License of Water Right No. 02-7126 Priority August 15, 1973 Amount 3.68 cfs

THIS IS TO CERTIFY, that Helen M. Nanney
of Grandview, Idaho, has complied with the terms and conditions of Permit
No. 02-7126 issued pursuant to Application for Permit dated August 15, 1973,
and has submitted proof to the Department of Water Resources on December 8, 1978,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 10.88 cfs of water from Snake River (Strike Reservoir)
tributary to Columbia River, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume

	from _____ to _____	at _____ cfs and	_____
	from _____ to _____	at _____ cfs and	_____

(both dates inclusive)

Subject, however, to the condition that no more than 3.68 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confined is for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
920 acre feet per year, said waters to be diverted within the SE 1/4 SW 1/4, Sec. 34, Twp. 5S,

DEVICE REQUIREMENT FOR PERMIT NO. **02-7126**

ORDER

WHEREAS, the above numbered permit was approved with the condition that a measuring device of a type approved by the Department be permanently installed and maintained as part of the diverting works; and,

WHEREAS, on July 1, 1978, the Department adopted a new water measurement condition which states: "An access port or other device as specified by the Department shall be installed by the permit holder to provide for the installation of measuring equipment and the determination of the rate of diversion by the Department"; and,

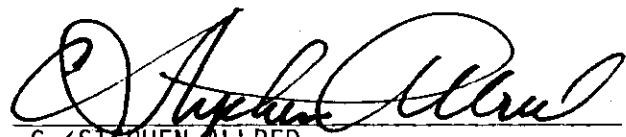

WHEREAS, the former condition required the permit holder to purchase and install a measuring device or hire a professional engineer to certify the rate of diversion; and,

WHEREAS, the measuring device condition effective July 1, 1978, requires less capital expenditure by the permit holder; and,

WHEREAS, to be equitable to holders of permits issued prior to July 1, 1978, the new condition should be retroactive;

NOW THEREFORE, it is hereby ordered that the condition of approval of this permit related to water measurement is hereby changed as follows: "The permit holder shall either install a measuring device or provide a certified measurement by a professional engineer or install an access port or other device as specified by the Department".

The above letters were written without the knowledge that a field exam had been completed for this permit before the proof of beneficial use was submitted. Since the field measurement was made with a Collins Impact Tube, the access port requirement is a moot point, and the permit is ready for licensing.

Dear Ms. Nanney:

Re: Permit No. 02-7126

The purpose of this letter is to remind you of action that you must take to provide for licensing of water right No. 02-7126.

You will recall from my letter of January 8, 1979 that this office must be notified of your decision providing for measurement of the water right by:

- 1) hiring a professional engineer to certify the rate of diversion,
- 2) installing an access port to enable the measurement to be made with equipment provided by the Department, or
- 3) installing a measuring device of a type approved by the Department.

Please contact us in some manner by April 5, 1979 so that we can prevent initiation of lapse procedures. Feel free to give us a call if you have any questions.

Sincerely,

Dear Ms. Nanney:

Re: Permit No. 02-7126

On December 8, 1978, this office received your "Proof of Application of Water to Beneficial Use" for water right No. 02-7126. In the remark portion of the proof you request the measuring device requirement be removed since a device was not required on the original system.

After reviewing your right, we have decided that we do need some type of measurement capability on your diversion system. The reason for this requirement is to enable our examiners to accurately determine the rate of flow diverted by your system for proper licensing of your water right. Enclosed is the order describing the revised requirement for a measuring device on your permit. Note that among your options are: (1) to hire a professional engineer to certify the rate of diversion; (2) to install an access port which will enable a measurement with equipment provided by the Department; and (3) to install a measuring device of a type approved by the Department.

We will delay action on your proof of beneficial use until March 1, 1979, to give you an opportunity to decide on a course of action. Please notify this office by that date of the manner of measurement you decide to use. The Department is currently purchasing new measuring equipment and the specifications for the access port are not yet ready. Therefore, if you select option (2) above, we will send you the specifications as soon as they become available.

