Dear Mrs. Tindall:

On January 15, 1969 the Boise District Manager issued an "Initial Decision" approving your desert land petition-application I-720.

According to your plan of development, water for irrigation is to be diverted from the C. J. Strike Reservoir across intervening public lands to your proposed entry lands and those of your husband, Chester J. Tindall, I-719, through a common penstock.

You must now submit evidence of your right to appropriate and use the water. The evidence should consist of a copy of a State water permit, approved by the State Reclamation Engineer. Attached is an extra copy of this letter which should be submitted to the State Department of Reclamation at the time you apply for your permit. Unless they have knowledge that the land of your desert land application has been classified as suitable for entry, they may decline to issue the water permit. You should make arrangements with the State Reclamation Engineer to have a copy of the permit sent to this office as soon as possible when it has been issued.

Please advise us when you have applied for the permit.

Also, you and Mr. Tindall must apply for a right-of-way for the common penstock and pumping site on the Public Lands. Enclosed is an information brochure explaining how applications for right-of-way for irrigation facilities must be filed. A copy of your approved water permit must also be included as part of your right-of-way application when it is filed.

If you have further questions, do not hesitate to write or call us.

Sincerely yours,

Orval G. Hadley
