WATER RIGHT LICENSE

License of Water Right No. 02-7030 Priority (Late Proof) March 23, 1969 Amount 10.8 cfs

THIS IS TO CERTIFY, that Little Valley Mutual Irrigation Co.
of Bruneau, Idaho, has complied with the terms and conditions of Permit
No. 02-7030 issued pursuant to Application for Permit dated March 6, 1969,
and has submitted proof to the Department of Water Resources on August 30, 1979,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 59.07 cfs of water from Snake River,
tributary to Columbia River, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
Irrigation	from <u>March 15</u> to <u>November 15</u> at <u>10.8</u> cfs and <u>2700.0</u> acre feet		
	from _____ at _____ cfs and _____		
	from _____ at _____ cfs and _____		

(both dates inclusive)

Subject, however, to the condition that no more than 10.8 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
2700.0 acre feet per year, said waters to be diverted within the Gov. Lot 3 (NE 1/4 NW 1/4)
Section 2, Twp 6S, Rge 4E in the County of Owyhee

Total number of acres irrigated 540

This right when combined with all other rights shall provide no more than .02 cfs
per acre nor more than 5.0 afa per acre for the lands above.
This right when combined with Right Nos. 02-2442, 02-2443, 02-7068 & 02-7221 shall
not exceed 59.07 cfs.

NOTE: Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho
Code, or the applicable Idaho Law. This right may be forfeited by five years of non-use.

The right to the use of the water hereby confirmed is restricted and appurtenant to the lands or place of use
herein described, and is subject to all prior water rights, as provided by the laws of Idaho.

IN THE MATTER OF CHANGING THE MEASURING
DEVICE REQUIREMENT FOR PERMIT NO. 02-7030

ORDER

WHEREAS, the above numbered permit was approved with the condition that a measuring device of a type approved by the Department be permanently installed and maintained as part of the diverting works; and,

WHEREAS, on July 1, 1978, the Department adopted a new water measurement condition which states: "An access port or other device as specified by the Department shall be installed by the permit holder to provide for the installation of measuring equipment and the determination of the rate of diversion by the Department"; and,

WHEREAS, the former condition required the permit holder to purchase and install a measuring device or hire a professional engineer to certify the rate of diversion; and,

WHEREAS, the measuring device condition effective July 1, 1978, requires less capital expenditure by the permit holder; and,

WHEREAS, to be equitable to holders of permits issued prior to July 1, 1978, the new condition should be retroactive;

NOW THEREFORE, it is hereby ordered that the condition of approval of this permit related to water measurement is hereby changed as follows: "The permit holder shall either install a measuring device or provide a certified measurement by a professional engineer or install an access port or other device as specified by the Department".

Permit No. 02-7030

Robert A. Mather, Secretary/Treasurer

Little Valley Mutual Irrigation Co. of 119 E. Highland Street - Boise, Id. 83706
(name) (address)

State of Idaho, being first duly sworn, upon his oath deposes and says:

That he is the holder, or the duly authorized agent of the holder *, of Permit to
Appropriate the Public Waters of the State of Idaho No. 02-7030.

That under the terms and conditions of said permit, work thereunder was required
to be completed on or before July 26, 19 74.

That he has heretofore performed the following work described under said permit:
Construction and installation of river pumping station, penstock, canals, booster
pumps, ponds and steel mainline and lateral system to provide water to 3760 acres
in the Little Valley Project under this permit and other permits held by Little
Valley Mutual Irrigation Company. Costing \$ 902,250.00

That he is unable to complete the remainder of the work within the required time for
the following reasons, to-wit: The primary reason for requesting an extension of the
date of beneficial use is that four (4) desert entries have, as yet, not been finalized.
This was the same reason for requesting the original extension. Because of this
situation, a more orderly proof can be made when all lands are in a more finalized
nature and proof can be given to all four permits at the same time.

Wherefore, he asks that the Department of Water Resources extend the time for the
completion of obligations under said permit to September 1, 19 79.

mits held by Little Valley Mutual Irrigation Company Costing \$ 902,250.

That he is unable to complete the remainder of the work within the required time for the following reasons, to-wit: A few extensions must still be installed to provide
water to the entire project. Approximately 160 acres have not yet been
provided with water. One additional desert land entry has not yet been
approved by the Bureau of Land Management. Proof of beneficial use for
entire project under separate permits would be impossible and more orderly
proof could be given on all four permits at the same time.

Wherefore, he asks that the Department of Water Administration extend the time for the completion of obligations under said permit to September 1, 19 75.

This correspondence is in reference to rights 02-2442, 02-2443, 02-7030 and 02-7221 in the name of Little Valley Mutual Irrigation Company.

You will recall that on 11/5/84 you requested additional time to be given to allow you to review the said water rights. To date, we have not heard from you on this matter and as we are attempting to include these rights in the Snake River Adjudication Report we are anxious to complete the licensing of said rights.

Please provide us with whatever information you have which shows that our records may be incorrect, on or before January 20, 1985.