If you have any further questions about this matter, please contact this office.

Sincerely,

DAVID R. TUTHILL, JR.

Dear Mrs. Nanney:

One of the conditions of approval of your water Permit No. _____ (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before February 1, 1979. Enclosed is an affidavit form which must be used to submit ~~February 1, 1979~~ proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise, the permit will lapse and be of no further force or effect.

Dear Wateruser:

The enclosed Order changes the measuring device condition of approval on your water right permit.

The changed condition should be less restrictive and provide more flexibility to you in the development of your water right system. The specifications related to the size and location of the access port will be available upon request from the Department, as soon as the Department's measuring equipment is obtained.

If you have questions regarding this matter, please contact this office or our regional offices.

AGREEMENT FOR SALE OF INTEREST IN CANAL

THIS AGREEMENT, Made and entered into this 12 day of FEBRUARY, 1974, by and between ARTELL A. ASLETT and PHILLIP G. ASLETT, parties of the first part, hereinafter referred to in the singular as the "Seller", and IVAN NANNEY and HELEN NANNEY, husband and wife, party of the second part, hereinafter referred to, whether an individual or otherwise, as the "Buyer",

W I T N E S S E T H:

WHEREAS, the Seller has heretofore obtained certain rights of way under which he became entitled to enlarge a certain canal known as the Bybee Canal so as to increase the capacity thereof by 12,000 miner's inches, more or less; and,

WHEREAS, the Buyer desires to purchase from the Seller an interest in that portion of the said Bybee Canal created by the enlargement made by the Seller as aforesaid,

NOW, THEREFORE, in consideration of the premises and of the covenants herein set forth to be kept and performed by the Buyer, the parties agree as follows:

The Seller agrees to sell to the Buyer, and the Buyer agrees to purchase from the Seller, an undivided fractional interest in said Bybee Canal, which said undivided fractional interest shall

be and consist of 300 /12,000 of the additional capacity created in said Bybee Canal by the enlargement thereof by the Seller. The purchase price to be paid by the Buyer to the Seller for said interest in said Bybee Canal shall be FIFTEEN DOLLARS Dollars (\$ 15.00) per miner's inch of capacity, and shall be in the total sum of \$ 4500 plus 5% for 12 months ^{TOTAL of \$4,725.00.}, which said sum shall be paid at the times, and in the manner and in the installments as follows:

1. The Buyer has paid the Seller a downpayment in the sum of \$ 4,725.00 coincidentally with the signing of this agreement, and receipt thereof is hereby acknowledged by the Seller;

2. The balance of the purchase price, being the sum of \$ _____, shall be paid in five equal consecutive annual installment payments, each in the amount of \$ _____. The first such annual installment payment shall be made one year after the date of this agreement and the subsequent installment payments shall be made each year thereafter on that same date;

3. That portion of the purchase price remaining from time to time unpaid shall bear interest from the date hereof at the rate of five per cent (5%) per annum during the period of one year beginning with the date hereof and at the rate of six per cent (6%) per annum

thereafter, until the balance of the purchase price is paid in full. The interest which shall have accrued one year after the date of this agreement shall be paid on that date, in addition to the installment of principal then due, and the interest shall be paid annually thereafter, in addition to the installment payments of principal;

4. The Buyer shall have the right at any time to prepay all or any portion of the deferred balance of the purchase price, without penalty. Any sums tendered as prepayment shall be applied first to interest and then to principal.

The Buyer shall be entitled to use the capacity in said Bybee Canal being purchased by him under this agreement from and after the signing hereof by the Seller and by the Buyer, as long as he complies with the terms and conditions of this agreement and is not in default with respect to performance of any of his obligations hereunder.

