NOTICE OF APPLICATION FOR PERMIT TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF IDAHO

Notice is hereby given that Wm. O. Field, Box 209, Grand View, Idaho, has on April 9, 1970, submitted Application No. 02 - 7059 to appropriate the public waters of the Snake River.

The application proposes a maximum diversion and appropriation of 6.4 cubic feet per second of water to be diverted by pump, canal and pipeline within the NE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 3, T. 6 S., R. 4 E., B. M., Owyhee County, and is to be used within the W $\frac{1}{2}$ NW $\frac{1}{4}$, SE $\frac{1}{4}$ NW $\frac{1}{4}$, N $\frac{1}{2}$ SW $\frac{1}{4}$, SE $\frac{1}{4}$ SW $\frac{1}{4}$, W $\frac{1}{2}$ SE $\frac{1}{4}$, Sec. 9, T. 6 S., R. 3 E., B. M. for the irrigation of 320 acres from March 15 to November 15.

Any permit issued pursuant to this application will be subject to ALL PRIOR WATER RIGHTS and subject to the CONTROL OF A STATE WATERMASTER. Any protest against this application must be filed with the Idaho Department of Reclamation on or before May 11, 1970.

R. KEITH HIGGINSON,
State Reclamation Engineer
Published in the Owyhee Nugget, Marsing, Idaho, on April 23, and April 30, 1970.

WATER RIGHT LICENSE

License of Water Right No. 02-7059 Priority April 9, 1970 Amount 6.4 cfs

THIS IS TO CERTIFY, that Mud Flat Canal Co.
of Grand View, Idaho, has complied with the terms and conditions of Permit
No. 02-7059 issued pursuant to Application for Permit dated April 9, 1970,
and has submitted proof to the Department of Water Resources on January 11, 1980,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 48.44 cfs of water from Snake River,
tributary to Columbia River, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
Irrigation from <u>March 15</u> to <u>November 15</u> at <u>6.4</u> cfs and <u>1600.0</u> acre feet			
_____ from _____ to _____ at _____ cfs and _____			
_____ from _____ to _____ at _____ cfs and _____			

(both dates inclusive)

Subject, however, to the condition that no more than 6.4 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed is for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
1600.0 acre feet per year, said waters to be diverted within the Gov. Lot 9 (SE $\frac{1}{4}$ SW $\frac{1}{4}$)
Section 34, Twp 5S, Rge 4E in the County of Owyhee

Description and location of place of use:

CONDITIONS OF APPROVAL

- a. Modifications to or variance from this license must be made within the limits of Section 42-222, **Idaho Code**, or the applicable Idaho Law. This right may be forfeited by five years of non-use.
- b. The right to the use of the water hereby confirmed is restricted and appurtenant to lands or place of use herein described, and is subject to all prior water rights, as provided by the laws of Idaho.
- c. Any water right confirmed in this license for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this license and shall not give rise to any right or claim against any future rights to the use of water other than hydropower, within the State of Idaho initiated later in time than the priority of this license.

OF THE
STATE OF IDAHO

IN THE MATTER OF CHANGING THE MEASURING
DEVICE REQUIREMENT FOR PERMIT NO. **2-7059**

ORDER

WHEREAS, the above numbered permit was approved with the condition that a measuring device of a type approved by the Department be permanently installed and maintained as part of the diverting works; and,

WHEREAS, on July 1, 1978, the Department adopted a new water measurement condition which states: "An access port or other device as specified by the Department shall be installed by the permit holder to provide for the installation of measuring equipment and the determination of the rate of diversion by the Department"; and,

WHEREAS, the former condition required the permit holder to purchase and install a measuring device or hire a professional engineer to certify the rate of diversion; and,

WHEREAS, the measuring device condition effective July 1, 1978, requires less capital expenditure by the permit holder; and,

WHEREAS, to be equitable to holders of permits issued prior to July 1, 1978, the new condition should be retroactive;

NOW THEREFORE, it is hereby ordered that the condition of approval of this permit related to water measurement is hereby changed as follows: "The permit holder shall either install a measuring device or provide a certified measurement by a professional engineer or install an access port or other device as specified by the Department".

