The U.S. Bureau of Reclamation ("Reclamation") and Bonneville Power Administration agree to pay the Lessors identified on the attached list, a price per acre as specified in individual agreements between Reclamation and the Lessors ("agreements"). The agreements provide that one half of the estimated payment will be made on or about July 1, 2003, and one half will be after the irrigation season has ended. The Idaho Department of Water Resources ("IDWR") shall comply with the payment scheme specified in the individual agreements between Reclamation and the Lessors. Prior to making payment to the Lessors, IDWR will invoice Reclamation for the payment plus the associated ten percent (10%) for the Water Administration Account.

Reclamation and Bonneville Power Administration agree to use the water in compliance with the Water Supply Bank rules and in compliance with the conditions of water use shown below:

Conditions of water use under this agreement:

1. The use of water under this agreement shall be subject to the provisions of Section 42-1766, Idaho Code.
2. Rental of the right(s) from the bank is contingent upon a determination that the acres associated with the rental application have a valid Snake River water right(s), and that they qualify for payment as provided in the Agreement between the U.S. Bureau of Reclamation and the Idaho Department of Water Resources for Water Leasing Program of Natural Flow Snake River Water Rights for 2003.
3. Acceptance of a right into the bank does not confirm the validity of the right or any elements of the water right.
4. Rental of the right(s) from the bank shall be from May 1, 2003 to November 15, 2003, and the right(s) will be considered released from the bank on December 31, 2003.
5. Use of water under this agreement does not constitute a dedication of the water to renter's use and upon expiration of this agreement, the points of diversion and place of use of the water shall revert to its original points of diversion and place of use and/or again be available to rent from the bank.
6. Renter agrees to comply with Water Supply Bank Rules while using water under this agreement.
7. Renter agrees to hold the Board, the Director and the state of Idaho harmless from all liability on account of negligent acts of the renter while using water.
8. Renter acknowledges and agrees that the Director may terminate diversion of

water if the Director determines there is not a sufficient water supply for the priority of the right or portion thereof being rented.

9. This rental does not grant any right-of-way or easement to use the diversion works or conveyance works of another party.

Dated this 18th day of June, 2003.

by Jonathon C. Bowling

Having determined that this agreement satisfies the provisions of Section 42-1763, Idaho Code, and, IDAPA 37.02.03030 (Water Supply Bank Rule 30), for the rental and use of water under the terms and conditions herein provided, and none other, I hereby execute this Rental Agreement on behalf of the Idaho Water Resource Board this 23rd day of June, 2003.

United State Department of the Interior
Bureau of Reclamation

Water Rental and Forbearance Agreement

With Jeff and Vivian Good
(Lessor's name)

Reclamation agreement number # 1425-03-MA-10-3890

This Agreement is entered into pursuant to the Reclamation Act of 1902, as amended and supplemented, for the purpose of meeting commitments of the Bureau of Reclamation (Reclamation) under the Biological Opinions on the Operation of the Federal Columbia River Power System and the operation and maintenance of Reclamation Projects in the Snake River Basin above Brownlee Dam. This Agreement is by and between the United States of America, acting by and through the Department of the Interior, Bureau of Reclamation, represented by the officer executing this instrument on its behalf and the Lessor.

RECITALS

- A. WHEREAS, Reclamation has commitments under Biological Opinions on the operation of the Federal Columbia River Power System and the operation and maintenance of Reclamation Projects in the Snake River Basin above Brownlee Dam to provide flow augmentation for delivery at Lower Granite Dam.
- B. WHEREAS, The Idaho Legislature authorized Reclamation to annually rent up to 427,000 acre-feet of storage water per year during the years 2002-2004 under the provisions of Idaho Code § 42-1763B.
- C. WHEREAS, In 2002, there was insufficient storage water available for rental by Reclamation to meet the 427,000 acre-feet rental target. Therefore, Reclamation worked with the Idaho Department of Water Resources (IDWR) under Memorandum of Agreement No. 1425-02-MA-10-3460 to have certain water right holders idle land and place their water rights in the State Water Supply Bank, thereby increasing water flow downstream to Lower Granite Dam. Rules governing the Idaho State Water Supply Bank, IDAPA 37.02.03, provide that rentals shall be approved only for use in Idaho unless there is compliance with the provisions of Idaho Code § 42-401(3). In order to avoid the complexities of Reclamation seeking approval for out-of-state use, the water was rented by the Idaho Power Company and used for hydropower generation in Idaho with the result that additional water flowed to Lower Granite Dam for flow augmentation.

