to this office, together with affidavit of publication of notice and fee of \$2.00 for each 40-acre tract, or fraction, to which water has been applied. When these have been received, together with report of examining engineer, if everything is properly executed, License will issue.

Yours truly,

A. E. ROBINSON

State Engineer.

PERMIT NO. 1708

Notice of Proof of Application of Water to Beneficial Use

(This blank must be filled out by holder of permit and forwarded to the State Engineer at least 60 days before the time set for application of water.)

(P. O.) Pocatello, Idaho

(Date) November 2, 1911

TO THE STATE ENGINEER OF THE STATE OF IDAHO, BOISE, IDAHO:

DEAR SIR: Notice is hereby given that at 10 A. M., on the 7th day of December, 1911, at Pocatello, County of Bannock, State of Idaho, before Theo. Turner proof will be submitted of the application to beneficial use of 20 2,56 cubic feet per second of the waters of unnamed springs in SE SW Sec. 6, and SW NE Sec. 7, Tp. 6 S. R. 34 E. B. M. in accordance with the terms and conditions of Permit No. 1708 heretofore issued by the State Engineer of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit are Edward H. Rowland, Pocatello, Bannock County, Idaho
2. The use to which said water has been applied is irrigation and power
3. The amount applied to beneficial use is 2,56 ~~twenty~~ cubic feet per second
4. The place where said water is used is (if for irrigation, give full and accurate description of the lands irrigated) Lots 2 and 3 of Section 7 and the SE SW Sec. 6, Tp. 6 South, Range 34 East, Boise meridian
5. The name of the canal or ditch or other works by which said water is conducted to such place of use is
6. The right to take the water from such works is based upon Permit No. 1708
7. The source of supply from which such water is diverted is unnamed springs in Bannock County, Idaho
8. The date of the priority which said user is prepared to establish is October 26, 1905.

I desire that the above notice be published, according to law, in the Pocatello Tribune of Pocatello, Idaho, published in the county in which said water is to be used; the expense of which publication will be borne by me.

Permit 1708

Theo. Turner, Pres.
Bannock A. D. & T. Co.,
Pocatello, Idaho.

Sir:-

In reply to your letter of the 30th ult. relative to above permit would say that the 2.56 second feet of water called for in the permit was to be used for irrigation purposes and not for power, as I understand the permit. The certificate issued was for the completion of works for the diversion of the 2.56 second feet of water for irrigation of 127.84 acres of land and no part of this amount of water was specified in the permit for power purposes. The applicant states under the head of remarks, that no amount of power water used would in any way interfere with one since it comes as surplus and is returned immediately to the river. I am, therefore, at a loss to understand why Mr. Rowland is so anxious to have the license issued for a power right as well as an irrigation right at this time. If he finds that he must obtain a title to an additional amount of water for power purposes, it will be necessary for him to file an application for same.

Very truly yours,

State Engineer.

OFFICE OF STATE ENGINEER

SEP - 2 1911

RECEIVED

Dear Sir:—

Answering your favor of the twenty-ninth instant which is before us,— The contention of Mr. Rowland is that a mistake was made by your department in issuing his certificate of completion of works in that you (that is to say your predecessor in office) failed to show in such certificate that he had completed and was making use of works which required the use of waters for power purposes. The Engineer who examined and reported upon his works made a careful examination and survey of the same the greater part of which examination and survey was directed to that portion of the works which had been constructed for the purpose of elevating the water for use in irrigating his lands. The testimony of himself and his witnesses, he states, described the works carefully, and showed clearly that he claimed waters both for power and irrigation purposes and that the works by which waters for both of these purposes were diverted and used had, prior to the taking of his proof, been completed, and further that his ability to make use of the waters claimed for irrigation purposes depended wholly upon his use of a portion of the waters of the same stream for power purposes.

What he is now asking (and his request seems reasonable) is that a certificate be issued showing that he had completed such works for power purposes as are described in his testimony and that of his witnesses and in the report of the engineer who examined and reported upon his works at the time his proof was submitted.