MICROFILMED

June 6, 1985

Darrel Agenbroad, Secretary
Mud Flat Canal Company
Route B Box 340A
Grand View, Idaho 83624

Re: 02-7059 et al

Dear Mr. Agenbroad,

Your letter received by the Department on June 4, 1985, has been forwarded to me for reply. In that letter you indicated your Company is continuing to increase the diversion capacity of its pump after Proof of Beneficial Use has been submitted and the field examination has been made for nine (9) water right permits.

The advantage of the permit system for developing water rights is to establish a priority date for the water right and to begin after the filing date to construct the diversion works and to put the water to beneficial use. The permit, however, has a defined time period within which to develop the water right. The date when Proof of Beneficial Use is due establishes that time period. Only that development whether in terms of diversion or applying the water to beneficial use within the permitted time period can have its priority relate back to the permit.

More specifically, your Company apparently submitted Proof of Beneficial Use within the statutory time period to secure the priority dates for water right permits 02-7059, 02-7060, 02-7061, 02-7062, 02-7064, 02-7168, 02-7237A, 02-7275 and 02-7279. When those proofs were filed the Company declared the water rights had been developed for those permits in terms of the amount of water diverted and the land irrigated at that time. Any further development beyond that time is not covered by the above numbered permits. On April 24, 1985, John Noyes measured from the system existing at that time 48.5 cfs. If the review of the field examination shows this amount of water has been put to beneficial use under the permits numbered above, the licenses that define the water rights will be issued with 48.5 cfs as the maximum amount of water that was diverted under the permits.

MICROFILMED

The critical point here is the permits numbered above defined the maximum amount of water that could be developed for diversion within the time period specified by the permits. The difference between the amount of water covered by the permits and the amount of water perfected into water rights existed on paper and is relinquished when the permitted development period ends. Any further development will require the Company to gain a new permit.

If you have any questions about this matter or water right matters in general please contact me or Jim Johnson. Pending communication from the Company the final action on the permits numbered above will be held until July 1, 1985.

Re: 02-7059 et al

Dear Mr. Agenbroad,

Your letter received by the Department on June 4, 1985, has been forwarded to me for reply. In that letter you indicated your Company is continuing to increase the diversion capacity of its pump after Proof of Beneficial Use has been submitted and the field examination has been made for nine (9) water right permits.

The advantage of the permit system for developing water rights is to establish a priority date for the water right and to begin after the filing date to construct the diversion works and to put the water to beneficial use. The permit, however, has a defined time period within which to develop the water right. The date when Proof of Beneficial Use is due establishes that time period. Only that development whether in terms of diversion or applying the water to beneficial use within the permitted time period can have its priority relate back to the permit.

More specifically, your Company apparently submitted Proof of Beneficial Use within the statutory time period to secure the priority dates for water right permits 02-7059, 02-7060, 02-7061, 02-7062, 02-7064, 02-7168, 02-7237A, 02-7275 and 02-7279. When those proofs were filed the Company declared the water rights had been developed for those permits in terms of the amount of water diverted and the land irrigated at that time. Any further development beyond that time is not covered by the above numbered permits. On April 24, 1985, John Noyes measured from the system existing at that time 48.5 cfs. If the review of the field examination shows this amount of water has been put to beneficial use under the permits numbered above, the licenses that define the water rights will be issued with 48.5 cfs as the maximum amount of water that was diverted under the permits.

MICROFILMED

The critical point here is the permits numbered above defined the maximum amount of water that could be developed for diversion within the time period specified by the permits. The difference between the amount of water covered by the permits and the amount of water perfected into water rights existed on paper and is relinquished when the permitted development period ends. Any further development will require the Company to gain a new permit.

If you have any questions about this matter or water right matters in general please contact me or Jim Johnson. Pending communication from the Company the final action on the permits numbered above will be held until July 1, 1985.

Re: 02-7059 et al

Dear Mr. Agenbroad,

Your letter received by the Department on June 4, 1985, has been forwarded to me for reply. In that letter you indicated your Company is continuing to increase the diversion capacity of its pump after Proof of Beneficial Use has been submitted and the field examination has been made for nine (9) water right permits.

The advantage of the permit system for developing water rights is to establish a priority date for the water right and to begin after the filing date to construct the diversion works and to put the water to beneficial use. The permit, however, has a defined time period within which to develop the water right. The date when Proof of Beneficial Use is due establishes that time period. Only that development whether in terms of diversion or applying the water to beneficial use within the permitted time period can have its priority relate back to the permit.

