THIS IS TO CERTIFY, that Mud Flat Canal Co.
of Grand View, Idaho, has complied with the terms and conditions of Permit
No. 02-7061 issued pursuant to Application for Permit dated April 9, 1970,
and has submitted proof to the Department of Water Resources on May 11, 1981,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 48.44 cfs of water from Snake River,
tributary to Columbia River, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume

CONDITIONS OF APPROVAL

- a. Modifications to or variance from this license must be made within the limits of Section 42-222, **Idaho Code**, or the applicable Idaho Law. This right may be forfeited by five years of non-use.
- b. The right to the use of the water hereby confirmed is restricted and appurtenant to lands or place of use herein described, and is subject to all prior water rights, as provided by the laws of Idaho.
- c. Any water right confirmed in this license for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this license and shall not give rise to any right or claim against any future rights to the use of water other than hydropower, within the State of Idaho initiated later in time than the priority of this license.

RE: APPLICATION TO LEASE WATER RIGHT NOS. 02-07061, 02-07062 and 02-07157C TO THE WATER SUPPLY BANK

Dear Mr. Field:

The department has reviewed the above referenced application that you submitted to the department on April 11, 2001.

Please consider that the water rights offered for lease have been accepted into the Water Supply Bank ("bank") until you petition to remove them. Several items to keep in mind in connection with the lease are as follows:

1. There is no rental payment to you if the rights or parts thereof are not rented from the bank.
2. While a right is in the bank, the owner of the right may not use the right even if the right is not rented.
3. A right accepted into the bank stays in the bank until the Board releases it or until the lease term expires.
4. While a water right is in the bank, forfeiture provisions are stayed.

If you have questions, please feel free to contact me.

Sincerely,

A handwritten signature in black ink, reading 'L. Glen Saxton'. The signature is fluid and cursive, with the first name 'L.' being small and the last name 'Saxton' being larger and more prominent.

License of Water Right No. 02-7061 Priority April 9, 1970 Amount 6.32 cfs

THIS IS TO CERTIFY, that Mud Flat Canal Co.
of Grand View, Idaho, has complied with the terms and conditions of Permit
No. 02-7061 issued pursuant to Application for Permit dated April 9, 1970
and has submitted proof to the Department of Water Resources on May 11, 1981
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 48.44 cfs of water from Snake River
tributary to Columbia River, and that the permk holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use Period of Use Rate of Diversion Annual Volume

Irrigation from March 15 to November 15 at 6.32 cfs and 1580.0 acre feet

from _____ to _____ at _____ cfs and _____

from _____ to _____ at _____ cfs and _____

(both dates inclusive)

Subject, however, to the condition that no more than 6.32 cfs of water be diverted at any one time, and that the amount of water so diverted and to which such right is entitled and confirmed for the purpose aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed 1580.0 acre feet per year, said waters to be diverted within the Gov. Lot 9 (SE1SW1) Section 34, Twp 5S, Rge 4E in the County of Dryden

Re: 02-7059 et al

Dear Mr. Agenbroad,

Your letter received by the Department on June 4, 1985, has been forwarded to me for reply. In that letter you indicated your Company is continuing to increase the diversion capacity of its pump after Proof of Beneficial Use has been submitted and the field examination has been made for nine (9) water right permits.

The advantage of the permit system for developing water rights is to establish a priority date for the water right and to begin after the filing date to construct the diversion works and to put the water to beneficial use. The permit, however, has a defined time period within which to develop the water right. The date when Proof of Beneficial Use is due establishes that time period. Only that development whether in terms of diversion or applying the water to beneficial use within the permitted time period can have its priority relate back to the permit.

More specifically, your Company apparently submitted Proof of Beneficial Use within the statutory time period to secure the priority dates for water right permits 02-7059, 02-7060, 02-7061, 02-7062, 02-7064, 02-7168, 02-7237A, 02-7275 and 02-7279. When those proofs were filed the Company declared the water rights had been developed for those permits in terms of the amount of water diverted and the land irrigated at that time. Any further development beyond that time is not covered by the above numbered permits. On April 24, 1985, John Noyes measured from the system existing at that time 48.5 cfs. If the review of the field examination shows this amount of water has been put to beneficial use under the permits numbered above, the licenses that define the water rights will be issued with 48.5 cfs as the maximum amount of water that was diverted under the permits.

