WATER RIGHT LICENSE

License of Water Right No. 02-7221 Priority March 2, 1976 Amount 14.08 cfs

THIS IS TO CERTIFY, that Little Valley Mutual Irrigation Co.
of Bruneau, Idaho, has complied with the terms and conditions of Permit
No. 02-7221 issued pursuant to Application for Permit dated March 2, 1976,
and has submitted proof to the Department of Water Resources on April 30, 1981,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 59.07 cfs of water from Snake River,
tributary to Columbia River, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
Irrigation	from <u>March 15</u> to <u>November 15</u> at <u>14.08</u> cfs and <u>3520.0</u> acre feet		
	from _____ to _____ at _____ cfs and _____		
	from _____ to _____ at _____ cfs and _____		

(both dates inclusive)

Subject, however, to the condition that no more than 14.08 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
3520.0 acre feet per year, said waters to be diverted within the Gov. Lot 3 (NE $\frac{1}{4}$ NW $\frac{1}{4}$)
Section 2, Twp 6S, Rge 4E in the County of Owyhee

IN THE MATTER OF CHANGING THE MEASURING
DEVICE REQUIREMENT FOR PERMIT NO. 02-7021

ORDER

WHEREAS, the above numbered permit was approved with the condition that a measuring device of a type approved by the Department be permanently installed and maintained as part of the diverting works; and,

WHEREAS, on July 1, 1978, the Department adopted a new water measurement condition which states: "An access port or other device as specified by the Department shall be installed by the permit holder to provide for the installation of measuring equipment and the determination of the rate of diversion by the Department"; and,

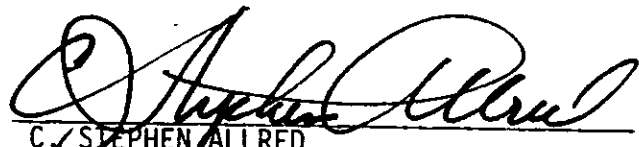

WHEREAS, the former condition required the permit holder to purchase and install a measuring device or hire a professional engineer to certify the rate of diversion; and,

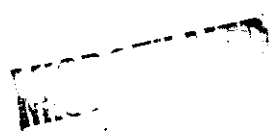

WHEREAS, the measuring device condition effective July 1, 1978, requires less capital expenditure by the permit holder; and,

WHEREAS, to be equitable to holders of permits issued prior to July 1, 1978, the new condition should be retroactive;

NOW THEREFORE, it is hereby ordered that the condition of approval of this permit related to water measurement is hereby changed as follows: "The permit holder shall either install a measuring device or provide a certified measurement by a professional engineer or install an access port or other device as specified by the Department".

Dear Sherl:

This correspondence is in reference to rights 02-2442, 02-2443, 02-7030 and 02-7221 in the name of Little Valley Mutual Irrigation Company.

You will recall that on 11/5/84 you requested additional time to be given to allow you to review the said water rights. To date, we have not heard from you on this matter and as we are attempting to include these rights in the Snake River Adjudication Report we are anxious to complete the licensing of said rights.

Please provide us with whatever information you have which shows that our records may be incorrect, on or before January 20, 1985.

If we do not hear from you we will assume that you have no objections to issuance of the licenses as proposed in the 10/30/84 correspondence.

If you have any questions, please let me know.

Dear Jim:

Officers of the Little Valley Mutual Irrigation Company have recently contacted me with regard to your letters to them dated October 30, 1984. These letters are with reference to licensing of permits 02-7221, 02-7030, 02-2442 and 02-2443. I have not received copies of the letters as of yet but it appears there may be some errors in the proposed licensing of those water rights. We would, therefore, ask that you hold licensing in abeyance and allow us time to review those water rights and the measurements made for them.

I will be out-of-town until the 19th and therefore would ask that you hold them in abeyance until at least November 30 and I should be able to get back to you easily before that.

If you have any questions, please don't hesitate to contact me.

Dear Don:

Regarding my certified water measurement to you dated April 9, 1984 in behalf of Little Valley Mutual Irrigation Company, I find that in addition to State water right permits 02-7030, 02-7068, 02-7221 and 02-2443 there is one other water right which was originally filed on the Bruneau River which should be included as now being diverted from the pumping plant owned and operated by Little Valley Mutual Irrigation Company for lands within the boundaries of the project. This water right (02-2442) should also be included under the measurements made April 9, 1984. The original water permit number was 51-2179 and was filed originally in the name of Merle Hoagland.

Dear Dave:

Regarding my certified water measurement to you dated April 9, 1984 in behalf of Little Valley Mutual Irrigation Company, I find through the Swan Falls litigation that one additional water right permit should be included as being measured on September 27, 1983. Apparently because of a number of changes this permit was overlooked but application for permit #02-2443 should be included in the certified water measurement for proof of beneficial use for Little Valley Mutual; Irrigation Company. Therefore, the measurement of 59.06 cfs covers state water right permits 02-7030, 02-7068, 02-7221 and 02-2443.

SUBJECT: Certified Water Measurement
Little Valley Mutual Irrigation Company

I personally measured the flow produced by the Little Valley Mutual Irrigation Company river pumping station on September 27, 1983. The river station is situated in the back waters of C. J. Strike Reservoir and is composed of five, 600 horsepower units, pumping into a single 32 inch diameter penstock. Approximately 75 to 100 feet from the pumping station an additional 16 inch diameter penstock is connected to the 32 inch penstock and runs to the canal heading.

The flow was measured in the 32 inch penstock upstream from the 16 inch connection using a Collins air/water manometer under standard operating conditions after the pumps had been operating for several hours. The pumps at the river station are as follows:

1. 600 horsepower, I. D. #53-1638-50, U. S. hollow shaft.
2. 600 horsepower, I. D. #C608183887, U. S. hollow shaft.

Gentlemen:

One of the conditions of approval of your water Permit No. 02-7221 was that evidence of the extent of development must be submitted to this office on or before May 1, 1981. (See last page of your approved permit). Enclosed is a postcard which may be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted. A request for extension of time form is enclosed for your convenience. Please note that a fee of \$15.00 must be submitted with this form.

Either the beneficial use postcard or a request for an extension of time must be received by this department on or before the above-mentioned date, otherwise, the permit will lapse and be of no further force or effect within sixty days.

Sincerely,

RITA FLECK
Sr. Secretary

Dear Wateruser:

The enclosed Order changes the measuring device condition of approval on your water right permit.

The changed condition is less restrictive and provides you the option to install an access port or have your system measured and certified by a professional engineer. Instructions for access port installation are also enclosed.

If you have questions regarding this matter, please contact the Regional Office nearest to you.

Sincerely,

David R. Tuthill Jr.

Gentlemen:

Your approved copy of Application for Permit No. 02-7215 is enclosed and we direct your attention to the conditions of approval on the fourth page.

Especially note that a special condition requiring you to install and maintain a measuring device at your point of diversion has been placed upon your permit. Enclosed is a letter describing the different types of measuring devices accepted by this Department.

You must also be aware that there are many applications for permit for the use of Snake River water that are prior to your permit. These applications have been filed for the irrigation of land that the applicants are attempting to obtain under the Federal Land Laws such as Desert Entry and Carey Act. If these lands are recommended in the State Water Plan then no water would be available for this permit. Therefore you should consider carefully these facts before you make any expenditures for the construction of your system.

If you have any questions, please let us know.

Sincerely,

BOBBY D. FLEENOR
