Dear Mr. & Mrs. Lawron:

One of the conditions of approval of your water Permit No. 02-7026 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before April 1, 1974. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Gentlemen:

On March 10, 1969 we received an affidavit of publication from your newspaper in connection with the above referenced application.

If you will recall, on approximately March 4, 1969, the department called you and notified you that an error existed in the first publication. There was a mix-up in that a hand-written 2 had been entered before the 8 in section, correcting section 8 to read section 28. You, however, did not enter the 2 as you did not know if it was to be there. We advised you to enter it and correct the second publication.

From the affidavit we received, the two was entered, however, it was entered before the 8 in Lot 8 rather than before the 8 in section 8. Therefore, the legal notice will have to be readvertised.

As the original error was made by the department, we will pay for the publication of the correction notice. Please publish the notice at our expense and as per our enclosed transmittal form letter .

Very truly yours,

Donald W. McEldowney
