Dear Mr. and Mrs. Colyer:

Our Boise District Manager confirmed the classification of the lands of your applications I-3006 and I-3007 as being suitable for desert land entry.

According to your plan of development, you now jointly own the land on which the pipeline and pumping plant will be constructed and the point where water will be diverted from C. J. Strike Reservoir.

You must now submit evidence of your right to appropriate and use the water. The evidence should consist of a copy of a State water permit approved by the State Reclamation Engineer, appurtenant to the lands of your applications. Attached is an extra copy of this letter. The copy should be submitted to the State Department of Reclamation at the time you apply for a permit. Unless they have knowledge that the land of the desert land applications has been classified as suitable for entry, they may decline to issue the permit. You should make arrangements with the State Reclamation Engineer to have a copy of the permit sent to this office.

We would appreciate receiving a copy of the permit as soon as possible. Also, please advise us when you apply for a permit.

Sincerely yours,
