WATER RIGHT LICENSE

License of Water Right No. 82-7051 Priority July 2, 1976 Amount 0.02 cfs

THIS IS TO CERTIFY, that ERNEST OR EVELYN WELLS
of Stites, Idaho, has complied with the terms and conditions of Permit
No. 82-7051 issued pursuant to Application for Permit dated July 2, 1976,
and has submitted proof to the Department of Water Resources on August 25, 1977,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 0.02 cfs of water from a groundwater source,
tributary to _____, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
Domestic	from January 1 to December 31	at 0.02 cfs and	1.2 acre feet
	from _____ to _____	at _____ cfs and	_____
	from _____ to _____	at _____ cfs and	_____

(both dates inclusive)

Subject, however, to the condition that no more than 0.02 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
1.2 acre feet per year, said waters to be diverted within the SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 5, Twp. 31N,

Dear Mr. & Mrs. Wells:

We acknowledge receipt of the affidavit submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We cannot tell during which part of the irrigation season this examination will be made, but our examiner will try to contact you at the time he makes the exam so that you may show him the system.

If you have any questions regarding the field examination, please contact our Regional Office in Coeur d'Alene.

CERTIFIED MAIL

Re: Permit No. 82-7051

Ernest or Evelyn Wells
Star Route
Stites, Idaho 83552

Dear Mr. & Mrs. Wells:

One of the conditions of approval of your water Permit No. 82-7051 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before September 1, 1977. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Director

Encl: Proof affidavit

MAKING PROOF OF BENEFICIAL USE

HOW TO MAKE PROOF

In order for a permit holder to fulfill the conditions of the permit and obtain a water license, he must submit proof of application of water to beneficial use on or before the date set forth in his permit. Each permit holder will be notified 60 days prior to the date set for such proof. In order for the proof to be valid, it must be received by the Department on or before that date. Proof is made upon a form which is available from the Department. It is very important that you complete this form completely and accurately. The information that you give on the form will enable the Department to make a field examination which is necessary before the license can be issued. The information you enter on the proof form should be an indication of the actual development of your project. This development must also correspond to that described by the permit. If it does not and changes in your project have been made, you should apply to amend your permit to include the actual development. Application for amendment forms are available from the Department on request.

WHAT TO DO IN CASE YOU HAVE NOT COMPLETED THE APPLICATION OF WATER TO BENEFICIAL USE

If you have not been able to complete the application of water to beneficial use within the time allowed, due to reasons beyond your control, you may apply to the Department for an extension of time. However, in order for an application for extension of time to be considered, it must be filed prior to the date on which proof of beneficial use is due. Each application for extension of time is considered on its own merit.

WHAT TO DO IF YOU FAIL TO MAKE PROOF OF BENEFICIAL USE ON TIME

If you have applied the water to beneficial use, but were unable to submit proof of application of water to beneficial use on or before the date set for such proof and your permit has lapsed, you may petition the Department within 60 days from the date that a notice of lapsing was sent to you to reinstate your permit. In order for the Department to reinstate a permit, you must show reasonable cause why such permit should be reinstated. Submission of proof of beneficial use within 60 days will automatically be considered by the Department as cause for reinstatement. The priority of all reinstated permits will be advanced a time equal to the number of days that such showing is subsequent to the date set for proof. After 60 days, there is no way in which the Department can reinstate a permit.

ISSUANCE OF LICENSE

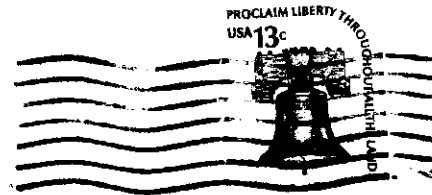

After the Department has completed an examination of your proof and if it appears that you have complied with the terms of the permit, the Department will issue a water license. The license becomes prima facia evidence of a water right. The license will include the maximum rate of diversion, the total annual volume of water which may be diverted, the period of the year during which you may use the water, the nature of use to which you may apply the water, the priority which you have established and any other conditions of the water right.

INSTRUCTIONS FOR FILING PROOF OF APPLICATION OF WATER TO BENEFICIAL USE

1. Give the name and post office address of the permit holder. If the person making proof is other than that person who originally applied for the permit, that person must either be an elected official of the company, a general partner of a partnership, must have been assigned the permit from the original owner, or must have a valid power of attorney from the permit holder on file with the Department of Water Resources.
2. Give the number of the permit upon which you are making proof.
3. Give the date of priority which you wish to establish. That priority normally is the date upon which the Department received the application. This can be found on the top line of the back page of the permit.
4. Describe the source from which you have appropriated the water by giving the name and location of the point of diversion as described by 40 acre subdivisions of the Federal Land Survey.
- 5a. Describe the amount of water in cubic feet per second or acre feet and the use to which you have applied the water, and the period during the year which you have been using the water.
- 5b. Give the total amount of water you have appropriated. This will not necessarily be the amount shown on the permit, but should be determined accurately by measurement.
- 5c. Describe how and by whom the measurement of the amount of water appropriated was made and give the name of the person making the measurement. This person should be someone who has a recognized ability and the necessary training to make such a measurement.
6. If you convey water through facilities owned by persons other than yourself, complete Item #6a and #6b.
- 7a. Describe the means by which you divert the water.
- 7b. Describe the type of measuring device which you have installed and if the device is not a standard device, attach to the proof form a rating table which will allow the Department to determine the quantity of water going through the device or being stored in the reservoir.
8. Describe any uses you may have other than irrigation.
9. Describe the acreage which you have irrigated by listing the number of acres irrigated in each 40 acre tract.
10. Remarks.

Sign and date the form and have your signature acknowledged by a Notary Public. For permits involving the irrigation of one (1) acre or more, obtain a copy of an aerial photograph of the property in question, if they are available, from your local Agricultural Stabilization and Conservation office. That map should clearly show the lands you irrigate and the section corner near the lands being irrigated. Mail the proof form and the above information to the Department of Water Resources, Statehouse, Boise, Idaho 83720.

Dear Mr. & Mrs. Wells:

82-7051

One of the conditions of approval of your water Permit No. _____ (see last page of your approved permit) was that evidence of the extent of development be submitted ~~September 1, 1977~~ ^{September 1, 1977} application of water to beneficial use to this office on or before _____. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.