Very truly yours,

Permit 1708-Edw.N.Rowland

Theo. Turner, Pres.
Bannock A. D. & T. Co.,
Pocatello, Idaho.

Sir:-

In reply to your letter of the 27th inst. relative to above permit would say that, as the permit does not specify any definite amount for power purposes but asks for the 2.56 second feet for irrigation purposes, the license could not grant the inch per acre for irrigation purposes and an additional amount for power. If the applicant desires to obtain a separate power right, I would advise that he make a separate application for same.

Very truly yours,

State Engineer.

OFFICE OF STATE ENGINEER

Dear Sir:

Referring to permit no. 1708, application 2278, of Edward N. Rowland of this city. Under this permit Mr. Rowland holds a certificate of completion of works sufficient for the diversion and distribution of 2.56 cubic feet per second of time of the waters of a certain spring situate upon the SW 1/4 Sec. 7, Tp. 6 S. R. 34 E. B. M. In his application for a permit Mr. Rowland asked for the use of 2.56 feet of the waters of this spring, and also for the use of a quantity of water sufficient to generate power to raise the 2.56 second feet up to the level of the lands upon which he uses the same for irrigation purposes.

Mr. Rowland now desires to advertise notice of his intention to make proof of the application of this water to a beneficial use, and of course wants to know that the license which will be granted to him will not only give him the right to the use of the water which he claims for irrigation purposes, but also a right to the use of a sufficient quantity of water to generate power which will elevate this water up to and upon his lands.

Will you be kind enough to advise us if the permit granted to him by State Engineer James Stephenson on December 7, 1905, covers both of these uses? Without the water for power purposes, the water for irrigation is worthless to Mr. Rowland.

Very truly yours,

Bannock Abstract, Deposit & Trust Company

Boise, Idaho, Sept. 1st, 1911.

Dear Sir:

I enclose herewith blank Notice of Proof of Application of Water to Beneficial Use under your permit No. 1708, which kindly fill out and return to me at least 60 days before the date upon which you wish to submit proof. The date of the proof is set out in your permit, and if proof is submitted subsequent to that your priority will be advanced a time equal to the difference of the time between the date proof should have been submitted and the date it is submitted.

Yours truly,

D. S. MARTIN,
A. E. ROBINSON
State Engineer.

Mr. Jas. Stephenson Jr ,
State Engineer, Boise,

Dear Sir:- Upon the request of Oscar Sonnenealb, I made examination for proof of completion of works of diversion under permit No. 1708, E. N. Rowland holder, Nov. 19, 1908 and the following is my report:-

Beginning at the S.E. Cor. of lot 2, Sec. 7, T.6 S. R. 34 E.B.M. which according to Sonnenealb is S.1°15'W. 22.40 chs. and N. 89° 34' W. 18.72 chs. from the cor. common to secs. 5,6,7, and 8, thence (Var. 18°) N. 86° 23' W 424 ft. to point of diversion, whence the head of wing dam bears S.6°36'W 201 ft.

The works of diversion consist of a rock fill dam approximately 200 ft. long 5 ft. wide on bottom and 3 ft. high. which diverts water from springs to an undershot wheel 9.2 ft. diam and 8.2ft. w wide which, besides other machinery, operates two doubleacting pumps, first - cylinder 5", stroke 14", r.p.m. 14, second-cylinder 4", stroke 12", r.p.m. 28. Water is delivered from pumps in a 4" and 2" pipe respectively, length 250 ft. lift. 38.9 ft. to where it is distributed on the ground. The gates at head of wheel are 8.2'ft. wide and depth of water 1.8 ft. The water after passing through the wheel is returned to the stream about 100 ft. lower down. Slope of ditch 6.7 ft. per 1000.

Yours truly,

Edgar C. Smith

PROOF OF PUBLICATION

STATE OF IDAHO.

COUNTY OF BANNOCK.

SS.

Notice of Publication.

