INITIAL CLASSIFICATION DECISION

I-722

The following described land is hereby classified as proper for allowance under the Desert Land Act, 43 CFR, Subpart 2226. The listed applicant, by reason of having filed a desert-land application, will have preference if allowance is made under this classification.

<u>Serial Number</u>	<u>Name of Applicant</u>	<u>Land Description</u>	<u>Acres</u>
I-722	Jacqueline M. Tindall 580 East 10th North Mountain Home, Idaho 83647	T. 5 S., R. 5 E., B.M. Section 32: 84.26 T. 6 S., R. 5 E., B.M. Section 5: Lots 1, 2, and 3 84.26 , 84.26	318.26

This land is approximately six miles northwest of Bruneau, Idaho. Access is provided by a county road and range road from State Highway 51. The general economy of the area has been stock raising, however, a few irrigated farms have recently been developed to the north and east of this area.

A soil survey indicates the soil is suitable for agricultural use under irrigation. Approximately 229 acres of this tract are irrigable.

The applicant proposes to use a pumping system in conjunction with her husband, Ivan K. Tindall, whose desert-land application, Serial No. I-721, was classified as proper for allowance on June 11, 1968. The water will be pumped from the C. J. Strike Reservoir.

This land is not a key tract and is not required for retention for any public purpose. Allowance will result in the loss of the native forage normally produced by the land, however, it is more valuable for the production of agricultural crops by means of irrigation than for the production of native forage.

This initial classification decision is being mailed to the following persons:

Totorica Company Bruneau, Idaho 83604	Fred M. Brailsford, Advisory Board Member Buhl, Idaho 83316
Bruneau Sheep Company Grandview, Idaho 83624	Holland K. Patrick, Advisory Board Member Castleford, Idaho 83321
Black Brothers and Miller c/o Joseph Black Hammett, Idaho	
Kenneth C. Downing, Chairman Owyhee County Commissioners Homedale, Idaho 83628

Your desert land application for the above described land has this day been approved and allowed, subject to any valid existing rights and your further compliance with laws and regulations applicable thereto. The acceptability of final proof is contingent upon development and reclamation of the land in accordance with your plan of development which is on file in the Boise Land Office. Any substantial change in source of water or deviation in the construction of the irrigating facilities must have the approval of the Bureau of Land Management. The irrigable acreage of this entry has been determined to be approximately 229 acres. In correspondence relating to this entry, always refer to the serial number shown above.

Subject to the Act of July 17, 1914, which will require the reservation of all oil and gas deposits to the United States.

Also subject to right-of-way I-1202 issued to Myrtle Prentice for an irrigation ditch across the S $\frac{1}{2}$ SE $\frac{1}{4}$ Sec. 32.

Reservation of a 50 foot right-of-way for public access and use along the existing range road across the S $\frac{1}{2}$ SE $\frac{1}{4}$ Sec. 32. This road may be relocated along the east and north subdivision lines of the S $\frac{1}{2}$ SE $\frac{1}{4}$ Sec. 32 in the manner directed by the District Manager.

Dear Mr. Higginson:

Department of Reclamation

The land covered by desert application I-721, of Ivan K. Tindall, has been classified as proper for development under desert entry. However, the land covered by the application of Jacqueline M. Tindall has not been classified because the proposal for irrigation involved association with other members of the family.

A letter has been sent to Mrs. Tindall requesting a change in the plan of irrigation development. When this is submitted, her file will be referred to the District Office for a classification decision. The field investigation work indicates that the classification will be favorable.

At this time, it seems appropriate to process the application for a water permit to serve the lands of both Ivan Tindall and Jacqueline M. Tindall. The legal description of the land covered by these applications is as follows:

<u>Serial Number</u>	<u>Name</u>	<u>Land Description</u>	<u>Acres</u>
I-721	Ivan K. Tindall 580 East 10 North Mountain Home, Idaho 83647	T. 6 S., R. 5 E., B.M., Section 4: S $\frac{1}{2}$ NW $\frac{1}{4}$, SW $\frac{1}{4}$; Section 5: NE $\frac{1}{4}$ SE $\frac{1}{4}$, N $\frac{1}{2}$ SW $\frac{1}{4}$ SE $\frac{1}{4}$ SE $\frac{1}{4}$, N $\frac{1}{2}$ SE $\frac{1}{4}$ SE $\frac{1}{4}$, SE $\frac{1}{4}$ SE $\frac{1}{4}$ SE $\frac{1}{4}$.	315.00

Dear Mrs. Tindall:

We are in receipt of your affidavit submitted as proof of beneficial use for permit 02-7020. However, in reviewing that affidavit, it appears that you have failed to install the measuring device as required by the conditions of approval of your permit and by Section 42-701 of the Idaho Code.

We cannot accept your proof affidavit and issue a license unless you have installed a measuring device of a type approved by the Department. We will hold your affidavit until you can supply us with information as to the type of measuring device installed. You should be aware that failure to install the device and supply information as to the type of device installed may result in the loss of your permit. We will withhold action regarding your permit until June 15, 1970.

We are enclosing a list of the types of devices approved by the Department of Reclamation. We would appreciate hearing from you regarding this matter as soon as possible. If you have any questions, please contact us.

Very truly yours,

Donald W. McEldowney