If we do not hear from you we will assume that you have no objections to issuance of the licenses as proposed in the 10/30/84 correspondence.

Dear Jim:

Officers of the Little Valley Mutual Irrigation Company have recently contacted me with regard to your letters to them dated October 30, 1984. These letters are with reference to licensing of permits 02-7221, 02-7030, 02-2442 and 02-2443. I have not received copies of the letters as of yet but it appears there may be some errors in the proposed licensing of those water rights. We would, therefore, ask that you hold licensing in abeyance and allow us time to review those water rights and the measurements made for them.

I will be out-of-town until the 19th and therefore would ask that you hold them in abeyance until at least November 30 and I should be able to get back to you easily before that.

If you have any questions, please don't hesitate to contact me.

Dear Don:

Regarding my certified water measurement to you dated April 9, 1984 in behalf of Little Valley Mutual Irrigation Company, I find that in addition to State water right permits 02-7030, 02-7068, 02-7221 and 02-2443 there is one other water right which was originally filed on the Bruneau River which should be included as now being diverted from the pumping plant owned and operated by Little Valley Mutual Irrigation Company for lands within the boundaries of the project. This water right (02-2442) should also be included under the measurements made April 9, 1984. The original water permit number was 51-2179 and was filed originally in the name of Merle Hoagland.

If there are any questions, please don't hesitate to call.

Dear Dave:

Regarding my certified water measurement to you dated April 9, 1984 in behalf of Little Valley Mutual Irrigation Company, I find through the Swan Falls litigation that one additional water right permit should be included as being measured on September 27, 1983. Apparently because of a number of changes this permit was overlooked but application for permit #02-2443 should be included in the certified water measurement for proof of beneficial use for Little Valley Mutual Irrigation Company. Therefore, the measurement of 59.06 cfs covers state water right permits 02-7030, 02-7068, 02-7221 and 02-2443.

If there are any questions, please don't hesitate to call.

TO: Idaho Department of Water Resources
FROM: Sherl L. Chapman, Consultant
DATE: April 9, 1984
SUBJECT: Certified Water Measurement
Little Valley Mutual Irrigation Company

I personally measured the flow produced by the Little Valley Mutual Irrigation Company river pumping station on September 27, 1983. The river station is situated in the back waters of C. J. Strike Reservoir and is composed of five, 600 horsepower units, pumping into a single 32 inch diameter penstock. Approximately 75 to 100 feet from the pumping station an additional 16 inch diameter penstock is connected to the 32 inch penstock and runs to the canal heading.

The flow was measured in the 32 inch penstock upstream from the 16 inch connection using a Collins air/water manometer under standard operating conditions after the pumps had been operating for several hours. The pumps at the river station are as follows:

1. 600 horsepower, I. D. #53-1638-50, U. S. hollow shaft.
2. 600 horsepower, I. D. #C608183887, U. S. hollow shaft.
3. 600 horsepower, Serial #J1427455, U. S. hollow shaft.
4. 600 horsepower, Serial #J1427346, U. S. hollow shaft.
5. 600 horsepower, Serial number missing, U. S. hollow shaft.

Operating pressure during the test was 105 psi at the measuring point. The total flow produced for the measurement was 26,509 gallons per minute or 59.06 cfs. Little Valley Mutual Irrigation Company operates under state water right applications 02-7030, 02-7068, and 02-7221. This measurement is provided to the Department of Water Resources as a certified water measurement for proof of beneficial use for irrigation of the lands within the project.

If any questions arising regarding this measurement, please contact Sherl L. Chapman, 410 S. Orchard, Suite 144, Boise, Idaho 83705.

Gentlemen:

One of the conditions of approval of your water Permit No. 02-7068
02-7030
was that evidence of the extent of development must be submitted to this
office on or before September 1, 1979. (See last page of your
approved permit). Enclosed is a post card which may be used to submit
the required proof of beneficial use.

If you have not fully completed your project, and you have not previously
received an extension of time, you may request an extension of time pro-
vided the delay is for reasonable cause as indicated in Section 42-204,
Idaho Code, amended. If you have been prevented from proceeding by a
governmental agency or by litigation, more than one extension of time can
be granted.

Either the beneficial use post card or a request for an extension of time
must be received by this Department on or before the above mentioned date,
otherwise, the permit will lapse and be of no further force or effect
within 60 days.

c/o Cheryl L. Anderson, Asst. Sec.
Box 1775
Boise, Idaho 83702

Dear Ms. Anderson:

One of the conditions of approval for the above referenced permits(see last page of your approved permits) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before September 1, 1975. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by the Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Dear Mr. Fleenor;

Reference is made to your letter of January 31, 1974, a copy of which is attached with respect to the proof of beneficial use due on each of the above permits.

I am enclosing herewith applications for extension of time for each of the permits to September 1, 1974, which coincides with the proof date under the remaining permit held by Little Valley Mutual Irrigation Company, that being Permit No. 02-7068.

I trust these applications for extension are in proper form. If any further information is desired, please advise me.

Very truly yours,