Notice is hereby given that at 11 a. m. on the 20th day of November, 1908, at Pocatello, County of Bannock, state of Idaho, before R. R. Wilson, a Notary Public, proof will be submitted of the completion of works for the diversion of 2.56 cubic feet per second of the waters of a certain spring, taken from the stream running from said spring near S. E. corner of Lot 2, Sec. 7, T. 6 S. R. 34 E. B. M., in accordance with the terms and conditions of a certain permit heretofore issued by the State Engineer of the State of Idaho.

1. The name of the person holding said permit is Edward N. Rowland.

2. The postoffice address of such person is Pocatello, County of Bannock, State of Idaho.

3. The number of such permit is 1708, and the date set for the completion of such work is December 7, 1908.

4. Said water to be used for irrigation and domestic purposes.

5. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conducting to the place of intended use, in accordance with the plans accompanying the application for such permit, is 2.56 cubic feet per second.

6. The amount of lands for which said water is available is 120.84 acres, particularly described as follows: SE $\frac{1}{4}$ SW $\frac{1}{4}$ Sec. 6, and Lots 2 and 3, Sec. 7, Tp. 6 S., R. 34 E. B. M.

JAS. STEPHENSON, JR.,
10-7-4w-sw, State Engineer.

Edw. N. Rowland being first duly sworn, deposes and says that he is the publisher of THE POCA TELLO TRIBUNE, a newspaper published in Pocatello, Bannock County, in the State of Idaho. That the notice, a true copy of which is hereto attached, was published in the *Standard* edition of said newspaper for *four* consecutive *weeks* first publication having been made on the *7th* day of *Oct*, 190*8*.

That said paper has been continuously and uninterruptedly published in said county during a period of fifty-two consecutive weeks prior to the first publication of said notice or advertisement, and is a newspaper within the meaning of the laws of Idaho.

Edw. N. Rowland
SUBSCRIBED AND SWORN TO before me this *11th* day of *November*, A. D. 190*8*.

PERMIT NO. 1708.

Proof of Completion of Works.

DEPOSITION OF HOLDER.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Edward N Rowland age 57 yrs residence Percelle Idaho
rancher, Post office address Percelle Idaho

Ques. 2. If acting in behalf of a corporation, state its name, principal place of business, your position with reference to same, and your authority for appearing in its behalf.

Ans. no.

Ques. 3. State number and date of permit, amount of water you are authorized to divert, source, and point of diversion.

Ans. No. 1708. Oct. 26, 1905 7.56 cu. ft. per sec. Unnamed Spring
No. 1. Sec 4 NE 1/4 Sec 7 T4 N 6 E 3 & 4 E No. 2. SE 1/4 Sec 4 Sec 6 T4 N 6 E 3 & 4 E.

Ques. 4. State purpose for which water is to be used, and, if for irrigation, state the number of acres and give description of the land you intend to reclaim.

Ans. Irrigation & domestic use to irrigate SE 1/4 Sec 4 Sec 6
Lots 2 & 3 Sec 7 T4 N 6 E 3 & 4 E containing 127.84 acres.

Ques. 5. State whether or not the water has been turned into your works of diversion, and, if so, when and to what extent.

Ans. Yes. about April 1, 1906 water has been turned
into my works enough to irrigate about 5 acres.

Ques. 6. State whether or not the works of diversion are fully completed, and whether or not they comply in all respects with the terms of the permit.

Ans. Yes the works are completed and comply with the terms of the permit.

Ques. 7. If the works of diversion do not comply with all the terms of your permit, state fully those particulars in which there is any variance.

Ans.

Ques. 8. Give description of works, state dimensions and capacity of each part, and give cost of same.

Ans. Flume & water wheel, flume 9.6 ft wide and 1.43 feet deep
700 feet long with water wheel 9.1 feet wide which works two pumps. The
pumps develop 867 cu. ft. per minute. Total cost of works \$900.00
One pump 5 inch cylinder 14 in. stroke
and pump 4 - 12 - inch (Sign here.) Edward N Rowland

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in Percelle, County

of Bannock, State of Idaho, on this 20th day, of November, A. D. 1908.

