WATER RIGHT LICENSE

License of Water Right No. 82-7002 Priority August 15, 1968 Amount 0.03 cfs

THIS IS TO CERTIFY, that ROBERT R. WHITE
of Stites, Idaho, has complied with the terms and conditions of Permit
No. 82-7002 issued pursuant to Application for Permit dated August 15, 1968,
and has submitted proof to the Department of Water Administration on November 28, 1973,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 0.03 cfs of water from South Fork Clearwater River,
tributary to Clearwater River, and that the permit holder has applied to a beneficial use
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
<u>Irrigation</u> from <u>April 1</u> to <u>Nov. 1</u> at <u>0.03</u> cfs and <u>0.75</u> acre feet			
from _____ to _____ at _____ cfs and _____			
from _____ to _____ at _____ cfs and _____			

(both dates inclusive)

Subject, however, to the condition that no more than 0.03 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed is for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
0.75 acre feet per year, said waters to be diverted within the NE¹/₄NW¹/₄ of Sec. 33,

Dear Mr. White:

One of the conditions of approval of your water Permit No. 82-7002 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before December 1, 1973. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Re: Application for Permit 82-7002

Dear Mr. White:

Before final action is taken on your application, we will require additional information. It is noted that you intend to irrigate 1/4 acre of ground in the NW 1/4, Sec. 33, T. 31 N, R. 4 E, B.M.

A problem arises in that you have requested an excessive amount of water, 0.33 cubic feet per second or approximately 16 1/2 miner's inches. The Idaho Code allows a maximum rate of diversion per irrigated acre of 0.02 cubic feet per second.

We realize it is difficult to irrigate small tracts of ground within this limit. Normally the Department will allow additional water if justification for the quantity is given. If you would explain the type of soil in the 1/4 acre, your method of irrigation, the capacity in gallons per minute of the pump you intend to use, we may be able to allow more water.

Your prompt attention to this matter is appreciated.

Very truly yours,

Mr. McElowney;

In regards to your letter of 11/11/68
Being as I know very little of measuring water
perhaps you could tell more of what I
need than I can.

I would like to run one $\frac{1}{2}$ in. hose
at app. 35 lbs pressure for 5 or 6 hours
per day, during the irrigating season.

That will give me all the
water needed, if you can fix me up
it will be much appreciated.

Dear Mr. White:

Before final action is taken on your application, we will require additional information. It is noted that you intend to irrigate 1/4 acre of ground in the NW 1/4, Sec. 33, T. 31 N, R. 4 E, B.M.

A problem arises in that you have requested an excessive amount of water, 0.33 cubic feet per second or approximately 16 1/2 miner's inches. The Idaho Code allows a maximum rate of diversion per irrigated acre of 0.02 cubic feet per second.

We realize it is difficult to irrigate small tracts of ground within this limit. Normally the Department will allow additional water if justification for the quantity is given. If you would explain the type of soil in the 1/4 acre, your method of irrigation, the capacity in gallons per minute of the pump you intend to use, we may be able to allow more water.

Your prompt attention to this matter is appreciated.

Very truly yours,

Donald W. McEldowney

Gentlemen:

Enclosed you will find a legal notice which we wish to have published once a week for two consecutive weekly issues of your newspaper. We have inserted the publication dates allowing ample time for you to submit us a galley proof for review before publication.

After sending us a galley proof, proceed with the publication on the dates we have inserted assuming the notice is correct. If we have any corrections, we will notify you before the first publication date. If you can not publish the notice on the proposed dates please contact us immediately.

An affidavit of publication must be submitted to the Department of Reclamation, along with the publication bill. In order to receive payment, the following certification must appear on the bill:

I hereby certify that the foregoing account is just and correct, that the amount claimed is legally due, after allowing all just credits, and that no part of same has been paid.

Signature of claimant

Very truly yours,

Donald W. McEldowney