- D. WHEREAS, Similar to 2002, it is expected that insufficient storage water will be available this year for rental by Reclamation. Therefore, Reclamation has initiated a similar pilot Snake River Leasing Program (Program), although this year it was advertised to the public and a request for proposals was sent to eligible water right holders. Under this Program, water right holders will forego irrigation of land and place their water right into the Idaho State Water Supply Bank. As a practical way of ensuring that Reclamation receives additional water, over and above the water flows that would otherwise be available, a qualification was added requiring that the land to which the water right is appurtenant was either irrigated last year or was in Reclamation's 2002 program explained in Recital C above. Again, it is intended for Idaho Power to renting the water from the State Water Supply Bank.
- E. The Lessor submitted a proposal for participation in the Program. The proposal shows that the Lessor has a right to use water for irrigation purposes and absent this Program was intending to irrigate with the water proposed for the Program. Therefore, placing the Lessor's water in the Water Bank during 2003 will result in additional water in the Snake River at Lower Granite Dam, Oregon. This additional water will be counted towards Reclamation's obligation to provide 427,000 acre-feet of water at Lower Granite Dam.

AGREEMENT

NOW THEREFORE, in consideration of the mutual and dependent covenants herein contained, the parties agree as follows:

- I. **Land Accepted into the Program**
- A. The total number of acres accepted into the Program is 482.0 acres. The land, hereinafter referred to as the Land, accepted into the Program is identified as "LL" on the map(s) included in Attachment A. This is the maximum number of acres eligible for payment under this Agreement. Reclamation recognizes the following conditions may exist: 1) additional acres may have been proposed in the Lessor's application, 2) the Lessor may have a right to irrigate additional acres, 3) the Lessor may intend to irrigate additional acres in 2003 and is willing to idle those acres, and 4) the Lessor may submit an application to the State Water Supply Bank to lease water rights appurtenant to acres other than the acres identified in this Agreement. Notwithstanding any of the conditions stated above or any other conditions, under this "willing seller, willing buyer" Agreement, the number of acres covered by the Agreement is limited to the number and location stated in this section I.A. of the Agreement.
- B. If it is determined after the execution of this Agreement that certain acres are not eligible for the Program because of a mistake, error, or misrepresentation in the Lessor's application, the land covered under this Program will be reduced accordingly.

- C. The Land may not be irrigated from any source, regardless of whether there is another valid water right appurtenant to the Land. Water authorized to be diverted under water rights, or portions of water rights, leased to the Water Supply Bank may not be applied to lands that are not identified in this Agreement. The Lessor may not water the Land for any reason; for example, testing equipment, irrigating a cover crop, or dust abatement.
- D. IDWR intends to monitor the Lessor's idled lands. The monitoring will include field visits, and the collection and analysis of satellite data and related pump and flow measurements collected at IDWR's discretion. The Lessor agrees to allow the collection of data and access for field visits.

II. Water Rights Appurtenant to the Leased Land

- A. The Lessor agrees that this Agreement shall be submitted to the Idaho State Water Supply Bank as an application to lease water to the bank, and that the Lessor is offering the water rights described in Attachment A to the bank by signing this Agreement. The Lessor agrees that any additional information or requirement IDWR may require to process or accept the application shall be furnished promptly to IDWR, including but not limited to, the submission of a separate application form if required. Failure to comply and IDWR requirements is cause for termination of this agreement.
- B. All rentals of the Lessor's water rights out of the water bank shall be subject to Reclamation's approval.

III. Payment

- A. By signing this Agreement the Lessor offers to the Idaho State Water Supply Bank the water rights described above for a total lease price of \$ 12,300⁰⁰. This amount is based on \$ 150 per acre of land idled. The Lessor understands that the amount the Lessor will receive from the Idaho State Water Supply Bank is 90% of the total lease price. Ten percent will be retained by IDWR for administrative costs of operating the Water Supply Bank, pursuant to the Water Supply Bank Rules.
- B. Payment as shown in section III.A above is based upon a dollar amount per acre of land idled, regardless of the diversion rate or maximum diversion volume allowed under the water right, the historical diversion rate or consumptive use under the water right, or the diversion rate or diversion volume approved for lease by IDWR.
- C. Pursuant to the Water Supply Bank Rules, IDAPA 37.02.03, after the water rights are leased, payment is to be made by the Water Supply Bank to the Lessor. Lessor agrees to accept the following intended plan for payment by IDWR: one

half of the estimated payment will be made on or about July 1, 2003, and the remainder will be paid after the irrigation season ends and final verification of program compliance is complete. Reclamation will enter into a separate contract with IDWR to make payment to the Water Supply Bank for this purpose.