R. Rowland

1708

Boise, Idaho, October 1, 1908~~Oscar Sonnenkalb~~~~Pocatello, Idaho~~

DEAR SIR:

The holder of Permit No. 1708, Edward E. Rowland, residing at Pocatello, Idaho, which permit authorizes the diversion of 2.56 second-feet of the waters of spring at _____, desire to make proof of the completion of works of diversion, at _____, on November 20, 1908.

Will you therefore please arrange with the holder of said permit for an examination of the works of diversion, ascertain whether or not they comply fully with the terms of said permit, and render me a report on the condition of such works before the date fixed for said proof of completion, in accordance with the provisions of Sections 4 and 5 of House Bill No. 146, passed by the Seventh Session of the Legislature, approved March 11, 1903.

Your report should be of sufficient detail to enable me to determine the amount of water the works are capable of diverting and conveying to the place of use; giving also the description of the location of point of diversion, and, in case of irrigation, the legal description of the land to be irrigated.

Will you also make a map on the enclosed plat, giving all the essential features of the works, such as point of diversion, route of ditch, place of use, etc.

You should also arrange with the holder of said permit for the payment of your fee for this service and such proper expenses as you will incur in making this examination and report.

Please advise me promptly of your receipt of this communication, and whether or not you will be able to make the examination and report requested.

Yours, truly,

JAS. STEPHENSON, JR.,

State Engineer.

INSTRUCTIONS.

Proof of Completion of Works.

Boise, Idaho, October 1, 1908.

Edward N. Rowland
Pocatello, Idaho

Dear Sir:

I enclose herewith the following forms to be used in connection with proof of completion of works under your permit No. 1708.

Depositions of Permit Holder,

Depositions of Two Witnesses.

In submitting this proof the following instructions should be CAREFULLY followed out, since failure to do so may result in the loss of your rights:

1. On November 20, 1908, the date set for the proof of completion of works, the enclosed deposition forms (~~two~~ for permit holder and ~~two~~ each for two witnesses) should be filled out and sworn to, at Pocatello, Idaho, before Bannock A. D. & T. Co.

2. To complete the proof, it is also necessary that an examination be made of the works as constructed, which examination must be under the authority of the State Engineer. It is the desire to make this expense as light as possible to the permit holder. Will you therefore give me the name of a competent engineer, or surveyor, in your neighborhood who could do this work with as little expense as possible to you? Upon receipt of name of such engineer or surveyor I will authorize him to do the work. The examination should be made on or before the date set for the proof.

3. When the depositions have been taken they should be mailed to this office, together with affidavit of publication of notice and fee of \$5.00. When these have been received, together with report of examining engineer, if everything is properly executed, Certificate of Completion of works will issue.

Yours truly,

JAS. STEPHENSON, Jr.,

State Engineer.

BOISE

JAS. STEPHENSON, JR.,
ENGINEER

INSTRUCTIONS

Proof of Completion of Works.

Boise, Idaho, ~~September~~^{Sept} 1, 1908.

Edward N. Rowland,
Pocatello, Idaho.

Dear Sir:

I enclose herewith blank form upon which to give notice that you are prepared and desire to submit proof of completion of works under your permit No. 1708.

This form should be filled out and mailed to the State Engineer at least 60 days before the date upon which proof is to be submitted, which proof MUST be on or before December 7, 1908. Upon receipt of the blank properly filled out, notice for publication will be sent to the paper direct from this office, which notice must be published a period of four weeks prior to the date of proof.

The proof may be submitted at any place, convenient to you and two witnesses, where there is a notary public or other officer authorized to administer oaths.

One of the requirements of the law is that an examination of the works constructed shall be made under the authority of the State Engineer. In order to make the expenses as light as possible you are requested to furnish the name of a competent engineer, or surveyor, who can do this work for you at a reasonable cost. Upon receipt of name of such engineer or surveyor I will authorize him to make the examination and send me a report on or before the date set for the proof.

The certificate that shall be issued under this proof does not give you a perpetual right to the use of the water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,
JAS. STEPHENSON, Jr.,
State Engineer.
