Dear Mr. McHone:

An Application for Permit must be filed to develop a legal water right on any water diverted from a groundwater source after March 25, 1963 (excepting a well drilled for a single household). Any surface water diverted after May 20, 1971, must also be preceded by a permit from this Department. The above includes proposed new systems and enlargements of existing systems for development of larger quantities of water (Section 42-201 through Section 42-229, Idaho Code).

Existing water rights developed through diversion and application of water to a beneficial use prior to the above dates may be recorded by filing a Claim to a Water Right with our Department; however, it is not mandatory to do so (Section 42-225b, Idaho Code).

We have enclosed an Application for Permit with instructions for filing and also a Claim to a Water Right form for your use. Each form must be accompanied by a filing fee when it is submitted to our office.

Please do not hesitate to contact us if we may be of any further assistance.

Very truly yours,
