INSTRUCTIONS

This form has been prepared to assist new owners of property to comply with the requirements of Sections 42-248 and 42-1409(6), Idaho Code. Section 42-248 requires certain property holders to notify the Department of Water Resources (IDWR) of any change in mailing address or ownership of all or part of a water right record on file with IDWR. Section 42-1409(6) provides that new property owners must notify IDWR of any change in ownership of a water right during an adjudication of water rights, and, if a required claim for the water right has not been filed, to file the needed claim.

Separate brochures are available from IDWR describing the adjudication of water rights and the requirement to notify IDWR of changes in ownership. If you would like any of these brochures, or if you have questions about completing this form, please contact your nearest IDWR office or call 1-800-451-4129.

If you need additional space to describe or explain any of the items on the form, please attach additional sheets to the form as you may require.

1. If there are water rights associated with the property, the seller should be able to provide you with the water right or adjudication claim number(s). Please enter these number(s) at Item 1. If you or the seller believe there are water rights for the property but the numbers are unknown, you may wish to call IDWR or come into an office of IDWR for assistance in identifying the water rights for the property in question. If claims for the rights are required, and have not been filed, IDWR will so advise you.
2. The information described at Item 2 is required, since IDWR cannot process the requested change without documentation of ownership. The preferred types of documentation are shown; contact IDWR if you have difficulty obtaining this information. Do not obtain a new survey for purposes of this form before contacting IDWR.
3. Please provide the name and address of the former owner of the water right and/or adjudication claim at Item 3.
4. The name, mailing address, and telephone number of the new owner(s) is entered at Item 4. Please indicate the relationship between multiple owners by using the connector "and", "or" or "and/or". If an "and" is used, all parties must sign this form. If an "and/or" or "or" is used, all parties may sign, however only one of the named parties is required to sign.
5. At Item 5, please provide the date the property in question was acquired. This may be the date of "closing" in the case of a real estate transaction or the date of court order for other types of ownership changes.
6. If the property you have purchased is only a portion of the property owned by the former owner/seller, you may be purchasing only a portion of the total water right held by the seller. This means the water right held by the seller may be "split" to provide your share of the right in question. Be sure to include a description of the portion of the water right you have purchased at Item 6.

Please provide as much detail as possible concerning your water right: include the number of homes, irrigated acreage if more than 1/2 acre is irrigated, type and number of stock if your right is for stockwater, etc. In the absence of information to the contrary, IDWR will assume the intent is to split the rights *proportionately*.

7. The new owner(s) must sign the form in the space(s) provided at Item 7. Corporations and other organizations must submit a list of directors or officers demonstrating the authority of the director or officer to sign the form.
8. There is no filing fee. When complete, you should retain a copy and return the original of the form to the IDWR office nearest you:

Two 100 HP pumps and one 75 HP pump supply water to 227 acres via 400' 16" buried mainline to P/U. 12" + 10" mainline is then used for sprinkler irrigation. No other rights are used.

Proof was filed in 1992. The acres marked "out" in section 17 were developed in 1998 but not recommended for licensing due to timing. Billy Wolfe, current owner, rented water from the supply bank in 1998 for the new development.

Re: Permit No. 02-07113

Dear Permit Holder:

This letter acknowledges the amendment to the proof of beneficial you submitted in connection with the above referenced permit. The attached order amends the total rate to show 6.6 cfs. It also advances your priority date to December 28, 1976, pursuant to Section 42-217, Idaho Code.

The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

I also want to call your attention to the fact that an error was made when computing your late fee. The total amount should have been \$25. Since you submitted a \$50 late fee, I have begun the process to refund the additional \$25. The process takes between two and four weeks.

If you have questions concerning this matter, please feel free to contact the WESTERN Regional Office in Boise at 334-2190.

RE: Permit No. 02-7113 - REQUEST FOR EXTENSION OF TIME

Dear Mr. Hisel:

The department has received the request for extension of time submitted in connection with the above referenced permit. The department will hold the request without action until the permit is reprocessed in compliance with the provisions of Section 42-203D, Idaho Code.

The enactment of H.R. 519 on December 29, 1987 by the Congress of the United States overcomes the last obstacle to make the Swan Falls Agreement effective. As a result of the enactment, the department is determining which permits can be reprocessed in a given year up to the 20,000 acre per year limitation.

The permits are being reviewed in order of priority starting with the oldest permit first. When further development under your permit can be considered relative to the terms of the Swan Falls agreement, the department will contact you.

I note that your permit has been named in the Idaho Power Company lawsuit (Civil Case No. 81375) but has not been dismissed. For this reason, I encourage you to submit to the department whatever evidence you have to show the amount of development which has occurred prior to July 1, 1985, since this development is not subject to the public interest review required by the Agreement and the Idaho statutes.

Please feel free to contact this office if you have questions.

Sincerely,

L. GLEN SAXTON

Re: Permit No. 02-7113

PROOF DUE NOTICE

This office acknowledges receipt of the assignment conveying the above referenced permit to you. The assignment has been entered into the department's records. A copy of the permit is enclosed for your records.

One of the conditions of approval of the above referenced water permit is that proof of the extent of your beneficial use must be submitted to this office on or before April 1, 1988. Enclosed is a form which when accompanied by the license examination fee or a completed field examination report prepared by a certified water right examiner, may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time provided the delay is for reasonable cause as described in Section 42-204, Idaho Code. If you have been prevented from proceeding by a government agency or by litigation, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing the lapse notice, the permit will no longer be of any force nor effect.

Sincerely,

RITA I. FLECK

Enclosed is a copy of the approved request for extension of time. The time within which to submit the statement of beneficial use is extended to April 1, 1988.

The approval of the extension of time is based upon the moratorium by Idaho Power Company against new power hookups. In order for the department to consider any future request for an extension of time due to the moratorium, it will be necessary for you to submit evidence together with your request that you have applied to Idaho Power Company and have been denied a power hookup.
