The Grantors, their successors, or assigns, or agricultural lessees, if any, are to be paid for all damages to fences, crops, livestock, trees, drainage or irrigation systems, and improvements as a result of and during construction, operation, and maintenance of the pipeline. The amount of damages is to be determined by an appraisal approved by the Grantors and Grantees, or their duly authorized representatives, made on or about the date the damage occurs.

5. The Grantees shall exercise due care and diligence in the use of the rights and privileges herein granted to them. In case of permanent abandonment of said right-of-way, the title and interest herein granted shall end, cease and determine and title shall revert to the then owner.

6. The grant of easement herein contained is subject to the rights-of-way of any nature whatsoever of record and in use, and any outstanding mineral rights.

7. It is a condition precedent to the payment to the Grantors of the sum named herein that the title to the premises described herein shall be vested in the Grantors, subject only to the interest of the Grantees hereunder and to the matters set out in Article 6 hereof and to such other defects, interests, or encumbrances as may be waived in writing by the Grantees.

Mr Webb visited Western Region concerning an license amendment which he had filed on March 27, 1981 with them. It appears that the amendment has gotten lost. Western is sending a copy of the receipt to us so it can be put in this file for proof of payment. Mr. Webb has requested that a reexamination be made of the diversion cts. John Noyes has agreed to do this sometime next summer therefore no further action is expected until the reexam is done. At that time, an new ^{license} amendment will be prepared.

Dear Mr. & Mrs. Webb:

One of the conditions of approval of your water Permit No. 02-2392 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before May 19, 1977. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Re: Permit No. 32888/02-2392

Mr. and Mrs. Stephen E. Webb
Box 319
Marsing, Idaho

Dear Mr. and Mrs. Webb:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department; previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply them upon request at any time.

Very truly yours,

Donald W. McEldowney
Appropriation Supervisor