The canal covered by this agreement and in which an undivided fractional interest is being sold to the buyer hereunder, is located on the center lines and legal subdivisions identified and described in Exhibit A attached hereto and by this reference made a part hereof.

The Buyer agrees to comply with all the terms and conditions of, and agrees to perform, pro rata, all the obligations undertaken by the Seller in, the various agreements and grants under which the

Seller acquired the right to enlarge said Byb. Canal. The Buyer expressly agrees that all costs and expenses of the maintenance of said canal shall be paid by the Buyer and by all other parties having ditch rights in said ditch or canal, in proportion to their respective rights of use in said ditch or canal, as such rights shall exist from time to time.

When the purchase price and the interest accrued thereon have been paid in full, the Seller shall make, execute and deliver to the Buyer a deed or other appropriate instrument of conveyance, conveying unto the Seller the interest and capacity in said canal covered by this agreement.

IT IS SPECIFICALLY UNDERSTOOD AND AGREED by and between the parties hereto that time is of the essence of this agreement and if the Buyer shall fail, refuse or neglect to make any payment of principal or interest as hereinbefore specified, or shall fail in any other particular to comply with the terms and conditions of this agreement, and if such default or defaults shall not be removed by the Buyer within thirty (30) days after notice to the Buyer by the Seller specifying such default, then the whole unpaid balance of the purchase price, with interest thereon, shall immediately become due and payable at the option of the Seller, and the Seller may thereupon at his option enforce his rights hereunder, either by forfeiture of all of the rights of the Buyer hereunder, and all interest in said premises and property, or by an action in

equity or at law for specific performance with damages, or for recovery of the purchase price with interest, and nothing herein contained shall be construed as depriving the Seller of any legal or equitable right or remedy he may have in the premises. If the Seller elects to declare a forfeiture by reason of default of the Buyer, then all rights and interest of the Buyer hereby granted or then existing in his favor in said property being sold to the Buyer hereunder shall revert to and reinvest in the Seller, and the Seller shall retain unto himself all sums theretofore paid to him as agreed liquidated damages and not as penalty, and as the reasonable value of the use and occupation of said property during the time possession and enjoyment thereof is retained by the Buyer under this contract.

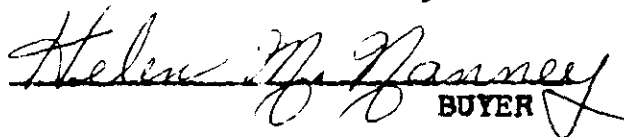

The terms hereof shall bind, and the benefits hereof shall inure to, each of the parties hereto and their respective heirs, executors, personal representatives, successors and assigns.

IN WITNESS WHEREOF, the parties hereto have hereunto subscribed their names all as of the day and year herein first above written.

Dear Mr. Fleenor:

Mr. Bob Hamilton of your Western District Office and Mr. Bill Colgan, requested that we write to you regarding an irrigation canal that uses water diverted from the C. J. Strike Reservoir.

According to our records, right-of-way Idaho 015152 was granted to the Grandview Land Associates on July 27, 1964. The Grandview Land Associates consisted of four persons, Keith A. Johnson, Helen M. Nanney, Clinton W. Gingrich and Leon W. Gingrich.

The right-of-way consists of a pumping site in Lot 9, Section 34, T. 5 S., R. 4 E.; 320 feet of 36 inch steel pipe also in Lot 9 and a part of Lot 3, Section 3, T. 6 S., R. 4 E.; and an open canal across portions of Lots 3 and 4, Section 3, Lots 1 and 2, Section 4, T. 6 S., R. 4 E.

On February 13, 1973, an Assignment of Interest in Right-of-Way was filed showing that the right-of-way was transferred to Artell Aslett and Phillip G. Aslett.

This right-of-way may be transferred or assigned to other parties without prior approval or concurrence of this office. Any use of the facilities included in the grant by other persons, does not require the approval of this office, provided nothing is added that was not approved originally.

If you have questions on this, give me a call.
