RE: WATER RIGHT NO. 02-07439

Dear Water Right Holder(s):

The Department of Water Resources (the Department) has issued the enclosed license confirming that a water right has been established in accordance with the permit referenced above. The license is a preliminary order issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department unless a party petitions for reconsideration or files an exception and/or brief as described in the enclosed information sheet.

Also, please note that water right owners are required to report any change of water right ownership and/or change of mailing address to the department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the department or visit the department's homepage on the Internet to obtain the proper reporting form.

If you have any questions, please call me at 208-327-7946.

Sincerely,

Shelley W. Keen
Water Rights Supervisor

**EXPLANATORY INFORMATION
TO ACCOMPANY A
PRELIMINARY ORDER**

The accompanying order or approved document is a "Preliminary Order" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department of Water Resources (department) unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the department or the Idaho Water Resource Board (Board) is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

MICROFILMED
OCT 23 2000

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

Re: Permit No. 02-07439

Dear Permit Holder:

Returned is the proof of beneficial use you submitted to this office. Unfortunately, it is unacceptable as filed. In order for the Department to complete processing, further information is required. You failed to complete #6 (total rate and/or volume). Your permit was issued for 0.06 cfs.

When the total rate or volume is 0.04 cfs or greater; or when you use a surface water source (Snake River), a license examination fee applies. A license examination fee based on a rate of 0.06 cfs, or based on the fact that you use a surface water source, is \$50. I have enclosed an instruction sheet and fee schedule for your convenience.

In order to meet all of the required dates, you must return the original proof form and \$50 fee no later than December 1, 1992.

If you have any questions or if I can be of any further assistance, please feel free to contact me.

Sincerely,

Karen L. Gustafson
Secretary/Records Manager

PROOF DUE NOTICE

RE: PERMIT NO. 02-07439

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before December 1, 1992. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Karen L. Gustafson
Secretary/Records Manager

RE: Water Right No. 02-07439

Dear Water Right Holder(s):

Department water right records show that you divert water from the Snake River or its tributaries under a water right that has a priority date later than December 29, 1976. This is the priority of the established minimum stream flow of the Snake River at the Weiser Gage (Weiser) in the amount of 4,750 cubic feet per second.

Because of the continuing drought conditions in the Snake River Basin, department hydrologists project that during 1992, there could be periods when the required minimum flow will not be satisfied due to low flows of the Snake River. The department urges you to not divert at a higher rate than authorized by your water right and to not use your right in any manner different than authorized. In addition, when the minimum flow will not be satisfied or is not being satisfied, you are required to cease diverting water under your water right, because your right is of later priority than the minimum stream flow at Weiser.

If the department determines the minimum flow will not be satisfied, the department will advise you and will provide as much lead time as possible in requiring that you temporarily cease your diversion of water. The greatest likelihood for this to occur is during a period from mid-June to late June.

While the department expects good cooperation from junior water right holders, water users should be aware that Section 42-352, Idaho Code, provides for penalties of up to \$100 per day for unauthorized diversions of water.

The department has contacted both the Idaho Power Company and the U.S. Bureau of Reclamation with respect to the timing of storage releases from upstream reservoirs for flow enhancement.

MICROFILMED

DEC 08 1992

purposes. This type of coordination could minimize the impact on existing water users and reduce the need to curtail diversions.

The department has scheduled public information meetings relative to this potential regulation as follows:

Mountain Home - June 4, 1992 - 10:00 a.m. - gymnasium at
North Elementary School, 290 E. 12th N.

Caldwell - June 4, 1992 - 7:00 p.m. - Ballroom in the
Student Union Building, Albertson College of Idaho,
2112 Cleveland

If you have questions concerning this letter or wish to provide the name of a different contact person or address to receive department correspondence, please contact the department.

Sincerely,

L. GLEN SAXTON
Chief, Water Allocation Bureau

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 02-07439

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed. You will receive a "Proof Due Notice" from this Department approximately 60 days prior to the completion date requiring you to file either a Proof of Beneficial Use form stating that the project has been completed or file a Request for an Extension of Time in which to file the proof statement.

