Dear Ms. Hopkins:

In response to your letter of April 21, 1983, I have researched our records for water rights on file with this department appurtenant to the lands described in your attachment entitled "Exhibit 'A'."

The enclosed land list is compiled from the lands identified in your attachment with the water right number located in our records appurtenant to the lands or a portion thereof. The underlined portion of the legal description is the 40-acre tract which is the smallest parcel that can be researched. No water rights were found on record with this department appurtenant to the lands described in Sections 20 and 29, T. 30 N., R. 4 E.

If water is being used on the lands where no records were found, it will be necessary to file wither a claim or an application for permit, whichever is appropriate for your particular circumstances. Enclosed is our packet containing our leaflet entitled "Keep Your Water" explaining the methods of filing for a water right and the exceptions. Forms and instructions for filing are included.

No filing is necessary for water being used on the lands identified under the license and decreed rights. Enclosed are copies of the Judgment in the case of Bluford C. Earp vs. Clint Howell, et al. and license No. 82-2072. I might add that no filing is necessary for domestic use from groundwater for a single household dwelling. Multiple dwellings receiving water from the same well, however, could require filing for a water right. This is more fully explained in our leaflet for single household and multiple family domestic uses, etc.

We have ascertained the water rights for irrigation from the South Fork of the Clearwater River and for use of water in Swartz Creek have been recorded by previous owners. However, we have been told it is necessary to verify that we have the rights to the water to the house supplied by pump from underground sources.

Please let us know whether or not such rights have been recorded, and what steps must be taken to secure such a permit if none exists. The house has been on the location since 1964 and other dwellings were on the property previously.

Re: Permit No. 26030

Lester & Deway G. Johnson
 Star Route
 Grangeville, Idaho

Dear Messrs. Johnson:

Our field engineer's report on his inspection of the application of water to beneficial use under the terms of Permit No. 26030 shows the pump and sprinklers ^{are} capable of conveying 25 miner's inches, or .5 c.f.s. of water for the irrigation of 40 acres.

Upon receipt of the statutory fee of \$ 8.00 -based at the rate of \$2.00 for each 40-acre subdivision - we will issue the License and Certificate of Water Right, confirming the right with priority of October 18, 1955 to the use of .5 second feet of surface water with the point of diversion in the SW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 19 for irrigation of 40 acres in the SW $\frac{1}{4}$ SE $\frac{1}{4}$, SE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 19; NW $\frac{1}{4}$ NE $\frac{1}{4}$, NE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 30, T. 30 N., R. 4E., B.M.

Since your permit shows the point of diversion to be in the SE $\frac{1}{4}$ SE $\frac{1}{4}$ of Sec. 19, and the lands to be irrigated in the SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 19; SW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 20; NW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 29, all in T. 30 N., R. 4 E., B.M. it will be necessary to amend both the point of diversion and the land list in order that a license may be issued for this permit.

Complete the enclosed amendment forms and submit them with the above mentioned statutory fees, plus an additional fee of \$2.00 for recording the amendments to this office and the license will be issued.

PROOF OF COMPLETION OF WORKS

Boise, Idaho

Lester Johnson & Dewey G. Johnson
Star Route, Grangeville, Idaho

Dear Sir:-

Under the terms of your permit No. 26030 you are required to complete you diversion works on or before October 21, 1958. I enclose blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.
