WATER RIGHT LICENSE

License of Water Right No. 02-7039 Priority June 10, 1969 Amount 11.7 cfs

THIS IS TO CERTIFY, that Connecticut General Life Insurance Company
of Dallas, Texas, has complied with the terms and conditions of Permit
No. 02-7039 issued pursuant to Application for Permit dated June 10, 1969,
and has submitted proof to the Department of Water Resources on July 1, 1974,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 11.7 cfs of water from the Snake River,
tributary to the Columbia River, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
<u>Irrigation</u>	from <u>March 15</u> to <u>Nov. 15</u> at <u>11.7</u> cfs and	<u>3,140 acre feet or</u> <u>5.0 af per acre</u>	
	from _____ to _____ at _____ cfs and		
	from _____ to _____ at _____ cfs and		

(both dates inclusive)

Subject, however, to the condition that no more than 11.7 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed is for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
3,140 acre feet per year, said waters to be diverted within the SW $\frac{1}{4}$ NW $\frac{1}{4}$ of Sec. 34,
Twp. 5 S, Rge. 7 E, B.M. in the County of Owyhee

Dear Mr. High and Mrs. High:

The lands of your desert land applications have been classified suitable for desert land entry.

You should now furnish the following items to complete your right-of-way application Idaho 015194 on which action has been suspended pending the favorable classification of the lands for desert entry:

1. The letter of application for right-of-way should be amended to ask for the right-of-way jointly and it should be signed by each of you since the pipeline will be jointly owned and used.
2. A copy of an approved water permit, issued by the State Reclamation Engineer, in both of your names, showing the point of water diversion from the Snake River and made appurtenant to the lands of your applications. The point of diversion is apparently the section line between Lot 4, Sec. 28 and Lot 4, Sec. 29, T. 5 S., R. 7 E. These lots are withdrawn in a power project of the Idaho Power Company. It may be that you will want Idaho Power Company also to file a right-of-way application to furnish power to your pumping plant.
3. Proper maps, drawn in permanent ink on tracing linen, mylar or 100% rag content paper, and in accordance with the regulations under 43 CFR 2234, must be furnished with three

02-7039

print copies. The enclosed brochure explains how right-of-way applications for irrigation facilities must be filed. The maps should be signed by each of you as joint applicants ("Applicant's Certificate").

Also, it will be necessary for you to now submit copies of any agreements and arrangements you have made concerning the costs of construction, operation and maintenance of your common pipeline, pumping plant system. These will be made a part of your desert land applications in support of your plans of development.

I note that you may hire the clearing and development work done, and perhaps the actual farming of the lands. For information, Title 43 of the United States Code, Part 329, restricts the amount of desert land which may be held by assignment or otherwise by one individual to 320 acres.

No further action will be taken on your applications for 30 days pending completion of your right-of-way application Idaho 015194 and submission of the copies of your agreement regarding your common pipeline system.

Sincerely yours,

Orval G. Hadley

Dear Tom:

In checking back through our files I find that you called and requested a copy of the above referenced water permit. At the time this copy was mailed to you a \$1.00 fee was requested. To date I have no record of receiving this amount. Would you please check your files and in the event this is an over-sight please remit promptly and/or advise.

Thanks for your trouble.

Dear Mr. & Mrs. Mecham:

One of the conditions of approval of your water Permit No. 02-7039 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before August 1, 1974. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Dear Mr. and Mrs. High:

We have received the notices of allowance for your desert entry nos. Idaho-015182 and Idaho-015226. According to the notices of allowance, the lands contained in your desert entry are covered by permit no. 02-7039, which authorizes the diversion of 12.8 c.f.s. from the Snake River. Apparently, the two previous filings, permit nos. 02-2291 and 02-2300, were under your original desert entries. The lands as described under these permits do not correspond with the allowed desert entry.

You will be required to relinquish either permit no. 02-7039 or both of the previous filings. We are enclosing relinquishment forms for your use in this matter.

If you have any questions in this matter, please contact this office.

Very truly yours,