Note also that water shall not be diverted under this permit unless the flow of the Snake River exceeds established downstream minimum stream flows. In addition, there are many applications for permit for the use of Snake River water that are prior to your permit. These applications have been filed for the irrigation of lands that the applicants are attempting to obtain under the Federal Land laws such as Desert Entry and Carey Act. If these lands are developed, and if the established minimum stream flows are maintained, then no water would be available for

MICROFILMED

this permit. Therefore, you should carefully consider these facts before making any expenditures for the construction of your system.

Sincerely,

A handwritten signature in cursive script, appearing to read "Jim Johnson".

MEMORANDUM

TO: Gary Spackman

FROM: TIM LUKE

RE: APP. NO. 61-7652/Swan Falls Processing

DATE: 10-31-90

On this date Mrs. Farris called me in response to my letter of October 26, 1990.

Mrs. Farris informed me that the two acres under this application had not previously been irrigated with any source of water. She also informed me that the 2 acres is associated with a domestic use. The applicants own a total of 2.1 acres and do intend to build a house and develop a groundwater source for their domestic use. Under this application, they hope to divert Snake River water for irrigating the remaining two acres of their lot.

Pursuant to Rule 5,2,3., this use is presumed to cause a significant reduction due to the fact that it is a direct diversion of water for irrigation from the Snake River between Swan Falls and Milner Dams. However, since the irrigation is at least associated with a domestic use, an argument could be made that the use meets the DCMI definition. Rule 5,2,4. states that applications for DCMI purposes are presumed to not cause a significant reduction.

In regard to domestic uses which include the allowable irrigation component, it appears that Rules 5,2,3. and 5,2,4. are conflicting. In the case of application no. 61-7652, the most important question perhaps is whether or not the use can be considered domestic.

After talking with me, the applicant called Dave Tuthill. Dave had assisted the applicants with this filing and had advised that there would be no problem with this filing. Dave also called me this morning and expressed the opinion that Idaho Power Co. had agreed to allow diversions for less than 2.5 acres.

Please provide your thoughts about this matter.

CONTRACT TO IMPLEMENT
Chapter 259, Sess. Laws, 1983

Department of Water Resources

THIS CONTRACT, Made and entered by and between the STATE OF IDAHO, hereinafter referred to as "Idaho", acting by and through the Governor of the State of Idaho, pursuant to the provisions of Senate Bill No. 1180, 1983 Idaho Session Laws, Chapter 259, and the IDAHO POWER COMPANY, a Maine corporation, qualified to do business in Idaho, with its principal offices in Boise, Idaho, hereinafter referred to as the "Company";

W I T N E S S E T H:

NOW THEREFORE, in consideration of the mutual covenants and agreements herein contained and other good and valuable consideration, the receipt of which is hereby acknowledged, the parties hereby agree as follows:

CONTRACT PROVISIONS

1. Definitions

- (a) The phrase "consumptive water uses for domestic uses" means water for one or more households and water used for all other purposes including irrigation of a residential lot in connection with each of said households where total use, other than water for irrigation of the residential lot, does not exceed thirteen thousand (13,000) gallons per day. The above definition applies whether such uses are direct or from a municipal water supply. The term "residential lot" means either a lot in an approved subdivision or a lot created by metes and bounds description, which lot had been platted or described prior to November 19, 1982, or meets the minimum residential lot size requirement in effect on November 19, 1982, of the local government agency having jurisdiction. The minimum lot size may be changed by the government agency, but shall not exceed two and one-half acres. The term "consumptive water for domestic uses" shall include, in addition to the uses listed above, use of water for livestock.

RE: Application for Permit No. 61-7652

Dear Applicants:

Advertising of the above referenced application has been completed and the file has been forwarded to this office for final review.

Within the past two years, the department has been operating under new water appropriation rules and regulations. Several of these rules prohibit certain types of uses and diversions from the Snake River between Milner Dam and Swan Falls Dam.

Before further action is taken on this filing, we wish to ask the following questions:

1) Has the land under this application been irrigated from the Snake River prior to the filing of the application? If so, please give the date of first use.

2) Is this irrigation use associated with, or incidental to any domestic use either from the Snake River or from some other source?

Please respond to this inquiry at your earliest convenience and feel free to contact me directly at 327-7864 if you have questions concerning this matter.

Sincerely,

Tim Luke
