Dear Mr Forsman,

We are returning your Application for Permit along with your check #92-119 in the amount of \$10.00 for clarification of several items.

Accroding to both the map you have drawn and our quad maps, the point of diversion is located in the SE $\frac{1}{4}$ of the NE $\frac{1}{4}$ Sec 33, T33N, R4E, B.M. Please make this change on item 3a.

You have requested 0.20 cfs (90gpm) for the irrigation of 3 acres. The maximum allowable under Idaho law is 0.02 cfs per irrigated acre unless more is required. Please justify the need for the additional amount.

Please complete item 9 a, b, & c.

After making the above corrections, return the application with the \$10.00 fee to our office for processing.

If you should have any further questions regarding this matter, please contact us.

Dear Ms. Fleury:

We are in receipt of the correspondence concerning ownership of the above referenced water right license.

In Idaho, a licensed water right is considered real property and is acquired when the property to which it is appurtenant is purchased. Proof of owning the land is proof of owning the water right license, if the previous land owner did not exclude the water right from the sale. Therefore, no further action needs to be taken on your part to inform us of the current ownership of the land.

If you have any questions, please let us know.

Dear Mr Forsman,

We are returning your Application for Permit along with your check #92-119 in the amount of \$10.00 for clarification of several items.

According to both the map you have drawn and our quad maps, the point of diversion is located in the SE $\frac{1}{4}$ of the NE $\frac{1}{4}$ Sec 33, T33N, R4E, B.M. Please make this change on item 3a.

You have requested 0.20 cfs (90gpm) for the irrigation of 3 acres. The maximum allowable under Idaho law is 0.02 cfs per irrigated acre unless more is required. Please justify the need for the additional amount.

Please complete item 9 a, b, & c.

After making the above corrections, return the application with the \$10.00 fee to our office for processing.

If you should have any further questions regarding this matter, please contact us.

Sincerely,

FRED EISENBARTH
Water Resource Planner

Dear Mr Forsman,

Your check #92-119 and application are being returned to you for clarification and additional information. Before your application can be processed, the following information must be provided.

Item 7a. According to Idaho State Code 42-204, the maximum time allowable for completion of your system is five years. You may apply for any portion of that time.

Item 8b. I am really uncertain what is meant by your notations. For simplicity's sake, please break down the 40 acre tracts by the number of acres you wish to irrigate in each tract.

Item 11. A map will often clear up questions about the application. Please furnish or draw a map containing and identifying the point of diversion and land irrigated by section, township and range.

If I may be of any further assistance, please do not hesitate to contact me.

Sincerely,

TOM KING
Senior Water Resource Agent