More specifically, your Company apparently submitted Proof of Beneficial Use within the statutory time period to secure the priority dates for water right permits 02-7059, 02-7060, 02-7061, 02-7062, 02-7064, 02-7168, 02-7237A, 02-7275 and 02-7279. When those proofs were filed the Company declared the water rights had been developed for those permits in terms of the amount of water diverted and the land irrigated at that time. Any further development beyond that time is not covered by the above numbered permits. On April 24, 1985, John Noyes measured from the system existing at that time 48.5 cfs. If the review of the field examination shows this amount of water has been put to beneficial use under the permits numbered above, the licenses that define the water rights will be issued with 48.5 cfs as the maximum amount of water that was diverted under the permits.

MICROFILMED

The critical point here is the permits numbered above defined the maximum amount of water that could be developed for diversion within the time period specified by the permits. The difference between the amount of water covered by the permits and the amount of water perfected into water rights existed on paper and is relinquished when the permitted development period ends. Any further development will require the Company to gain a new permit.

If you have any questions about this matter or water right matters in general please contact me or Jim Johnson. Pending communication from the Company the final action on the permits numbered above will be held until July 1, 1965.

Regards,

Donald V. Shaff

RE: Permit No. 02-7059

Mud Flat Canal Co.,
Rt. B, Box 341
Grand View, ID 83624

Gentlemen:

A representative of this Department made an examination of the works covered by your Permit No. 02-7059 and has found the following:

Amount of water that can be recognized as beneficially used under
Idaho law: 6.4 cfs Source: Snake River trib to Columbia River

The maximum quantity diverted shall not exceed 1600.0 acre feet
per year.

Point(s) of diversion: Gov. Lot 9 (SE $\frac{1}{4}$ SW $\frac{1}{4}$) Sec. 34, Twp 5S, Rge 4E

Beneficial Use: Irrigation of 320 acres within W $\frac{1}{2}$ NW $\frac{1}{4}$, SE $\frac{1}{4}$ NW $\frac{1}{4}$, N $\frac{1}{2}$ SW $\frac{1}{4}$, SE $\frac{1}{4}$ SW $\frac{1}{4}$,
W $\frac{1}{2}$ SE $\frac{1}{4}$, Sec. 9, Twp 6S, Rge 3E

Priority date established: April 9, 1970

Conditions (if any):

In order for the Department to issue the above license, it will be necessary for you to amend the permit to correspond with the findings of the field examiner. We are enclosing a partially completed amendment form for your use in this matter.

Please sign the amendment application and return it to this office along with a \$20.00 filing fee within 30 days in order that we might issue your license as set forth above. If you do not concur with these findings or have any questions, please contact us within the 30-day period.

Sincerely,

JIM JOHNSON
Water Distribution Supervisor

Dear Wateruser:

The enclosed Order changes the measuring device condition of approval on your water right permit.

The changed condition is less restrictive and provides you the option to install an access port or have your system measured and certified by a professional engineer. Instructions for access port installation are also enclosed.

If you have questions regarding this matter, please contact the Regional Office nearest to you.

Sincerely,

DAVID R. TUTHILL, JR.

RECEIVED

May 12, 1977

Frank Dallas
U.S. Dept. of Agriculture,
Farmers Home Administration
Room 429, 304 N. 8th St.
Boise, Idaho 83702

Dear Mr. Dallas:

Mr. Dale Amick of the Mud Flat Canal Company recently visited this office concerning several water right permits that will be used for the irrigation of land to be served by the Company.

The owners of the water right permits are as follows:

- 02-7059 - Field Mutual Irrigation Company
- 02-7060 - Field Mutual Irrigation Company
- 02-7061 - Field Mutual Irrigation Company
- 02-7062 - Field Mutual Irrigation Company
- 02-7064 - Field Mutual Irrigation Company
- 02-7157C- Mud Flat Canal Company
- 02-7237A- Mud Flat Canal Company

We have enclosed a copy of those permits which indicates the location of the land to be irrigated and the date that proof of beneficial use is due.

The ownership of these permits may be changed by assigning a permit to a new owner. At the present time, there is no restriction to change ownership nor is there any approval of the Department that is required.

We hope this provides the information that is necessary. If you need further assistance with any assignments, please let us know.

Sincerely,

BOBBY D. FLEENOR
Chief, Water Rights

Gentlemen:

We are in receipt of the applications for amendment submitted in connection with the above referenced permit.

