Dear Sir:

Received your ^{Department of Northern} ~~reply~~ letter. This explains more to me what you intend to do. Before you come call us to make sure we will be home. We live out in the country so would want to be home at least one of us when you come.

About the 3 homes. I will explain that again. There is only one home hooked to the well. To my knowledge there will be no others. The other two are my parents & my brother. They are not hooked on but occasionally we have to hook them on with a garden hose while they work on their reservoir or if they run low on water I fill their tank. Thanks so much. R. B. Hunter

Dear Mr. Hunter:

When a well is drilled for domestic purposes there is no requirement to obtain a permit to appropriate public water. Domestic purposes is water for one household use including up to $\frac{1}{2}$ acre of irrigation or stockwatering and not to divert more than 13,000 gallons of water per day. Domestic purposes does not include water used for multiple ownership subdivisions, mobile home parks, or business establishments.

Under Idaho Water Law you do not have the right to injure existing water rights. It would be necessary for the person who feels he is adversely affected by the use of water from a well to bring it to the attention of this Department or the courts.

If we may be of any further assistance, please contact our office.

Very truly yours,

Kenneth Knoblock