IV. **Term, Termination of Agreement and Remedies**

- A. The Agreement shall become effective on the date of the last signature hereto and shall extend through December 31, 2003.
- B. At Reclamation's discretion, this Agreement may be terminated upon:
- (1) Failure of the Lessor to abide by the terms and conditions of this Agreement;
 - (2) Refusal of the Lessor to allow Reclamation or IDWR access to the Land to monitor compliance with the Agreement.
 - (3) Application of water by the Lessor to the Land during the period of this Agreement, except in emergency situations where the application of water is required for public safety reasons.
 - (4) Discovery of fraudulent information submitted in the Lessor's Application.
- C. If this Agreement is terminated for any other reason prior to its ending date, the Lessor shall reimburse Reclamation for a prorated portion of the amount stated in Section III.A of this Agreement, as determined by Reclamation.

V. **Miscellaneous**

- A. The Landowner or Lessor is responsible for all taxes, assessments, soil conservation measures such as weed and erosion control and other obligations related to any of the Land covered by this Agreement.
- B. The Landowner will indemnify and hold harmless Reclamation from any loss or damage and from any liability on account of personal injury, property damage, or claims for personal injury or death, or property damage of any nature caused by the Landowner or any person, firm or corporation acting on the Landowner's behalf related to or arising out this Agreement.
- C. **Water Right Ownership**

This Agreement shall not be used as evidence of ownership of water rights in the Snake River Basin Adjudication.

D. Officials Not to Benefit

No member of or delegate to Congress or the Resident Commissioner shall be admitted to any share or part of this Agreement or to any benefit to arise therefrom, but this restriction shall not be construed to extend to this Agreement if made with a corporation or company for its general benefit.

E. Covenant Against Contingent Fees

The Lessor warrants that no person or agency has been employed or retained to solicit or secure this Agreement upon an agreement or understanding for a commission, percentage, brokerage, or contingent fee except bona fide employees and bona fide commercial agencies maintained by the Lessor for the purpose of securing business. For breach or violation of this warranty, Reclamation shall have the right to revoke this Agreement without liability or in its discretion to require the Lessor to pay the full amount of such commission, percentage, brokerage, or contingency fee to the United States.

**BILLING
PERIOD
CHANGES**

THE NUMBER OF DAYS IN YOUR BILLING PERIOD MAY BE CHANGING. Due to customer growth, we are changing the date we read meters in your area, which also can affect the billing date. Upon its adoption, future bills will reach you at about the same time each month. We appreciate your understanding as we make these changes.

BUDGET PAY

If you are a residential or small commercial customer and would like to know exactly what your monthly bill will be, consider signing up for Budget Pay. Budget Pay takes your annual electric usage and calculates a monthly average, so you avoid those seasonal spikes and dips in your bill amount. It's adjusted annually on your anniversary date. Call the Customer Service Center today!

Please Note: Any unpaid balances will be assessed a monthly charge of one percent (1%) for Idaho customers. Returned checks from any customers will be charged a \$20 fee.

**BILLING
PERIOD
CHANGES**

THE NUMBER OF DAYS IN YOUR BILLING PERIOD MAY BE CHANGING. Due to customer growth, we are changing the date we read meters in your area, which also can affect the billing date. Upon its adoption, future bills will reach you at about the same time each month. We appreciate your understanding as we make these changes.

BUDGET PAY

If you are a residential or small commercial customer and would like to know exactly what your monthly bill will be, consider signing up for Budget Pay. Budget Pay takes your annual electric usage and calculates a monthly average, so you avoid those seasonal spikes and dips in your bill amount. It's adjusted annually on your anniversary date. Call the Customer Service Center today!

Please Note: Any unpaid balances will be assessed a monthly charge of one percent (1%) for Idaho customers. Returned checks from any customers will be charged a \$20 fee.

Please consider making a pledge to the Project Share program by calling Idaho Power!

WATER RIGHT LICENSE

License of Water Right No. 02-7053 (late proof)
Priority January 20, 1970 Amount 10.0 cfs

THIS IS TO CERTIFY, that Everett (Bud) E. and/or Anna Pearl Jones
of Caldwell, Idaho, has complied with the terms and conditions of Permit
No. 02-7053 issued pursuant to Application for Permit dated December 9, 1969,
and has submitted proof to the Department of Water Resources on January 27, 1977,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 10.0 cfs of water from Snake River,
tributary to Columbia River, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume

ORDER

WHEREAS, on December 19, 1969, Everett E. & Anna Pearl Jones applied to the Department of Water Resources (formerly the Department of Water Administration) for a permit to appropriate 12.8 cubic feet per second of water from the Snake River within Lot 5, Sec. 6, Twp. 2S, Rge. 1W, B.M., Owyhee County, to be used for irrigation purposes; and,

WHEREAS, on February 5, 1970, the Department approved said application and issued Permit No. 02-7053 with the condition that proof of construction of works and application of water to beneficial use be submitted to the Department on or before February 1, 1975; and,