MICROFILMED

D. Aagenbroed
02-7059 et al

Page 2

The critical point here is the permits numbered above defined the maximum amount of water that could be developed for diversion within the time period specified by the permits. The difference between the amount of water covered by the permits and the amount of water perfected into water rights existed on paper and is relinquished when the permitted development period ends. Any further development will require the Company to gain a new permit.

If you have any questions about this matter or water right matters in general please contact me or Jim Johnson. Pending communication from the Company the final action on the permits numbered above will be held until July 1, 1965.

Gentlemen:

A representative of this Department made an examination of the works covered by your Permit No. 02-7061 and has found the following:

Amount of water that can be recognized as beneficially used under
Idaho law: 6.32 cfs Source: Snake River trib to Columbia River

The maximum quantity diverted shall not exceed 1580.0 acre feet
per year.

Point(s) of diversion: Gov. Lot 9 (SE $\frac{1}{4}$ SW $\frac{1}{4}$) Sec. 34, Twp 5S, Rge 4E

Beneficial Use: Irrigation of 120 acres within SE $\frac{1}{4}$ SW $\frac{1}{4}$, S $\frac{1}{2}$ SE $\frac{1}{4}$, Sec. 7; and 196

Dear Mr. Dallas:

Mr. Dale Amick of the Mud Flat Canal Company recently visited this office concerning several water right permits that will be used for the irrigation of land to be served by the Company.

The owners of the water right permits are as follows:

02-7059 - Field Mutual Irrigation Company
02-7060 - Field Mutual Irrigation Company
02-7061 - Field Mutual Irrigation Company
02-7062 - Field Mutual Irrigation Company
02-7064 - Field Mutual Irrigation Company
02-7157C- Mud Flat Canal Company
02-7237A- Mud Flat Canal Company

We have enclosed a copy of those permits which indicates the location of the land to be irrigated and the date that proof of beneficial use is due.

The ownership of these permits may be changed by assigning a permit to a new owner. At the present time, there is no restriction to change ownership nor is there any approval of the Department that is required.

We hope this provides the information that is necessary. If you need further assistance with any assignments, please let us know.

Sec. 8, W $\frac{1}{2}$ W $\frac{1}{2}$, SE $\frac{1}{4}$ SW $\frac{1}{4}$

Your application for desert land entry for the above described land has this day been approved and allowed, subject to any valid existing rights and your further compliance thereto with the applicable laws and regulations. The acceptability of final proof will be contingent upon substantial compliance with the requirements of the Desert Land Act of March 3, 1877 (19 Stat. 377; 43 U.S.C. 321-323) as amended and supplemented, and the appropriate rules and regulations of 43 CFR, Part 2520. The development and reclamation of the land must be basically in accordance with your approved plan of development which is on file in the Idaho State Office. At the time of final proof you must show that you have in good faith, substantially reclaimed, irrigated and cultivated all of the irrigable land in the entry in a manner calculated to produce profitable results. At the same time you must also show that you have a completely developed source and supply of irrigation water that is adequate to permanently irrigate all the irrigable acres in the entry and that you have a legal right to the use of this water. Any substantial change in your source of water or deviation in the construction of the irrigation facilities as shown by your approved plan of development must have prior approval of the Bureau of Land Management. The irrigable acreage of this entry has been determined to be approximately 320 acres. In correspondence relating to this entry, always refer to the serial number shown above.

Subject to Section 209 of the Act of October 21, 1976 (Public Law 94-579) which will require the reservation of all minerals in the lands to the United States.

Also, subject to consent to reservation of perpetual road right-of-way dated December 24, 1976, a copy of which is attached.

Dear Mr. Field:

One of the conditions of approval of your water Permit No. 02-7061 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before May 1, 1975. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.