However, we cannot accept these amendments since all of the permits are now in the name of Field Mutual Irrigation Co. Before these applications can be accepted, the permits must be assigned to you.. We are enclosing the necessary assignment of permit forms which must be signed by a representative of the Field Mutual Irrigation Co. We are also enclosing the applications you submitted along with your check No. 1243 for \$50.00.

If you have any questions concerning this matter, please contact us.

Sincerely,

JAN GROVER

Boise, Idaho

IN REPLY REFER TO

I-1170
(943)

NOTICE OF ALLOWANCE

William O. Field
Grandview, Idaho 83624

JAN 12 1977

Serial No. I-1170 320 Acres

T. 6 S., R. 3 E., Boise Meridian, Idaho
Sec. 9, NW $\frac{1}{4}$ NW $\frac{1}{4}$, S $\frac{1}{2}$ NW $\frac{1}{4}$, N $\frac{1}{2}$ SW $\frac{1}{4}$, SE $\frac{1}{4}$ SW $\frac{1}{4}$, W $\frac{1}{2}$ SE $\frac{1}{4}$

Your application for desert land entry for the above described land has this day been approved and allowed, subject to any valid existing rights and your further compliance thereto with the applicable laws and regulations. The acceptability of final proof will be contingent upon substantial compliance with the requirements of the Desert Land Act of March 3, 1877 (19 Stat. 377; 43 U.S.C. 321-323) as amended and supplemented, and the appropriate rules and regulations of 43 CFR, Part 2520. The development and reclamation of the land must be basically in accordance with your approved plan of development which is on file in the Idaho State Office. At the time of final proof you must show that you have in good faith, substantially reclaimed, irrigated and cultivated all of the irrigable land in the entry in a manner calculated to produce profitable results. At the same time you must also show that you have a completely developed source and supply of irrigation water that is adequate to permanently irrigate all the irrigable acres in the entry and that you have a legal right to the use of this water. Any substantial change in your source of water or deviation in the construction of the irrigation facilities as shown by your approved plan of development must have prior approval of the Bureau of Land Management. The irrigable acreage of this entry has been determined to be approximately 320 acres. In correspondence relating to this entry, always refer to the serial number shown above.

Subject to Section 209 of the Act of October 21, 1976 (Public Law 94-579) which will require the reservation of all minerals in the lands to the United States.

Also, subject to right-of-way I-2920 to Carleen May Astle for an irrigation pipeline as to the W $\frac{1}{2}$ NW $\frac{1}{4}$, SE $\frac{1}{4}$ NW $\frac{1}{4}$, Section 9.

Also, subject to consent to reservation of perpetual road right-of-way dated December 24, 1976, a copy of which is attached.

cc: District Manager, Boise
St. Dept. of Water Resources
Dwyhee County Assessor
Case File

Allowed this 12th day of January, 1977.

Field Mutual Irrigation Co.
Attn: Wm. O. Field, Pres.
Box 209
Grand View, ID 83624

Dear Mr. Field:

We acknowledge receipt of the assignments submitted conveying the above referenced permits to you. The assignments have been recorded and the Department's records changed.

Enclosed are copies of the approved applications for extension of time submitted for these permits. The times within which to submit proof of beneficial use for Permits No. 02-7059, 02-7060, 02-7061, and 02-7062 have been extended to May 1, 1980, and for Permit No. 02-7064 to June 1, 1980.

If you have any questions concerning this matter, please do not hesitate to contact us.

Sincerely,

D. Darlene Reich
Water Rights Supervisor

Re: Permit No. 02-7059

Wm. O. Field
Box 209
Grand View, ID 83624

Dear Mr. Field:

One of the conditions of approval of your water Permit No. 02-7059 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before May 1, 1975. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Gentlemen:

Enclosed you will find a legal notice which we wish to have published once a week for two consecutive weekly issues of your newspaper. We have inserted the publication dates allowing ample time for you to submit us a galley proof for review before publication.

After sending us a galley proof, proceed with the publication on the dates we have inserted assuming the notice is correct. If we have any corrections, we will notify you before the first publication date. If you cannot publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department of Reclamation along with the publication bill. In order to receive payment, the following certification must appear on the bill:

I hereby certify that the foregoing account is just and correct, that the amount claimed is legally due, after allowing all just credits, and that no part of the same has been paid.

(Signature of the claimant)

Very truly yours,

Donald W. McEldowney
Appropriation Supervisor