WHEREAS, on December 2, 1974, the Department notified the permit holder by certified mail that proof of beneficial use was due and instructed the permit holder as to the steps to be taken to make said proof; and,

WHEREAS, on February 6, 1975, the Department notified the permit holder that Permit No. 02-7053 had lapsed for failure to submit proof of beneficial use; and,

WHEREAS, on March 5, 1975, the Department received an application for extension of time for said permit; and,

WHEREAS, Section 42-218a of the Idaho Code provides that a permit may be reinstated upon a showing of reasonable cause within 60 days from the date of the notice of lapsing; and,

WHEREAS, the permit holder has provided a reasonable showing as to why said permit should be reinstated; and,

WHEREAS, it appears that under the circumstances the permit holder has been proceeding with reasonable diligence and has given good cause for delay;

IT IS, THEREFORE, HEREBY ORDERED that Permit No. 02-7053 be REINSTATED and the priority advanced to January 20, 1970;

IT IS FURTHER ORDERED that the time within which to submit proof of beneficial use of water under Permit No. 02-7053 be extended to February 1, 1977.

Dear Mr. and Mrs. Jones:

On September 23, 1969 the Boise District Manager issued initial decisions classifying the lands in your desert land applications I-2538 and I-2539 as suitable for entry under the desert land act.

According to your plan of development, water for irrigation is to be obtained from the Snake River. You must submit evidence of your right to appropriate and use the water. The evidence should consist of a copy of a state water permit or permits approved by the State Reclamation Engineer. Either single individual permits or one joint permit in both your names may be applied for.

The attached extra copy of this letter should be submitted to the State Department of Reclamation at the time you apply for the permit or permits. Unless they have knowledge that the land has been classified as suitable for entry, they may decline to issue the water permit. You should make arrangements with the State Reclamation Engineer to have a copy of the permit sent to this office. Please advise us when you apply for the permit.

You must also obtain a right-of-way for the pumping site and the pipeline. An information brochure and regulations for obtaining a right-of-way are attached.

We would appreciate receiving a copy or copies of the approved permit and right-of-way application as soon as possible.

Sincerely yours,

Orval G. Hadley

RE: Permit No. 02-7052

Dear Mr. Johnson:

Enclosed please find my application for Amendment of a Permit in accordance with your information of March 14, 1983. Also enclosed please find a \$20.00 filing fee in favor of the Department of Water Resources. Please let me know if there is anything further that you need to issue the necessary license.

We are also diverting water from the Snake River for our Con Shea Basin property near Murphy. Has this been previously licensed? If not, I would appreciate it if you would take the necessary steps to do whatever is necessary to license it. The I.D. number is No. 02-7053.

Very truly yours,

R. T. Nahas

Dear Mr. & Mrs. Jones:

We acknowledge receipt of the affidavit submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We cannot tell just when this examination will be made, but our examiner will try to contact you at the time he makes the exam so that you may show him the system.

We note that in reviewing this proof affidavit, you indicate that you have not installed a measuring device as required by the conditions of approval of your permit. This measuring device must be installed by the time our examiner makes the exam or your water rights cannot be confirmed by the issuance of a license. We are enclosing a list of the types of measuring devices approved by this office.

If you have any questions regarding the field exam, please contact our Regional Office in Boise.

Dear Sir:

RE:: to our phone conversation on 1-19-77

When we contacted the people to install our equipment, we advised them that a measuring device was required for a water right from the State Department of Water Resources. They stated it would be installed as soon as the system was completed.

I questioned the installers about the meter when we started irrigating and was told that the meter they had was not the correct one and that a different one was on order.

According to the installers, a new one was on order but they had no confirmation as to delivery date.

I, personally, checked with Paramount Supply, Inc. in Boise, concerning this meter and was told it would not be here until the last part of January or first of February 1977.

With your understanding of this, we submit our application for the water right.

Sincerely yours,

Dear Mr. & Mrs. Jones:

One of the conditions of approval of your water Permit No. 02-7053 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before February 1, 1977. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Gentlemen:

Enclosed you will find a legal notice which we wish to have published once a week for two consecutive weekly issues of your newspaper. We have inserted the publication dates allowing ample time for you to submit us a galley proof for review before publication.

After sending us a galley proof, proceed with the publication on the dates we have inserted assuming the notice is correct. If we have any corrections, we will notify you before the first publication date. If you cannot publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department of Reclamation along with the publication bill. In order to receive payment, the following certification must appear on the bill:

I hereby certify that the foregoing account is just and correct, that the amount claimed is legally due, after allowing all just credits, and that no part of the same has been paid.

(Signature of the claimant)

Very truly yours,

Donald W. McEldowney
Appropriation Examiner
