Gentlemen:

One of the conditions of approval of your water Permit No. 82-7031 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before May 1, 1978. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Dear Mr. Adams:

We are returning your Application for Permit to divert water from the South Fork of the Clearwater River, in order to clarify several items.

Under Item 4, you have requested to divert 3.0 cubic feet per second of water. This is equivalent to approximately 1,350 gallons per minute which we believe is an excessive amount. The maximum allowable under Idaho Law is 0.02 c.f.s. per irrigated acre, unless the need for more can be justified. This would make the total appropriation equal to 0.12 c.f.s. The filing fee for this amount of water is \$10.

Since you have listed six names under line 1 of the application, it is necessary to have all six signatures at the bottom of Page 3. We have also attached a map of your area. Please indicate on this map where the water will be diverted from the river and also the places of use.

After completing the above items, please return the application to our office and we shall begin its processing. Feel free to contact us if there are any questions.

Very truly yours,

FRED EISENBARTH
